CONSENT AGENDA

Motion by Mooney, second by Mueller, be it resolved, the consent agenda is approved as published.

1. Review and consider approval of minutes of a regular Council meeting held April 7, 2020.
2. Review and file bills recapped as of Monday, April 13, 2020.
3. Set public hearing date for May 19, 2020 to receive comments on the 2020/2021 proposed budget.
4. Set public hearing date for May 19, 2020 to receive comments on Special Assessments to be added to the tax roll.

Roll Call Vote:
Motion passed (7-0)

BUSINESS AGENDA

REVIEW AND CONSIDER APPROVAL OF MICHIGAN DEPARTMENT OF TRANSPORTATION CONTRACT FOR 13 MILE ROAD CONSTRUCTION PROJECT

The Village held the bid opening for the 13 Mile construction rehabilitation project scheduled for 2020. The bid prices came in higher than the original engineers estimates. This increase can be attributed to market uncertainties due to the ongoing COVID-19 outbreak. Upon review of the low bid by Ajax, Inc and in comparison with the other bids, it was determined to be in the Village's best interest to move forward with the low bid. Attempting to rebid the project would like delay to completion of the project and would not necessarily guarantee better prices.

THESE MINUTES ARE NOT OFFICIAL. THEY HAVE NOT BEEN APPROVED BY THE VILLAGE COUNCIL.

MDOT, through federal funds, is providing just over 80% of the cost of the project and would have to agree to the additional costs. The remaining funding is being split between the Village and the City of Southfield along with the Road Commission for Oakland County. MDOT has provided a contract for our review and consideration that would approve their funding of \$1,748,132.50.

Initial projections had MDOT contributing just under \$1.4 million to this project. After bids came in higher than anticipated, the Village was able to work with MDOT to obtain additional funding to largely offset the higher bid prices. This was possible as the original MDOT contribution was under the limit of 81.85% for funding of local projects. The increased MDOT contribution of roughly \$350,000 helps offset the bid price that was roughly \$390,000 over the construction estimate.

Village Administration is revising the recommended FY 2020-21 budget to reflect an increased contribution to cover our portion of the costs. Again, both the City of Southfield and RCOC have agreed to proceed at the lowest bid price.

Motion by Hrydziusko, second by Nunez, be it resolved, the Beverly Hills Village Council approves and authorizes the Village Manager, Chris Wilson to execute the Michigan Department of Transportation Contract No. 20-5104 as submitted.

Roll Call Vote:
Motion passed (7-0)

REVIEW AND CONSIDER APPROVAL OF TEMPORARY MUTUAL AID AGREEMENT FOR FIRE AND POLICE DEPARTMENT SERVICES WITH THE CITY OF BIRMINGHAM

In response to the Covid-19 Outbreak and the demands being placed on our public safety services, the City of Birmingham and the Village entered into a Temporary Mutual Aid Agreement. Per the terms of this agreement the Village has been sending one (1) Public Safety Officer to Birmingham Fire Department daily to work as a firefighter. This has freed up manpower within the Birmingham Fire Department (BFD) to allow them to run three (3) ambulance units instead of the customary two (2). In return, BFD has been providing automatic fire response to the Village in the event of a fire run and has served as backup ambulance service to our current agreement with Alliance. This agreement has been beneficial to both parties in providing adequate fire response to both entities, allowing BFD to focus greater resources on medical calls for service and ambulance transport and also to relieve some of the Village's traditional fire mutual aid departments who have also experienced very high volumes of medial first response calls. There is no cost to either party for this agreement.

The agreement was drafted by the City of Birmingham after negotiations between BFD and Public Safety Administration. City Manager Joe Valentine and Manager Wilson were also part of those discussions. Mr. Ryan has reviewed the agreement and given his approval. The agreement was signed on Saturday, March 28th and implemented on Monday, March 30th. Wilson signed the agreement on behalf of the Village per his authority under the Emergency Services Ordinance (Chapter 9). The agreement remains in place at this time. Per the terms of the Emergency Services Ordinance, Wilson is bringing this agreement before the Council for review and consideration.

Motion by Abboud, second by Mooney, be it resolved, the Temporary Mutual Agreement for Fire and Police Department Services Between the City of Birmingham and the Village of Beverly Hills is hereby approved and ratified.

Roll Call Vote:

Motion passed (7-0)

DISCUSS MAY 5, 2020 MEETING FORMAT

Wilson led the discussion regarding the May 5, 2020 Village Council Meeting format. With Executive Order 2020-15 Governor Whitmer suspended various rules and procedures regarding attendance and participation in public meetings of local governing bodies in the State of Michigan. This order allowed for the use of video conferencing and tele conferencing for local governing bodies, elected officials and members of the public and media in response to the COVID-19 outbreak.

EO 2020-15 expired on April 15, 2020. Governor Whitmer has issued Executive Order 2020-48, in effect extending the duration of the relief provided in EO 2020-15 until May 12, 2020. Further the existing Stay Home Order remains in effect until April 30th. Were that order in whole or in part be extended beyond April 30th, as seems probably at this time, it is likely that Village would need to continue to use the relief provided under the EO to hold meetings via videoconference.

Even were the Stay Home order modified to allow public access to the Village Hall for the May 5th meeting, social distancing guidelines make conducting such a meeting in our Council Chamber impractical for all of Council and the public, as we saw at our meeting of March 17th. Accordingly, it was the expectation of Village Administration that we would proceed with a plan for holding the meeting of May 5th remotely, unless otherwise directed by Council or barring a change in the current outbreak conditions. Similar considerations will have to be made for the May 19th meeting as well.

PUBLIC COMMENTS

Bill Kondak, Churchill Drive, Parks & Recreation Board Member, suggested cancelling the 2020 Memorial Day Parade and Carnival in the interest of public safety.

MANAGER'S REPORT

Village Operations During Stay Home Order – The Village has continued operating on a limited and modified basis since the last Council meeting. Village Hall remains closed to the Public. Water bills are still being accepted and processed. All mail is being received and opened. Bills are being paid. Trash, Recycling and Yard Waste collection are all continuing uninterrupted. As of today, Village Hall will remain closed and Village staffing limited through at least Friday, May 1st. We await any extensions or modifications to the Stay Home order before making plans to reopen and fully staff the building. The Stay Home Order is currently in place through April 30th. I do not anticipate the order to be modified in such a way that would allow normal operations to continue at the expiration of the current order. Village Administration will begin preparations for eventual reopening the building to the public and normal staffing while maintaining proper social distancing. This will require modifications and accommodations on our part as well as the public's. When this can and will occur is still unknown. I would not anticipate this being possible until mid-May at the absolute earliest, and that seems overly optimistic at present. However, things can change quickly. Monday, June 1st might be a more realistic target date for a return to normal

municipal operations. Whatever the date, we will be prepared to return to normal operations when it is safe and allowed. I would like to thank the office staff for their efforts to maintain operations to date. Their efforts to “keep the lights on” will pay dividends when we do return to normal operations. I would also like to thank the public for their understanding and flexibility during this time.

