Posted: August 26, 2021

Heather Mydloski
Village Clerk

POSTED IN ACCORDANCE WITH PUBLIC ACT 267 (OPEN MEETINGS ACT)

The Village of Franklin will provide necessary, reasonable auxiliary aids and services to individuals with disabilities requiring such services. All requests must be made to the Village Clerk at least five (5) business days before a meeting. Individuals with disabilities requiring auxiliary aids or services should contact the Village of Franklin in writing at 32325 Franklin Road, Franklin, MI 48025, or by calling the Village Clerk's Office at (248) 626-9666.

**Village of Franklin
Historic District Study Committee Meeting
Wednesday, March 24, 2021 7:00 P.M.
At the Franklin Village Hall – Broughton House
32325 Franklin Road, Franklin, MI
via “Zoom.us”**

I. MEETING CALLED TO ORDER

The Meeting of the Historic District Study Committee was called to order by Gary Roberts, Chairman, at 7:02 P.M. via ZOOM®.

II. ROLL CALL

Present: Nena Downing, Planning Commission (Franklin, MI), Fred Gallasch, former Village Council member (Franklin, MI), Eileen Harryvan, former Franklin resident (Southfield Township, MI), Gary Roberts, Historic District Commission (Franklin, MI), Amanda Davis, Historic Preservation Consultant (Mt. Clemens, MI)

Also Present: Heather Mydloski, Village Clerk, (Franklin, MI)

III. ADOPTION OF AGENDA

Motion by Davis, seconded by Harryvan to approve the agenda, as presented.

IV. ADOPTION OF THE MINUTES

A. Regular Meeting of February 5, 2020

Motion by Davis, seconded by Harryvan to receive and file the minutes of the Regular Meeting of February 5, 2020, as presented.

Motion was approved unanimously.

V. UNFINISHED BUSINESS

A. Review of Preliminary Report

On page 8, the List of Perspective Structures to be added to the Historic District. was reviewed.

List of “Agreement” letters Village received:

32020 Franklin Rd. – (Meldrum house) yes
31275 Franklin Rd. – Receipt of acceptance letter? (Hamilton house)
30440 Franklin Rd. – yes, according to Roberts (Farynk house)
32325 Franklin Rd. – Village property (Kreger House)
35300 W. Thirteen Mile Rd. – Receipt of acceptance letter?
25520 W. Thirteen Mile Rd. – Receipt of acceptance letter?
26475 Scenic Highway – yes (Lamott house)
25905 Romany Way – Receipt of acceptance letter? (contact name was never determined, per Roberts)

26425 Wellington Road (Franklin Community Church) – yes, received by Roberts
Franklin Community Association (FCA) Property

Robert raised the question of whether those homeowners who had not returned an acceptance letter should be taken off this list? Davis was under the impression that the Committee had approved the inclusion of all those properties on the list with the exception of the FCA property. Downing and Harryvan concurred.

According to Roberts, FCA does not concur and does not agree to be a part of this list; however, Council President directed Roberts to put the property on this list anyway. He thought it made no sense not to include the FCA property. He further acknowledged that there is no obligation by any governing authority that an owner need agree that his/her property was part of the Historic District. The Village Council can act on its own and put the property in the District. Several Committee members voiced their opinions.

Verification of letters received by the Village is necessary. Mydloski will follow up.

Downing reported that at its next meeting the Planning Commission will be holding a Public Hearing on creating a new zone that is “quasi-public land”. The FCA refuses to consider putting its property into the new zoning district which would change everything that is currently zoned “residential” into “quasi- public land” and could not be developed for residential use. That land would be zoned for recreational use. Downing suggested Roberts come to the Public Hearing and share his information. Tim Currier, the Village’s new attorney, may have additional information. The Public Hearing will be April 21, 2021 at 7 PM.

Roberts would like the Village to send a letter to the property owners on the list requesting an acceptance or a rejection of the idea of including their property in the Historic District. He will tell the Council that FCA does not want to be included.

Roberts spoke with SHPO earlier in the week and acknowledged SHPO’s the whole process for this report. The end action would be for Council to hold a Public Hearing and then approve it as an Ordinance change. Davis agreed.

VI. REVIEW DRAFT REPORT FORM

Roberts began by commenting on page 2. Davis acknowledged that the logo was not included and the words “Executive Summary” were on the wrong page. Davis explained that this report form is dictated by a SHPO standardized specific form. The dates should be changed to only “2018”. In the 5th paragraph, end of the last line, the phrase, “...due to owner support.” Should be struck. On page 7, he requested that the 2nd and 3rd lines from the bottom, “...included in this report...considered for inclusion in the district.” be re-worded. After a discussion of what information SHPO would want included, it was decided the re-wording and change of the third sentence would be, “...to **9 as prioritized by the committee.**”

Downing requested that Mydloski send a list of the letters she finds that the Village has received to the whole committee.

On page 11, the map shows a large white space which should be included as Village-owned. In the write up of this property on page 12, the parcel number for the Kreger House should be included.

The farmhouse at 25331 13 Mile Rd. was discussed.

On page 14, under Historic Context, 1st paragraph, 2nd line of, the phrase "...the appearance of" should be added. The sentence to read "...nineteenth century, grew slowly and today retains *the appearance of* its early, unplatted layout,".

On page 16, in the 2nd paragraph, end of the 3rd sentence, the word should be "**g**rist". In the 3rd paragraph, 2nd to last line, "Grill" should be spelled with a capital "G". In the 5th paragraph, end of the 2nd line, "... (the current Market Basket)," should be removed.

Reviewing the map and write up of the FCA property included in its SHPO Landscape Identification Form, Downing stressed that this map should be circulated to the public.

The Study Committee's next steps were discussed.

