

## California Health and Safety Code Section 50675.2

**50675.2.** The definitions of this section shall apply to all activities conducted pursuant to this chapter. Except as otherwise provided in this chapter, or unless the context requires otherwise, the definitions contained in Chapter 2 (commencing with Section 50050) of Part 1 shall also apply to this chapter.

- (a) Affordable rent shall be established by the department to be consistent with the rent limitations imposed by the Low Income Housing Tax Credit Program, as administered by the California Tax Credit Allocation Committee.
- (b) Assisted unit means a unit that is affordable to a lower income household as a result of a loan provided pursuant to this chapter. In order to ensure consistency with the Low Income Housing Tax Credit Program, occupancy of assisted units shall be limited to households whose income does not exceed the limits specified by the California Tax Credit Allocation Committee.
- (c) Maintain affordable rent levels means rents may be increased by the sponsor on an annual basis in the amount that would be allowed if the project was subject to the requirements of the Low Income Housing Tax Credit Program established pursuant to Section 42 of the federal Internal Revenue Code.
- (d) Rental housing development means a structure or set of structures with common financing, ownership, and management, and which collectively contain five or more dwelling units, including efficiency units. No more than one of the dwelling units may be occupied as a primary residence by a person or household who is the owner of the structure or structures.
- (e) Rehabilitation, in addition to the meaning set forth in Section 50096, includes improvements and repairs made to a residential structure acquired for the purpose of preserving its affordability.
- (f) Rent-up costs means costs incurred while a unit is on the housing market but not rented to its first tenant.
- (g) Sponsor has the same meaning as defined in subdivision (c) of Section 50669, and also includes a limited partnership in which the sponsor or an affiliate of the sponsor is a general partner.
- (h) Transitional housing and transitional housing development means buildings configured as rental housing developments, but operated under program requirements that call for the termination of assistance and recirculation of the assisted unit to another eligible program recipient at some predetermined future point in time, which shall be no less than six months.

*(Added by Stats. 1999, Ch. 637, Sec. 2. Effective January 1, 2000.)*

## California Health and Safety Code Section 50675.14

### 50675.14.

- (a) This section shall apply only to projects funded with funds appropriated for supportive housing projects.
- (b) For purposes of this section the following terms have the following meanings:
  - (1) May restrict occupancy to persons with veteran status means that the sponsor may limit occupancy to persons meeting the criteria of paragraphs (1) and (2) of subdivision (j) with respect to either of the following:
    - (A) Any unit in the development that has not been previously occupied.
    - (B) Any unit in the development that subsequently becomes vacant, for a period of not more than 120 days following the vacancy.
  - (2) Supportive housing means housing with no limit on length of stay, that is occupied by the target population, and that is linked to onsite or offsite services that assist the supportive housing resident in retaining the housing, improving his or her health status, and maximizing his or her ability to live and, when possible, work in the community.
  - (3) (A) Target population means persons, including persons with disabilities, and families who are homeless, as that term is defined by Section 11302 of Title 42 of the United States Code, or who are homeless youth, as that term is defined by paragraph (2) of subdivision (e) of Section 11139.3 of the Government Code.
    - (B) Individuals and families currently residing in supportive housing meet the definition of target population if the individual or family was homeless, as that term is defined by Section 11302 of Title 42 of the United States Code, when approved for tenancy in the supportive housing project in which they currently reside.
- (c) (1) The department shall ensure that at least 40 percent of the units in each development funded under the supportive housing program are targeted to one or more of the following populations:
  - (A) Individuals or families experiencing chronic homelessness, as defined by the United States Department of Housing and Urban Development's Super Notice of Funding Availability for Continuum of Care or Collaborative Applicant Program.
  - (B) Homeless youth, as that term is defined by paragraph (2) of subdivision (e) of Section 11139.3 of the Government Code.
  - (C) Individuals exiting institutional settings, including, but not limited to, jails, hospitals, prisons, and institutes of mental disease, who were homeless when entering the institutional setting, who have a disability, and who resided in that setting for a period of not less than 15 days.
- (2) The department may decrease the number of units required to meet the criteria identified in paragraph (1) if the department determines that the program is undersubscribed after issuing at least one Notice of Funding Availability.
- (3) Individuals and families currently residing in supportive housing meet the qualifications under this subdivision if the individual or family met any of the criteria specified in subparagraph (A), (B), or (C) of paragraph (1) when approved for tenancy in the supportive housing project in which they currently reside.

- (d) Supportive housing projects shall provide or demonstrate collaboration with programs that provide services that meet the needs of the supportive housing residents.
- (e) The criteria, established by the department, for selecting supportive housing projects shall give priority to supportive housing projects that include a focus on measurable outcomes and a plan for evaluation, which evaluation shall be submitted by the borrowers, annually, to the department.
- (f) The department may provide higher per-unit loan limits as reasonably necessary to provide and maintain rents that are affordable to the target population.
- (g) In an evaluation or ranking of a borrower's development and ownership experience, the department shall consider experience acquired in the prior 10 years.
- (h) (1) A borrower shall, beginning the second year after supportive housing project occupancy, include the following data in his or her annual report to the department. However, a borrower who submits an annual evaluation pursuant to subdivision (c) may, instead, include this information in the evaluation:
  - (A) The length of occupancy by each supportive housing resident for the period covered by the report and, if the resident has moved, the reason for the move and the type of housing to which the resident moved, if known.
  - (B) Changes in each supportive housing resident's employment status during the previous year.
  - (C) Changes in each supportive housing resident's source and amount of income during the previous year.
  - (D) The tenant's housing status prior to occupancy, including the term of the tenant's homelessness.
- (2) The department shall include aggregate data with respect to the supportive housing projects described in this section in the report that it submits to the Legislature pursuant to Section 50675.12.
- (i) The department shall consider, commencing in the second year of the funding, the feasibility and appropriateness of modifying its regulations to increase the use of funds by small projects. In doing this, the department shall consider its operational needs and prior history of funding supportive housing facilities.
- (j) Notwithstanding any other provision of law, the sponsor of a supportive housing development may restrict occupancy to persons with veteran status if all the following conditions apply:
  - (1) The veterans possess significant barriers to social reintegration and employment that require specialized treatment and services that are due to a physical or mental disability, substance abuse, or the effects of long-term homelessness.
  - (2) The veterans are otherwise eligible to reside in an assisted unit.
  - (3) The sponsor also provides, or assists in providing, the specialized treatment and services.

*(Amended by Stats. 2013, Ch. 183, Sec. 22. Effective January 1, 2014.)*

# California Health and Safety Code Section 50801

**50801.** As used in this chapter:

- (a) Department means the Department of Housing and Community Development.
- (b) Designated local board means a group, including social service providers and a representative of local government, that has met department requirements for distribution of grants allocated by the department pursuant to this chapter.
- (c) Director means the Director of Housing and Community Development.
- (d) Eligible organization means an agency of local government or a nonprofit corporation that provides, or contracts with community organizations to provide, emergency shelter or transitional housing, or both.
- (e) Emergency shelter means housing with minimal supportive services for homeless persons that is limited to occupancy of six months or less by a homeless person. No individual or household may be denied emergency shelter because of an inability to pay.
- (f) Nonurban county means any county with a population of less than 200,000, as published in the most recent edition of Population Estimates of California Cities and Counties, E-1, prepared by the Department of Finance, Population Research Unit.
- (g) Region means a county or a consortium of counties voluntarily banding together by action of a designated local board.
- (h) Safe Haven means supportive housing for seriously mentally ill homeless persons, many of whom have cooccurring substance abuse problems, that have been unable or unwilling to participate in high demand housing programs.
- (i) Transitional housing means housing with supportive services for up to 24 months that is exclusively designated and targeted for recently homeless persons. Transitional housing includes self-sufficiency development services, with the ultimate goal of moving recently homeless persons to permanent housing as quickly as possible, and limits rents and service fees to an ability-to-pay formula reasonably consistent with the United States Department of Housing and Urban Development's requirements for subsidized housing for low-income persons. Rents and service fees paid for transitional housing may be reserved, in whole or in part, to assist residents in moving to permanent housing.
- (j) Urban county means any county that is not a nonurban county.

*(Amended by Stats. 2000, Ch. 667, Sec. 3. Effective January 1, 2001.)*

**SB-2 Local planning.** (2007-2008)

SHARE THIS:

**Senate Bill No. 2**

**CHAPTER 633**

An act to amend Sections 65582, 65583, and 65589.5 of the Government Code, relating to local planning.

[ Approved by Governor October 13, 2007. Filed with Secretary of State October 13, 2007. ]

**LEGISLATIVE COUNSEL'S DIGEST**

SB 2, Cedillo. Local planning.

(1) The Planning and Zoning Law requires the housing element of the general plan of a city, county, or city and county to contain, among other things, an assessment of housing needs, including an inventory of land suitable for residential development, and a program with a 5-year schedule of actions that the local government is undertaking or intends to undertake to implement the goals and objectives of the housing element. This program is also required to identify adequate sites with zoning that permits owner-occupied and multifamily residential use by right, including the development of farmworker housing for low- and very low income households.

This bill would add emergency shelters to these provisions, as specified, and would add provisions to the housing element that would require a local government to identify a zone or zones where emergency shelters are allowed as a permitted use without a conditional use or other discretionary permit. The bill would also authorize a local government to satisfy all or part of this requirement by adopting and implementing a multijurisdictional agreement, as specified, and would delete multifamily residential use from these provisions. By increasing the duties of local public officials, the bill would create a state-mandated local program.

(2) The Planning and Zoning Law requires that a local agency not disapprove a housing development project, including farmworker housing, for very low, low-, or moderate-income households or condition its approval, including through the use of design review standards, in a manner that renders the project infeasible for development for those households unless it makes written findings, based upon substantial evidence in the record, as to one of a number of specified conditions.

This bill would add supportive housing, transitional housing, and emergency shelters to these provisions and would revise the conditions upon which a disapproval or a conditional approval of an emergency shelter is based. The bill would define supportive housing and transitional housing. By increasing the duties of local public officials, the bill would impose a state-mandated local program.

(3) The bill would also make other technical and conforming changes to these provisions.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority Appropriation: no Fiscal Committee: yes Local Program: yes

THE PEOPLE OF THE STATE OF CALIFORNIA DO ENACT AS FOLLOWS:

**SECTION 1.** The Legislature finds and declares all of the following:

(a) Homelessness is a statewide problem that affects many cities and counties. There are an estimated 360,000 homeless individuals and families in California. In some counties, like Los Angeles, an estimated 254,000 men, women, and children experience homelessness over the course of each year. Some of the causes of homelessness are mental illness, substance abuse, prison release, and lack of affordable housing.