Landscaping Services – There has been a lot of confusion around the status of landscaping and lawn services under the existing Stay Home Order. I may have contributed to some of that confusion at the last meeting and apologize. The State has provided some additional guidance on this matter. Through April 30th, residents are allowed to mow their own grass and do their own yard clean up but cannot have these services provided by an outside contractor. This is the guidance that we are now providing all who ask about this issue. Residents should not be using contractors to mow their lawns at this time. Contractors are not to be mowing private lawns. I anticipate this provision of the order will be revisited by the April 30th deadline and we will abide by any revisions or extensions at that time. The Village will not be issuing any citations for long grass while this regulation remains in effect. In addition, in solidarity with our residents and landscaping contractors we will not be cutting the grass on Village grounds through April 30th.

Ballot Language – At the meeting of May 5th, I anticipate having on the agenda for a second reading proposed ballot language for a renewal of the terms of the 2010 Charter Amendment. I have attached a copy of the resolution of March 17th with proposed ballot language. Council had previously made suggestions regarding the language and format of this proposal. Mr. Ryan was able to communicate with staff at the Office of the Attorney General and make such modifications as was allowed. The proposed ballot language can still be modified if Council so chooses. Mr. Ryan has informed me that he has presented the language per the March 17th resolution to the AG’s office and received “preclearance” of this language, should that be the language Council wishes to move forward with.

Budget Workshop – As a reminder we will have a budget workshop on Tuesday, April 28th at 7:00 PM via Zoom. Village Administration will be putting out a revised FY 2020-21 budget prior to this meeting.

On-line Payments – The Village has continued to make progress with installation of an on-line payment processing program. The program has been installed by our software provider BS&A. We will need to do some further staff training and coordination with our bank. This is made a little more difficult with the limited schedules that staff is currently working. Nevertheless we are aiming for a date of May 1st or soon thereafter to begin accepting on-line payments.

2020 Census – As of Friday, April 17th, the Village has a response rate for the 2020 Census of 75.5%. This is almost 20% higher than the average of all Michigan communities. Our response rate ranks us 3rd amongst all municipalities in the State of Michigan, and 49th nationally. Our friends and close neighbors in Berkley are close behind us at 75.2%. Berkley is still making an concerted effort to increase their response rate and thereby pass us. We will not allow this to happen. Plus, we are currently tied in third place with East Grand Rapids. The fine people of EGR have just edged us out many times on various state rankings and, frankly, we owe them one. No, I am not overly competitive. Thanks to our residents on their, once again, impressive participation in the decennial census and we will continue to work to push that rate even higher.

Memorial Day – The Lions Club has notified the Village that they have cancelled their annual 5K run on Memorial Day. Oakland County Parks and Recreation has notified us that have cancelled all rentals through May, which would include the items we normally rent from them for this day. I do not believe that the Parks and Recreation Board has officially cancelled the event as of yet, but it seems most improbable that it will be possible to hold the parade and carnival at this time. Perhaps if an event or parade could be held at a later date, I would humbly suggest that a parade of our area doctors and nurses would be in order, along with perhaps the graduating seniors of the Class of 2020.

Upon receiving input from the Council, Wilson canceled the Memorial Day Parade and Carnival in the best interest of public health and safety. Sponsors will be contacted regarding donation refunds.

COUNCIL COMMENTS

George asked everyone to stay safe to continue to flatten the curve.

Nunez reminded everyone to be smart, be kind, and take everything one day at a time.

Mooney provided a link to Oakland County's website for residents to search COVID-19 cases by Zip Code: <https://www.oakgov.com/covid/casesByZip.html>

Abboud thanked front line workers and asked people to stay safe.

ADJOURNMENT

Motion by Peddie, second by Mooney, to adjourn the meeting at 8:18 pm.

Motion passed.

Lee Peddie
Council President

Kristin Rutkowski
Village Clerk

SPECIAL COUNCIL BUDGET MEETING MINUTES – APRIL 28, 2020 – PAGE 1

Present: President Peddie; President Pro-Tem Abboud; Members: George, Hrydziuszko, Mooney, Mueller, and Nunez

Absent: None

Also Present: Village Manager, Wilson
Village Clerk / Assistant Manager, Rutkowski
Public Safety Director, Torongeau
Finance Director, McCarthy

Peddie called the special Council meeting to order at 7:03 p.m. virtually via Zoom per Executive Order 2020-48. The Pledge of Allegiance was recited by those in attendance.

AMENDMENTS TO AGENDA/APPROVE AGENDA

Motion by Mooney, second by Mueller, be it resolved, the agenda is approved as published.

Roll Call Vote:
Motion passed (7-0)

PUBLIC COMMENTS

None.

STUDY SESSION TO REVIEW FISCAL YEAR 2020/2021 BUDGET

McCarthy provided a summary of the FY 2020-21 budget and highlighted changes from the previous year's budget. The major anticipated change will be a decrease in State shared revenue, due to the ongoing COVID-19 situation. She noted that there was an increase federal contribution to roads. McCarthy also provided an update on required Public Safety Department equipment purchases that are included in the budget.

Wilson provided additional updates on the budget. He noted that due to COVID-19, revenue will likely decrease while road project costs will increase. Wilson summarized the Village's decreasing debt over the last decade. Wilson and McCarthy answered questions from Council regarding the Water Fund, legal fees, Local Roads, and Public Safety.

PUBLIC COMMENTS

None.

COUNCIL COMMENTS

Each Councilmember thanked Wilson, McCarthy, and administration for their hard work on the budget. Mueller and Peddie praised the current format of the budget.

ADJOURNMENT

Motion by Peddie, second by Mooney, to adjourn the meeting at 8:10 pm.

Motion passed.

Lee Peddie
Council President

Kristin Rutkowski
Village Clerk

TO PRESIDENT PEDDIE & MEMBERS OF THE VILLAGE COUNCIL. THE FOLLOWING IS A LIST OF

Dear Ms. Lee Peddie, Beverly Hills Village Council President and Mr. Chris Wilson, Village Manager:

The residents of Beverly Hills wish to enlist your aid in helping to stem the epidemic of gun violence in our country. Specifically, I am requesting that the Village of Beverly Hills, Michigan issue a proclamation declaring that June 5, 2020 be proclaimed as National Gun Violence Awareness Day (Wear Orange Day). This request is being made to honor the almost 40,000 people who are killed annually by guns in our country. Sadly, for every person killed, an average of two more are wounded. Gun deaths take many forms including suicides, cases of domestic violence, accidental shootings, and homicides. Gun violence is now the second leading cause of death for American children and teens.

By proclaiming June 5, 2020 as Gun Violence Awareness Day, our city will join hundreds of others across our nation in bringing attention to these tragedies. For more information, you may wish to research the story of Hadiya Pendleton, the 15 year old honor student who was shot and killed in Chicago about a week after she and her classmates performed at President Obama's second inauguration. Her friends decided that her death would not be in vain and started Wear Orange Day in her honor. They choose the color orange because it is bright, and is the color that hunters wear to say "Don't Shoot Me". This tribute has grown into a national movement which is now observed in communities across our country.