The next Study Committee meeting will be Wednesday, April 7, 2021 at 6:30 PM to review the changes and make a motion to send the report to the Village Council for its information and then to SHPO for its review.

VII. PUBLIC COMMENTS

None

ADJOURNMENT

Motion by Roberts to adjourn the meeting.

Motion was approved unanimously.

The meeting was adjourned at 8:00 PM.

as approved by the Village Council in 2018.*

Executive Summary

This document serves as the preliminary report of the Franklin Village Local Historic District Study Committee charged with identifying, reviewing and evaluating the potentiality of adding resources to the currently established Franklin Village Local Historic District

The Village of Franklin Historic District Study Committee was formed in April 2018 in order to study the possibility of modifying the Local Historic District to include historic properties located within the Village that are not currently protected by the Local Historic District. The members of this committee include: Gary Roberts, Chair of the Historic District Commission; Fred Gallash, former Village Council President; Nena Downing, Franklin Historical Society Board Member; Eileen Harryvan, member Historic District Commission; Amanda D. Davis, Historic Preservation Consultant.

The Committee originally identified 101 historic properties to review for further study. This list was gleaned from several sources including the following: a 1971 Historic Study Committee Report, the 1991 Historic and Architectural Study done by Weir/York, a 1998 study of Franklin Farmhouses conducted by Commonwealth Cultural Resource Group, a 1998 study of Early Suburbanization also conducted by Commonwealth Cultural Resource Group, and a 1999 study of 30 historically important properties conducted by the former Historic Preservation Consultant to the HDC, Jennifer Wendler-Lovell.

The Committee members then conducted a windshield survey of these 101 potentially historic properties to determine which would be considered for possible inclusion in the Local Historic District. The survey area included the entire Village of Franklin, encompassing 2.7 square miles, 1728 acres, 699.60 hectares

The Secretary of the Interior's Standards for Historic Rehabilitation were the guidelines used to determine significance. Of these 101 properties, 41 were determined to have high historic and/or architectural significance to the Village of Franklin. The committee decided that these 41 properties would be the focus for the potential modification of the local historic district.

The owners of these 41 properties were contacted via a letter sent through the postal service and invited to an Open House that was held at the Kreger House on Saturday, November 3, 2018. Of those 41 properties, 10 were ultimately decided upon to be included in an intensive level survey for the modification of the Franklin Village Local Historic District. After the intensive level survey was completed, the Historic District Study Committee came to the conclusion that 7 of the 10 properties are appropriate for inclusion in the Franklin Village Local Historic District.

The purpose of this report is to present data collected during the survey of these 7 properties that the Franklin Village Historic District Study Committee would like to nominate to be added to the local district for consideration.

It is the recommendation of the committee that 6 of the 7 properties surveyed be added to the Franklin Village Local Historic District as *contributing* resources, and that the remaining property be added to the Franklin Village Local Historic District as *non-contributing* resources.

It is also the recommendation of the committee to extend the boundary of the Franklin Village Local Historic District to include all of the proposed additions to the district.

Each of the 7 properties were evaluated for their eligibility based on the National Park Service Criteria for Evaluation: Event, Person, Design/Construction, and Information Potential as well as the seven aspects of integrity: historic location, design, setting, materials, workmanship, feeling, and association.

Credits and Credentials

The Village of Franklin Historic District Study Committee is comprised of the following members:

Gary Roberts, Architect, Chair of the Historic District Commission

Fred Gallash, former Village Council President

Nena Downing, Franklin Historical Society Board Member

Eileen Harryvan, Franklin Resident

Amanda D. Davis, Historic Preservation Consultant

This report has primarily been researched and written by Amanda D. Davis, Historic Preservation Consultant, due to her qualifications meeting federal guidelines 36 CFR 61.

Amanda D. Davis resume attached Appendix A

Project Objectives and Methodology

The Village of Franklin is a unique community with a rural feeling sense of place, a pocket of quiet suburban life enmeshed with historic resources, that is increasingly surrounded by encroaching urban development and activity. Throughout the Village, the main threat to this rural sense of place is the private practice of purchasing and demolition of unprotected historic homes for the construction of modern mansions that do not reflect the historic character of the resources they are replacing in form, style, size, or feeling. The study committee was formed, and this project undertaken, with the express intent of identifying, evaluating and recommending for inclusion in the currently established Franklin Village Local Historic District, properties that would enhance the value of the district while also offering protection for potentially threatened resources.

Several previous studies have been undertaken throughout the Village; unfortunately, they resulted in no action at the time of their submittal. These studies include the following:

- Commonwealth Cultural Resources Group. *Franklin Early Suburbanization*, 1999.
- Commonwealth Cultural Resources Group. *Franklin Farmhouses A Non-Contiguous Local Historic District*, 1998.
- HP Associates. *Intensive Study for: 25300 Thirteen Mile Road, Franklin, MI 48025*, 1997.
- Weir, Lynne B. and Mary Grace York. *Village of Franklin Historic and Architectural Survey*, 1991.
- Wendler-Lovell, Jennifer. *Village of Franklin Historic and Architectural Survey*, 2006.

The Village of Franklin Historic District Study Committee was formed in April 2018 in order to study the possibility of modifying the Local Historic District to include historic properties located within the Village that are not currently protected by the Local Historic District. The Committee identified 101 historic properties to review for further study. This list was gleaned from several sources including the previously completed studies mentioned above. The Committee members then conducted a windshield survey of these 101 potentially historic properties to determine which would be considered for possible inclusion in the Local Historic District. The boundaries of this survey included the entire Village of Franklin, roughly bounded by Inkster Road to the West, Fourteen Mile Road to the North, Telegraph Road to the East, and Farmbrook Road to the South. This survey consisted of drive-by viewing, brief photography and ranking on a scale of 1 – high historic and/or architectural significance to the Village, 2 – moderate historic and/or architectural significance, 3 – low or no historic and/or architectural significance (also included demolitions & rebuilds). The Secretary of the Interior's Standards for Historic Rehabilitation were the guidelines used to determine significance. Of these 101 properties, 41 were determined to have high historic and/or architectural significance to the Village of Franklin. The committee decided that these 41 properties would be the focus for the potential modification of the local historic district. The list of 41 properties was narrowed down to 7 included in this report as prioritized by the committee. Once the 7 resources were identified as our target properties, consultant Amanda D. Davis began researching and

documenting each property according to the Michigan State Historic Preservation Office Guidelines. This report is the result of this research.

