 Councilwoman Karen Davis
 Councilman Dale Swain
 Vice-Mayor Lance Lowery

ALSO PRESENT: Mike Eastburn, City Manager/Director of Public Works
 Felix & Micah Adams, City Attorney's
 Christina Dixon, City Clerk
 Shelley Ragan, Finance Director
 Sumter County Sheriff's Office
 Kristin Green, Director of Zoning & Code Compliance
 Christina Simmons, Customer Service/Information Systems Director
 Ricardo Lafont, HR Director

Mayor Simmons passed the gavel to Vice-Mayor Lowery.

CONSENT AGENDA

1. APPROVAL OF THE MINUTES FROM THE REGULAR COUNCIL MEETING HELD ON JANUARY 9, 2023.
2. APPROVAL OF THE FINANCIAL REPORTS.

Motion made by Councilwoman Thies, and seconded by Councilwoman Davis, to approve the minutes from the Regular Council Meeting held on December 5, 2022. Motion carried 5/0

Motion made by Councilwoman Thies, and seconded by Councilwoman Davis, to approve the Financial Reports. Motion carried 5/0.

CITIZEN'S FORUM (LIMITED TO 3 MINUTES PER PERSON)

Guy Prevatt II, 113 West Street

Discussion Subject:

- Notice Letter regarding removal from the BACE (Building of Adjustment and Code Enforcement) Board addressed to Guy Prevatt
- Mr. Prevatt wants his right for due process (City Attorney, Micah Adams stated Mr. Prevatt has the right to speak regarding his removal from the BACE Board and the appropriate time would be at the end of New Business)
- Mr. Prevatt requested a Special Meeting, or the matter be placed on the agenda for the next meeting (Vice-Mayor Lowery stated the City's legal counsel would advise the City how to proceed on the matter)

PRESENTATION

1. WATER AND WASTEWATER RATE STUDY PRESENTED BY ANDREW GREENE, FLORIDA RURAL WATER ASSOCIATION.

Andrew Greene, Florida Rural Water Association

Discussion Subject:

Bushnell, City of
FY23 50% PF
Fiscal Year: 2023
Proposed Rate Adjustments

This rate scenario has applied an annual Consumer Price Index (CPI) shown in figure 1, increase on all budgeted amounts. If the CPI for any given year exceeds percentages in Figure 1, rates will need to be increased by the percentage difference. The proposed rate increases (see figure 2) will allow the system to maintain an Unrestricted Reserve of over 90 days of O&M Expense. This rate scenario also assumes that Principal Forgiveness on upcoming SRF loans are 50%.

CORRESPONDENCE

CITY CLERK REPORT AND REQUEST – CHRISTINA DIXON

CITY MANAGER/DIRECTOR OF PUBLIC WORKS REPORT AND REQUEST- MIKE EASTBURN

City Manager, Mike Eastburn
Discussion Subject:

- Grant updates

CITY ATTORNEY REPORT AND REQUEST – FELIX ADAMS (MICAH ADAMS)

City Attorney, Micah Adams
Discussion Subject: BACE Board Member removal

- Ms. Adams clarified the removal of Mr. Prevatt (BACE Board Member) and previously rendered a legal opinion on the matter (Mr. Prevatt was given notice with the ability to respond)

There was consensus (Mayor Simmons and Council Swain oppose) from City Council to uphold the action that was taken at the December 5, 2022 City Council Meeting regarding the motion made by Mayor Spaude, and seconded by Councilman Lowery, to remove Guy Prevatt from the BACE Board with reasonable notice. The motion carried 4/1 with Councilman Swain casting a Nay vote.

STAFF REPORT AND REQUEST:

CUSTOMER SERVICE AND INFORMATION SYSTEMS DIRECTOR – CHRISTINA SIMMONS

FINANCE DIRECTOR – SHELLEY RAGAN

Finance Director, Shelley Ragan
Discussion Subject:

- Reminder: Auditors will be at the City for the next couple of weeks

WATER & WASTEWATER

HUMAN RESOURCES DIRECTOR – RICARDO LAFONT

ELECTRIC UTILITY

1. NEXT BACE MEETING TO BE HELD ON TUESDAY, FEBRUARY 14, 2023 AT 5:30 P.M.

Director of Zoning & Code Compliance, Kristin Green

Discussion Subject:

- Reminder: BACE Meeting

SUMTER COUNTY SHERIFF'S DEPARTMENT – LT. MICHAEL CASSIDY

CITY COUNCIL COMMENTS AND INFORMATION

Vice-Mayor Lowery

Discussion Subject:

- Apology to Councilman Swain for the incorrect information regarding the road in Bushnell

DEPARTMENT REPORTS

ADJOURN COUNCIL MEETING

Motion made by Councilman Swain, and seconded by Vice-Mayor Lowery, to adjourn the meeting.
Motion carried 5/0.

If any person decides to appeal any decision of the City Council, with respect to any matter considered at such meeting or hearing, he or she will need a record of such proceeding, and that, for such purpose, he or she may need to ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based. Fla. Stat. Sec.

CONSENT AGENDA

AN ORDINANCE OF THE CITY OF BUSHNELL, FLORIDA, PROVIDING FOR A SMALL SCALE COMPREHENSIVE PLAN AMENDMENT DESIGNATING CERTAIN REAL PROPERTY ANNEXED INTO THE CITY AS CM, COMMUNITY MIXED USE, ON THE FUTURE LAND USE MAP; AND PROVIDING AN EFFECTIVE DATE

WHEREAS, the City of Bushnell, Florida, has previously adopted a Comprehensive Plan which incorporated a Future Land Use Map showing the land use classification of all property located within the City limits; and

WHEREAS, subsequent to the adoption of the Comprehensive Plan and Future Land Use Map, the following described real property owned by Cross Creek Hills, LLC., was annexed into the City:

SEE EXHIBIT "A" ATTACHED HERETO AND INCORPORATED HEREIN BY REFERENCE;

and

WHEREAS, the City Council of the City of Bushnell has determined that said land, as described in Exhibit "A" should be designated as CM, Community Mixed, land use category on the Future Land Use Map; and

WHEREAS, this amendment to the Comprehensive Plan is pursuant to the provisions for small scale amendments set forth in Chapter 163, Florida Statutes; and

WHEREAS, the Comprehensive Plan's Future Land Use Map should be amended to reflect this change.