I am hoping that, after reviewing this request, you will proclaim June 5, 2020 to be Gun Violence Awareness/ Wear Orange Day in the Village of Beverly Hills. Last year, 23 cities in Oakland county proclaimed the first Friday in June as National Gun Violence Awareness Day. This year we would love to have all the cities, villages and townships proclaim it. A copy of the proclamation is attached. Please feel free to contact me if additional information is required and let me know of your decision.

Thank you for your consideration and action on this important issue.

Sincerely,

Carrie Pastoria

**PROCLAMATION
DECLARING THE FIRST FRIDAY IN JUNE TO BE
NATIONAL GUN VIOLENCE AWARENESS DAY**

This proclamation declares the first Friday in June to be National Gun Violence Awareness Day in the Village of Beverly Hills to honor and remember all victims and survivors of gun violence and to declare that we as a country must do more to reduce gun violence.

WHEREAS, every day, more than 100 Americans are killed by gun violence and on average there are more than 13,000 gun homicides every year;

WHEREAS, Americans are 25 times more likely to die by gun homicide than people in other high-income countries;

WHEREAS, in Michigan has 1,187 gun deaths every year, with a rate of 11.8 deaths per 100,000 people. Michigan has the 30th highest rate of gun deaths in the US;

WHEREAS, gun homicides predominantly occur in cities, with more than half of all firearm related gun deaths in the nation occurring in 127 cities;

WHEREAS, cities across the nation, including in Beverly Hills, are working to end the senseless violence with evidence-based solutions;

WHEREAS, protecting public safety in the communities they serve is mayors' highest responsibility; and

WHEREAS, support for the Second Amendment rights of law-abiding citizens goes hand-in-hand with keeping guns away from people with dangerous histories; and

WHEREAS, mayors and law enforcement officers know their communities best, are the most familiar with local criminal activity and how to address it, and are best positioned to understand how to keep their citizens safe; and

WHEREAS, the pandemic facing America has drastically impacted communities and individuals sheltering in place which may result in situations where access to firearms results in increased risk in intimate partner violence gun deaths, suicide by gun and unintentional shootings;

WHEREAS, in January 2013, Hadiya Pendleton, a teenager who marched in the presidential inaugural parade and was tragically shot and killed just weeks later, should be now celebrating her 23rd birthday;

WHEREAS, to help honor Hadiya – and the more than 100 Americans whose lives are cut short every day and the countless survivors who are injured by shootings every day – a national coalition of organizations has designated June 5, 2020, the first Friday in June, as the 6th National Gun Violence Awareness Day;

WHEREAS, the idea was inspired by a group of Hadiya's friends, who asked their classmates to commemorate her life by wearing orange; they chose this color because hunters wear orange to announce themselves to other hunters when out in the woods and orange is a color that symbolizes the value of human life;

WHEREAS, anyone can join this campaign by pledging to Wear Orange on June 5th, the first Friday in June in 2020, to help raise awareness about gun violence;

WHEREAS, by wearing orange on June 5, 2020 Americans will raise awareness about gun violence and honor the lives of gun violence victims and survivors; and

WHEREAS, we renew our commitment to reduce gun violence and pledge to do all we can to keep firearms out of the wrong hands, and encourage responsible gun ownership to help keep our children safe.

NOW, THEREFORE BE IT PROCLAIMED, that President Lee Peddie of the Village Council of Beverly Hills, Michigan declares the first Friday in June - June 5, 2020, to be National Gun Violence Awareness Day and encourages all residents to support their local communities' efforts to prevent the tragic effects of gun violence and to honor and value human lives.

Lee Peddie
Village Council President
May 5, 2020

**VILLAGE OF BEVERLY HILLS
WEST NILE VIRUS FUND
EXPENSE REIMBURSEMENT REQUEST**

WHEREAS, upon the recommendation of the Oakland County Executive, the Oakland County Board of Commissioners has established a West Nile Virus Fund Program to assist Oakland County cities, villages, and townships in addressing mosquito control activities;

WHEREAS, Oakland County's West Nile Virus Fund Program authorizes Oakland County cities, villages, and townships to apply for reimbursement of eligible expenses incurred in connections with personal mosquito protection measures/activities, mosquito habitat eradication, mosquito larviciding or focused adult mosquito insecticide spraying in designated community green areas; and

WHEREAS, the Village of Beverly Hills, Oakland County, Michigan will incur expenses in connection with mosquito prevention and control activities believed to be eligible for reimbursement under Oakland County's West Nile Virus Fund Program.

NOW, THEREFORE, BE IT RESOLVED, that this Council authorizes and directs its Manager, Chris Wilson, as agent for the Village of Beverly Hills in the manner and to the extent provided under Oakland County's Board of Commissioner Resolution, to request reimbursement of eligible mosquito activity under Oakland County's 2019 West Nile Virus Fund Program.

Passed and approved on this ____ day of May, 2020.

ELIGIBLE & INELIGIBLE EXPENDITURES

Eligible Expenditures

- Larvicide for catch basins, retention ponds, etc. (product only)
- Larvicide for distribution to residents (NOTE: pre-packaged larvicide must be distributed as packaged)
- Personal insect repellent for distribution to residents (NOTE: eligible products must contain DEET, Picaridin, IR3535, Oil of Lemon Eucalyptus, or para-menthane-diol as the active ingredient. Product purchased must be individual-sized (wipes or lotion/sprays in 6 oz or smaller containers)
 - Consider providing insect repellent products during local festivals, to parks & recreation programs, and senior centers
 - Distribute repellent products to multiple locations

Ineligible Expenditures

- Cost of staff time, overtime or equipment used to distribute larvicide
- Adulticide
- Cost of protective clothing, boots, etc.
- Clean-up days, dumpster rentals, etc.
- Citronella candles, yard foggers, bug zappers, coils, lamps or similar items
- Health educational materials
- Local newsletter

If you have questions regarding product eligibility, contact Genessa Doolittle at 248-496-4590 before ordering.

VILLAGE OF BEVERLY HILLS, MICHIGAN

RESOLUTION

At a regular meeting of the Village Council, Oakland County, Michigan, held at the Village Office at 18500 W. Thirteen Mile Road, Beverly Hills, Michigan 48025, on May 5, 2020, at 7:30 p.m.

Present: _____

Absent: _____

The following Resolution was offered by _____ and seconded by _____.