(b) Because homelessness affects people of all races, gender, age, and geographic location there is a growing need for every city and county to plan for the location of adequate emergency shelters. Many people experiencing homelessness, primarily youth and single individuals, need shelter but also have a need for residential substance abuse and mental health services.

(c) The lack or shortage of emergency shelters for homeless individuals and families in cities and counties across the state leads to the concentration of services in inner cities and poor communities, like the skid row area in downtown Los Angeles.

(d) In order to ensure access to services in every city and county for homeless individuals and families, it is important that cities and counties plan for these services to address the special needs and circumstances of this threatened population.

(e) It is the responsibility of cities and counties to plan and identify areas for emergency shelters. Cities and counties should include this as part of their planning process and locate emergency shelters where most appropriate in their community. The state should not dictate where these emergency shelters should be located.

(f) It is the responsibility of the Legislature to promote strong communities and ensure that housing and residential services are available in all communities.

**SEC. 2.** Section 65582 of the Government Code is amended to read:

**65582.** As used in this article, the following definitions apply:

(a) "Community," "locality," "local government," or "jurisdiction" means a city, city and county, or county.

(b) "Council of governments" means a single or multicounty council created by a joint powers agreement pursuant to Chapter 5 (commencing with Section 6500) of Division 1 of Title 1.

(c) "Department" means the Department of Housing and Community Development.

(d) "Emergency shelter" has the same meaning as defined in subdivision (e) of Section 50801 of the Health and Safety Code.

(e) "Housing element" or "element" means the housing element of the community's general plan, as required pursuant to this article and subdivision (c) of Section 65302.

(f) "Supportive housing" has the same meaning as defined in subdivision (b) of Section 50675.14 of the Health and Safety Code.

(g) "Transitional housing" has the same meaning as defined in subdivision (h) of Section 50675.2 of the Health and Safety Code.

**SEC. 3.** Section 65583 of the Government Code is amended to read:

**65583.** The housing element shall consist of an identification and analysis of existing and projected housing needs and a statement of goals, policies, quantified objectives, financial resources, and scheduled programs for the preservation, improvement, and development of housing. The housing element shall identify adequate sites for housing, including rental housing, factory-built housing, mobilehomes, and emergency shelters, and shall make adequate provision for the existing and projected needs of all economic segments of the community. The element shall contain all of the following:

(a) An assessment of housing needs and an inventory of resources and constraints relevant to the meeting of these needs. The assessment and inventory shall include all of the following:

(1) An analysis of population and employment trends and documentation of projections and a quantification of the locality's existing and projected housing needs for all income levels, including extremely low income households,

as defined in subdivision (b) of Section 50105 and Section 50106 of the Health and Safety Code. These existing and projected needs shall include the locality's share of the regional housing need in accordance with Section 65584. Local agencies shall calculate the subset of very low income households allotted under Section 65584 that qualify as extremely low income households. The local agency may either use available census data to calculate the percentage of very low income households that qualify as extremely low income households or presume that 50 percent of the very low income households qualify as extremely low income households. The number of extremely low income households and very low income households shall equal the jurisdiction's allocation of very low income households pursuant to Section 65584.

(2) An analysis and documentation of household characteristics, including level of payment compared to ability to pay, housing characteristics, including overcrowding, and housing stock condition.

(3) An inventory of land suitable for residential development, including vacant sites and sites having potential for redevelopment, and an analysis of the relationship of zoning and public facilities and services to these sites.

(4) (A) The identification of a zone or zones where emergency shelters are allowed as a permitted use without a conditional use or other discretionary permit. The identified zone or zones shall include sufficient capacity to accommodate the need for emergency shelter identified in paragraph (7), except that each local government shall identify a zone or zones that can accommodate at least one year-round emergency shelter. If the local government cannot identify a zone or zones with sufficient capacity, the local government shall include a program to amend its zoning ordinance to meet the requirements of this paragraph within one year of the adoption of the housing element. The local government may identify additional zones where emergency shelters are permitted with a conditional use permit. The local government shall also demonstrate that existing or proposed permit processing, development, and management standards are objective and encourage and facilitate the development of, or conversion to, emergency shelters. Emergency shelters may only be subject to those development and management standards that apply to residential or commercial development within the same zone except that a local government may apply written, objective standards that include all of the following:

(i) The maximum number of beds or persons permitted to be served nightly by the facility.

(ii) Off-street parking based upon demonstrated need, provided that the standards do not require more parking for emergency shelters than for other residential or commercial uses within the same zone.

(iii) The size and location of exterior and interior onsite waiting and client intake areas.

(iv) The provision of onsite management.

(v) The proximity to other emergency shelters, provided that emergency shelters are not required to be more than 300 feet apart.

(vi) The length of stay.

(vii) Lighting.

(viii) Security during hours that the emergency shelter is in operation.

(B) The permit processing, development, and management standards applied under this paragraph shall not be deemed to be discretionary acts within the meaning of the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code).

(C) A local government that can demonstrate to the satisfaction of the department the existence of one or more emergency shelters either within its jurisdiction or pursuant to a multijurisdictional agreement that can accommodate that jurisdiction's need for emergency shelter identified in paragraph (7) may comply with the zoning requirements of subparagraph (A) by identifying a zone or zones where new emergency shelters are allowed with a conditional use permit.

(D) A local government with an existing ordinance or ordinances that comply with this paragraph shall not be required to take additional action to identify zones for emergency shelters. The housing element must only describe how existing ordinances, policies, and standards are consistent with the requirements of this paragraph.

(5) An analysis of potential and actual governmental constraints upon the maintenance, improvement, or development of housing for all income levels, including the types of housing identified in paragraph (1) of subdivision (c), and for persons with disabilities as identified in the analysis pursuant to paragraph (6), including land use controls, building codes and their enforcement, site improvements, fees and other exactions required of developers, and local processing and permit procedures. The analysis shall also demonstrate local efforts to remove governmental constraints that hinder the locality from meeting its share of the regional housing need in

accordance with Section 65584 and from meeting the need for housing for persons with disabilities, supportive housing, transitional housing, and emergency shelters identified pursuant to paragraph (6). Transitional housing and supportive housing shall be considered a residential use of property, and shall be subject only to those restrictions that apply to other residential dwellings of the same type in the same zone.

(6) An analysis of potential and actual nongovernmental constraints upon the maintenance, improvement, or development of housing for all income levels, including the availability of financing, the price of land, and the cost of construction.

(7) An analysis of any special housing needs, such as those of the elderly, persons with disabilities, large families, farmworkers, families with female heads of households, and families and persons in need of emergency shelter. The need for emergency shelter shall be assessed based on annual and seasonal need. The need for emergency shelter may be reduced by the number of supportive housing units that are identified in an adopted 10-year plan to end chronic homelessness and that are either vacant or for which funding has been identified to allow construction during the planning period.

(8) An analysis of opportunities for energy conservation with respect to residential development.

(9) An analysis of existing assisted housing developments that are eligible to change from low-income housing uses during the next 10 years due to termination of subsidy contracts, mortgage prepayment, or expiration of restrictions on use. "Assisted housing developments," for the purpose of this section, shall mean multifamily rental housing that receives governmental assistance under federal programs listed in subdivision (a) of Section 65863.10, state and local multifamily revenue bond programs, local redevelopment programs, the federal Community Development Block Grant Program, or local in-lieu fees. "Assisted housing developments" shall also include multifamily rental units that were developed pursuant to a local inclusionary housing program or used to qualify for a density bonus pursuant to Section 65916.

(A) The analysis shall include a listing of each development by project name and address, the type of governmental assistance received, the earliest possible date of change from low-income use and the total number of elderly and nonelderly units that could be lost from the locality's low-income housing stock in each year during the 10-year period. For purposes of state and federally funded projects, the analysis required by this subparagraph need only contain information available on a statewide basis.

(B) The analysis shall estimate the total cost of producing new rental housing that is comparable in size and rent levels, to replace the units that could change from low-income use, and an estimated cost of preserving the assisted housing developments. This cost analysis for replacement housing may be done aggregately for each five-year period and does not have to contain a project-by-project cost estimate.

(C) The analysis shall identify public and private nonprofit corporations known to the local government which have legal and managerial capacity to acquire and manage these housing developments.

(D) The analysis shall identify and consider the use of all federal, state, and local financing and subsidy programs which can be used to preserve, for lower income households, the assisted housing developments, identified in this paragraph, including, but not limited to, federal Community Development Block Grant Program funds, tax increment funds received by a redevelopment agency of the community, and administrative fees received by a housing authority operating within the community. In considering the use of these financing and subsidy programs, the analysis shall identify the amounts of funds under each available program which have not been legally obligated for other purposes and which could be available for use in preserving assisted housing developments.

(b) (1) A statement of the community's goals, quantified objectives, and policies relative to the maintenance, preservation, improvement, and development of housing.

(2) It is recognized that the total housing needs identified pursuant to subdivision (a) may exceed available resources and the community's ability to satisfy this need within the content of the general plan requirements outlined in Article 5 (commencing with Section 65300). Under these circumstances, the quantified objectives need not be identical to the total housing needs. The quantified objectives shall establish the maximum number of housing units by income category, including extremely low income, that can be constructed, rehabilitated, and conserved over a five-year time period.

(c) A program which sets forth a five-year schedule of actions the local government is undertaking or intends to undertake to implement the policies and achieve the goals and objectives of the housing element through the administration of land use and development controls, the provision of regulatory concessions and incentives, and the utilization of appropriate federal and state financing and subsidy programs when available and the utilization of moneys in a low- and moderate-income housing fund of an agency if the locality has established a

redevelopment project area pursuant to the Community Redevelopment Law (Division 24 (commencing with Section 33000) of the Health and Safety Code). In order to make adequate provision for the housing needs of all economic segments of the community, the program shall do all of the following:

(1) Identify actions that will be taken to make sites available during the planning period of the general plan with appropriate zoning and development standards and with services and facilities to accommodate that portion of the city's or county's share of the regional housing need for each income level that could not be accommodated on sites identified in the inventory completed pursuant to paragraph (3) of subdivision (a) without rezoning, and to comply with the requirements of Section 65584.09. Sites shall be identified as needed to facilitate and encourage the development of a variety of types of housing for all income levels, including multifamily rental housing, factory-built housing, mobilehomes, housing for agricultural employees, supportive housing, single-room occupancy units, emergency shelters, and transitional housing.

(A) Where the inventory of sites, pursuant to paragraph (3) of subdivision (a), does not identify adequate sites to accommodate the need for groups of all household income levels pursuant to Section 65584, the program shall identify sites that can be developed for housing within the planning period pursuant to subdivision (h) of Section 65583.2.