Various resources were used in the completion of this report, due to the Covid-19 pandemic all county records were only available to be viewed online. Resources included: The Franklin Village Historical Society, Franklin Community Church Archives, interviews with homeowners and past homeowners, archives of the Franklin Village Government offices, and the Oakland County Register of Deeds.

Data Location

All survey materials will be stored on file at the Franklin Village Government Offices and a copy of the final report will be sent to the Franklin Village Historical Society to keep in their archives.

Evaluation Results Summary

As a result of the research and investigation conducted by this Franklin Village Historic District Study Committee, it is the recommendation of the committee that the following resources be added to the Franklin Village Local Historic District due to their historic value based on architectural, community and local significance in each instance. The committee feels that each of these resources will bring added value to the current local historic district. All are located in the Village of Franklin, Oakland County, Michigan.

- 32020 Franklin Road
- 30440 Franklin Road
- 32325 Franklin Road
- 25520 W. Thirteen Mile Road
- 26475 Scenic Highway
- Franklin Community Church 26425 Wellington Road
- Franklin Community Association (FCA) Property

As a result of adding the above structures to the Franklin Village Local Historic District, the Historic District Study Committee is also proposing to extend the boundaries of the district to include the properties located south of the current district boundaries along Franklin Road and Thirteen Mile Roads.

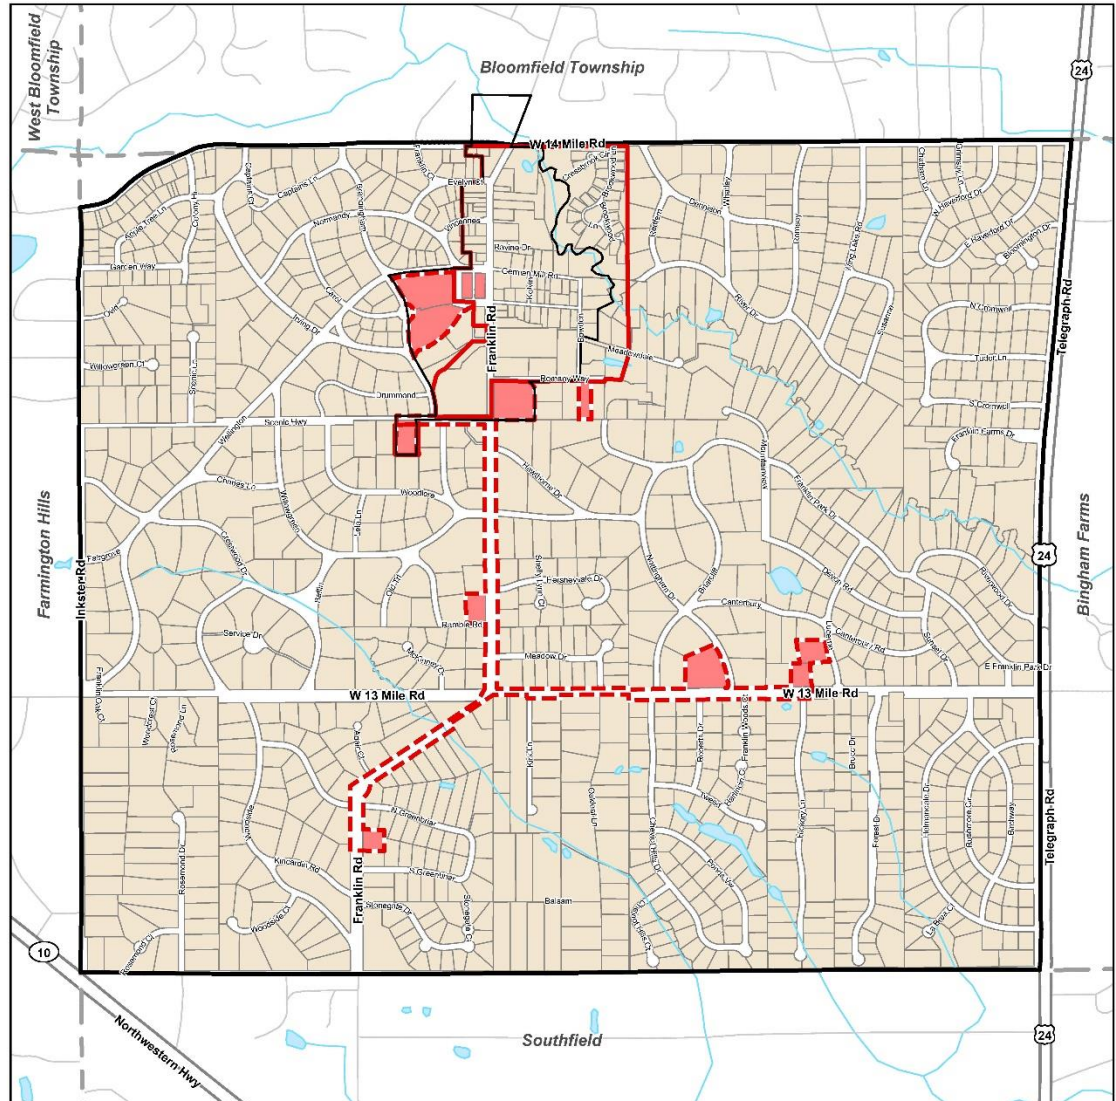

The boundary extension is proposed as follows:

The Historic District Study Committee for Modification of the Franklin Village Local Historic District proposes that the southern boundary of the district be extended southerly along Franklin Road, south of Thirteen Mile to the southeast corner of Parcel # 24-07-251-009 (30440 Franklin Road) and east along Thirteen Mile to the northeast corner of Parcel #24-05-377-006 (25300 Thirteen Mile Road).