NOW THEREFORE, BE IT ORDAINED AND ESTABLISHED BY THE CITY COUNCIL OF THE CITY OF BUSHNELL, FLORIDA, AS FOLLOWS:

1. The Future Land Use Map of the Comprehensive Plan is hereby amended to designate the following described land as CM, Community Mixed, land use classification:

SEE EXHIBIT "A" ATTACHED HERETO AND INCORPORATED HEREIN BY REFERENCE

2. This Ordinance shall take effect upon its enactment by the City Council.

THE PROPOSED Ordinance was read at the regularly scheduled meeting of the Bushnell City Council held on February 6, 2023. Upon motion made by Councilwoman Davis, and seconded by Councilwoman Thies, it was moved that the ordinance be published in a newspaper of general circulation in the City of Bushnell, Sumter County, Florida, in accordance with the requirements

of Florida Statutes, and that the ordinance again be presented to the City Council for a second reading and a public hearing at a regular or special meeting of the City Council, such meeting to be held not sooner than ten (10) days from the date of publication. Upon the matter being submitted to a vote, the results were as follows:

Mayor/Councilman Jessie Simmons, Jr.	Yea
Councilwoman Margaret A. Thies	Yea
Vice-Mayor/Councilman Lance D. Lowery	Yea
Councilwoman Karen Davis	Yea
Councilman Dale Swain	Yea

THE ORDINANCE having been passed on the first reading, it was moved by _____ that the ordinance be passed and ordained on second reading pursuant to notice of public hearing published on _____, 2023, in the Sumter Sun Times. PUD "Planned Unit Development" This district is established to implement comprehensive plan policies for promoting smart growth principles, negotiating innovative development concepts, design amenities, and measures intended to encourage unique planning concepts not attainable with certainty under conventional zoning or to protect environmentally, historically, or archaeologically significant sites.

A. Residential PUD. Single- and Multi-family residential dwelling units provided, however PUD's located within the single-family overlay district of the Future Land Use Map utilizing multi-family units within the PUD cannot exceed 49% of the housing stock, on-site recreational facilities and on-site day care facilities, convenience store and personal services intended to service the principal use.

B. Community Mixed Use PUD. Conventional single family attached, conventional single family detached, townhomes, multi-family units, residential units above commercial; commercial uses, such as local retail sales and service, offices, and service facilities; educational and civic uses. Other uses deemed appropriate and incidental to the primary use by the BACE.

1. Design Standards

A) A minimum land area of ten (10) acres.

B) The proposed uses within the Development must comply with the following table:

Use	Minimum	Maximum
Residential	25%	65%
Commercial	5%	30%
Parks & Open Space	25%	

C) The location of the commercial center so that it is easily accessible by pedestrians from as many residential areas as possible.

D) A network of open space in the form of squares, plazas, parks, greens and similar open space design.

E) Individual buildings shall be related to each other in design, masses, materials, placement and connections to provide a visually and physically integrated development.

F) There shall be an adequate amount of pedestrian walks to prevent pedestrian use of vehicular ways and parking spaces and to separate pedestrian walks from general vehicular traffic.

2. Performance Standards

A) The proposed density and intensity standards must comply with the following table:

Use	Minimum	Maximum
Residential Density within the Center of Development	5 units/acre	8 units/acre
Residential Density within the Edge of Development	1 unit/acre	4 units/acre
Parks & Open Space	25%	N/A
	FAR	ISR
Commercial Uses within Commercial Center	.50	.70
Commercial Uses within the Edge of Development	.25	.70

C. Neighborhood Mixed Use PUD. Conventional single family attached, conventional single family detached, townhomes, residential units above commercial; commercial uses, such as neighborhood retail sales and service, and offices; educational and civic uses. Other uses deemed appropriate and incidental to the primary use by the BACE.

1. Design Standards

A) A minimum land area of ten (10) acres.

B) The proposed uses within the Development must comply with the following table:

Use	Minimum	Maximum
Residential	40%	65%
Commercial	5%	30%
Parks & Open Space	20%	

- C) The residential density shall not exceed 4 units per acre.
- D) The location of the commercial center so that it is easily accessible by pedestrians from as many residential areas as possible.
- E) A network of open space in the form of squares, plazas, parks, greens and similar open space design.
- F) Individual buildings shall be related to each other in design, masses, materials, placement and connections to provide a visually and physically integrated development.

2. Performance Standards

- A) Non-residential uses shall not exceed a Floor Area Ratio (FAR) of 0.20.
- B) Non-residential uses shall not exceed a Maximum Impervious Surface Ratio (ISR) of 0.50.
- C) A single commercial use cannot exceed 30,000 square feet in size.

D. Commercial PUD. Commercial uses as permitted under the C-1, C-2 and C-3 zoning districts and other uses deemed appropriate and incidental to the primary use by the BACE.

E. Industrial PUD. Industrial uses as permitted under the I-1 and I-2 zoning district, commercial uses intended to service the primary uses and other uses deemed appropriate and incidental to the primary use by the BACE.

1. Maximum density/intensity. The maximum density/intensity allowed within the PUD shall be as allowed within the overlay land use districts as delineated on the Future Land Use Map.
2. PUD land uses. Land uses proposed within a PUD must conform to uses allowed within the land use designations of the Future Land Use Map of the Comprehensive Plan.
3. Minimum parcel size. The minimum size of any parcel shall be five (5) acres for commercial or industrial PUDs. The minimum size for any residential PUD shall be ten (10) acres.
4. Unified ownership. All land within the PUD shall be under the ownership or control of the applicant at the time of execution of the development agreement whether the applicant be an individual, partnership or corporation, or groups of individuals, partnerships or corporations.
5. Setbacks and buffering. Setback requirements within the PUD shall be flexible; however, in no case shall the setback be less than ten (10) feet between structures or zero-lot-line if structures abut.
6. Open space requirements. A minimum of twenty (20) percent for mixed use, commercial or industrial shall be established and maintained as common open space (which includes common green space left in its natural condition) or common facilities. No area shall be accepted as common open space unless it satisfies the following standards:
 - A) Common open space shall be dedicated to and useable by all residents of the planned unit development or specific phase thereof.
 - B) Common open space set aside for recreational use shall be suitably improved for its intended use. Such improvements may include aesthetic, amenities, buffering or recreational facilities.
 - C) Common green space set aside for the preservation of natural features or listed species habitats, or for buffering purposes shall remain undisturbed and be protected by conservation easements.
 - D) Common open space shall not be used for the construction of any structures other than recreational facilities and incidental maintenance buildings.
 - E) Common open space shall be maintained by the Property Owners Association.
7. Pre-application conference. It is required that a pre-application conference be held with the Zoning Administrator by the developer or the developer's representatives in order to verify the steps necessary for application and review, and to discuss potential issues regarding the PUD proposal.

8. Application. Application shall be made to the City utilizing the rezoning application form provided by the City. The application shall be accompanied by the appropriate review fee, seven (7) copies of the Conceptual Development Plan and supporting documentation prepared in accordance with the requirements of this Code and one (1) electronic copy in a PDF format.