(B) Where the inventory of sites pursuant to paragraph (3) of subdivision (a) does not identify adequate sites to accommodate the need for farmworker housing, the program shall provide for sufficient sites to meet the need with zoning that permits farmworker housing use by right, including density and development standards that could accommodate and facilitate the feasibility of the development of farmworker housing for low- and very low income households.

(2) Assist in the development of adequate housing to meet the needs of extremely low, very low, low-, and moderate-income households.

(3) Address and, where appropriate and legally possible, remove governmental constraints to the maintenance, improvement, and development of housing, including housing for all income levels and housing for persons with disabilities. The program shall remove constraints to, and provide reasonable accommodations for housing designed for, intended for occupancy by, or with supportive services for, persons with disabilities.

(4) Conserve and improve the condition of the existing affordable housing stock, which may include addressing ways to mitigate the loss of dwelling units demolished by public or private action.

(5) Promote housing opportunities for all persons regardless of race, religion, sex, marital status, ancestry, national origin, color, familial status, or disability.

(6) Preserve for lower income households the assisted housing developments identified pursuant to paragraph (9) of subdivision (a). The program for preservation of the assisted housing developments shall utilize, to the extent necessary, all available federal, state, and local financing and subsidy programs identified in paragraph (9) of subdivision (a), except where a community has other urgent needs for which alternative funding sources are not available. The program may include strategies that involve local regulation and technical assistance.

(7) The program shall include an identification of the agencies and officials responsible for the implementation of the various actions and the means by which consistency will be achieved with other general plan elements and community goals. The local government shall make a diligent effort to achieve public participation of all economic segments of the community in the development of the housing element, and the program shall describe this effort.

(d) (1) A local government may satisfy all or part of its requirement to identify a zone or zones suitable for the development of emergency shelters pursuant to paragraph (4) of subdivision (a) by adopting and implementing a multijurisdictional agreement, with a maximum of two other adjacent communities, that requires the participating jurisdictions to develop at least one year-round emergency shelter within two years of the beginning of the planning period.

(2) The agreement shall allocate a portion of the new shelter capacity to each jurisdiction as credit towards its emergency shelter need, and each jurisdiction shall describe how the capacity was allocated as part of its housing element.

(3) Each member jurisdiction of a multijurisdictional agreement shall describe in its housing element all of the following:

(A) How the joint facility will meet the jurisdiction's emergency shelter need.

(B) The jurisdiction's contribution to the facility for both the development and ongoing operation and management of the facility.

(C) The amount and source of the funding that the jurisdiction contributes to the facility.

(4) The aggregate capacity claimed by the participating jurisdictions in their housing elements shall not exceed the actual capacity of the shelter.

(e) Except as otherwise provided in this article, amendments to this article that alter the required content of a housing element shall apply to both of the following:

(1) A housing element or housing element amendment prepared pursuant to subdivision (e) of Section 65588 or Section 65584.02, when a city, county, or city and county submits a draft to the department for review pursuant to Section 65585 more than 90 days after the effective date of the amendment to this section.

(2) Any housing element or housing element amendment prepared pursuant to subdivision (e) of Section 65588 or Section 65584.02, when the city, county, or city and county fails to submit the first draft to the department before the due date specified in Section 65588 or 65584.02.

**SEC. 4.** Section 65589.5 of the Government Code is amended to read:

**65589.5.** (a) The Legislature finds and declares all of the following:

(1) The lack of housing, including emergency shelters, is a critical problem that threatens the economic, environmental, and social quality of life in California.

(2) California housing has become the most expensive in the nation. The excessive cost of the state's housing supply is partially caused by activities and policies of many local governments that limit the approval of housing, increase the cost of land for housing, and require that high fees and exactions be paid by producers of housing.

(3) Among the consequences of those actions are discrimination against low-income and minority households, lack of housing to support employment growth, imbalance in jobs and housing, reduced mobility, urban sprawl, excessive commuting, and air quality deterioration.

(4) Many local governments do not give adequate attention to the economic, environmental, and social costs of decisions that result in disapproval of housing projects, reduction in density of housing projects, and excessive standards for housing projects.

(b) It is the policy of the state that a local government not reject or make infeasible housing developments, including emergency shelters, that contribute to meeting the need determined pursuant to this article without a thorough analysis of the economic, social, and environmental effects of the action and without complying with subdivision (d).

(c) The Legislature also recognizes that premature and unnecessary development of agricultural lands for urban uses continues to have adverse effects on the availability of those lands for food and fiber production and on the economy of the state. Furthermore, it is the policy of the state that development should be guided away from prime agricultural lands; therefore, in implementing this section, local jurisdictions should encourage, to the maximum extent practicable, in filling existing urban areas.

(d) A local agency shall not disapprove a housing development project, including farmworker housing as defined in subdivision (d) of Section 50199.50 of the Health and Safety Code, for very low, low-, or moderate-income households, or an emergency shelter, or condition approval in a manner that renders the project infeasible for development for the use of very low, low-, or moderate-income households, or an emergency shelter, including through the use of design review standards, unless it makes written findings, based upon substantial evidence in the record, as to one of the following:

(1) The jurisdiction has adopted a housing element pursuant to this article that has been revised in accordance with Section 65588, is in substantial compliance with this article, and the jurisdiction has met or exceeded its share of the regional housing need allocation pursuant to Section 65584 for the planning period for the income category proposed for the housing development project, provided that any disapproval or conditional approval shall not be based on any of the reasons prohibited by Section 65008. If the housing development project includes a mix of income categories, and the jurisdiction has not met or exceeded its share of the regional housing need for one or more of those categories, then this paragraph shall not be used to disapprove or conditionally approve the project. The share of the regional housing need met by the jurisdiction shall be calculated consistently with the forms and definitions that may be adopted by the Department of Housing and

Community Development pursuant to Section 65400. In the case of an emergency shelter, the jurisdiction shall have met or exceeded the need for emergency shelter, as identified pursuant to paragraph (7) of subdivision (a) of Section 65583. Any disapproval or conditional approval pursuant to this paragraph shall be in accordance with applicable law, rule, or standards.

(2) The development project or emergency shelter as proposed would have a specific, adverse impact upon the public health or safety, and there is no feasible method to satisfactorily mitigate or avoid the specific adverse impact without rendering the development unaffordable to low- and moderate-income households or rendering the development of the emergency shelter financially infeasible. As used in this paragraph, a "specific, adverse impact" means a significant, quantifiable, direct, and unavoidable impact, based on objective, identified written public health or safety standards, policies, or conditions as they existed on the date the application was deemed complete. Inconsistency with the zoning ordinance or general plan land use designation shall not constitute a specific, adverse impact upon the public health or safety.

(3) The denial of the project or imposition of conditions is required in order to comply with specific state or federal law, and there is no feasible method to comply without rendering the development unaffordable to low- and moderate-income households or rendering the development of the emergency shelter financially infeasible.

(4) The development project or emergency shelter is proposed on land zoned for agriculture or resource preservation that is surrounded on at least two sides by land being used for agricultural or resource preservation purposes, or which does not have adequate water or wastewater facilities to serve the project.

(5) The development project or emergency shelter is inconsistent with both the jurisdiction's zoning ordinance and general plan land use designation as specified in any element of the general plan as it existed on the date the application was deemed complete, and the jurisdiction has adopted a revised housing element in accordance with Section 65588 that is in substantial compliance with this article.

(A) This paragraph cannot be utilized to disapprove or conditionally approve a housing development project if the development project is proposed on a site that is identified as suitable or available for very low, low-, or moderate-income households in the jurisdiction's housing element, and consistent with the density specified in the housing element, even though it is inconsistent with both the jurisdiction's zoning ordinance and general plan land use designation.

(B) If the local agency has failed to identify in the inventory of land in its housing element sites that can be developed for housing within the planning period and that are sufficient to provide for the jurisdiction's share of the regional housing need for all income levels pursuant to Section 65584, then this paragraph shall not be utilized to disapprove or conditionally approve a housing development project proposed for a site designated in any element of the general plan for residential uses or designated in any element of the general plan for commercial uses if residential uses are permitted or conditionally permitted within commercial designations. In any action in court, the burden of proof shall be on the local agency to show that its housing element does identify adequate sites with appropriate zoning and development standards and with services and facilities to accommodate the local agency's share of the regional housing need for the very low and low-income categories.

(C) If the local agency has failed to identify a zone or zones where emergency shelters are allowed as a permitted use without a conditional use or other discretionary permit, has failed to demonstrate that the identified zone or zones include sufficient capacity to accommodate the need for emergency shelter identified in paragraph (7) of subdivision (a) of Section 65583, or has failed to demonstrate that the identified zone or zones can accommodate at least one emergency shelter, as required by paragraph (4) of subdivision (a) of Section 65583, then this paragraph shall not be utilized to disapprove or conditionally approve an emergency shelter proposed for a site designated in any element of the general plan for industrial, commercial, or multifamily residential uses. In any action in court, the burden of proof shall be on the local agency to show that its housing element does satisfy the requirements of paragraph (4) of subdivision (a) of Section 65583.

(e) Nothing in this section shall be construed to relieve the local agency from complying with the Congestion Management Program required by Chapter 2.6 (commencing with Section 65088) of Division 1 of Title 7 or the California Coastal Act (Division 20 (commencing with Section 30000) of the Public Resources Code). Neither shall anything in this section be construed to relieve the local agency from making one or more of the findings required pursuant to Section 21081 of the Public Resources Code or otherwise complying with the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code).

(f) (1) Nothing in this section shall be construed to prohibit a local agency from requiring the development project to comply with objective, quantifiable, written development standards, conditions, and policies appropriate to, and consistent with, meeting the jurisdiction's share of the regional housing need pursuant to Section 65584.

However, the development standards, conditions, and policies shall be applied to facilitate and accommodate development at the density permitted on the site and proposed by the development.

(2) Nothing in this section shall be construed to prohibit a local agency from requiring an emergency shelter project to comply with objective, quantifiable, written development standards, conditions, and policies that are consistent with paragraph (4) of subdivision (a) of Section 65583 and appropriate to, and consistent with, meeting the jurisdiction's need for emergency shelter, as identified pursuant to paragraph (7) of subdivision (a) of Section 65583. However, the development standards, conditions, and policies shall be applied by the local agency to facilitate and accommodate the development of the emergency shelter project.

(3) This section does not prohibit a local agency from imposing fees and other exactions otherwise authorized by law that are essential to provide necessary public services and facilities to the development project or emergency shelter.

(g) This section shall be applicable to charter cities because the Legislature finds that the lack of housing, including emergency shelter, is a critical statewide problem.

(h) The following definitions apply for the purposes of this section:

(1) "Feasible" means capable of being accomplished in a successful manner within a reasonable period of time, taking into account economic, environmental, social, and technological factors.

(2) "Housing development project" means a use consisting of any of the following:

(A) Residential units only.