Planning Needs and Recommendations/
Preservation Issues and Threats

At this time, the Historic District Study Committee has not identified further planning needs, preservation issues or immanent threats in the surveyed area.

Descriptive Overview of Survey Area

The area covered by this survey includes the entire Village of Franklin, bounded by Fourteen Mile Road to the north, Inkster Road to the West, just north of Farmbrook Road to the south, and Telegraph Road to the east.

Though established in the now densely developed heart of Oakland County, the Village of Franklin remains a simple, pastoral oasis, called affectionately by its residents, “the town that time forgot.” Bounded by the densely populated and retail traffic rich environments of Southfield, Bloomfield Township, Farmington Hills and Beverly Hills, Franklin’s large residential lots with rolling hills and many old growth trees provide a respite from the busy-ness of the surrounding area.

Currently, the Franklin Village Local Historic District comprises the pioneer era crossroads settlement of early Franklin, first settled by Euro-Americans in 1824. The founders of Franklin chose the site because of its proximity of the Franklin River, an outlet of Walnut Lake and a tributary of the Rouge River system, which powered several different types of mills in the village. The majority of structures in the district are located primarily along a short north-south stretch of Franklin Road between an early mill and cemetery. Franklin Road bisects the village from Fourteen Mile Road to the village border, one-and-one-half miles to the south. The road is a relatively narrow two-lane paved roadway. The historic district with its narrow, shady streets contains 150 buildings and structures, two-thirds of them considered contributing. Residences and businesses are mixed together throughout the district, and several historic homes now house commercial businesses. The intimate scale of the village proper brings all points within easy walking distance. All of the structures included in the Franklin Village Local Historic District are also included in the Franklin Village National Register Historic District.

When entering the district along Franklin Road from the south, the most dominant feature at the current southern boundary is the Franklin Cemetery at the northwest Corner of Franklin Road and Scenic Drive, including six acres spread out over the hilltop with many large trees interspersed with markers. The northwest side of the cemetery is bordered by an undeveloped wooded area, owned by the Franklin Community Association (FCA), which overlooks much of the district below, including the village hall, the Franklin Community Church and the Kreger House, as well as the early twentieth century “village green.”

Opposite the cemetery, on the southeast corner of Franklin Road and Romany Way, is an important early twentieth century property that serves as another anchor to the current southern boundary of the district. The Tudor house at 32020 Franklin Road is part of an estate-like setting that features a towered, slate-roofed 1929 residence and a detached flared slate roof carriage house/garage. Hidden from Franklin Road by a small hillock and lush vegetation, this property stands as a harbinger of the mid-later twentieth century estate development that currently surrounds the village. This is the only property that was included in the Franklin Village National Register District that is not included in the local historic district; it is unknown

why it was excluded. This important property is one of the proposed additions to this district as recommended by this Study Committee.

Continuing north on Franklin Road, the c. 1830s Broughton House (32325 Franklin Road), which now serves as the Village Hall, is located on the west side of the road. The Kreger House, located at the same postal address as the Village Hall, was moved to this community owned site directly behind the village offices, in 2008 due to being threatened with demolition at the original site. The home was owned and built by prominent community member and builder Art Kreger, who lived in the home until his death in the 1980s. This is another historic structure important to the community that the Study Committee has recommended for addition to the local district.

Directly to the north of the Kreger House is a large, open green space that the community refers to as the “village green.” The term village green was first used in the early twentieth century to describe the land around the village library. The term has since expanded to include adjoining land owned by the Village of Franklin, the Franklin Community Association, and the Franklin Community Church. The Franklin Community Association owns the southern and central portions of the village green, abutting the property of the Franklin Cemetery, and including the baseball diamonds and the gazebo. The neo-classical Franklin Community Church owns the northern portion of the green, where it sits as a prominent architectural feature of the community. Both the FCA property and the Franklin Community Church are vital aspects of the historic pastoral character of this community and it is for this reason that the Study Committee is recommending their addition to the local district.

The business area of Franklin Road is an interesting mix of homes, commercial buildings, and houses that have been adapted for commercial use. The majority of the structures within the local historic district lie along this road or on one of the residential streets running perpendicular.

Franklin Road slopes downward again, gently curving eastward towards the northern boundary of the historic district. Large trees border the west side of the road where Franklin Road intersects with Fourteen Mile Road. Looming over the flood plain on land rising above the Franklin River, the massive wood-frame Franklin Cider Mill (7450 Franklin Road), which sits just across Fourteen Mile Road to the north, has a dominating presence at the northern edge of the district. The Franklin Cider Mill has been included in the district because of its historic associations with the village, although it is located just outside the village limits. The mill was built in 1837 as served the village as a grist mill. Converted to a full-time cider mill in 1949, the mill continues to attract many patrons today, especially in the fall at apple harvest time.

Outside of the current local historic district boundaries, the survey area includes the residential neighborhoods that encompass the entire area from Inkster to Telegraph Roads on the west and east boundaries, and Fourteen Mile Road on the northern boundary to just north of Farmbrook on the southerly boundary. These neighborhoods include large lots with rolling hills, narrow meandering paved roadways, and residences ranging from modest mid-century ranch style

homes to large stately mansions and estates encompassing 2-3 residential lots or acreage. Many older homes have been demolished in the past 10 years to accommodate the building of much larger estates. It is for this reason that the Study Committee has recommended to extend the southerly boundary of the local district to include the early farmstead property located at 30440 Franklin as well as an example of early suburban development located at 25520 Thirteen Mile Road.