A) Conceptual development plan. In order to implement the goals and policies of the Comprehensive Plan and to streamline the development review process, the applicant shall prepare a Conceptual Development Plan to be submitted prior to the first rezoning hearing for review by the City staff. The Conceptual Plan shall be drawn to a scale acceptable to the Zoning Administrator but in no instance to a scale smaller than one inch equals one hundred feet (100) and shall include the following:

1. Boundary of subject property.
2. Major natural features such as lakes, streams, wetlands, and natural communities.
3. Existing or proposed streets abutting the project and within a three hundred foot (300') area surrounding it.
4. Generalized location map and legal descriptions, including acreage.
5. Proposed land use types and their location.
6. Gross densities.
7. Typical lot sizes showing setbacks and dimensions.
8. Number of units and type.
9. Square footage for commercial or industrial buildings.
10. Adjacent zoning.
11. Anticipated internal major road network.
12. Maximum building heights.
13. Anticipated phasing plan (If applicable).
14. A statement of the proposed method of providing water service, fire protection, sewage disposal and stormwater management. Indicate location of nearest potable water, sanitary sewer and reuse lines to the project.
15. Percentage and acreage of open space and location.
16. Percentage and acreage of parks/recreation and location.
17. Typical road section.
18. Soils and 100-year flood prone areas.
19. Project name.
20. Existing topography at one-foot contours
21. Net living area for each type of dwelling unit.
22. Parking and loading facilities.
23. Aerial indicating the approximate size and location of major tree groupings and those trees with a diameter of least sixteen inches (16").

Required Documentation. The application for a PUD shall require documentation and/or analyses in support of the application and shall include:

1. Traffic Impact Study (TIS). The applicant shall submit a TIS pursuant to Chapter 65 of this Code.
2. Preliminary Environmental Assessment prepared by an ecologist, biologist, or similar professional.
3. Preliminary Concurrency Analysis. The analysis shall include calculations of the projected demands generated by the proposed development on public facilities and the availability of such facilities to serve the proposed project.
4. Any other information deemed pertinent by the Zoning Administrator, Board of Adjustment and Code Enforcement, and the City Council.

9. Application review process.

- A) The approval process shall be the same as that followed for rezoning.
- B) City Staff Review. Once the application has been determined to be complete by the Zoning Administrator the application will be reviewed by City staff for compliance with all applicable City regulations.
- C) Re-submittal. Re-submittal of the Conceptual Development Plan reflecting revisions required by Staff comments shall be made at least ten (10) working days prior to the scheduled Board of Adjustment and Code Enforcement hearing.

D) Board of Adjustment and Code Enforcement action. Staff shall prepare a report of finding for presentation at a public hearing by the Board of Adjustment and Code Enforcement. The Board of Adjustment and Code Enforcement shall consider the application, all supporting documentation, and the Staff report at a regularly scheduled meeting to determine if the submittal meets the requirements of this Code. Upon consideration of the staff and public comments, the Board shall take one of the following actions:

1. Postpone the consideration of the application until the next regularly scheduled meeting to allow for the resolution of outstanding issues.
2. Recommend that the application be approved.
3. Recommend that the application be approved with conditions.
4. Recommend that the application be denied.

E) City Council approval. The City Council shall consider the submitted plan and rezoning application at a regularly scheduled meeting to determine if the submittal meets the requirements of this Code. Upon consideration of the comments of the staff, the public, and the recommendation of the Board of Adjustment and Code Enforcement, the City Council shall take one of the following actions:

1. Postpone the consideration of the application until the next regularly scheduled meeting to allow for the resolution of outstanding issues.
2. Approve the application.
3. Approve the application with conditions.
4. Deny the application.

10. Alterations to conceptual development plan. All alterations to the approved Conceptual Development Plan shall be classified as either substantial or non-substantial alterations as determined by the Zoning Administrator. The following criteria shall be used to identify a substantial alteration.

- A) A change which would include a land use not previously permitted under the approved PUD zoning.
- B) A change that would increase the land use intensity by ten (10) percent within any development phase without a corresponding decrease in some other portion of the overall PUD.
- C) A change that would require an amendment to the conditions approved by the City Council.

Alterations to the Conceptual Development Plan which are determined to be substantial must be submitted with plans, support data and fee for review by City staff, the Board of Adjustment and Code Enforcement, and the City Council.

11. Execution of master development agreement. The second reading of the ordinance for designating any land as a PUD shall not take place until the developer has provided an executed copy of the master development agreement to the Zoning Administrator or designee. The document shall be a fully corrected copy which addresses all issues discussed prior to the scheduled second reading. The document shall also include reduced copies of the revised Conceptual Development Plan exhibits. If there are no additional requirements, corrections or conditions attached by the City Council at the second reading, the executed document shall be signed by the City Manager and Mayor and forwarded to the County Clerk for recording. If there are additional requirements, corrections or conditions attached by the City Council at the second reading, the applicant shall revise the development agreement and Conceptual Development and return the documents to the Zoning Administrator within thirty (30) days for execution and recording. The requirement to return the document within thirty (30) days shall be specified by the City Council as a condition for approval of the rezoning.

12. Timely resubmission.

- A) Failure to meet any of the resubmission deadlines cited above shall require the filing of a new application, including the appropriate review fees.
- B) Extension of re-submittal deadlines. The Zoning Administrator may extend the deadlines cited above when warranted by unforeseeable events. A request for extension shall be filed in writing with the City explaining the circumstances justifying the extension.

13. Expiration of master development agreement. Any master development agreement executed and recorded after the adoption of this development code shall be required to include an expiration date or series of expiration dates tied to specific improvements or phases. Such date(s) shall be determined based upon the size of the project, installation of physical improvements, and any other factors pertinent to the specific proposal. If the City should determine that the developer has failed to satisfy the requirements necessary to avert expiration, the development agreement shall become null and void, and approval of any additional final development plans for the PUD shall not be permitted without resubmission and approval of a new development agreement in accordance with the procedures established in the development code.
14. Final development plan approval. Unless otherwise noted within the development agreement, final development approval for subdivisions or site plans within the PUD shall be required in accordance with the general procedures established by this Code.

AN ORDINANCE OF THE CITY OF BUSHNELL, FLORIDA, DESIGNATING CERTAIN REAL PROPERTY ANNEXED INTO THE CITY AS CMUPUD, COMMUNITY MIXED USE PLANNED UNIT DEVELOPMENT, ZONING DISTRICT, AND PROVIDING AN EFFECTIVE DATE

WHEREAS, the City of Bushnell, Florida, has adopted a zoning ordinance assigning certain land use classification to all real property located within the City limits; and

WHEREAS, certain property, as described in Exhibit "A" attached hereto and incorporated herein, has been annexed into the City; and

WHEREAS, the City Council of the City of Bushnell, Florida, has determined that the most appropriate zoning classification for the property is CMUPUD, Community Mixed Use Planned Unit Development.

NOW THEREFORE, BE IT ORDAINED AND ESTABLISHED BY THE CITY COUNCIL OF THE CITY OF BUSHNELL, FLORIDA, AS FOLLOWS:

1. The zoning classification of the land described in Exhibit "A" and located within the City limits of the City of Bushnell, Florida, is hereby designated as CMUPUD, Community Mixed Use Planned Unit Development, zoning district.