WHEREAS, on the 17th day of March, 2020, a Charter Amendment was proposed by the Village Council; and

WHEREAS, in accordance with the statute in such case made and provided, such Resolution was published in the Observer-Eccentric, a newspaper circulated within the Village; and

WHEREAS, said Resolution has been duly laid on the table for at least thirty (30) days:

NOW, THEREFORE, BE IT RESOLVED as follows:

That the following Charter Amendment be voted upon by the qualified electors of the Village of Beverly Hills at the General Election to be held on Tuesday, November 3, 2020, to-wit:

BALLOT PROPOSAL 1

It is proposed that Section 9.1 of the Charter of the Village of Beverly Hills be amended to read as follows:

POWER TO TAX:

POWER TO TAX

The Village shall have the power to levy and collect taxes for municipal purposes. The general ad valorem tax levy shall not exceed 12.9184 mills, times the taxable value of all real and personal property, subject to taxation in the Village, exclusive

of any levies authorized by general statute to be made beyond Charter tax limitations, for a period of ten (10) years 2021 to 2031 inclusive. This 12.9184 millage authorization shall include the following components specifically dedicated to the operation of the Village:

- a) 9.9 mills for public safety/police/fire operations;
- b) 1.88 mills for general administrative purposes;
- c) 0.8184 mills for Baldwin Public Library services;
- d) 0.32 mills for capital park improvements/replacements for village wide parks.

It is estimated that the renewal of 9.9 mills for public safety/police/fire will raise approximately \$6,288,904.00 when first levied in 2021;

It is estimated that the reduction of the prior millage for general administrative purposes to 1.88 mills will raise approximately \$1,194,238.00 when first levied in 2021;

It is estimated that the reduction of the prior millage for Baldwin Public Library services to 0.8184 will raise approximately \$519,874.00 when first levied in 2021; and

It is estimated a new park millage for capital park improvements/replacements for village wide parks will raise approximately \$203,274.00 when first levied in 2021.

Upon expiration of this renewed millage on June 30, 2031, the maximum allowed under Charter millage rate will revert to 11.00 mills for municipal purposes.

Shall this amendment be adopted?

Yes _____ ☐

No _____ ☐

That prior to the submission of the vote of the electors of the Village, such Charter Amendment shall be presented to the Governor of this State.

That before its submission to the electors of the Village, the Clerk shall give such notice thereof as is required by law.

AYES: _____

NAYS: _____

RESOLUTION DECLARED ADOPTED.

CERTIFICATION

I, Kristin Rutkowski, being the duly appointed and qualified Clerk of the Village of Beverly Hills, Oakland County, Michigan, do hereby certify and declare that the foregoing is a true and correct copy of a Resolution adopted by the Village Council of the Village of Beverly Hills at a regular meeting thereof held on May 5, 2020.

KRISTIN RUTKOWSKI, VILLAGE CLERK

Memorandum

To: Honorable Lee Peddie, Village President; Village Council
From: Chris D. Wilson, Village Manager
CC: Tom Meszler, Public Services Director
Date: 5/1/2020
Re: Cost Participation Agreement with Road Commission of Oakland County

As part of the 2020 construction project on 13 Mile Rd, the Road Commission of Oakland County (RCOC) has requested to participate through the repaving of the intersection of 13 Mile and Southfield Rd. This intersection was not part of the original project design and was not included in the federal grant application. By including this work, the Road Commission is agreeing to be responsible for 100% of the cost. The projected cost for this intersection is \$109,005.

RCOC has provided a cost participation agreement that would allow this work to be completed at the expense of the Road Commission. A draft of that agreement is included for your review. I have reviewed the agreement and recommend approval by Council as submitted.

Recommendation – Resolve that the Village Council approve and authorize the Village Manager to execute the Cost Participation Agreement between the Road Commission for Oakland County and the Village of Beverly Hills for the reconstruction of the intersection at Southfield Rd. and 13 Mile as submitted.

COST PARTICIPATION AGREEMENT

CONSTRUCTION

Southfield Road

At 13 Mile Road

Village of Beverly Hills

Board Project No. 55801

This Agreement, made and entered into this _____ day of _____, 2020, by and between the Board of County Road Commissioners of the County of Oakland, Michigan, hereinafter referred to as the BOARD, and the Village of Beverly Hills, hereinafter referred to as the COMMUNITY, provides as follows:

WHEREAS, the BOARD and the COMMUNITY have programmed the resurfacing of Southfield Road at 13 Mile Road, as described in Exhibit "A", attached hereto, and made a part hereof, which improvements involve roads under the jurisdiction of the BOARD, which improvements are hereinafter referred to as the PROJECT; and

WHEREAS, the estimated total cost of the PROJECT is \$109,005; and

WHEREAS, the parties hereto have reached a mutual understanding regarding the cost sharing of the PROJECT and wish to commit that understanding to writing in this Agreement.

NOW, THEREFORE, in consideration of the mutual covenants set forth herein and in conformity with applicable law, it is hereby agreed between the COMMUNITY and the BOARD that:

1. The BOARD approves of the PROJECT, declares its public necessity, and authorizes the COMMUNITY to perform or cause to be performed, and complete the PROJECT along with all administration in reference thereto.
2. The PROJECT shall include total payments to the contractor.
3. The estimated total PROJECT cost of \$109,005 shall be funded 100% by the BOARD. Any cost overages shall be funded 100% by the BOARD.

4. Upon execution of this Agreement, the COMMUNITY shall submit an invoice to the BOARD for \$109,005 (being 100% of the BOARD'S share of the estimated total PROJECT cost).
5. Upon receipt of said invoices, the BOARD shall pay to the COMMUNITY the full amount thereof, within thirty (30) days of such receipt.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement the day and date first written above.

MEMO

To: Village Council
Chris Wilson, Village Manager

From: Sheila McCarthy, Finance Director

Re: FUND CHANGES as of the current year end JUNE 30, 2020

Date: April 30th, 2020

Fund Changes as a result of GASB 84, Fiduciary Activities

The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. Fiduciary activities refer to assets which the Village administers for employees such as the MERS Retiree Health Care Fund.

Fund 285 Retiree Health will be replaced by Fund 737 Retiree Health

What is Fund 285?

Fund 285 reports the Retiree Health Care premiums paid for eligible employees. Eligible employees are those that began employment at the Village on or before 7/1/2006. Premiums are paid in part by the Village and in part by MERS Retiree Health Care assets.

What will change besides the Fund number changing from 285 to 737?

At this point, there will be no other changes. Further changes to this fund under GASB 84 have been postponed until a further date.

Fund 703 Tax Collections Fund will be Dissolved

This fund will no longer be used. This fund acted as a temporary holding fund for Property Tax Revenue in the general ledger. Property Tax Revenue per GASB 84 will now be posted directly to the receiving Fund (General, Public Safety, Water) per the millage rates in effect. The presentation of the financial statements will not change.

Other Funds no longer needed that will be dissolved as of June 30, 2020

Fund 732 Public Safety Retirement Fund

The minimal cash balance of less than \$100 will be transferred to Fund 205 Public Safety. This fund is no longer relevant. All Public Safety Retirement assets were transferred to MERS several years ago.

Fund 285 Retiree Health Care Fund

Fund 285, as explained above will be replaced by Fund 737 and all balances transferred.

Fund 392 Combined Sewer Overflow Fund

All balances in 392 (there is a cash balance of approximately \$19,000) will be transferred to Fund 592. This fund was created for the debt millage which expired in 2015 and no longer has activity.

