

IMPORTANT SOLAR INFORMATION

- **Solar is required for all new homes over 2000 square feet & new commercial buildings.**
- **The interconnect Agreement with Xcel/Holy Cross utility companies should be applied for as soon as the final electrical meter is installed, as this process could take several months.**
- **The solar needs to be installed and connected prior to a Temporary Certificate of Occupancy (TCO) or a Certificate of Occupancy (CO) inspection so that the Final Home Energy Rating (HERS) or Final IgCC Commissioning Report can be completed.**
- **The Final State Solar Electrical inspection is required prior to a TCO inspection.**
- **Solar Permit submittal information is on our website here;