2. This Ordinance shall take effect upon its enactment by the City Council.

THE PROPOSED Ordinance was read at the regularly scheduled meeting of the Bushnell City Council held on _____. Upon motion made by _____, and seconded by _____, it was moved that the ordinance be published in a newspaper of general circulation in the City of Bushnell, Sumter County, Florida, in accordance with the requirements of Florida Statutes, and that the ordinance again be presented to the City Council for a second reading and a public hearing at a regular or special meeting of the City Council, such meeting to be held not sooner than ten (10) days from the date of publication. Upon the matter being submitted to a vote, the results were as follows:

Mayor/Councilman Jessie Simmons Jr. _____

Councilwoman Margaret A. Thies _____

Vice-Mayor/Councilman Lance D. Lowery _____

Councilwoman Karen Davis _____

Councilman Dale Swain _____

THE ORDINANCE having been passed on the first reading, it was moved by _____ that the ordinance be passed and ordained on second reading pursuant to notice of public hearing published on _____, 2023, in the Sumter Sun Times. This Motion was seconded by _____, and upon being submitted to a vote, the results were as follows:

Mayor/Councilman Jessie Simmons Jr. _____

Councilwoman Margaret A. Thies _____

Vice-Mayor/Councilman Lance D. Lowery _____

Councilwoman Karen Davis _____

Councilman Dale Swain _____

Approved by me this ____ day of _____, 2023.

***APPROVAL OF RESOLUTION 2023-01, A
RESOLUTION OF THE CITY OF BUSHNELL
SUPPORTING THE SCENIC SUMTER
HERITAGE BYWAY'S EFFORTS TO SEEK A
CORRIDOR EXTENSION.***

RESOLUTION 2023-01

A RESOLUTION OF THE CITY OF BUSHNELL SUPPORTING THE SCENIC SUMTER HERITAGE BYWAY'S EFFORTS TO SEEK A CORRIDOR EXTENSION

WHEREAS, the Scenic Sumter Heritage Byway was designated as a Florida Scenic Highway in 2013 by the Florida Department of Transportation (FDOT); and

WHEREAS, the Scenic Sumter Heritage Byway Organization has been established to protect, enhance and preserve the intrinsic resources of the designated corridor, while supporting their use for appropriate economic development, recreation and tourism interests; and

WHEREAS, the current Scenic Sumter Heritage Byway's limits traverse a 62-mile corridor that follows the following route: Beginning on SR 50 at the Van Fleet Trail and proceeding west to CR 478A and then northward along CR 478A to SR 471 to the City of Webster. North of Webster the byway forms a loop that includes SR 471 to CR 48 and then westward to CR 747 then southward on CR 747 to CR 478. The corridor includes all of CR 478 from SR 471 to US 301 where the byway then proceeds southward along US 301 to CR 673. The Byways proceeds westward along CR 673 to CR 476B and then northward to CR 476. The byway proceeds eastward along CR 476 to US 301, northward along US 301 to CR 470 where it proceeds westward to SR 44 and then to the Sumter/Citrus County Line; and

WHEREAS, the byway organization now seeks to extend the corridor limits an additional 17 miles to generally include CR 476 (westward from CR 476B), then northward on CR 575 to CR 48 then eastward on CR 48 to Battlefield Parkway and then southward on Battlefield Parkway back to CR 476 (attached map) to help better recognize the intrinsic resources of Sumter County and ensure preservation of the County's history, heritage, picturesque scenic beauty while bringing increased economic benefit to the community; and

NOW THEREFORE, BE IT RESOLVED, by the City of Bushnell supports the Scenic Sumter Heritage Byway Organization's efforts to seek a corridor extension to its current byway limits, including Battlefield Parkway, which is located within the limits of the City of Bushnell.

Upon motion made by _____, and seconded by _____, this Resolution was passed and adopted by the City Council of the City of Bushnell, Florida, at a City Council meeting held on March 13, 2023. The vote upon this Resolution was as follows:

Mayor/Councilman Jessie Simmons Jr.

Councilwoman Margaret A. Thies

Councilwoman Karen Davis

Vice-Mayor/Councilman Lance D. Lowery

Councilman Dale Swain

This Resolution was adopted by the City Council of the City of Bushnell, Florida, on the 13th day of March, 2023, at a regularly scheduled meeting of the City Council.

Approved by me this 13th day of March, 2023.

***APPROVAL OF THE PROPOSAL FROM
WOODARD & CURRANT TO MOVE FORWARD
WITH THE DESIGN PLAN, PERMITTING
SERVICES, AND FUNDING SUPPORT FOR
THE WASTEWATER TREATMENT PLANT.***

Via Electronic Mail

February 28, 2023

Michael Eastburn, City Manager/Director of Public Works
City of Bushnell, FL
117 E Joe P. Strickland Jr. Ave.
Bushnell, FL 33513

Re: New Wastewater Treatment Design and Permitting Services and Funding Support
City of Bushnell, FL

Dear Mr. Eastburn:

BACKGROUND

Woodard & Curran, Inc (the Engineer) is proposing to provide engineering services for preliminary investigations, preliminary and interim design, permitting and funding administration support services for the new Bushnell Wastewater Treatment Facility (WWTF), to replace the existing wastewater treatment system.

This project and proposed scope are the outcome of the recommendations included in the Clean Water (CW) Facilities Plan that was completed by the Engineer, dated October 2022 and approved by DEP SRF in a letter dated January 3, 2023.

The preliminary design of the new WWTF will include:

Liquid Treatment:

- A. Headworks: Installation of a new headworks to screen out solids from the incoming wastewater. The design includes two influent mechanical screens on a raised platform adjacent to the recommended biological treatment reactors. A washer/ compactor will be provided in addition to the screen to wash, dewater and compact the solids collected by the screen. These solids will be collected in a dumpster for disposal and the organics will be returned to the influent channel.
- B. Grit removal: Design includes one vortex style system including a grit classifier and a grit pump for disposal of the collected grit. The grit removal equipment will be located on an elevated platform after the headworks screening area.
- C. Flow Equalization: Based on the future projected flows to the WWTF, the construction of one additional 250,000 gallons equalization tank is incorporated into the design, to have an overall equalization volume of 500,000 gal.

Flow from the new headworks will flow to a new distribution box which will divide flow between the new and existing 50-foot diameter equalization tanks. Each equalization tank will be equipped with an aeration system to provide mixing and reduce odors in the equalization tanks. Two submersible pumps will be provided in each equalization

tank to pump flow from a sump in the equalization tank to the biological treatment reactors. Blowers with enclosures will be provided nearby to provide air to the system.