Fund 402 Dedicated Millage Fund for Combined Sewer System and Acacia Treatment Facility

This Fund is no longer relevant. The project was completed several years ago. The cash balance of \$13 will be transferred to Fund 592.

These proposed changes have been reviewed by Village Administration and are recommended for approval.

Recommended Resolution

Be it resolved that the Village of Beverly Hills Council authorizes Village Administration to add, revise or retire funds as described above in the Retiree Health Fund, Tax Collections Fund, Public Safety Retirement Fund, Combined Sewer Overflow Fund and the Dedicated Millage Fund effective June 30, 2020.

VILLAGE MANAGER'S REPORT
CHRIS D. WILSON
MAY 1, 2020

Village Staffing and Village Hall – The Village Hall remains closed to the public at this time. I have extended the reduced/modified staffing levels through Friday, May 15th. Employees continue to work from home as much as necessary and operations have continued. Commercial and residential construction will be allowed to restart on Thursday, May 7th. We have been accepting permit applications throughout the shutdown but have only issued permits and performed inspections for essential work. There will be a backlog of inspections to be scheduled and carried out and I would anticipate a lot of permits to begin coming in. The Village has done well with taking applications via e-mail, drop box or mail.

Beginning May 18th, I anticipate returning to an increased if not normal staff rotation. Social distancing, health screening and cleaning protocols will remain in place. We have ordered a shield that will go over the front counter. The extent of staff returning will be governed by potential modifications to the Stay Home Order. Per Section 6 of the current Stay Home Order (Executive Order 2020-59), "All in-person governmental activities at whatever level (state, county, or local) that are not necessary to sustain or protect life, or to support those businesses and operations that are maintaining in-person activities under this order, are suspended. Further, Section 11(b) states that any governmental agency that remains open for in-person work must, "...restrict the number of workers present on premises to no more than is strictly necessary to perform the in-person work permitted under the order." This is the guidance we have used to develop our current work and scheduling plan. This order will expire on Thursday, May 15th. I anticipate that if extended, the language governing our activities will be modified. We will continue to monitor any changes or extensions in this order and adjust our operations appropriately.

As for the reopening of Village Hall to the public, we will continue to monitor state guidelines and many of our fellow communities and re-open the building when safe and appropriate, under the necessary precautions. Some of these target dates can be adjusted should local rates of infection increase. As of May 1, there are 83 reported cases in the 48025 Zip Code. On April 9th, there were 56 reported cases, or an increase of 27 cases over the last three weeks. This represents a significant slowing of the trend over previous weeks.

FY 2020-2021 Budget – Village Administration is finalizing the budget per the direction provided by Council at the annual budget workshop. The budget and all relevant resolutions will be on the May 19th agenda for Council's review and consideration. Village Administration will be putting together a formal budget book for Council's use.

Water Quality Report – The 2019 Annual Water Quality Report has been completed and has been sent to all homes in the Village. A copy of the report has been included for your review.

Cancellation of Events – Due to the COVID-19 Outbreak the following events have been canceled:

- Memorial Day Parade and Carnival
- Annual Village Wide Garage Sale
- June 5 Concert in the Park

Additionally, all pavilion rentals through the month of May have been cancelled and refunds have been issued. Refunds are being issued for 100% of the rental fee and deposit. We are not accepting any further reservations at this time. Existing reservations for June 1 and beyond are still valid and will be reviewed as situations change. We are not issuing garage sale permits until further notice.

Newsletter – The Villager newsletter has been mailed to all residences and is posted on the Village website.

Census Response Rate – As of April 29, the Village has a response rate of 79.6% for the 2020 Census. This continues to be one of the highest rates in the State. For the 2010 Census, we had a final response rate of 85%.

Public Participation via Laptop – Village Administration has installed a laptop in the Council Chambers. This laptop will be available for use by the public for any and all Village meetings held via teleconference. The laptop will be placed on the podium in the Council Chambers. Anyone wishing to address the Council or Board, or make a presentation before the board, can approach the podium and participate in the meeting via this laptop. The building will remain open for the duration of the meeting to allow anyone from the public to attend.

Planning Commission May Meeting – The Planning Commission is making plans to hold their regular meeting of May 27th via teleconference. This will be subject to a continuation of Executive Orders allowing for public meetings to be held via this method.

FAKE CHECK SCAMS: What You Need to Know

In a fake check scam, a person you don't know asks you to deposit a check—sometimes for several thousand dollars, and usually for more than you are owed—and send some of the money to another person. The scammers always have a good story to explain why you can't keep all the money. They might say they need you to cover taxes or fees, you'll need to buy supplies, or something else. Fake checks come in many forms. They might look like business or personal checks, cashier's checks, money orders, or a check delivered electronically. Here's what you need to know about fake check scams.

Types

Fake checks are used in many types of scams. Here are some examples:

Mystery shopping. Scammers pretend to hire people as mystery shoppers and tell them their first assignment is to evaluate a retailer that sells gift cards, money orders, or a money transfer service, like Western Union or MoneyGram. The shopper gets a check with instructions to deposit it in a personal bank account and wire it to someone else. But once the money is wired, the person on the other end can disappear.

Personal assistants. People apply online and get hired as personal assistants. They get a check and are told to use the money to buy gift cards or to buy equipment or supplies for their new client. Once the scammers get the gift card PIN numbers, they use them instantly, leaving the "personal assistant" without the money when the bank figures out the check is bad.

Car wrap decals. People interested in car wrap advertising are told to deposit checks and send money to decal installers—who don't exist.

Claiming prizes. Sweepstakes “winners” are given checks and told to send money to cover taxes, shipping and handling charges, or processing fees. But that’s not how legitimate sweepstakes work.

Overpayments. People buying something from you online “accidentally” send a check for too much and ask you to refund the balance.

Why Do These Scams Work?

These scams work because fake checks generally look just like real checks, even to bank employees. They are often printed with the names and addresses of legitimate financial institutions. They may even be real checks written on bank accounts that belong to identity theft victims. It can take weeks for a bank to figure out that the check is a fake. By law, banks have to make deposited funds available quickly, usually within two days. When the funds are made available in your account, the bank may say the check has “cleared,” but that doesn’t mean it’s a good check. Fake checks can take weeks to be discovered and untangled. By that time, the scammer has any money you sent, and you’re stuck paying the money back to the bank. Your best bet: Don’t rely on money from a check unless you know and trust the person you’re dealing with.

How to Avoid a Fake Check Scam

Never use money from a check to send gift cards, money orders, or wire money to strangers or someone you just met. Many scammers demand that you send money through money transfer services like Western Union or MoneyGram, or buy gift cards and send them the PIN numbers. Once you wire money, or give someone the gift card PINs, it is like giving someone cash. It’s almost impossible to get it back. Toss offers that ask you to pay for a prize. If it’s free, you shouldn’t have to pay to get it. <https://www.consumer.ftc.gov/articles/paying-scammers-gift-cards#Report> is a list of gift cards that scammers often use with information to help. Don’t accept a check for more than the selling price. You can bet it’s a scam.