Historical Context

**Note: a large portion of this historical context was taken directly from the National Register of Historic Places survey continuation sheets, specifically the Narrative Statement of Significance, from the National Register of Historic Places re-survey completed by Consultant to the Franklin Village Historic District Commission Jennifer Wendler-Lovell. It has been updated to current standards and to include pertinent updated and current information.*

Founded in 1824, Franklin is a pioneer-era settlement that, bypassed by the railroads in the nineteenth century, grew slowly and today retains the appearance of its early, unplatted layout, narrow streets, and other man-made features, including an early cemetery and many of its early buildings. The Franklin Local Historic District reflects not only this pioneer settlement but also the evolution of the community from a rural market and milling hamlet to a prosperous suburban community beginning after World War I. The early post World War II years through about 1960 were important for Franklin in marking the beginnings of the intensive period of development for the entire community as a part of the Detroit suburbs, which has resulted in most of the previously underdeveloped countryside around the village being built up with large houses on large lots. Within the district, a church, commercial and civic buildings that give the district and village its character today possess exceptional significance in reflecting the beginnings of this now long-term developmental pattern. The Franklin Historic District's houses dating from the early years of settlement through the 1950s possess a collective significance in reflecting changing tastes in vernacular housing in southern Michigan. Finally, the district is significant in terms of the theme of invention for containing the place in which, in 1940, the dry-roasted peanut was invented.

The Village of Franklin, Michigan is located in Oakland County in Southfield Township. A 1989 archaeological investigation near the site of the Village Hall of Franklin found evidence of a Satchell complex occupation between 3,000 and 4,000 radiocarbon years ago. Findings of flaked stone and tool preforms suggest that tool production was an important activity at the site. Native Americans first settled the land on which Franklin and its Historic District now stand. Tribes such as Chippewa, Ottawa and Potawatomi lived in the Franklin area in the 18th and early 19th centuries. Today, many of the original Indian trails are used as major branches of transportation. Woodward Avenue, which runs five miles east of Franklin, follows the route of the Native American Saginaw Trail.

From 1775 to 1820, four treaties with the Chippewa, Ottawa, Potawatomi and other small bands of Native Americans ceded several million acres of Indian lands to the United States government,

land that would support European-American settlement in Michigan. When political and maritime disputes erupted into the War of 1812, Native Americans largely fought on the side of the British. In December of 1814, the British and Americans signed the Treaty of Ghent, which officially ended the War of 1812 and dissolved all British claims to the lands of the Northwest Territories. The absence of British support indicated imminent doom for the Native American tribes, who shortly thereafter ceded their lands to American control.

Townships were established as six miles by six miles and broken down into thirty-six sections. In 1819, the Michigan Territorial Governor, Lewis Cass, established Oakland County. In that same year, Pontiac became the official county seat of government. Cass played a key role in the development of the state by encouraging surveys of the land and road building to aid early settlers. Due to these efforts and probably in part due to its proximity to Detroit, Oakland County was the first settled interior country of Michigan (Hagman, 364).

Franklin became the first village to be established in what became Southfield Township, organized in 1830. Franklin was established on land originally owned by two natives of Niagara County, New York, Dillucena Stoughton and Elijah Bullock. Stoughton purchased 80 acres on April 2nd, 1824 on the eastern side of what is now the village's main north/south artery, Franklin Road. Bullock purchase a total of 240 acres of land on what would become the west side of the village on June 7th, 1824 and June 20th, 1825. The area was first called the Stoughton-Bullock settlement. Land cost at that time was \$2.00 an acre, with one quarter of the purchase price paid at the time of purchase, and the rest in three annual installments (Courtney et al., 3). Another early settler, Daniel Wood, came to Franklin from New Hampshire and on June 8, 1824, just one day after Bullock, purchased land to the east of the settlement. (Daniel Wood is the ancestor of Bert Wood, a twentieth century Franklin storeowner and historian (Cannon, 5).

The Franklin River, a tributary of the Rouge River, ran through the settlement. The land in the area was forested with hardwoods such as elm, maple, and oak, for which the county is named. However, it was not as wooded as lands farther north, so lumbering was never intensive in Oakland County.

The settlement was named Franklin in 1828. It may have been named after Benjamin Franklin, one of our country's forefathers, or for a boy named Franklin who lived in the area at that time. Also in 1828, Dr. Ebenezer Raynale was appointed the first postmaster of Franklin (he was the first physician in Franklin as well). By 1828 nine families lived in Franklin. The first school in Southfield Township was established in Franklin that year. The Franklin Cemetery at Franklin Road and Scenic Drive was founded in 1825, 1827, or 1828 (sources vary on date). Franklin was bypassed by a rail line in the 1820s, although a stagecoach line did run through the village on its way from Birmingham to Southfield (Waddell, 51). Over the next few years, Franklin added many businesses, "including grist mills, brick yards, cheese factories, buggy works, distilleries, blacksmith shops, several taverns, a general store and two hotels" (Hagman, 52-56). Two mills eventually were built, the first in 1837, to take advantage of the Franklin River's waterpower. One of them still stands today at Franklin and Fourteen Mile Roads.

In 1833, George Matthews bought part of Bullock's farm. He had hoped to build a mill where the current Franklin Cider Mill stands on the north side of the village. Matthews, however, was never able to make money as most of his capital went into labor and lumber, and his lands were taken over by William Sears. In 1836, Col. Peter Van Avery of Detroit exchanged land that he owned in Detroit for the land Sears had taken over from Matthews.