(B) Mixed-use developments consisting of residential and nonresidential uses in which nonresidential uses are limited to neighborhood commercial uses and to the first floor of buildings that are two or more stories. As used in this paragraph, "neighborhood commercial" means small-scale general or specialty stores that furnish goods and services primarily to residents of the neighborhood.

(C) Transitional housing or supportive housing.

(3) "Housing for very low, low-, or moderate-income households" means that either (A) at least 20 percent of the total units shall be sold or rented to lower income households, as defined in Section 50079.5 of the Health and Safety Code, or (B) 100 percent of the units shall be sold or rented to moderate-income households as defined in Section 50093 of the Health and Safety Code, or middle-income households, as defined in Section 65008 of this code. Housing units targeted for lower income households shall be made available at a monthly housing cost that does not exceed 30 percent of 60 percent of area median income with adjustments for household size made in accordance with the adjustment factors on which the lower income eligibility limits are based. Housing units targeted for persons and families of moderate income shall be made available at a monthly housing cost that does not exceed 30 percent of 100 percent of area median income with adjustments for household size made in accordance with the adjustment factors on which the moderate-income eligibility limits are based.

(4) "Area median income" means area median income as periodically established by the Department of Housing and Community Development pursuant to Section 50093 of the Health and Safety Code. The developer shall provide sufficient legal commitments to ensure continued availability of units for very low or low-income households in accordance with the provisions of this subdivision for 30 years.

(5) "Disapprove the development project" includes any instance in which a local agency does either of the following:

(A) Votes on a proposed housing development project application and the application is disapproved.

(B) Fails to comply with the time periods specified in subparagraph (B) of paragraph (1) of subdivision (a) of Section 65950. An extension of time pursuant to Article 5 (commencing with Section 65950) shall be deemed to be an extension of time pursuant to this paragraph.

(i) If any city, county, or city and county denies approval or imposes restrictions, including design changes, a reduction of allowable densities or the percentage of a lot that may be occupied by a building or structure under the applicable planning and zoning in force at the time the application is deemed complete pursuant to Section 65943, that have a substantial adverse effect on the viability or affordability of a housing development for very low, low-, or moderate-income households, and the denial of the development or the imposition of restrictions on the development is the subject of a court action which challenges the denial, then the burden of proof shall be on the local legislative body to show that its decision is consistent with the findings as described in subdivision (d) and that the findings are supported by substantial evidence in the record.

(j) When a proposed housing development project complies with applicable, objective general plan and zoning standards and criteria, including design review standards, in effect at the time that the housing development project's application is determined to be complete, but the local agency proposes to disapprove the project or to approve it upon the condition that the project be developed at a lower density, the local agency shall base its decision regarding the proposed housing development project upon written findings supported by substantial evidence on the record that both of the following conditions exist:

(1) The housing development project would have a specific, adverse impact upon the public health or safety unless the project is disapproved or approved upon the condition that the project be developed at a lower density. As used in this paragraph, a "specific, adverse impact" means a significant, quantifiable, direct, and unavoidable impact, based on objective, identified written public health or safety standards, policies, or conditions as they existed on the date the application was deemed complete.

(2) There is no feasible method to satisfactorily mitigate or avoid the adverse impact identified pursuant to paragraph (1), other than the disapproval of the housing development project or the approval of the project upon the condition that it be developed at a lower density.

(k) The applicant or any person who would be eligible to apply for residency in the development or emergency shelter may bring an action to enforce this section. If in any action brought to enforce the provisions of this section, a court finds that the local agency disapproved a project or conditioned its approval in a manner rendering it infeasible for the development of an emergency shelter, or housing for very low, low-, or moderate-income households, including farmworker housing, without making the findings required by this section or without making sufficient findings supported by substantial evidence, the court shall issue an order or judgment compelling compliance with this section within 60 days, including, but not limited to, an order that the local agency take action on the development project or emergency shelter. The court shall retain jurisdiction to ensure that its order or judgment is carried out and shall award reasonable attorney's fees and costs of suit to the plaintiff or petitioner who proposed the housing development or emergency shelter, except under extraordinary circumstances in which the court finds that awarding fees would not further the purposes of this section. If the court determines that its order or judgment has not been carried out within 60 days, the court may issue further orders as provided by law to ensure that the purposes and policies of this section are fulfilled, including, but not limited to, an order to vacate the decision of the local agency, in which case the application for the project, as constituted at the time the local agency took the initial action determined to be in violation of this section, along with any standard conditions determined by the court to be generally imposed by the local agency on similar projects, shall be deemed approved unless the applicant consents to a different decision or action by the local agency.

(l) If the court finds that the local agency (1) acted in bad faith when it disapproved or conditionally approved the housing development or emergency shelter in violation of this section and (2) failed to carry out the court's order or judgment within 60 days as described in subdivision (k), the court in addition to any other remedies provided by this section, may impose fines upon the local agency that the local agency shall be required to deposit into a housing trust fund. Fines shall not be paid from funds that are already dedicated for affordable housing, including, but not limited to, redevelopment or low- and moderate-income housing funds and federal HOME and CDBG funds. The local agency shall commit the money in the trust fund within five years for the sole purpose of financing newly constructed housing units affordable to extremely low, very low, or low-income households. For purposes of this section, "bad faith" shall mean an action that is frivolous or otherwise entirely without merit.

(m) Any action brought to enforce the provisions of this section shall be brought pursuant to Section 1094.5 of the Code of Civil Procedure, and the local agency shall prepare and certify the record of proceedings in accordance with subdivision (c) of Section 1094.6 of the Code of Civil Procedure no later than 30 days after the petition is served, provided that the cost of preparation of the record shall be borne by the local agency. Upon entry of the trial court's order, a party shall, in order to obtain appellate review of the order, file a petition within 20 days after service upon it of a written notice of the entry of the order, or within such further time not exceeding an additional 20 days as the trial court may for good cause allow. If the local agency appeals the judgment of the trial court, the local agency shall post a bond, in an amount to be determined by the court, to the benefit of the plaintiff if the plaintiff is the project applicant.

(n) In any action, the record of the proceedings before the local agency shall be filed as expeditiously as possible and, notwithstanding Section 1094.6 of the Code of Civil Procedure or subdivision (m) of this section, all or part of the record may be prepared (1) by the petitioner with the petition or petitioner's points and authorities, (2) by the respondent with respondent's points and authorities, (3) after payment of costs by the petitioner, or (4) as otherwise directed by the court. If the expense of preparing the record has been borne by the petitioner and the petitioner is the prevailing party, the expense shall be taxable as costs.

(o) This section shall be known, and may be cited, as the Housing Accountability Act.

**SEC. 5.** No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because a local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act, within the meaning of Section 17556 of the Government Code.

**State of California**

**GOVERNMENT CODE**

**Section 65582**

---

65582. As used in this article, the following definitions apply:

(a) "Community," "locality," "local government," or "jurisdiction" means a city, city and county, or county.

(b) "Council of governments" means a single or multicounty council created by a joint powers agreement pursuant to Chapter 5 (commencing with Section 6500) of Division 1 of Title 1.

(c) "Department" means the Department of Housing and Community Development.

(d) "Emergency shelter" has the same meaning as defined in subdivision (e) of Section 50801 of the Health and Safety Code.

(e) "Frequent user coordinated care housing services" means housing combined with other supportive services for homeless persons identified by a city or county as the most costly, frequent users of publicly funded emergency services.

(f) "Housing element" or "element" means the housing element of the community's general plan, as required pursuant to this article and subdivision (c) of Section 65302.

(g) "Supportive housing" means housing with no limit on length of stay, that is occupied by the target population, and that is linked to an onsite or offsite service that assists the supportive housing resident in retaining the housing, improving his or her health status, and maximizing his or her ability to live and, when possible, work in the community.

(h) "Supportive services" include, but are not limited to, a combination of subsidized, permanent housing, intensive case management, medical and mental health care, substance abuse treatment, employment services, and benefits advocacy.

(i) "Target population" means persons with low incomes who have one or more disabilities, including mental illness, HIV or AIDS, substance abuse, or other chronic health condition, or individuals eligible for services provided pursuant to the Lanterman Developmental Disabilities Services Act (Division 4.5 (commencing with Section 4500) of the Welfare and Institutions Code) and may include, among other populations, adults, emancipated minors, families with children, elderly persons, young adults aging out of the foster care system, individuals exiting from institutional settings, veterans, and homeless people.

(j) "Transitional housing" means buildings configured as rental housing developments, but operated under program requirements that require the termination of assistance and recirculating of the assisted unit to another eligible program recipient at a predetermined future point in time that shall be no less than six months from the beginning of the assistance.

(Amended by Stats. 2015, Ch. 188, Sec. 2. (AB 1403) Effective January 1, 2016.)

**State of California**

**GOVERNMENT CODE**

**Section 65583**

---

65583. The housing element shall consist of an identification and analysis of existing and projected housing needs and a statement of goals, policies, quantified objectives, financial resources, and scheduled programs for the preservation, improvement, and development of housing. The housing element shall identify adequate sites for housing, including rental housing, factory-built housing, mobilehomes, and emergency shelters, and shall make adequate provision for the existing and projected needs of all economic segments of the community. The element shall contain all of the following:

(a) An assessment of housing needs and an inventory of resources and constraints relevant to the meeting of these needs. The assessment and inventory shall include all of the following:

(1) An analysis of population and employment trends and documentation of projections and a quantification of the locality's existing and projected housing needs for all income levels, including extremely low income households, as defined in subdivision (b) of Section 50105 and Section 50106 of the Health and Safety Code. These existing and projected needs shall include the locality's share of the regional housing need in accordance with Section 65584. Local agencies shall calculate the subset of very low income households allotted under Section 65584 that qualify as extremely low income households. The local agency may either use available census data to calculate the percentage of very low income households that qualify as extremely low income households or presume that 50 percent of the very low income households qualify as extremely low income households. The number of extremely low income households and very low income households shall equal the jurisdiction's allocation of very low income households pursuant to Section 65584.

(2) An analysis and documentation of household characteristics, including level of payment compared to ability to pay, housing characteristics, including overcrowding, and housing stock condition.

(3) An inventory of land suitable and available for residential development, including vacant sites and sites having realistic and demonstrated potential for redevelopment during the planning period to meet the locality's housing need for a designated income level, and an analysis of the relationship of zoning and public facilities and services to these sites.