What to Do If You Sent Money to a Scammer

Gift cards are for gifts, not payments. Anyone who demands payment by gift card is always a scammer. If you paid a scammer with a gift card, tell the company that issued the card right away. When you contact the company, tell them the gift card was used in a scam. Ask them if they can refund your money. If you act quickly enough, the company might be able to get your money back. Also, tell the store where you bought the gift card as soon as possible.

At <https://www.consumer.ftc.gov/articles/paying-scammers-gift-cards#Report> is a list of gift cards that scammers often use with information to help report a scam. If

the card you used is not on this list, you might find the gift card company's contact information on the card itself, or you might need to do some research online.

If you wired money to a scammer, call the money transfer company immediately to report the fraud and file a complaint. You can reach the complaint department of **MoneyGram at 1-800-MONEYGRAM (1-800-666-3947) or Western Union at 1-800-325-6000**. Ask for the money transfer to be reversed. It's unlikely to happen, but it's important to ask.

If you paid a scammer with a money order, contact the company that issued the money order right away to see if you can stop payment. Also, try to stop delivery of the money order: if you sent it by U.S. mail, contact the U.S. Postal Inspection Service at **877-876-2455**. Otherwise, contact whatever delivery service you used as soon as possible.

Where to Report Fraud

If you think you've been targeted by a fake check scam, report it to:

VILLAGE OF BEVERLY HILLS
2019 CONSUMERS ANNUAL REPORT
ON WATER QUALITY

**ATTENTION: THIS IS AN IMPORTANT REPORT
ON WATER QUALITY AND SAFETY**

The Village of Beverly Hills, The Southeastern Oakland County Water Authority (SOCWA) and the Great Lakes Water Authority (GLWA) are proud of the fine drinking water they supply and are honored to provide this report to you. The 2019 Consumers Annual Report on Water Quality shows the sources of our water, lists the results of our tests, and contains important information about water and health. We will notify you immediately if there is ever any reason for concern about our water. We are pleased to show you how we have surpassed water quality standards as mandated by the Environmental Protection Agency (EPA) and the Michigan Department of Environment, Great Lakes and Energy (EGLE).

About the System

The Village of Beverly Hills purchases water from the Southeastern Oakland County Water Authority (SOCWA) at two locations. SOCWA provides GLWA water through its member distribution systems to a population of 210,000 within a 56 square mile area. Current members are Berkley, Beverly Hills, Bingham Farms, Birmingham, Clawson, Huntington Woods, Lathrup Village, Pleasant Ridge, Royal Oak, Southfield and Southfield Township.

Your source water comes from the Detroit River, situated within the Lake St. Clair, Clinton River, Detroit River, Rouge River, Ecorse River, watersheds in the U.S. and parts of the Thames River, Little River, Turkey Creek and Sydenham watersheds in Canada. EGLE in partnership with the U.S. Geological Survey, the Detroit Water and Sewerage Department, and the Michigan Public Health Institute performed a source water assessment in 2004 to determine the susceptibility of GLWA's Detroit River source water for potential contamination. The susceptibility rating is based on a seven-tiered scale and ranges from very low to very high determined primarily using geologic sensitivity, water chemistry, and potential contaminant sources. The report described GLWA's Detroit River intakes as highly susceptible to potential contamination. However, all four GLWA water treatment plants that service the city of Detroit and draw water from the Detroit River have historically provided satisfactory treatment and meet drinking water standards.

GLWA has initiated source-water protection activities that include chemical containment, spill response, and a mercury reduction program. GLWA participates in a National Pollutant Discharge Elimination System permit discharge program and has an emergency response management plan. In 2016, EGLE approved the GLWA Surface Water Intake Protection Program plan. The programs include seven elements that include the following: roles and duties of government units and water supply agencies, delineation of a source water protection areas, identification of potential of sources of contamination, management approaches for protection, contingency plans, siting of new water sources, public participation and public education activities. If you would like to know more information about the Source Water Assessment report please, contact GLWA at (313) 926-8102.

And/or

Your source water comes from the lower Lake Huron watershed. The watershed includes numerous short, seasonal streams that drain to Lake Huron. EGLE in partnership with the U.S. Geological Survey, the Detroit Water and Sewerage Department, and the Michigan Public Health Institute performed a source water assessment in 2004 to determine the susceptibility of potential contamination. The susceptibility rating is a seven-tiered scale ranging from "very low" to "very high" based primarily on geologic sensitivity, water chemistry, and contaminant sources. The Lake Huron source water intake is categorized as having a moderately low susceptibility to potential contaminant sources. The Lake Huron water treatment plant has

historically provided satisfactory treatment of this source water to meet drinking water standards.

In 2015, GLWA received a grant from EGLE to develop a source water protection program for the Lake Huron water treatment plant intake. The program includes seven elements that include the following: roles and duties of government units and water supply agencies, delineation of a source water protection areas, identification of potential of source water protection area, management approaches for protection, contingency plans, siting of new sources and public participation and education. If you would like to know more information about the Source Water Assessment report please, contact GLWA at (313) 926-8102.

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline at (800) 426-4791.

The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally-occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity.

Contaminants that may be present in source water include:

Microbial contaminants, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations, and wildlife.

Inorganic contaminants, such as salts and metals, which can be naturally-occurring or result from urban storm water runoff, industrial or domestic wastewater discharges, oil and gas production, mining, or farming.

Pesticides and herbicides, which may come from a variety of sources such as agriculture, urban storm water runoff, and residential uses.

Organic chemical contaminants, including synthetic and volatile organics, which are by-products of industrial processes and petroleum production, and can also come from gas stations, urban storm water runoff and septic systems.

Radioactive contaminants, which can be naturally occurring or be the result of oil and gas production and mining activities.

In order to ensure that tap water is safe to drink, EPA prescribes regulations, which limit the amount of certain contaminants in water provided by public water systems. The Food and Drug Administration (FDA) regulations establish limits for contaminants in bottled water, which must provide the same protection for public health.