Van Every also purchased the remainder of Bullock's land and became a large landowner and prominent figure in Franklin. He agreed not to subdivide his new land holdings for a period "within fifteen years" (Cannon, 18) after purchase. Van Every was successful in erecting a grist mill in Franklin. Mills were abundant in the area and at one time there was one at least every mile up and down the river. Peter Van Every eventually owned 1500 acres in Franklin and the surrounding townships. He and his wife had fourteen children, allowing the Van Every legacy to continue for some time in the Franklin area. They built and lived in many early houses and ran businesses in the village. Peter Van Every's fortunes eventually ran out, however, and his large landholdings were heavily mortgaged at the time of his death. Several buildings that were built by Van Every remain in Franklin today, including the Franklin Mill (7450 Franklin Road), the Franklin Cottage Tavern (26210 Franklin Road), and the Temperance Hotel (32800 Franklin Road).

In 1849, George Congleton opened a carriage and blacksmith shop next to his home on Franklin Road that provided tools, horseshoes, and implements as well as wagons and buggies. The building continued in its original use through several subsequent owners, and later went on to house a variety of specialty shops, including an antique store, gift store and a flower shop. Today, after reconstruction from a devastating 1979, fire, the building houses the Franklin Grill. The original Congleton house, an 1840 frame Greek Revival, still stands next to the building.

A quote from a letter in the book *All About Franklin* describes Franklin in 1855 as, "about twenty dwellings-not elegant, but simple and comfortable, of various patterns and proportions" (Cannon, 23). In 1860, the first church building of the First Methodist Protestant Church was built in Franklin, located on German Mill Road.

Franklin grew slowly for the rest of the nineteenth century. As the years and technology advanced, Franklin had its first telephone in 1908 in the "brick store" (the current Market Basket), and in 1925 electricity was installed in many homes and businesses (Cannon, 71). The automobile arrived in 1915. During World War One, residents did their part in supporting the troops by knitting socks and gloves, and going without certain luxuries such as meat. Savings were spent on war bonds.

After the war, and with the increasing popularity of the automobile, many Detroit residents relocated to the suburbs, especially those located along the Woodward Avenue corridor (M-1). This eventually brought many people to Southfield and Bloomfield Townships. This period saw the beginning of the development of the surrounding area with large homes and estates. Well known Bloomfield Township residents such as Albert Kahn, James Couzens and George Booth all built expansive estates at this time and, unknowingly, made way for massive future development in the area.

Franklin's third school building, built in 1869, caught fire and burned to the ground in January of 1922. A new building was built in 1923 with money from Southfield Township at the northeast corner of Franklin Road and Romany Way. This building was much larger than the one-room school it replaced, making room for the increasing population of Franklin (Cannon, 81). With two additions, it is still in use as a private school today.

Franklin developed informally, piecemeal, without an official plat, largely to the east of Franklin Road as early owners sold off parts of their properties, and narrow lanes were opened to provide access to lots off Franklin Road. The west side of Franklin road remained mostly undeveloped until 1926, when a formal plat was laid out for a new residential area to the west of Franklin Road from just north of the cemetery to Fourteen Mile Road. According to the plat map, the land encompassed by the plat was to be known as "Franklin Village, a subdivision of N. ½ of Sec. 6, T. 1 N., R. 10 E. Southfield Township, Oakland county, Michigan." The plat included large residential lots on artfully curving streets, setting the stage for the exclusive class of development that subsequently took place in Franklin. One year later, in 1927, the area to the east of Franklin Road between Scenic Highway and Fourteen Mile Road was platted as Supervisors Plat No. 8, formalizing the unplatted development that had previously occurred.

Some of the proposed 1926 Franklin Village plat was completed, but some of the roads never existed beyond 'paper.' Remarkably, one large area of the plat was never developed, resulting in a grand open space on Franklin Road that is now known as the village green. Local businessman George Wellington Smith preserved most of this land as open space for years after platting it, finally selling off large pieces of it between 1954 and 1973 to the Village of Franklin, the Franklin Community Association and the Franklin Community Church. These sales assured the future preservation of the green space. In 1954, the congregation of the German Mill Church was looking for land on which to build a new church building that would accommodate their needs for church, school classrooms and more sanctuary seating. George Wellington Smith donated four lots and sold six more on the village green for the church site. The Franklin Community Church was completed in 1956. Then in 1957, the IRS posted a tax sale notice on two acres of George Wellington Smith's land on Franklin Road in an attempt to collect a half million dollars in unpaid taxes. Four Franklin residents purchased two acres from Smith, and in 1961 they offered the land to the Village of Franklin with a ten-year purchase agreement. In addition, the Franklin Community Association began purchasing portions of the village green. In 1959, they bought a large portion from George Wellington Smith, and three adjoining lots were purchased from two other land owners in 1959 and 1960. The Village of Franklin purchased the remainder of the village green in 1973. The small piece of property where the Village Hall is located was purchased from a businessman named Owen Hall, and another large piece of land adjoining the cemetery was purchased from George Wellington Smith. The combined land of these purchases has resulted in a green space that is approximately 12 acres in size. This large public space makes a significant contribution to Franklin Village's ambience.

The end of the Second World War saw the beginnings of the massive wave of development in Franklin and surrounding areas that continues unabated today. New housing developments of large colonials and ranches – often of architecturally distinguished design-on large lots on narrow,

tree shaded winding streets replaced the pre-war pattern of farms and woodland around the present historic district in the late 1940s, 50s, and 60s. These early post-war subdivisions surrounding the historic district contribute to Franklin's aesthetic character and appeal.

