New Regulations on Oversized Vehicle Parking Take Effect February 9

Camarillo, CA – On January 10, 2024, the Camarillo City Council voted to adopt an Ordinance to amend Camarillo Municipal Code (CMC) Section 11.20.220 to further regulate the parking of oversized vehicles on certain City streets. The amended Ordinance will go into effect on February 9, 2024.

Restricting hours of parking of oversized vehicles promotes the safety of the public roadways for motorists, bicyclists, and pedestrians by eliminating impediments to visibility while driving. The new restrictions add more residential, commercial, and industrial zones to the area covered by the previous Ordinance (see map below). The changes also adjust the hours of restricted oversized vehicle parking to between 9:00 a.m. and 5:00 p.m., Mondays through Fridays, including holidays.

Prior to any enforcement of the new Ordinance, the City will post signage as required by Vehicle Code section 22507 and provide ample information on the new parking restrictions to the community through the City's various communication channels. The Camarillo Police Department will also conduct proactive outreach to oversized vehicle owners, when possible, to advise them of the restrictions and when to expect enforcement to begin.

The City expects to install the new signage by the end of February. Initial violations in the first 30 days of enforcement will receive an educational warning. Enforcement after that will result in citations.

By removing oversized vehicles on certain City streets where their parking can cause impaired visibility for vehicles entering and exiting driveways, the expanded area of oversized vehicle restrictions supports the general health and safety of the community and those that use the streets and sidewalks. Additionally, the restrictions are intended to enhance the City's business environment by largely eliminating parking of oversized vehicles in business areas during regular business hours.