Key to the Detected Contaminants Table

Symbol	Abbreviation	Definition/Explanation
>	Greater than	
°C	Celsius	A scale of temperature in which water freezes at 0° and boils at 100° under standard conditions.
AL	Action Level	The concentration of a contaminant, which, if exceeded, triggers treatment or other requirements which a water system must follow.
HAA5	Haloacetic Acids	HAA5 is the total of bromoacetic, chloroacetic, Dibromoacetic, dichloroacetic, and trichloroacetic acids. Compliance is based on the total.
Level 1	Level 1 Assessment	A Level 1 assessment is a study of the water system to identify potential problems and determine (if possible) why total coliform bacteria have been found in the water system.
Level 2	Level 2 Assessment	A Level 2 assessment is a very detailed study of the water system to identify potential problems and determine (if possible) why an E. coli MCL violation occurred and/or why total coliform bacteria have been found in our water system on multiple occasions.
LRAA	Locational Running Annual Average	The average of analytical results for samples at a particular monitoring location during the previous four quarters.
MCL	Maximum Contaminant Level	The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.
MCLG	Maximum Contaminant Level Goal	The level of contaminant in drinking water below which there is no known or expected risk to health.
MRDL	Maximum Residual Disinfectant Level	The highest level of disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.
MRDLG	Maximum Residual Disinfectant Level Goal	The level of a drinking water disinfectant below which there is no known or expected risk to health. MRLDG's do not reflect the benefits of the use of disinfectants to control microbial contaminants.
n/a	not applicable	
ND	Not Detected	
NTU	Nephelometric Turbidity Units	Measures the cloudiness of water.
pCi/L	Picocuries Per Liter	A measure of radioactivity
ppb	Parts Per Billion (one in one billion)	The ppb is equivalent to micrograms per liter. A microgram = 1/1000 milligram.
ppm	Parts Per Million (one in one million)	The ppm is equivalent to milligrams per liter. A milligram = 1/1000 gram.
RAA	Running Annual Average	The average of analytical results for all samples during the previous four quarters.
SMCL	Secondary Maximum Contaminant Level	An MCL which involves a biological, chemical or physical characteristic of water that may adversely affect the taste, odor, color or appearance (aesthetics), which may thereby affect public confidence or acceptance of the drinking water.
TT	Treatment Technique	A required process intended to reduce the level of a contaminant in drinking water.
TTHM	Total Trihalomethanes	Total Trihalomethanes is the sum of chloroform, bromodichloromethane, dibromochloromethane and bromoform. Compliance is based on the total.
µohms	Microohms	Measure of electrical conductance of water

Springwells Water Treatment Plant

2019 Regulated Detected Contaminants Tables

2019 Inorganic Chemicals – Monitoring at the Plant Finished Water Tap								
Regulated Contaminant	Test Date	Unit	Health Goal MCLG	Allowed Level MCL	Highest Level Detected	Range of Detection	Violation yes/no	Major Sources in Drinking Water
Fluoride	6-11-19	ppm	4	4	0.66	n/a	no	Erosion of natural deposits; Water additive, which promotes strong teeth; Discharge from fertilizer and aluminum factories.
Nitrate	6-11-19	ppm	10	10	0.48	n/a	no	Runoff from fertilizer use; Leaching from septic tanks, sewage; Erosion of natural deposits.
Barium	5-16-2017	ppm	2	2	0.01	n/a	no	Discharge of drilling wastes; Discharge from metal refineries; Erosion of natural deposits

2019 Disinfectant Residuals – Monitoring in Distribution System by Treatment Plant								
Regulated Contaminant	Test Date	Unit	Health Goal MRDLG	Allowed Level MRDL	Highest RAA	Quarterly Range of Detection	Violation yes/no	Major Sources in Drinking Water
Total Chlorine Residual	Jan-Dec 2019	ppm	4	4	0.68	0.57-0.72	no	Water additive used to control microbes

2019 Turbidity – Monitored every 4 hours at Plant Finished Water			
Highest Single Measurement Cannot exceed 1 NTU	Lowest Monthly % of Samples Meeting Turbidity Limit of 0.3 NTU (minimum 95%)	Violation yes/no	Major Sources in Drinking Water
0.26 NTU	100%	no	Soil Runoff
Turbidity is a measure of the cloudiness of water. We monitor it because it is a good indicator of the effectiveness of our filtration system.			

Regulated Contaminant	Treatment Technique 2019	Typical Source of Contaminant
Total Organic Carbon (ppm)	The Total Organic Carbon (TOC) removal ratio is calculated as the ratio between the actual TOC removal and the TOC removal requirements. The TOC was measured each quarter and because the level was low, there is no TOC removal requirement	Erosion of natural deposits

Contaminant	MCLG	MCL	Level Detected 2019	Source of Contamination
Sodium (ppm)	n/a	n/a	6.37	Erosion of natural deposits

These tables are based on tests conducted by GLWA in the year 2019 or the most recent testing done within the last five calendar years. GLWA conducts tests throughout the year only tests that show the presence of a substance or require special monitoring are presented in these tables.

Northeast Water Treatment Plant
2019 Regulated Detected Contaminants Tables

2019 Inorganic Chemicals – Monitoring at the Plant Finished Water Tap								
Regulated Contaminant	Test Date	Unit	Health Goal MCLG	Allowed Level MCL	Highest Level Detected	Range of Detection	Violation yes/no	Major Sources in Drinking Water
Fluoride	6-11-19	ppm	4	4	0.72	n/a	no	Erosion of natural deposits; Water additive, which promotes strong teeth; Discharge from fertilizer and aluminum factories.
Nitrate	6-11-19	ppm	10	10	0.48	n/a	no	Runoff from fertilizer use; Leaching from septic tanks, sewage; Erosion of natural deposits.
Barium	5-16-17	ppm	2	2	0.01	n/a	no	Discharge of drilling wastes; Discharge from metal refineries; Erosion of natural deposits

2019 Disinfectant Residuals – Monitoring in Distribution System by Treatment Plant								
Regulated Contaminant	Test Date	Unit	Health Goal MRDLG	Allowed Level MRDL	Highest RAA	Quarterly Range of Detection	Violation yes/no	Major Sources in Drinking Water
Total Chlorine Residual	Jan-Dec 2019	ppm	4	4	0.74	0.45-0.83	no	Water additive used to control microbes

2019 Turbidity – Monitored every 4 hours at Plant Finished Water			
Highest Single Measurement Cannot exceed 1 NTU	Lowest Monthly % of Samples Meeting Turbidity Limit of 0.3 NTU (minimum 95%)	Violation yes/no	Major Sources in Drinking Water
0.13 NTU	100 %	no	Soil Runoff
Turbidity is a measure of the cloudiness of water. We monitor it because it is a good indicator of the effectiveness of our filtration system.			

Regulated Contaminant	Treatment Technique 2019	Typical Source of Contaminant
Total Organic Carbon (ppm)	The Total Organic Carbon (TOC) removal ratio is calculated as the ratio between the actual TOC removal and the TOC removal requirements. The TOC was measured each quarter and because the level was low, there is no TOC removal requirement	Erosion of natural deposits

Special Monitoring 2019				
Contaminant	MCLG	MCL	Level Detected 2019	Source of Contamination
Sodium (ppm)	n/a	n/a	6.37	Erosion of natural deposits

These tables are based on tests conducted by GLWA in the year 2019 or the most recent testing done within the last five calendar years. GLWA conducts tests throughout the year only tests that show the presence of a substance or require special monitoring are presented in these tables.