- D. Biological Treatment: From the equalization tank, or the headworks (if the equalization tanks are to be bypassed) the flow will enter a new biological treatment system. As recommended from the Alternatives Evaluation in Section 4 and 5 of the Facilities Plan, a Two-stage Bardenpho Oxidation Ditch will be designed for the biological and nutrient treatment process, including aerobic and anoxic zones.

The ditches will be equipped with variable speed surface aerators to provide oxygen to the aeration zones and to keep the mixed liquor moving around the ditch. Low speed submersible mixers will be provided to keep the anoxic zones mixed.

Flow control denitrification gates should be installed to divert and control the recycle of mixed liquor from the aerobic zone to the anoxic zone. The expanded oxidation ditch system will achieve annual average effluent TN concentration of 10 mg/L, based on the effluent discharger permit. To improve process monitoring and control, DO, nitrate and ORP probes are incorporated into the design.

- E. Secondary Clarifiers: Flow from oxidation ditches will then go to another distribution structure that will distribute flows evenly between the two new 55-foot diameter secondary clarifiers. The secondary clarifiers will be designed with spiral rake type mechanisms with pier support, dual arm scum skimming, a full radius scum trough, and an Energy Dissipating Inlets (LA-EDI-II) to produce uniform flow into the feedwell and promote flocculation within the feedwell.

Peripheral current density baffles will be provided to enhance settling and minimize short-circuiting within the tanks. Weirs and baffles will be provided around the exterior to collect the effluent. An algae control system will be provided to prevent algae buildout on the weirs and baffles.

- F. RAS/ WAS Pump Station: A new RAS/ WAS pumping system will be installed adjacent to the proposed secondary clarifiers to manage sludge from the clarifiers and provide adequate capacity for sludge return or wasting under various flow conditions.
- H. Disinfection: The existing Chlorine Contact Chamber (CCC) has enough capacity to handle future peak hourly flow. To meet future flows, the sodium hypochlorite pumping system needs to be upgraded. In the design, the two existing sodium hypochlorite pumps will be replaced by 3 new peristaltic pumps to provide the necessary capacity and provide redundancy. Concrete pads for existing sodium hypochlorite storage tanks will be repaired.
- I. Effluent Pumping: A new effluent pump station will be constructed adjacent to the existing effluent pump station and will distribute effluent to the recommended effluent discharge. The effluent pump station will be constructed with expansion provisions to accommodate for future effluent pumps if the WWTF were to be expanded.
- J. In-Plant Reuse Effluent Pump Station: A new in-plant recycle pumping system will be provided to pump side streams, such as scum from secondary clarifiers, sludge thickening and dewatering filtrate, plant wash and spillage as needed. Existing in-plant recycle pump lift stations that will be reused, will be upgraded to accommodate future plant recycle flows.

- K. Reuse Effluent Pumps: A new effluent reuse system will be provided to distribute plant effluent to the WWTF, as needed. A pumping system will be provided to draw disinfected effluent from the effluent channel of the chlorine contact tanks and distribute it to the WWTF. The system will be designed to maintain a constant system discharge pressure at variable flow demands and will supply water throughout the WWTF as listed below:

- Wash hose stations;
- The screenings wash press system at the proposed Headworks;
- Polymer dilution water and water supply to the sludge dewatering system;
- Flushing connections to the clarifiers scum pits;
- Flushing connections to the sludge and scum pump piping; and
- Chemical feed dilution water.

- L. Effluent Storage Ponds: Pipe connection between existing storage ponds and effluent pump station wet well needs to be replaced and upsized. Currently, this pipe is not functioning and stored water in the ponds cannot be sent back to the effluent pump station or pumped to the sprayfields disposal. The design includes replacing and upsizing the piping to make the ponds functional.

- M. Effluent Disposal: Per the Alternative Analysis completed in Sections 4 and 5 of the Facilities Plan, it is recommended that a combination of sprayfield and rapid infiltration basins (RIBs) be used for future effluent disposal at the WWTF. The existing sprayfield area will be reduced for the plant expansion. Reduction in sprayfield capacity is estimated to be approximately 0.2 MGD. This will leave approximately 0.3 MGD of existing sprayfield area. This area will be maintained, and any required improvements will be provided to ensure proper operation for the next 20 years.

The remainder of the plant future effluent flow will be disposed through new 0.9 MGD RIBs system on a parcel adjacent to the existing WWTF, owned by the nearby landfill. The use of this land for RIBs is contingent upon an agreement between the City and the landowner. The new Plant Effluent Pump Station will be designed to pump to both Sprayfield and RIBs.

The use of RIBs will be reviewed by FDEP based on the Geotech and Hydrogeo work on the adjacent parcel, previously completed by a sub-contractor to the landfill site owner. If additional Geotech or Hydrogeo is required for design or by the FDEP on this property, this is to be provided by the property owner or may be added to W&C's scope.

The proposed scope herein is for the design of a sprayfield/RIBs system. If the City decides to pursue alternative or additional means of disposal, that design and permitting may be added to the Engineer's scope.

- N. Residuals Management: The following is a description of the design components for residuals management at the WWTF:

Pre-Sludge Thickening: Solids from the secondary clarifiers will be pumped to a recommended Rotary Drum Thickener (RDT) to pre-thicken the waste activated sludge (WAS) prior to digestion. By pre-thickening, less volume is required in the digestion tanks. The RDT will be on an elevated platform to allow thickened sludge to gravity flow to the digesters. In the design, a bypass will be provided to the RDT to allow for maintenance of the RDT and the option to send un-thickened WAS directly to the digesters to help maintain around 2-3 percent solids in the digesters.

Aerobic Digestion: Currently the WWTF has one 50-foot diameter aerobic digester to digest the facility's solids. The existing digester will be rehabilitated with new aeration/mixing system to handle pre-thickened sludge. Although plant residuals are thickened, still more capacity is needed to aerobically digest the solids. Repurposing one of the four 0.136 MG existing SBR tanks into an aerobic digester should meet plant future generated solids.

The repurposed SBR and the existing digester will be designed and supplied with aeration equipment, a foam spray control system, and a scum and grease removal system. A distribution box will be provided in the design, between the tanks to distribute flow between the two tanks.

Dewatering: Digested sludge will be pumped from the aerobic digesters to the proposed expanded existing dewatering shed to dewater the solids prior to disposal. The design includes one centrifuge skid system, to incorporate a WAS transfer pump, the centrifuge itself, and the polymer system and conveyor to convey dewatering solids to a dumpster for collection prior to disposal.

The existing centrifuge will be refurbished by adding VFD, inspect and provide maintenance for the gearbox, rotating assembly, bowl, conveyor balance and replace all bearings, seals, O-rings, and gaskets.

Disposal of the dewatered biosolids will continue to be hauled to the nearby dedicated Class I solid waste landfill. There is a ten-years agreement between the City's WWTF and the landfill to accept all residual solids produced by the facility.