(4) (A) The identification of a zone or zones where emergency shelters are allowed as a permitted use without a conditional use or other discretionary permit. The identified zone or zones shall include sufficient capacity to accommodate the need for emergency shelter identified in paragraph (7), except that each local government shall identify a zone or zones that can accommodate at least one year-round emergency

shelter. If the local government cannot identify a zone or zones with sufficient capacity, the local government shall include a program to amend its zoning ordinance to meet the requirements of this paragraph within one year of the adoption of the housing element. The local government may identify additional zones where emergency shelters are permitted with a conditional use permit. The local government shall also demonstrate that existing or proposed permit processing, development, and management standards are objective and encourage and facilitate the development of, or conversion to, emergency shelters. Emergency shelters may only be subject to those development and management standards that apply to residential or commercial development within the same zone except that a local government may apply written, objective standards that include all of the following:

- (i) The maximum number of beds or persons permitted to be served nightly by the facility.
- (ii) Off-street parking based upon demonstrated need, provided that the standards do not require more parking for emergency shelters than for other residential or commercial uses within the same zone.
- (iii) The size and location of exterior and interior onsite waiting and client intake areas.
- (iv) The provision of onsite management.
- (v) The proximity to other emergency shelters, provided that emergency shelters are not required to be more than 300 feet apart.
- (vi) The length of stay.
- (vii) Lighting.
- (viii) Security during hours that the emergency shelter is in operation.

(B) The permit processing, development, and management standards applied under this paragraph shall not be deemed to be discretionary acts within the meaning of the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code).

(C) A local government that can demonstrate to the satisfaction of the department the existence of one or more emergency shelters either within its jurisdiction or pursuant to a multijurisdictional agreement that can accommodate that jurisdiction's need for emergency shelter identified in paragraph (7) may comply with the zoning requirements of subparagraph (A) by identifying a zone or zones where new emergency shelters are allowed with a conditional use permit.

(D) A local government with an existing ordinance or ordinances that comply with this paragraph shall not be required to take additional action to identify zones for emergency shelters. The housing element must only describe how existing ordinances, policies, and standards are consistent with the requirements of this paragraph.

(5) An analysis of potential and actual governmental constraints upon the maintenance, improvement, or development of housing for all income levels, including the types of housing identified in paragraph (1) of subdivision (c), and for persons with disabilities as identified in the analysis pursuant to paragraph (7), including land use controls, building codes and their enforcement, site improvements, fees and other exactions required of developers, local processing and permit procedures, and any

locally adopted ordinances that directly impact the cost and supply of residential development. The analysis shall also demonstrate local efforts to remove governmental constraints that hinder the locality from meeting its share of the regional housing need in accordance with Section 65584 and from meeting the need for housing for persons with disabilities, supportive housing, transitional housing, and emergency shelters identified pursuant to paragraph (7). Transitional housing and supportive housing shall be considered a residential use of property, and shall be subject only to those restrictions that apply to other residential dwellings of the same type in the same zone.

(6) An analysis of potential and actual nongovernmental constraints upon the maintenance, improvement, or development of housing for all income levels, including the availability of financing, the price of land, the cost of construction, the requests to develop housing at densities below those anticipated in the analysis required by subdivision (c) of Section 65583.2, and the length of time between receiving approval for a housing development and submittal of an application for building permits for that housing development that hinder the construction of a locality's share of the regional housing need in accordance with Section 65584. The analysis shall also demonstrate local efforts to remove nongovernmental constraints that create a gap between the locality's planning for the development of housing for all income levels and the construction of that housing.

(7) An analysis of any special housing needs, such as those of the elderly; persons with disabilities, including a developmental disability, as defined in Section 4512 of the Welfare and Institutions Code; large families; farmworkers; families with female heads of households; and families and persons in need of emergency shelter. The need for emergency shelter shall be assessed based on annual and seasonal need. The need for emergency shelter may be reduced by the number of supportive housing units that are identified in an adopted 10-year plan to end chronic homelessness and that are either vacant or for which funding has been identified to allow construction during the planning period. An analysis of special housing needs by a city or county may include an analysis of the need for frequent user coordinated care housing services.

(8) An analysis of opportunities for energy conservation with respect to residential development. Cities and counties are encouraged to include weatherization and energy efficiency improvements as part of publicly subsidized housing rehabilitation projects. This may include energy efficiency measures that encompass the building envelope, its heating and cooling systems, and its electrical system.

(9) An analysis of existing assisted housing developments that are eligible to change from low-income housing uses during the next 10 years due to termination of subsidy contracts, mortgage prepayment, or expiration of restrictions on use. "Assisted housing developments," for the purpose of this section, shall mean multifamily rental housing that receives governmental assistance under federal programs listed in subdivision (a) of Section 65863.10, state and local multifamily revenue bond programs, local redevelopment programs, the federal Community Development Block Grant Program, or local in-lieu fees. "Assisted housing developments" shall also include multifamily rental units that were developed pursuant

to a local inclusionary housing program or used to qualify for a density bonus pursuant to Section 65916.

(A) The analysis shall include a listing of each development by project name and address, the type of governmental assistance received, the earliest possible date of change from low-income use, and the total number of elderly and nonelderly units that could be lost from the locality's low-income housing stock in each year during the 10-year period. For purposes of state and federally funded projects, the analysis required by this subparagraph need only contain information available on a statewide basis.

(B) The analysis shall estimate the total cost of producing new rental housing that is comparable in size and rent levels, to replace the units that could change from low-income use, and an estimated cost of preserving the assisted housing developments. This cost analysis for replacement housing may be done aggregately for each five-year period and does not have to contain a project-by-project cost estimate.

(C) The analysis shall identify public and private nonprofit corporations known to the local government which have legal and managerial capacity to acquire and manage these housing developments.

(D) The analysis shall identify and consider the use of all federal, state, and local financing and subsidy programs which can be used to preserve, for lower income households, the assisted housing developments, identified in this paragraph, including, but not limited to, federal Community Development Block Grant Program funds, tax increment funds received by a redevelopment agency of the community, and administrative fees received by a housing authority operating within the community. In considering the use of these financing and subsidy programs, the analysis shall identify the amounts of funds under each available program which have not been legally obligated for other purposes and which could be available for use in preserving assisted housing developments.

(b) (1) A statement of the community's goals, quantified objectives, and policies relative to the maintenance, preservation, improvement, and development of housing.

(2) It is recognized that the total housing needs identified pursuant to subdivision (a) may exceed available resources and the community's ability to satisfy this need within the content of the general plan requirements outlined in Article 5 (commencing with Section 65300). Under these circumstances, the quantified objectives need not be identical to the total housing needs. The quantified objectives shall establish the maximum number of housing units by income category, including extremely low income, that can be constructed, rehabilitated, and conserved over a five-year time period.

(c) A program which sets forth a schedule of actions during the planning period, each with a timeline for implementation, which may recognize that certain programs are ongoing, such that there will be beneficial impacts of the programs within the planning period, that the local government is undertaking or intends to undertake to implement the policies and achieve the goals and objectives of the housing element through the administration of land use and development controls, the provision of

regulatory concessions and incentives, the utilization of appropriate federal and state financing and subsidy programs when available, and the utilization of moneys in a low- and moderate-income housing fund of an agency if the locality has established a redevelopment project area pursuant to the Community Redevelopment Law (Division 24 (commencing with Section 33000) of the Health and Safety Code). In order to make adequate provision for the housing needs of all economic segments of the community, the program shall do all of the following:

(1) Identify actions that will be taken to make sites available during the planning period with appropriate zoning and development standards and with services and facilities to accommodate that portion of the city's or county's share of the regional housing need for each income level that could not be accommodated on sites identified in the inventory completed pursuant to paragraph (3) of subdivision (a) without rezoning, and to comply with the requirements of Section 65584.09. Sites shall be identified as needed to facilitate and encourage the development of a variety of types of housing for all income levels, including multifamily rental housing, factory-built housing, mobilehomes, housing for agricultural employees, supportive housing, single-room occupancy units, emergency shelters, and transitional housing.

(A) Where the inventory of sites, pursuant to paragraph (3) of subdivision (a), does not identify adequate sites to accommodate the need for groups of all household income levels pursuant to Section 65584, rezoning of those sites, including adoption of minimum density and development standards, for jurisdictions with an eight-year housing element planning period pursuant to Section 65588, shall be completed no later than three years after either the date the housing element is adopted pursuant to subdivision (f) of Section 65585 or the date that is 90 days after receipt of comments from the department pursuant to subdivision (b) of Section 65585, whichever is earlier, unless the deadline is extended pursuant to subdivision (f). Notwithstanding the foregoing, for a local government that fails to adopt a housing element within 120 days of the statutory deadline in Section 65588 for adoption of the housing element, rezoning of those sites, including adoption of minimum density and development standards, shall be completed no later than three years and 120 days from the statutory deadline in Section 65588 for adoption of the housing element.

(B) Where the inventory of sites, pursuant to paragraph (3) of subdivision (a), does not identify adequate sites to accommodate the need for groups of all household income levels pursuant to Section 65584, the program shall identify sites that can be developed for housing within the planning period pursuant to subdivision (h) of Section 65583.2. The identification of sites shall include all components specified in Section 65583.2.

(C) Where the inventory of sites pursuant to paragraph (3) of subdivision (a) does not identify adequate sites to accommodate the need for farmworker housing, the program shall provide for sufficient sites to meet the need with zoning that permits farmworker housing use by right, including density and development standards that could accommodate and facilitate the feasibility of the development of farmworker housing for low- and very low income households.

(2) Assist in the development of adequate housing to meet the needs of extremely low, very low, low-, and moderate-income households.

(3) Address and, where appropriate and legally possible, remove governmental and nongovernmental constraints to the maintenance, improvement, and development of housing, including housing for all income levels and housing for persons with disabilities. The program shall remove constraints to, and provide reasonable accommodations for housing designed for, intended for occupancy by, or with supportive services for, persons with disabilities.

(4) Conserve and improve the condition of the existing affordable housing stock, which may include addressing ways to mitigate the loss of dwelling units demolished by public or private action.

(5) Promote housing opportunities for all persons regardless of race, religion, sex, marital status, ancestry, national origin, color, familial status, or disability.

(6) Preserve for lower income households the assisted housing developments identified pursuant to paragraph (9) of subdivision (a). The program for preservation of the assisted housing developments shall utilize, to the extent necessary, all available federal, state, and local financing and subsidy programs identified in paragraph (9) of subdivision (a), except where a community has other urgent needs for which alternative funding sources are not available. The program may include strategies that involve local regulation and technical assistance.

(7) Include an identification of the agencies and officials responsible for the implementation of the various actions and the means by which consistency will be achieved with other general plan elements and community goals.

(8) Include a diligent effort by the local government to achieve public participation of all economic segments of the community in the development of the housing element, and the program shall describe this effort.

(d) (1) A local government may satisfy all or part of its requirement to identify a zone or zones suitable for the development of emergency shelters pursuant to paragraph (4) of subdivision (a) by adopting and implementing a multijurisdictional agreement, with a maximum of two other adjacent communities, that requires the participating jurisdictions to develop at least one year-round emergency shelter within two years of the beginning of the planning period.