Lake Huron Water Treatment Plant 2019 Regulated Detected Contaminants Tables

2019 Inorganic Chemicals – Monitoring at the Plant Finished Water Tap								
Regulated Contaminant	Test Date	Unit	Health Goal MCLG	Allowed Level MCL	Highest Level Detected	Range of Detection	Violation yes/no	Major Sources in Drinking Water
Fluoride	6-11-19	ppm	4	4	0.61	n/a	no	Erosion of natural deposits; Water additive, which promotes strong teeth; Discharge from fertilizer and aluminum factories.
Nitrate	6-11-19	ppm	10	10	0.46	n/a	no	Runoff from fertilizer use; Leaching from septic tanks, sewage; Erosion of natural deposits.
Barium	5-16-17	ppm	2	2	0.1	n/a	no	Discharge of drilling wastes; Discharge from metal refineries; Erosion of natural deposits

Regulated Contaminant	Test Date	Unit	Health Goal MRDLG	Allowed Level MRDL	Highest RAA	Quarterly Range of Detection	Violation yes/no	Major Sources in Drinking Water
Total Chlorine Residual	Jan-Dec 2019	ppm	4	4	0.84	0.65-0.92	no	Water additive used to control microbes

2019 Turbidity – Monitored every 4 hours at Plant Finished Water			
Highest Single Measurement Cannot exceed 1 NTU	Lowest Monthly % of Samples Meeting Turbidity Limit of 0.3 NTU (minimum 95%)	Violation yes/no	Major Sources in Drinking Water
0.14 NTU	100 %	no	Soil Runoff
Turbidity is a measure of the cloudiness of water. We monitor it because it is a good indicator of the effectiveness of our filtration system.			

Regulated Contaminant	Treatment Technique 2019	Typical Source of Contaminant
Total Organic Carbon (ppm)	The Total Organic Carbon (TOC) removal ratio is calculated as the ratio between the actual TOC removal and the TOC removal requirements. The TOC was measured each quarter and because the level was low, there is no TOC removal requirement	Erosion of natural deposits

Radionuclides 2014							
Regulated contaminant	Test date	Unit	Health Goal MCLG	Allowed Level	Level detected	Violation Yes/no	Major Sources in Drinking water
Combined Radium 226 and 228	5-13-14	pCi/L	0	5	0.86 + or - 0.55	no	Erosion of natural deposits

Contaminant	MCLG	MCL	Level Detected 2019	Source of Contamination
Sodium (ppm)	n/a	n/a	4.74	Erosion of natural deposits

These tables are based on tests conducted by GLWA in the year 2019 or the most recent testing done within the last five calendar years. GLWA conducts tests throughout the year only tests that show the presence of a substance or require special monitoring are presented in these tables.

VILLAGE OF BEVERLY HILLS

2019 Disinfection By-Products – Monitoring in Distribution System, Stage 2 Disinfection By-Products								
Regulated Contaminant	Test Date	Unit	Health Goal MCLG	Allowed Level MCL	Highest LRAA	Range of Detection	Violation yes/no	Major Sources in Drinking Water
Total Trihalomethanes (TTHM)	2019	ppb	n/a	80	27	16.2–40.6	no	By-product of drinking water chlorination
Haloacetic Acids (HAA5)	2019	ppb	n/a	60	13	10–18	no	By-product of drinking water disinfection

2019 Lead and Copper Monitoring at Customers' Tap								
Regulated Contaminant	Test Date	Unit	Health Goal MCLG	Action Level AL	90 th Percentile Value*	Number of Samples over AL	Violation yes/no	Major Sources in Drinking Water
Lead	2019	ppb	0	15	0 ppb	0	no	Corrosion of household plumbing system; Erosion of natural deposits.
Copper	2019	ppm	1.3	1.3	0.1 ppm	0	no	Corrosion of household plumbing system; Erosion of natural deposits; Leaching from wood preservatives.
*The 90th percentile value means 90 percent of the homes tested have lead and copper levels below the given 90th percentile value. If the 90th percentile value is above the AL additional requirements must be met.								

2019 Microbiological Contaminants – Monthly Monitoring in Distribution System					
Regulated Contaminant	MCLG	MCL	Highest Number Detected	Violation yes/no	Major Sources in Drinking Water
Total Coliform Bacteria	0	Presence of Coliform bacteria > 5% of monthly samples	0	no	Naturally present in the environment
<i>E. coli</i> Bacteria	0	A routine sample and a repeat sample are total coliform positive, and one is also <i>E. coli</i> positive.	0	no	Sanitary defects

2019 Violation Notice- Monitoring and Reporting for Disinfectants and Disinfection Byproducts.

During August 2019, samples for total trihalomethanes and haloacetic acids were received but did not meet the pH requirements for testing. Resampling could not be performed within the required sampling period. Follow-up samples were taken November 5, 2019 and the results were within acceptable range.

EGLE's investigation is considered complete and the Village of Beverly Hills has returned back in compliance November 5, 2019.

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Monitoring Requirements Not Met for Village of Beverly Hills

*We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During August 2019 the samples for total trihalomethanes (TTHM) and haloacetic acids (HAA5) was received but could not be accepted or tested because the samples did not meet pH requirements. Resampling was not done because it could not be performed in the required sampling period. Therefore, water quality cannot be assured during that time. However, this violation **does not** pose a threat to your supply's water.*

What should I do? There is nothing you need to do at this time. This is not an emergency. You do not need to boil water or use an alternative source of water at this time. Even though this is not an emergency, as our customers, you have a right to know what happened and what we did to correct the situation.

The table below lists the contaminants we did not properly test for, how often we are supposed to sample for these

contaminants, how many samples we are supposed to take, how many samples we took, when samples should have been taken, and the date we will collect follow-up samples.

Contaminant	Required sampling frequency	Number of samples taken	When all samples should have been taken	Date additional samples will be taken
TTHM	1 sample every 3 months	0	08/01/2019 to 08/31/2019	11/01/2019 to 11/30/2019
HAA5	1 sample every 3 months	0	08/01/2019 to 08/31/2019	11/01/2019 to 11/30/2019

What happened? What is being done? Resampling could not be performed within the required sampling period. We are making every effort to assure this does not happen again. Follow-up samples were taken November 5, 2019 and the results were within the acceptable range.

For more information, please contact Mr. Marty Collins, Designated Operator in Charge, at **(248) 646-6404**.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

This notice is being sent to you by the Village of Beverly Hills.

Important Health Information

Lead

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. The Village of Beverly Hills is responsible for providing high quality drinking water but, cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at <http://www.epa.gov/safewater/lead>.

Infants and children who drink water containing lead in excess of the action level could experience delays in their physical or mental development. Children could show slight deficits in attention span and learning abilities. Adults who drink this water over many years could develop kidney problems or high blood pressure.

People with Special Health Concerns

Some people may be more vulnerable to contaminants in drinking water than is the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by *Cryptosporidium* and other microbial contaminants are available from the Safe Drinking Water Hotline at (800) 426-4791.

Infants and young children are typically more vulnerable to lead in drinking water than the general population. It is possible that lead levels at your home may be higher than at other homes in the community as a result of materials used in your home's plumbing. If you are concerned about elevated lead levels in your home's water, you may wish to have your water tested and flush your tap for 30 seconds to 2 minutes before using tap water. Additional information is available from the Safe Drinking Water Hotline (800-426-4791).