O. New Operations Building

A new prefabricated, modular building including lab space, a break room, locker rooms, electrical room, a conference room, and offices is included in the design.

SCOPE OF SERVICES

Project Management: This task occurs concurrently with all the steps outlined below and includes all those tasks necessary to inform the Client of the project's needs; monitor and control the design process; coordinate information and meetings; coordinate with subcontractors and in-house design staff; reach timely decisions to meet the project schedule; prepare reports to the Client on the progress of the project and status of schedule and budget; coordinate and submit permit applications to the relevant agencies; and technical oversight of project activities.

Project Kickoff: Attend one (1) in person meeting with Client staff and plant operators to confirm Engineer's understanding of the Client's goals for the project, the written scope of work, project deliverables and milestones, project schedule and project budget.

Monthly Check Ins: Attend ten (10) monthly check in meetings via Teams with the Client to review progress and key items.

Deliverable Milestones: At the 30% and 60% design milestones, Engineer will coordinate design review workshops in person with the Client, to receive feedback and input at these key milestones.

PHASE 1.0: PRELIMINARY INVESTIGATION

1.1 Survey (Sub-Consultant TBD): Survey to be conducted on the existing WWTF parcel for the purpose of treatment facility design and is included in this scope. Survey of the adjacent parcel owned by the landfill to be completed by the landfill owner and provided to the City and W&C.

1.2 Geotechnical Engineering & Soils Investigation (Sub-Consultant TBD): Geotechnical and soils investigation to be conducted on the existing WWTF parcel for the purpose of treatment facility design and is included in this scope.

Any additional geotechnical or soil investigations required on the adjacent parcel owned by the landfill to be completed by the landfill owner and provided to the City and W&C.

1.3 Hydrogeological Studies (Sub-Consultant TBD, if necessary): This scope assumes that the existing sprayfields on the WWTF parcel will remain in use, and that no hydrogeo studies are required for the existing WWTF parcel.

A hydrogeo study was completed on the adjacent parcel owned by the landfill by the landfill's owner. If additional hydrogeological information is required for the design or by FDEP on the adjacent parcel for construction of effluent disposal, this study will be completed by the landfill owner and provided to the City and W&C.

1.4 Underground Utility Locate: To identify underground utilities where new wastewater treatment infrastructure will be built, this scope includes underground utility locate to identify potential underground conflicts.

1.4 Hazardous Material Assessment (Sub-Consultant TBD): As no existing buildings are being modified as part of this scope, scope for a Hazardous Material Assessment is not included.

1.5 Wetlands: Given the project location, wetlands delineation is not required or included in this scope of work.

PHASE 2.0: PRELIMINARY DESIGN (30%)

2.1 Preliminary Design: In this task the Engineer will prepare the preliminary process, mechanical, site/civil, structural, electrical, plumbing, instrumentation and controls

design drawings. The preliminary design will include structural load calculations and analysis based on the geotechnical work conducted in Phase 1.0 herein; electrical one-line diagram; motor and electrical load list; and functional narratives. The Table of Contents for the specifications will be included in this deliverable.

- 2.2 Hydraulic Analysis/Verification: In this task, the Engineer will perform hydraulic calculations to determine the size and configuration of the selected piping, equipment, and tanks. The Engineer will prepare a preliminary hydraulic profile and process flow diagram for use in developing the detailed design.
- 2.3 Design Basis Report: In this task, the Engineer will prepare a Design Basis Report (DBR) which describes the existing conditions of the system affected by the work, summarizes the design criteria for the upgrades, provides a concise summary of the recommended improvements, and provides an updated cost estimate and project schedule.

The DBR will be delivered to the City as a draft for the 30% deliverable. The DBR will be updated and revised to incorporate City comments at the 60% stage.

- 2.3.1 Preliminary Design Review Meeting. Attend one (1) meeting to present the Preliminary Design to the Client and plant staff. The meeting will include a review of the design basis, preliminary design drawings, and the project schedule. Comments received during the meeting will be responded to by the Engineer within 2 weeks of the review meeting with the City and applicable comments incorporated into the 60% design.

PHASE 3.0: INTERIM (60%) DESIGN AND FDEP PERMITTING

- 3.1 Site Design: In this task, the Engineer will prepare a site grading and utilities plan to the 60% stage. The addition of impervious area is expected to be limited, as the additional structures included in this design will be open top tanks. The use of pervious materials and berms/swales will be utilized to the extent possible to avoid building extensive stormwater management ponds and infrastructure on the site.
- 3.2 Process & Mechanical Design: In this task, the Engineer will prepare the detailed process and mechanical design including piping and instrumentation diagrams and mechanical layout to the 60% stage. It is assumed that the design of the Bushnell WWTF will include all the components outlined in Section I of this scope.
- 3.3 Structural & Architectural Design: In this task, the Engineer will prepare the detailed structural and architectural design to 60%, including construction of a pole-barn structure to cover the proposed sludge handling equipment, and a new Operations Building as well as structural design of all process tankage, disinfection system and equipment pads.

No architectural or structural design for the existing treatment facility is included in this scope. The use of any existing buildings or infrastructure at the WWRF is intended or included herein.

- 3.4 Electrical Design: In this task, the Engineer will prepare a 60% electrical design including new processes, site lighting and lightning suppression. Early in the design, it will be

confirmed if the incoming power service is sufficient to accommodate the proposed upgrades or if a larger transformer is needed; installation of a new emergency generator and fuel tank; installation of new MCCs to serve the new process loads (quantity to be determined in design); and power and controls for all new process equipment.

No electrical improvements to buildings at the existing treatment facility are included in this scope.

- 3.5 HVAC & Plumbing Design: There is limited Heating, Ventilation and Air Conditioning (HVAC) and Plumbing design on this project, as most of the scope is based on process upgrades and improvements.

This task will include the design of HVAC and plumbing for the new Operations Building. The new Operations Building will receive potable water and have a sewer connection to return to the head of the new WWTF.

It is assumed that the pole-barn structure to protect the solids' handling equipment is open to the atmosphere and will not include any HVAC equipment or design. A new or expanded process drain from the biosolids area to the onsite lift station back to the head of the new WWTF is included.

No HVAC or plumbing improvements to buildings at the existing treatment facility is included in this scope.

- 3.6 Instrumentation and Controls (I&C) Design: In this task, the Engineer will prepare a 60% I&C design. It is assumed that the design will include installation of new flow control nitrate probes and DO probes in the new Oxidation Ditches; installation of RAS & WAS flow meters; installation of a new effluent flow meter(s) to capture flow to the existing sprayfields and RIBs; In-Plant Reuse Pump Station instrumentation; installation of aerobic digester instrumentation to monitor temperature, pH and ORP; provide new SCADA Control Panel(s) to accommodate new process equipment. Additional process instrumentation design will be included to ensure all new equipment is properly integrated into the existing treatment system.