(2) The agreement shall allocate a portion of the new shelter capacity to each jurisdiction as credit toward its emergency shelter need, and each jurisdiction shall describe how the capacity was allocated as part of its housing element.

(3) Each member jurisdiction of a multijurisdictional agreement shall describe in its housing element all of the following:

(A) How the joint facility will meet the jurisdiction's emergency shelter need.

(B) The jurisdiction's contribution to the facility for both the development and ongoing operation and management of the facility.

(C) The amount and source of the funding that the jurisdiction contributes to the facility.

(4) The aggregate capacity claimed by the participating jurisdictions in their housing elements shall not exceed the actual capacity of the shelter.

(e) Except as otherwise provided in this article, amendments to this article that alter the required content of a housing element shall apply to both of the following:

(1) A housing element or housing element amendment prepared pursuant to subdivision (e) of Section 65588 or Section 65584.02, when a city, county, or city and county submits a draft to the department for review pursuant to Section 65585 more than 90 days after the effective date of the amendment to this section.

(2) Any housing element or housing element amendment prepared pursuant to subdivision (e) of Section 65588 or Section 65584.02, when the city, county, or city and county fails to submit the first draft to the department before the due date specified in Section 65588 or 65584.02.

(f) The deadline for completing required rezoning pursuant to subparagraph (A) of paragraph (1) of subdivision (c) shall be extended by one year if the local government has completed the rezoning at densities sufficient to accommodate at least 75 percent of the units for low- and very low income households and if the legislative body at the conclusion of a public hearing determines, based upon substantial evidence, that any of the following circumstances exist:

(1) The local government has been unable to complete the rezoning because of the action or inaction beyond the control of the local government of any other state, federal, or local agency.

(2) The local government is unable to complete the rezoning because of infrastructure deficiencies due to fiscal or regulatory constraints.

(3) The local government must undertake a major revision to its general plan in order to accommodate the housing-related policies of a sustainable communities strategy or an alternative planning strategy adopted pursuant to Section 65080.

The resolution and the findings shall be transmitted to the department together with a detailed budget and schedule for preparation and adoption of the required rezonings, including plans for citizen participation and expected interim action. The schedule shall provide for adoption of the required rezoning within one year of the adoption of the resolution.

(g) (1) If a local government fails to complete the rezoning by the deadline provided in subparagraph (A) of paragraph (1) of subdivision (c), as it may be extended pursuant to subdivision (f), except as provided in paragraph (2), a local government may not disapprove a housing development project, nor require a conditional use permit, planned unit development permit, or other locally imposed discretionary permit, or impose a condition that would render the project infeasible, if the housing development project (A) is proposed to be located on a site required to be rezoned pursuant to the program action required by that subparagraph and (B) complies with applicable, objective general plan and zoning standards and criteria, including design review standards, described in the program action required by that subparagraph. Any subdivision of sites shall be subject to the Subdivision Map Act (Division 2 (commencing with Section 66410)). Design review shall not constitute a "project" for purposes of Division 13 (commencing with Section 21000) of the Public Resources Code.

(2) A local government may disapprove a housing development described in paragraph (1) if it makes written findings supported by substantial evidence on the record that both of the following conditions exist:

(A) The housing development project would have a specific, adverse impact upon the public health or safety unless the project is disapproved or approved upon the condition that the project be developed at a lower density. As used in this paragraph, a "specific, adverse impact" means a significant, quantifiable, direct, and unavoidable impact, based on objective, identified written public health or safety standards, policies, or conditions as they existed on the date the application was deemed complete.

(B) There is no feasible method to satisfactorily mitigate or avoid the adverse impact identified pursuant to paragraph (1), other than the disapproval of the housing development project or the approval of the project upon the condition that it be developed at a lower density.

(3) The applicant or any interested person may bring an action to enforce this subdivision. If a court finds that the local agency disapproved a project or conditioned its approval in violation of this subdivision, the court shall issue an order or judgment compelling compliance within 60 days. The court shall retain jurisdiction to ensure that its order or judgment is carried out. If the court determines that its order or judgment has not been carried out within 60 days, the court may issue further orders to ensure that the purposes and policies of this subdivision are fulfilled. In any such action, the city, county, or city and county shall bear the burden of proof.

(4) For purposes of this subdivision, "housing development project" means a project to construct residential units for which the project developer provides sufficient legal commitments to the appropriate local agency to ensure the continued availability and use of at least 49 percent of the housing units for very low, low-, and moderate-income households with an affordable housing cost or affordable rent, as defined in Section 50052.5 or 50053 of the Health and Safety Code, respectively, for the period required by the applicable financing.

(h) An action to enforce the program actions of the housing element shall be brought pursuant to Section 1085 of the Code of Civil Procedure.

(Amended by Stats. 2017, Ch. 375, Sec. 2.5. (AB 1397) Effective January 1, 2018.)

**State of California**

**GOVERNMENT CODE**

**Section 65589.5**

---

65589.5. (a) (1) The Legislature finds and declares all of the following:

(A) The lack of housing, including emergency shelters, is a critical problem that threatens the economic, environmental, and social quality of life in California.

(B) California housing has become the most expensive in the nation. The excessive cost of the state's housing supply is partially caused by activities and policies of many local governments that limit the approval of housing, increase the cost of land for housing, and require that high fees and exactions be paid by producers of housing.

(C) Among the consequences of those actions are discrimination against low-income and minority households, lack of housing to support employment growth, imbalance in jobs and housing, reduced mobility, urban sprawl, excessive commuting, and air quality deterioration.

(D) Many local governments do not give adequate attention to the economic, environmental, and social costs of decisions that result in disapproval of housing development projects, reduction in density of housing projects, and excessive standards for housing development projects.

(2) In enacting the amendments made to this section by the act adding this paragraph, the Legislature further finds and declares the following:

(A) California has a housing supply and affordability crisis of historic proportions. The consequences of failing to effectively and aggressively confront this crisis are hurting millions of Californians, robbing future generations of the chance to call California home, stifling economic opportunities for workers and businesses, worsening poverty and homelessness, and undermining the state's environmental and climate objectives.

(B) While the causes of this crisis are multiple and complex, the absence of meaningful and effective policy reforms to significantly enhance the approval and supply of housing affordable to Californians of all income levels is a key factor.

(C) The crisis has grown so acute in California that supply, demand, and affordability fundamentals are characterized in the negative: underserved demands, constrained supply, and protracted unaffordability.

(D) According to reports and data, California has accumulated an unmet housing backlog of nearly 2,000,000 units and must provide for at least 180,000 new units annually to keep pace with growth through 2025.

(E) California's overall homeownership rate is at its lowest level since the 1940s. The state ranks 49th out of the 50 states in homeownership rates as well as in the supply of housing per capita. Only one-half of California's households are able to afford the cost of housing in their local regions.

(F) Lack of supply and rising costs are compounding inequality and limiting advancement opportunities for many Californians.

(G) The majority of California renters, more than 3,000,000 households, pay more than 30 percent of their income toward rent and nearly one-third, more than 1,500,000 households, pay more than 50 percent of their income toward rent.

(H) When Californians have access to safe and affordable housing, they have more money for food and health care; they are less likely to become homeless and in need of government-subsidized services; their children do better in school; and businesses have an easier time recruiting and retaining employees.

(I) An additional consequence of the state's cumulative housing shortage is a significant increase in greenhouse gas emissions caused by the displacement and redirection of populations to states with greater housing opportunities, particularly working- and middle-class households. California's cumulative housing shortfall therefore has not only national but international environmental consequences.

(J) California's housing picture has reached a crisis of historic proportions despite the fact that, for decades, the Legislature has enacted numerous statutes intended to significantly increase the approval, development, and affordability of housing for all income levels, including this section.

(K) The Legislature's intent in enacting this section in 1982 and in expanding its provisions since then was to significantly increase the approval and construction of new housing for all economic segments of California's communities by meaningfully and effectively curbing the capability of local governments to deny, reduce the density for, or render infeasible housing development projects and emergency shelters. That intent has not been fulfilled.

(L) It is the policy of the state that this section should be interpreted and implemented in a manner to afford the fullest possible weight to the interest of, and the approval and provision of, housing.

(b) It is the policy of the state that a local government not reject or make infeasible housing development projects, including emergency shelters, that contribute to meeting the need determined pursuant to this article without a thorough analysis of the economic, social, and environmental effects of the action and without complying with subdivision (d).

(c) The Legislature also recognizes that premature and unnecessary development of agricultural lands for urban uses continues to have adverse effects on the availability of those lands for food and fiber production and on the economy of the state. Furthermore, it is the policy of the state that development should be guided away from prime agricultural lands; therefore, in implementing this section, local jurisdictions should encourage, to the maximum extent practicable, in filling existing urban areas.

(d) A local agency shall not disapprove a housing development project, including farmworker housing as defined in subdivision (h) of Section 50199.7 of the Health and Safety Code, for very low, low-, or moderate-income households, or an emergency shelter, or condition approval in a manner that renders the housing development project infeasible for development for the use of very low, low-, or moderate-income

households, or an emergency shelter, including through the use of design review standards, unless it makes written findings, based upon a preponderance of the evidence in the record, as to one of the following:

(1) The jurisdiction has adopted a housing element pursuant to this article that has been revised in accordance with Section 65588, is in substantial compliance with this article, and the jurisdiction has met or exceeded its share of the regional housing need allocation pursuant to Section 65584 for the planning period for the income category proposed for the housing development project, provided that any disapproval or conditional approval shall not be based on any of the reasons prohibited by Section 65008. If the housing development project includes a mix of income categories, and the jurisdiction has not met or exceeded its share of the regional housing need for one or more of those categories, then this paragraph shall not be used to disapprove or conditionally approve the housing development project. The share of the regional housing need met by the jurisdiction shall be calculated consistently with the forms and definitions that may be adopted by the Department of Housing and Community Development pursuant to Section 65400. In the case of an emergency shelter, the jurisdiction shall have met or exceeded the need for emergency shelter, as identified pursuant to paragraph (7) of subdivision (a) of Section 65583. Any disapproval or conditional approval pursuant to this paragraph shall be in accordance with applicable law, rule, or standards.

(2) The housing development project or emergency shelter as proposed would have a specific, adverse impact upon the public health or safety, and there is no feasible method to satisfactorily mitigate or avoid the specific adverse impact without rendering the development unaffordable to low- and moderate-income households or rendering the development of the emergency shelter financially infeasible. As used in this paragraph, a "specific, adverse impact" means a significant, quantifiable, direct, and unavoidable impact, based on objective, identified written public health or safety standards, policies, or conditions as they existed on the date the application was deemed complete. Inconsistency with the zoning ordinance or general plan land use designation shall not constitute a specific, adverse impact upon the public health or safety.

