**Drainage Repair Procedures 90 day trial**

The Board of Trustees changed the drainage work order process starting May 1, 2021. The new procedure states, the drainage clerk will contact a contractor to investigate and make repairs within 2-3 weeks. Any repairs over \$5000 would need to include the Franklin County Drainage Engineer. Letters were mailed to contractors to acknowledge the new process.

Colette Bruns, Drainage Clerk, presented to the Board of Trustees the five work orders requested by landowners since beginning the change in the drainage repair procedure.

The Board of Trustees will maintain this new procedure since it has been going well. In the future, if work orders come in that have already been repaired, then the Board will discuss this option again.