The new population growth that began after World War II resulted in new commercial, civic, and church buildings along and near Franklin Road within the district. The first was a gas station built in 1946. Its colonial-inspired design and red brick and white painted woodwork served as a model for future development along the Franklin Road corridor. The Franklin Community Church (1956), fire station (1959), post office (1959), and a bank and commercial building (1959 and 1960) all follow the red brick and white trim formula. These buildings together possess exceptional significance in terms of the Planning and Community Development context because they represent the beginnings of the now more than fifty-year period of intensive suburban growth in this area. The buildings also play a major role in defining the visual character of the Franklin Road corridor in the historic district.

Until 1954, Franklin was an unincorporated village within the Township of Southfield. In 1953, Southfield Township proposed incorporating the entire township as a city. Franklin residents, however, wanted to retain the village character of Franklin, and therefore did not want to become a part of a larger city. After organizing a Charter Committee, Franklin voted to incorporate as a village on June 15, 1954.

In 1966, an area developer wanted to build contemporary condominiums near the banks of the river and German Mill Road. The village council denied the building permit, and the matter was taken to court. The judge ruled that the village must issue the building permit, and in 1972 *The Ravines* condominiums were constructed. This started a movement to ensure that Franklin would have more control over any development within the village. The Franklin Historical Society began efforts to enact zoning laws to prevent such development. A few years earlier, the same organization also began efforts to list Franklin Village in the National Register of Historic Places, and on February 10, 1969 Franklin became the first historic district in Michigan listed in the National Register of Historic Places. (Cannon, 125-126).

Franklin continues to develop today, though not as rapidly as the surrounding areas. Large subdivisions continue to sprawl over the area and threaten the boundaries of the Village. Yet, upon coming over the hill into the village center, there is a feeling of stepping back in time, even though busy Michigan Highway US 24 (Telegraph road) is the eastern boundary of Franklin, and development completely surrounds the hilly, tree-laden historic district. This feeling continues along the narrow, wooded streets in the center of the village, with its carefully preserved architecture. In hindsight, perhaps it was fortunate that the village did not develop rapidly, as it was able to maintain its rural character, even while being surrounded by some of the heaviest development in Southeast Michigan.

Thematic Narrative

The Franklin Local Historic District is important in terms of the following National Register areas of significance: Exploration and Settlement, Agriculture, Commerce, Invention, Architecture and Community Planning and Development.

However, for the purposes of this district modification, the Thematic Narrative will concentrate on Exploration and Early Settlement, Agriculture, Architecture and Community Planning and Development

Exploration and Early Settlement

Franklin was the first village established in Southfield Township, and was an early settlement in Oakland County. A surprising number of its earliest buildings have survived. Dillucena Stoughton was the first white man to purchase land in what would be Franklin Village. He purchased 80 acres of land from the government in 1824. Stoughton came to Michigan from New York, along with thousands of New Yorkers and New Englanders who settled in the Michigan Territory between 1820 and 1840. Six weeks after Stoughton's land purchase, Elijah Bullock, another New Yorker, purchased over 240 acres on what is now the west side of Franklin Road. Subsequent early settlers were also of Yankee stock and reflected the predominant pattern of settlement in Oakland County by people from New York and New England.

A number of properties in the original Franklin Village Local Historic District date from this early settlement period, and reflect the predominant architectural characteristics of New England and New York. The Peter Van Every House/Franklin Cottage Tavern (26210 Evelyn Court) was built in 1833 by Peter Van Every, an early settler from Detroit. The Van Every Grist Mill (7450 Franklin Road) was built by Van Every in 1837. The H.S. Cox Schoolhouse at 32310 Franklin Road was also built during this early settlement period. The Broughton House at 32325 Franklin Road, now the Village Hall, has a Greek Revival portion that was likely built about 1820. The Franklin Hotel (32751 Franklin Road) and the Temperance Hotel (32800 Franklin Road) were also built during this period.

There are also a number of properties dating from this early settlement period that were located out a distance from the village center and main commercial thoroughfare. These properties were primarily small farms run by small families that had also traveled from the New England area. The Worthing/Farynk House (30440 Franklin) was built in 1848 by early settler Jonathan Worthing. The Kreger House (32325 Franklin Road /Historic: 26565 Scenic Drive) property was owned by Hamilton and Lucius Miller from 1848-the mid-1860s; they may have built the home which was moved to its current location in 2008. The John Lock House (26475 Scenic Drive) was built around 1860 by John Lock, an immigrant from England. The Joseph Pickering House (25520 Thirteen Mile Road) was built in 1850 by Franklin pioneers Melvin and Harriet Drake. The Leet/Orlando House was constructed in 1872 by an early Franklin farming family headed Alanson H. Leet.

Agriculture

There were many small farms that dotted the outskirts of early Franklin during the mid-1850s to the early 1900s. Several of the properties that are the subject of this district modification survey are included in this thematic category, including The Worthing/Farynk House and Farm (30440 Franklin) that consisted of 160 acres in 1848, The Joseph Pickering House and Farm (25520 Thirteen Mile Road), listed as the location of “crock and livestock wells”, The Leet/Orlando House and Farm (25905 Romany) which included a 48 acre potato farm in 1872, and the Kreger House (32325 Franklin Road /Historic: 26565 Scenic Drive) that was utilized as a small farm that produced potatoes and corn, along with pigs, cows, chickens and a small fruit orchard by the Johnston family in the early 1900s.

Architecture

The architecture of the Franklin Historic District creates a unified ensemble of architectural scale, design, and styles that depict the building evolution of the village. The varying types and styles can be viewed as markers of important architectural periods and as milestones of external influences upon the village. Few of the homes and commercial buildings in Franklin are examples of “High style” architecture. Most are good examples of vernacular forms.