(3) The denial of the housing development project or imposition of conditions is required in order to comply with specific state or federal law, and there is no feasible method to comply without rendering the development unaffordable to low- and moderate-income households or rendering the development of the emergency shelter financially infeasible.

(4) The housing development project or emergency shelter is proposed on land zoned for agriculture or resource preservation that is surrounded on at least two sides by land being used for agricultural or resource preservation purposes, or which does not have adequate water or wastewater facilities to serve the project.

(5) The housing development project or emergency shelter is inconsistent with both the jurisdiction's zoning ordinance and general plan land use designation as specified in any element of the general plan as it existed on the date the application was deemed complete, and the jurisdiction has adopted a revised housing element in

accordance with Section 65588 that is in substantial compliance with this article. For purposes of this section, a change to the zoning ordinance or general plan land use designation subsequent to the date the application was deemed complete shall not constitute a valid basis to disapprove or condition approval of the housing development project or emergency shelter.

(A) This paragraph cannot be utilized to disapprove or conditionally approve a housing development project if the housing development project is proposed on a site that is identified as suitable or available for very low, low-, or moderate-income households in the jurisdiction's housing element, and consistent with the density specified in the housing element, even though it is inconsistent with both the jurisdiction's zoning ordinance and general plan land use designation.

(B) If the local agency has failed to identify in the inventory of land in its housing element sites that can be developed for housing within the planning period and are sufficient to provide for the jurisdiction's share of the regional housing need for all income levels pursuant to Section 65584, then this paragraph shall not be utilized to disapprove or conditionally approve a housing development project proposed for a site designated in any element of the general plan for residential uses or designated in any element of the general plan for commercial uses if residential uses are permitted or conditionally permitted within commercial designations. In any action in court, the burden of proof shall be on the local agency to show that its housing element does identify adequate sites with appropriate zoning and development standards and with services and facilities to accommodate the local agency's share of the regional housing need for the very low, low-, and moderate-income categories.

(C) If the local agency has failed to identify a zone or zones where emergency shelters are allowed as a permitted use without a conditional use or other discretionary permit, has failed to demonstrate that the identified zone or zones include sufficient capacity to accommodate the need for emergency shelter identified in paragraph (7) of subdivision (a) of Section 65583, or has failed to demonstrate that the identified zone or zones can accommodate at least one emergency shelter, as required by paragraph (4) of subdivision (a) of Section 65583, then this paragraph shall not be utilized to disapprove or conditionally approve an emergency shelter proposed for a site designated in any element of the general plan for industrial, commercial, or multifamily residential uses. In any action in court, the burden of proof shall be on the local agency to show that its housing element does satisfy the requirements of paragraph (4) of subdivision (a) of Section 65583.

(e) Nothing in this section shall be construed to relieve the local agency from complying with the congestion management program required by Chapter 2.6 (commencing with Section 65088) of Division 1 of Title 7 or the California Coastal Act of 1976 (Division 20 (commencing with Section 30000) of the Public Resources Code). Neither shall anything in this section be construed to relieve the local agency from making one or more of the findings required pursuant to Section 21081 of the Public Resources Code or otherwise complying with the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code).

(f) (1) Nothing in this section shall be construed to prohibit a local agency from requiring the housing development project to comply with objective, quantifiable, written development standards, conditions, and policies appropriate to, and consistent with, meeting the jurisdiction's share of the regional housing need pursuant to Section 65584. However, the development standards, conditions, and policies shall be applied to facilitate and accommodate development at the density permitted on the site and proposed by the development.

(2) Nothing in this section shall be construed to prohibit a local agency from requiring an emergency shelter project to comply with objective, quantifiable, written development standards, conditions, and policies that are consistent with paragraph (4) of subdivision (a) of Section 65583 and appropriate to, and consistent with, meeting the jurisdiction's need for emergency shelter, as identified pursuant to paragraph (7) of subdivision (a) of Section 65583. However, the development standards, conditions, and policies shall be applied by the local agency to facilitate and accommodate the development of the emergency shelter project.

(3) This section does not prohibit a local agency from imposing fees and other exactions otherwise authorized by law that are essential to provide necessary public services and facilities to the housing development project or emergency shelter.

(4) For purposes of this section, a housing development project or emergency shelter shall be deemed consistent, compliant, and in conformity with an applicable plan, program, policy, ordinance, standard, requirement, or other similar provision if there is substantial evidence that would allow a reasonable person to conclude that the housing development project or emergency shelter is consistent, compliant, or in conformity.

(g) This section shall be applicable to charter cities because the Legislature finds that the lack of housing, including emergency shelter, is a critical statewide problem.

(h) The following definitions apply for the purposes of this section:

(1) "Feasible" means capable of being accomplished in a successful manner within a reasonable period of time, taking into account economic, environmental, social, and technological factors.

(2) "Housing development project" means a use consisting of any of the following:

(A) Residential units only.

(B) Mixed-use developments consisting of residential and nonresidential uses with at least two-thirds of the square footage designated for residential use.

(C) Transitional housing or supportive housing.

(3) "Housing for very low, low-, or moderate-income households" means that either (A) at least 20 percent of the total units shall be sold or rented to lower income households, as defined in Section 50079.5 of the Health and Safety Code, or (B) 100 percent of the units shall be sold or rented to persons and families of moderate income as defined in Section 50093 of the Health and Safety Code, or persons and families of middle income, as defined in Section 65008 of this code. Housing units targeted for lower income households shall be made available at a monthly housing cost that does not exceed 30 percent of 60 percent of area median income with adjustments for household size made in accordance with the adjustment factors on which the lower

income eligibility limits are based. Housing units targeted for persons and families of moderate income shall be made available at a monthly housing cost that does not exceed 30 percent of 100 percent of area median income with adjustments for household size made in accordance with the adjustment factors on which the moderate-income eligibility limits are based.

(4) "Area median income" means area median income as periodically established by the Department of Housing and Community Development pursuant to Section 50093 of the Health and Safety Code. The developer shall provide sufficient legal commitments to ensure continued availability of units for very low or low-income households in accordance with the provisions of this subdivision for 30 years.

(5) "Disapprove the housing development project" includes any instance in which a local agency does either of the following:

(A) Votes on a proposed housing development project application and the application is disapproved, including any required land use approvals or entitlements necessary for the issuance of a building permit.

(B) Fails to comply with the time periods specified in subdivision (a) of Section 65950. An extension of time pursuant to Article 5 (commencing with Section 65950) shall be deemed to be an extension of time pursuant to this paragraph.

(i) If any city, county, or city and county denies approval or imposes conditions, including design changes, lower density, or a reduction of the percentage of a lot that may be occupied by a building or structure under the applicable planning and zoning in force at the time the application is deemed complete pursuant to Section 65943, that have a substantial adverse effect on the viability or affordability of a housing development for very low, low-, or moderate-income households, and the denial of the development or the imposition of conditions on the development is the subject of a court action which challenges the denial or the imposition of conditions, then the burden of proof shall be on the local legislative body to show that its decision is consistent with the findings as described in subdivision (d) and that the findings are supported by a preponderance of the evidence in the record. For purposes of this section, "lower density" includes any conditions that have the same effect or impact on the ability of the project to provide housing.

(j) (1) When a proposed housing development project complies with applicable, objective general plan, zoning, and subdivision standards and criteria, including design review standards, in effect at the time that the housing development project's application is determined to be complete, but the local agency proposes to disapprove the project or to impose a condition that the project be developed at a lower density, the local agency shall base its decision regarding the proposed housing development project upon written findings supported by a preponderance of the evidence on the record that both of the following conditions exist:

(A) The housing development project would have a specific, adverse impact upon the public health or safety unless the project is disapproved or approved upon the condition that the project be developed at a lower density. As used in this paragraph, a "specific, adverse impact" means a significant, quantifiable, direct, and unavoidable

impact, based on objective, identified written public health or safety standards, policies, or conditions as they existed on the date the application was deemed complete.

(B) There is no feasible method to satisfactorily mitigate or avoid the adverse impact identified pursuant to paragraph (1), other than the disapproval of the housing development project or the approval of the project upon the condition that it be developed at a lower density.

(2) (A) If the local agency considers a proposed housing development project to be inconsistent, not in compliance, or not in conformity with an applicable plan, program, policy, ordinance, standard, requirement, or other similar provision as specified in this subdivision, it shall provide the applicant with written documentation identifying the provision or provisions, and an explanation of the reason or reasons it considers the housing development to be inconsistent, not in compliance, or not in conformity as follows:

(i) Within 30 days of the date that the application for the housing development project is determined to be complete, if the housing development project contains 150 or fewer housing units.

(ii) Within 60 days of the date that the application for the housing development project is determined to be complete, if the housing development project contains more than 150 units.

(B) If the local agency fails to provide the required documentation pursuant to subparagraph (A), the housing development project shall be deemed consistent, compliant, and in conformity with the applicable plan, program, policy, ordinance, standard, requirement, or other similar provision.

(3) For purposes of this section, the receipt of a density bonus pursuant to Section 65915 shall not constitute a valid basis on which to find a proposed housing development project is inconsistent, not in compliance, or not in conformity, with an applicable plan, program, policy, ordinance, standard, requirement, or other similar provision specified in this subdivision.

(4) For purposes of this section, "lower density" includes any conditions that have the same effect or impact on the ability of the project to provide housing.

(k) (1) (A) The applicant, a person who would be eligible to apply for residency in the development or emergency shelter, or a housing organization may bring an action to enforce this section. If, in any action brought to enforce this section, a court finds that either (i) the local agency, in violation of subdivision (d), disapproved a housing development project or conditioned its approval in a manner rendering it infeasible for the development of an emergency shelter, or housing for very low, low-, or moderate-income households, including farmworker housing, without making the findings required by this section or without making findings supported by a preponderance of the evidence, or (ii) the local agency, in violation of subdivision (j), disapproved a housing development project complying with applicable, objective general plan and zoning standards and criteria, or imposed a condition that the project be developed at a lower density, without making the findings required by this section or without making findings supported by a preponderance of the evidence, the court shall issue an order or judgment compelling compliance with this section within 60

days, including, but not limited to, an order that the local agency take action on the housing development project or emergency shelter. The court may issue an order or judgment directing the local agency to approve the housing development project or emergency shelter if the court finds that the local agency acted in bad faith when it disapproved or conditionally approved the housing development or emergency shelter in violation of this section. The court shall retain jurisdiction to ensure that its order or judgment is carried out and shall award reasonable attorney's fees and costs of suit to the plaintiff or petitioner, except under extraordinary circumstances in which the court finds that awarding fees would not further the purposes of this section. For purposes of this section, "lower density" includes conditions that have the same effect or impact on the ability of the project to provide housing.