No modifications, upgrades, or integrations to the existing treatment facility system is intended or included herein.

- 3.7 Front End and Technical Specifications: Front End general requirements and technical specifications will be Engineer master guide specifications based on Construction Specifications Institute standards (including Master Format) which are coordinated with the EJCDC bidding/contractual documents. Should the Client choose to use alternative standard for bidding and contracting for this design, this shall be communicated and coordinated with Engineer at the Kick-Off meeting for this project.

- 3.8 Permitting: In this task, the Engineer will prepare and submit a permit application to FDEP. This application for a WWTF modification to a Public Wastewater Systems will include 60% Plans and Specs, DBR, Forms 1 and 2a.

This task includes one round of response to comments from the FDEP. Attendance, participation, and presentation at a public hearing is currently excluded from this task. Any fees associated with this permit will be paid for directly by the City.

3.9 Deliverables

- 3.9.1 30% Preliminary Design (Draft Preliminary Design Report, limited drawing set, specification TOC, schedule update)
- 3.9.2 60% Interim Progress Set (60% Drawings and Specifications, 60% Cost Estimate, Schedule Update)
- 3.9.3 FDEP Permitting Set (Drawings, Specs, Regulatory Forms)

PHASE 4.0: FUNDING AND GRANT ADMINISTRATION SERVICES

Tasks may include:

- Coordination between FDEP and the City of Bushnell during design phase services
- Complete and file Request for Inclusion for Design
- Complete and file Design Agreement
- Complete and file Monitoring Reports
- Complete and file Disbursement Forms for Engineering Design Services
- Attend FDEP meetings and hearings related to this project.
- Review existing user charge system to address construction cost
- Prepare and Review Finance Plans, Schedules and Pledged Revenues
- Attend Monthly Update Meetings with City on Design Progress
- Identify pledge revenue/s to be applied to repaying construction loan.
- Complete Capital Financing Plan for Construction
- Draft Funding Schedule
- Assist in processing funds via electronic fund transfer (disbursement request) for Design Phase
- Provide project status, updates and monitoring to the Engineer, City Staff and the FDEP.
- Assist in the draft schedule for implementing the recommended facilities
- Draft and file Construction Request for Inclusion (RFI).
- Complete Construction Loan Application and Processing
- Complete Construction Loan Resolution for Adoption by Council
- Complete Legal Opinion for Approval and Signature by City Attorney
- Complete and File FFATA Forms
- Complete and File EPA Forms
- Draft and file the funding agreement between the City and the FDEP for Construction

ASSUMPTIONS & DESIGN CLARIFICATIONS

- 1 The scope of this project is limited to the wastewater treatment facility scope identified in the CW Facilities Plan.

- 2 Additional survey, Geotech, or hydrogeo beyond what is outlined in the scope herein (if required for the project), will be completed by the City, landfill property owner, or by the Engineer on a sub-contractor + 10% fee basis, with Client authorization.
- 3 The design identified herein will be designed as one project, with the intent that the Engineer will complete the 90% and Final Design and bidding documents under separate contract.
- 4 It is assumed that there will be no architectural, HVAC, electrical or cosmetic improvements to the existing WWTF, existing Operations and Electrical Building as part of this project.
- 5 Pilot Testing: Design, oversight, and Engineering services associated with pilot testing of process equipment, instruments and related appurtenances are not included as part of this scope.
- 6 Alternatives Evaluations: Extensive alternative evaluations and process equipment selection was conducted as part of the CW Facilities Plan. Therefore, additional alternatives analysis will not be conducted as part of the design and are excluded from the scope of this project.
- 7 Pre-Procurements & Pre-Selection: The scope herein is for a traditional design/bid/build approach. Engineering services associated with pre-procurement, evaluated bids and pre-selection of process equipment, instruments and related appurtenances are not included as part of this scope. If pre-procurement becomes advantageous and allowable by the funding agencies, this may be added to the Engineer's scope/fee.
- 8 Funding: Work associated with applications for project funding are as outlined in Section 4.0
- 9 Staffing: This scope does not include a WWTF staffing analysis, a criticality analysis or recommendations for staffing levels at the WWTF.
- 10 Odor control: This scope does not include the design of odor control systems nor an odor control study of liquid phase or air phase odors.
- 11 Fire Protection Systems: This scope does not include detailed design of stamped fire protection system drawings or new fire protection systems in buildings that are not being upgraded as part of this project.
- 12 Land Acquisition/Easements: This scope does not include fees or engineering associated with land purchase and easements or survey (if applicable).
- 13 The scope does not include final design, bidding services or engineering services during construction or resident engineering. This will be provided to the City under separate cover.

SCHEDULE

Phase 1.0, Preliminary Investigations, will commence upon receipt of a signed Task Order from the Client.

Our estimated schedule based on receipt of a signed Task Order is as follows:

	Start Date	Completion Date
<u>Client Review/Approval</u>	March 2023	March 2023
<u>Preliminary Investigations -</u>	April 2023	June 2023
<u>Preliminary Design -</u>	May 2023	August 2023
<u>Interim (60%) Design and FDEP Permitting</u>	September 2023	December 2023
Final Design and Bidding – Future Amendment	(Pending timing of Agency Review)	
Construction Administration Services – Future Amendment		

BUDGET

Compensation for the Engineering Services described herein will be based upon the following budgets that are not to be exceeded without prior written authorizations. The budget for each phase of service is as follows:

Phase	Total Budget	Billing Method
Phase 1.0 Preliminary Investigations	\$75,000	Percent Complete
Phase 2.0 Preliminary Design	\$325,000	Percent Complete
Phase 3.0 Interim (60%) and FDEP Permitting	\$404,000	Percent Complete
Phase 4.0 Funding and Grant Administration Services	\$60,000	Percent Complete
Total	\$864,000	Percent Complete

All phases are lump sum and will be invoiced monthly on a percent complete basis.

TERMS AND CONDITIONS

The Scope of Services will be completed in accordance with the terms of the Engineering Services Agreement between Woodard & Curran, Inc. and the City of Bushnell, FL dated April 1, 2020.

CLOSING

We greatly appreciate this opportunity to offer our design services Please feel free to call me at 863.354.4416 if you have any questions regarding this proposal or require any further information.

Sincerely,

WOODARD & CURRAN, INC.

Justin F. deMello, PE

CITY HALL RESTROOMS FOR THE BEATS &
EATS EVENT IN THE DOWNTOWN PLAZA
PARK.*

City of Bushnell

City Council Members

Dear all Council Members,

Connie Mahan Real Estate Group is excited to host the second annual Beats and Eats Music and Food truck festival. For this event we are asking for the city to support this festival by providing the following.

1. Access to Restrooms
2. Chairs and Table (As were done last year by the parks department)
3. To allow the blocking of the roadway between Florida Street and Beville Street on Joe P Strickland Jr. Blvd.

