PLOT PLAN FOR A/C UNITS
OR GENERATORS

Ordinance [22.36.020](#) of the Village of Beverly Hills requires that a permit be secured prior to the installation of any mechanical equipment. Per Section 22.08.100, detached accessory structures must be located in rear open space.

Your cooperation in obtaining permits before work commences, and calling for related inspections within 30 days will be appreciated. Please submit the following plot plan indicating the proposed location of the unit with application for permits.

Indicate on the diagram:

1. Direction of North with arrow
2. Relative location of mechanical unit to your residence

=====
A/C condensers or generators located in the **side** yard must also submit completed form letter signed by your neighbor, see below:

I hereby advise that I have no objection for my neighbor residing at _____ to install an A/C condenser or generator unit in the
(site address)
side yard between our houses.

Name: _____ Signature: _____ Date: _____

Address: _____ Phone: _____