(B) (i) Upon a determination that the local agency has failed to comply with the order or judgment compelling compliance with this section within 60 days issued pursuant to subparagraph (A), the court shall impose fines on a local agency that has violated this section and require the local agency to deposit any fine levied pursuant to this subdivision into a local housing trust fund. The local agency may elect to instead deposit the fine into the Building Homes and Jobs Fund, if Senate Bill 2 of the 2017–18 Regular Session is enacted, or otherwise in the Housing Rehabilitation Loan Fund. The fine shall be in a minimum amount of ten thousand dollars (\$10,000) per housing unit in the housing development project on the date the application was deemed complete pursuant to Section 65943. In determining the amount of fine to impose, the court shall consider the local agency's progress in attaining its target allocation of the regional housing need pursuant to Section 65584 and any prior violations of this section. Fines shall not be paid out of funds already dedicated to affordable housing, including, but not limited to, Low and Moderate Income Housing Asset Funds, funds dedicated to housing for very low, low-, and moderate-income households, and federal HOME Investment Partnerships Program and Community Development Block Grant Program funds. The local agency shall commit and expend the money in the local housing trust fund within five years for the sole purpose of financing newly constructed housing units affordable to extremely low, very low, or low-income households. After five years, if the funds have not been expended, the money shall revert to the state and be deposited in the Building Homes and Jobs Fund, if Senate Bill 2 of the 2017–18 Regular Session is enacted, or otherwise in the Housing Rehabilitation Loan Fund, for the sole purpose of financing newly constructed housing units affordable to extremely low, very low, or low-income households.

(ii) If any money derived from a fine imposed pursuant to this subparagraph is deposited in the Housing Rehabilitation Loan Fund, then, notwithstanding Section 50661 of the Health and Safety Code, that money shall be available only upon appropriation by the Legislature.

(C) If the court determines that its order or judgment has not been carried out within 60 days, the court may issue further orders as provided by law to ensure that the purposes and policies of this section are fulfilled, including, but not limited to, an order to vacate the decision of the local agency and to approve the housing development project, in which case the application for the housing development

project, as proposed by the applicant at the time the local agency took the initial action determined to be in violation of this section, along with any standard conditions determined by the court to be generally imposed by the local agency on similar projects, shall be deemed to be approved unless the applicant consents to a different decision or action by the local agency.

(2) For purposes of this subdivision, "housing organization" means a trade or industry group whose local members are primarily engaged in the construction or management of housing units or a nonprofit organization whose mission includes providing or advocating for increased access to housing for low-income households and have filed written or oral comments with the local agency prior to action on the housing development project. A housing organization may only file an action pursuant to this section to challenge the disapproval of a housing development by a local agency. A housing organization shall be entitled to reasonable attorney's fees and costs if it is the prevailing party in an action to enforce this section.

(l) If the court finds that the local agency (1) acted in bad faith when it disapproved or conditionally approved the housing development or emergency shelter in violation of this section and (2) failed to carry out the court's order or judgment within 60 days as described in subdivision (k), the court, in addition to any other remedies provided by this section, shall multiply the fine determined pursuant to subparagraph (B) of paragraph (1) of subdivision (k) by a factor of five. For purposes of this section, "bad faith" includes, but is not limited to, an action that is frivolous or otherwise entirely without merit.

(m) Any action brought to enforce the provisions of this section shall be brought pursuant to Section 1094.5 of the Code of Civil Procedure, and the local agency shall prepare and certify the record of proceedings in accordance with subdivision (c) of Section 1094.6 of the Code of Civil Procedure no later than 30 days after the petition is served, provided that the cost of preparation of the record shall be borne by the local agency, unless the petitioner elects to prepare the record as provided in subdivision (n) of this section. A petition to enforce the provisions of this section shall be filed and served no later than 90 days from the later of (1) the effective date of a decision of the local agency imposing conditions on, disapproving, or any other final action on a housing development project or (2) the expiration of the time periods specified in subparagraph (B) of paragraph (5) of subdivision (h). Upon entry of the trial court's order, a party may, in order to obtain appellate review of the order, file a petition within 20 days after service upon it of a written notice of the entry of the order, or within such further time not exceeding an additional 20 days as the trial court may for good cause allow, or may appeal the judgment or order of the trial court under Section 904.1 of the Code of Civil Procedure. If the local agency appeals the judgment of the trial court, the local agency shall post a bond, in an amount to be determined by the court, to the benefit of the plaintiff if the plaintiff is the project applicant.

(n) In any action, the record of the proceedings before the local agency shall be filed as expeditiously as possible and, notwithstanding Section 1094.6 of the Code of Civil Procedure or subdivision (m) of this section, all or part of the record may be

prepared (1) by the petitioner with the petition or petitioner's points and authorities, (2) by the respondent with respondent's points and authorities, (3) after payment of costs by the petitioner, or (4) as otherwise directed by the court. If the expense of preparing the record has been borne by the petitioner and the petitioner is the prevailing party, the expense shall be taxable as costs.

(o) This section shall be known, and may be cited, as the Housing Accountability Act.

(Amended by Stats. 2017, Ch. 378, Sec. 1.5. (AB 1515) Effective January 1, 2018.)

## **WELFARE AND INSTITUTIONS CODE - WIC**

### **DIVISION 4.5. SERVICES FOR THE DEVELOPMENTALLY DISABLED [4500 - 4885]** ( *Division 4.5 added by Stats. 1977, Ch. 1252.* )

#### **CHAPTER 1.6. General Provisions [4507 - 4519.8]** ( *Chapter 1.6 heading added by Stats. 2014, Ch. 178, Sec. 4.* )

As used in this division:

**4512.** (a) "Developmental disability" means a disability that originates before an individual attains 18 years of age; continues, or can be expected to continue, indefinitely; and constitutes a substantial disability for that individual. As defined by the Director of Developmental Services, in consultation with the Superintendent of Public Instruction, this term shall include intellectual disability, cerebral palsy, epilepsy, and autism. This term shall also include disabling conditions found to be closely related to intellectual disability or to require treatment similar to that required for individuals with an intellectual disability, but shall not include other handicapping conditions that are solely physical in nature.

(b) "Services and supports for persons with developmental disabilities" means specialized services and supports or special adaptations of generic services and supports directed toward the alleviation of a developmental disability or toward the social, personal, physical, or economic habilitation or rehabilitation of an individual with a developmental disability, or toward the achievement and maintenance of independent, productive, and normal lives. The determination of which services and supports are necessary for each consumer shall be made through the individual program plan process. The determination shall be made on the basis of the needs and preferences of the consumer or, when appropriate, the consumer's family, and shall include consideration of a range of service options proposed by individual program plan participants, the effectiveness of each option in meeting the goals stated in the individual program plan, and the cost-effectiveness of each option. Services and supports listed in the individual program plan may include, but are not limited to, diagnosis, evaluation, treatment, personal care, day care, domiciliary care, special living arrangements, physical, occupational, and speech therapy, training, education, supported and sheltered employment, mental health services, recreation, counseling of the individual with a developmental disability and of his or her family, protective and other social and sociolegal services, information and referral services, follow-along services, adaptive equipment and supplies, advocacy assistance, including self-advocacy training, facilitation and peer advocates, assessment, assistance in locating a home, child care, behavior training and behavior modification programs, camping, community integration services, community support, daily living skills training, emergency and crisis intervention, facilitating circles of support, habilitation, homemaker services, infant stimulation programs, paid roommates, paid neighbors, respite, short-term out-of-home care, social skills training, specialized medical and dental care, telehealth services and supports, as defined in Section 2290.5 of the Business and Professions Code, supported living arrangements, technical and financial assistance, travel training, training for parents of children with developmental disabilities, training for parents with developmental disabilities, vouchers, and transportation services necessary to ensure delivery of services to persons with developmental disabilities. Nothing in this subdivision is intended to expand or authorize a new or different service or support for any consumer unless that service or support is contained in his or her individual program plan.

(c) Notwithstanding subdivisions (a) and (b), for any organization or agency receiving federal financial participation under the federal Developmental Disabilities Assistance and Bill of Rights Act of 2000, Chapter 144 (commencing with Section 15001) of Title 42 of the United States Code, as amended, "developmental disability" and "services for persons with developmental disabilities" mean the terms as defined in the federal act to the extent required by federal law.

(d) "Consumer" means a person who has a disability that meets the definition of developmental disability set forth in subdivision (a).

(e) "Natural supports" means personal associations and relationships typically developed in the community that enhance the quality and security of life for people, including, but not limited to, family relationships, friendships reflecting the diversity of the neighborhood and the community, associations with fellow students or employees in regular classrooms and workplaces, and associations developed through participation in clubs, organizations, and other civic activities.

(f) "Circle of support" means a committed group of community members, who may include family members, meeting regularly with an individual with developmental disabilities in order to share experiences, promote autonomy and community involvement, and assist the individual in establishing and maintaining natural supports. A circle of support generally includes a plurality of members who neither provide nor receive services or supports for persons with developmental disabilities and who do not receive payment for participation in the circle of support.

(g) "Facilitation" means the use of modified or adapted materials, special instructions, equipment, or personal assistance by an individual, such as assistance with communications, that will enable a consumer to understand and participate to the maximum extent possible in the decisions and choices that affect his or her life.

(h) "Family support services" means services and supports that are provided to a child with developmental disabilities or his or her family and that contribute to the ability of the family to reside together.

(i) "Voucher" means any authorized alternative form of service delivery in which the consumer or family member is provided with a payment, coupon, chit, or other form of authorization that enables the consumer or family member to choose his or her own service provider.

(j) "Planning team" means the individual with developmental disabilities, the parents or legally appointed guardian of a minor consumer or the legally appointed conservator of an adult consumer, the authorized representative, including those appointed pursuant to subdivision (d) of Section 4548 and subdivision (e) of Section 4705, one or more regional center representatives, including the designated regional center service coordinator pursuant to subdivision (b) of Section 4640.7, any individual, including a service provider, invited by the consumer, the parents or legally appointed guardian of a minor consumer or the legally appointed conservator of an adult consumer, or the authorized representative, including those appointed pursuant to subdivision (d) of Section 4548 and subdivision (e) of Section 4705, and including a minor's, dependent's, or ward's court-appointed developmental services decisionmaker appointed pursuant to Section 319, 361, or 726.

(k) "Stakeholder organizations" means statewide organizations representing the interests of consumers, family members, service providers, and statewide advocacy organizations.

(l) (1) "Substantial disability" means the existence of significant functional limitations in three or more of the following areas of major life activity, as determined by a regional center, and as appropriate to the age of the person:

(A) Self-care.

(B) Receptive and expressive language.

(C) Learning.

(D) Mobility.