As well as Bushnell Plaza between the same roads, to allow for vendor set up.

This festival is to benefit the Sumter Youth Center, and all proceeds will go as a donation to the Sumter Youth Center. In addition, we set up areas, and hire photographers for the kids attending prom for South Sumter High School. The photos taken are then given freely to the students if they want them. This event is intended to bring support to the youth of Sumter County. Any help that the city council could give, as well as their approval of the event, would be greatly appreciated.

Sincerely,

Kristen Held and Connie Mahan

Dear Friend of Education:

This is an invitation to participate in the **39th Annual Sumter School District Scholarship Golf Tournament** scheduled for **Saturday, April 29, 2023 at 7:15 am** at **Evans Prairie Country Club** in The Villages, Florida.

During the past thirty-nine years, this scholarship tournament has assisted hundreds of students with the continuation of their education at Lake-Sumter State College. **In 2022 the SSGT awarded \$28,000 in scholarships to fourteen students.** Each year we are able to continue awarding scholarships due to the dedication and generosity of our volunteers, golfers and sponsors.

Our sponsors play an extremely important role in achieving our goal of providing financial assistance to deserving students. Sponsor signs are prominently posted during the tournament. This is an excellent way to advertise your business and to demonstrate your support for students at South Sumter High School and Wildwood Middle High School as they strive to continue their education. We value the continuing commitment that our sponsors, golfers and volunteers provide each year.

Your support is vital, if we are to continue assisting our students. We hope you will plan to join us during this scholarship golf tournament at **Evans Prairie Country Club** on **Saturday, April 29, 2023** as a golfer, a sponsor - or perhaps both. Please see the enclosed golf and sponsor registration forms for details.

If you have a friend who would be interested in participating in the golf tournament, please share this invitation letter with them.

Thank you for your continuing support of our students and the Sumter School District Scholarship Golf Tournament.

Sincerely,

Richard A. Shirley
Superintendent of Schools

ITEM # 1

*NOTIFICATION OF “CERTIFICATE OF
ACHIEVEMENT FOR EXCELLENCE IN
FINANCIAL REPORTING” FOR FY2021.*

Government Finance Officers Association
203 North LaSalle Street, Suite 2700
Chicago, Illinois 60601-1210
312.977.9700 fax: 312.977.4806

3/3/2023

Shelley Ragan
Finance Director
City of Bushnell, Florida

Dear Mrs. Ragan:

Congratulations!

We are pleased to notify you that your annual comprehensive financial report for the fiscal year ended September 30, 2021 has met the requirements to be awarded GFOA's Certificate of Achievement for Excellence in Financial Reporting. The GFOA established the Certificate of Achievement for Excellence in Financial Reporting Program (Certificate Program) in 1945 to encourage and assist state and local governments to go beyond the minimum requirements of generally accepted accounting principles to prepare annual comprehensive financial reports that evidence the spirit of transparency and full disclosure and then to recognize individual governments that succeed in achieving that goal. The Certificate of Achievement is the highest form of recognition in governmental accounting and financial reporting. Congratulations, again, for having satisfied the high standards of the program.

Your electronic award packet contains the following:

- **A "Summary of Grading" form and a confidential list of comments and suggestions for possible improvements.** We strongly encourage you to implement the recommended improvements in your next report. Certificate of Achievement Program policy requires that written responses to these comments and suggestions for improvement be included with your 2022 fiscal year end submission. If a comment is unclear or there appears to be a discrepancy, please contact the Technical Services Center at (312) 977-9700 and ask to speak with a Certificate of Achievement Program in-house reviewer.
- **Certificate of Achievement.** A Certificate of Achievement is valid for a period of one year. A current holder of a Certificate of Achievement may reproduce the Certificate in its immediately subsequent annual comprehensive financial report. Please refer to the instructions for reproducing your Certificate in your next report.
- **Award of Financial Reporting Achievement.** When GFOA awards a government the Certificate of Achievement for Excellence in Financial Reporting, we also present an Award of Financial Reporting Achievement (AFRA) to the department identified in the application as primarily responsible for achievement of the Certificate.
- **Sample press release.** Attaining this award is a significant accomplishment. Attached is a sample news release that you may use to give appropriate publicity to this notable achievement.

In addition, award recipients will receive via mail either a plaque (if first-time recipients or if the government has received the Certificate ten times since it received its last plaque) or a brass medallion to affix to the plaque (if the government currently has a plaque with space to affix the medallion). Plaques and medallions will be mailed separately.

As an award-winning government, we would like to invite one or more appropriate members of the team that put together your annual comprehensive financial report to apply to join the Special Review Committee. As members of the Special Review Committee, peer reviewers get exposure to a variety of reports from around the country; gain insight into how to improve their own reports; achieve professional recognition; and provide valuable input that helps other local governments improve their reports. Please see our website for [eligibility requirements](#) and [information on completing an application](#).

Thank you for participating in and supporting the Certificate of Achievement Program. If we may be of any further assistance, please contact the Technical Services Center at (312) 977-9700.

Sincerely,

A handwritten signature in black ink that reads "Michele Mark Levine". The signature is written in a cursive, flowing style.

Michele Mark Levine
Director, Technical Services

Government Finance Officers Association

**Certificate of
Achievement

**City of Bushnell
Florida**

For its Annual Comprehensive
Financial Report
For the Fiscal Year Ended

September 30, 2021

Christopher P. Morill

Executive Director/CEO

**The Government Finance Officers Association of
the United States and Canada**

presents this

AWARD OF FINANCIAL REPORTING ACHIEVEMENT

to

Finance Department
City of Bushnell, Florida

The Award of Financial Reporting Achievement is presented by the Government Finance Officers Association to the department or individual designated as instrumental in the government unit achieving a Certificate of Achievement for Excellence in Financial Reporting. A Certificate of Achievement is presented to those government units whose annual financial reports are judged to adhere to program standards and represents the highest award in government financial reporting.

Executive Director

Christopher P. Morill

Water & Wastewater Monthly Report

From February 2023 for March 2023 Council Meeting

Water

- Read all water meters.
- Completed approximately 65 service orders.
- Replaced multiple water meters.
- Required compliance sampling and testing was performed.
- Water flushing continues to be performed per consent order, and to maintain water freshness.
- Combined water pumping amounted to 15,900,000 gallons, WTP2 was 13,040,000 and SWP was 2,860,000

Wastewater

- Hanson wastewater treatment plant (WWTP) average daily flow for February was 0.362 MGD (million gallons per day) influent and 0.362 MGD Effluent.
- CBOD and TSS testing of restaurants.
- Required routine compliance sampling and testing was performed.
- Engineering to increase WWTP capacity is ongoing
- Proposal for SBR#4 repair that Woodard & Curran did on our behalf received no bids. We are currently refreshing details and will be having this put out again in the near future.

Miscellaneous

- No news to add
