SUBMITTAL REQUIREMENTS

The following summary is provided for the applicant's benefit. However, fulfilling the requirements of this summary checklist does not relieve the applicant from the responsibility of meeting the regulations in the Zoning Ordinance, subdivision regulations, and other development related ordinances of the City of El Campo.

A complete application must include:

- **Application Fee:** *Varies, see fee schedule*
- **2 hard copy sets of all plans for all fire protection system reviews** – *See plan requirements below*
- **1 digital copy set of all plans for all fire protection systems** – *See plan requirements below*

The City's staff may require other information and data for specific required plans. Approval of a required plan may establish conditions for construction based upon such information.

Fire Protection System Plan Requirements

Fire Underground

1. Installer's state license
2. Fire sprinkler system 13 or 13R with remote fire department connection; provide location of fire department connection within 100 ft. of a fire hydrant.
3. Manufacture specifications and cut sheets for vault, fire department connection, valves, fire hydrants, and pipe.
4. Diagram that shows location of thrust blocks.
5. Specifications on thrust blocks construction and method of backfill.

Fire Sprinkler System 13, 13R, or 13D

1. Installer's state license
2. Fire flow calculation from nearest fire hydrants
3. Hydraulic calculation for system
4. Manufacture specifications and cut sheets for valves, sprinkler heads, hangers, pipe and other devices (i.e. jockey pumps, air compressors) installed on system.
5. Location of inspector test and drains.

Fire Alarm System

1. Installer's state license
2. Sequence of operation
3. Battery calculations
4. Manufacture specifications and cut sheets for all devices installed on system.
5. Location and number of HVAC smoke detectors tamper switches, and other supervised interconnects.
6. UL listing of monitoring station.

Fixed Fire Extinguishing Systems

1. Installer's state license
2. Sequence of operation
3. Manufacture specifications and cut sheets for system, interconnects, and nozzles.
4. Location of manual activation devices