A majority of the early Euro-American settlers in southeastern Michigan came from New York and New England. Franklin was originally established in the northeast corner of Section 6, Township 1 North, Range 10 East, Southfield Township. According to the original patent deeds, six of the original seven men who obtained land patents for Section 6 were from Niagara County, New York. The early settlers from New York brought New England folk building traditions with them, and many of Franklin’s early homes reflect these traditions. These building traditions can also be seen throughout southeastern Michigan. These early houses in Franklin’s historic district can be described as vernacular, with little formal styling. Many adhere to massing and floor plan traditions that can be traced to New England antecedents, such as the New England One and a Half cottage, the Gable-Front, and the Upright and Wing folk house types. These common house types, however, are equally as important as high style examples because they are expression of the vernacular culture brought to the area by its early American settlers.

Many of Franklin’ earliest buildings also incorporated Greek Revival stylistic elements, which were popular nationally during the first half of the nineteenth century. New England settlers all over southeastern Michigan decorated their traditional folk houses with Greek Revival details, and these homes in elements can still be seen in a large number of examples. The Kreger House (32325 Franklin Road /Historic: 26565 Scenic Drive) is one example with Greek Revival detailing such as a front gable with prominent eave returns.

There are a number of mid-19th century vernacular farmhouses, which is the standard early architectural type in the current local district. One of the resources recommended to be added

to the district include examples of this type. The Joseph Pickering House and Farm (25520 Thirteen Mile Road), is a two-story side-gabled vernacular farmhouse built in 1850.

A small number of brick Colonial-inspired commercial and public buildings dating from the late 1940s to 1960 possess exceptional significance in both defining the village business district's architectural character in the years since then and in represent the beginnings of the post-war building boom. Several of these are included in the recommendations to the district modification, including The Franklin Community Church (26425 Wellington) which was built in 1956, is an outstanding example of a brick Neoclassical Colonial Revival small community church building.

Additionally, the pre-war period of expansion from the hustle and bustle of Detroit's city center drew wealthier industrialists seeking respite from the dirty, loud city. This resulted in the creation of many large estate-like properties located on acreage with rolling hills, numerous shade trees and residential building complexes that include several buildings. One such example is the Newhouser/Meldrum House (32020 Franklin) a prime example of a Chateauxesque Tudor Revival style estate home, including a carriage house and recessed garage, which is included in the Franklin Village National Register Historic District.

Conclusion

Michigan is dotted with many small towns and villages that once were early settlements. However, Franklin has maintained its settlement roots by preserving its mix of vintage commercial, residential, transportation, industrial, civic, and governmental functions. Franklin values its collection of historic structures, its history as a representation of a period of time, and its distinction of having been designated the first historic district in Michigan to be accepted into the National Register of Historic Places.

Narrative Architectural Description

Provide a detailed description of the property, including all character defining features and any accessory resources.

Two story side gabled frame house with a large addition on the North elevation. The symmetrical three bay façade has an entry in the left bay. Windows have 6/6 double hung sashes. There is a large brick chimney running centrally through the structure.

There is a large contributing barn located on the property, as well as a low fieldstone wall running perpendicular to Thirteen Mile Road at the southern edge of the property.

History of the Resource

Provide information on previous owners, land use, construction and alteration dates in a narrative format. This is required for all intensive level surveys and designation and recommended for other identification efforts.

The land this home is built on was first recorded to Daniel Thorne on September 12, 1825. The property was purchased by Franklin pioneer Isaac Heth in 1827. Heth sold the property to Melvin Drake in 1833. The house is believed to have been constructed in about 1850, with its oldest portions having been constructed by Melvin and Harriet Drake. The home's longest association is with the Joseph Pickering family. Pickering purchased the property in 1859 and retained ownership until it was sold to his grandson Bert Wood in 1909. Joseph Pickering was included in a list of tradesmen published in 1900 as "crock wells and livestock". Bert Wood, who was well known in Franklin as a builder and owner of the general store beginning in 1931 until 1955. Prior to his work as a local merchant, Wood worked the family farm until selling the property in 1921 to Melville Zacharias and George Wellington Smith. These two men were largely responsible for subdividing Franklin's former farms into the neighborhoods surrounding the village center.

Title Search: 1920's, Smith to Rohl; 1930, Rohl to First National Bank; 1939, First National Bank to R.R. Campbell 1945, R.R. Campbell to H. Henderson; 1972, H. Henderson to R.F. Paul; 1993, M.J. Paul to M.J. Paul, LF/J. Paul-Andahazy.

T1N, R10E, SE 6, Franklin Villas Sub Lot 40

Statement of Significance/Recommendation of Eligibility

Provide a detailed explanation of the property's eligibility for the National Register, including an evaluation under at least one of the four criteria, discussion of the seven aspects of integrity, and recommendations about eligibility. This is required for all properties.

This resource is recommended as eligible for inclusion as a contributing resource in the Village of Franklin Local Historic District under Criteria A:Event (Early Settlement), Criteria B: Person and Criteria C: Architecture.

25520 Thirteen Mile is associated with early Franklin Village settler Joseph Pickering. The Pickering family owned several parcels of land in and around Franklin Village, including a large farm on Franklin Road north of 14 Mile. It is also associated with early suburbanization developers Melville Zacharias and George Wellington Smith.

The residence at 25520 Thirteen Mile is a typical mid-19th Century Franklin farmhouse, which is a standard early architectural form throughout the village. The location & setting of the structure outside of the early village boundaries, speaks to probable early use in a farming capacity.

The resource retains integrity under four of the seven aspects, including historic location, design, materials and workmanship: The house sits on its original historic location; the design of the original structure remains intact and distinct from the later addition on the North elevation; the structure retains intact historic materials such as siding, windows and brickwork; the historic workmanship of the vernacular farmhouse has remained unchanged and matched when repair became necessary.

The structure does not retain integrity of setting, feeling or association: the farmland property surrounding the structure was sold off during Franklin's early suburbanization period in the early 20th century, thereby causing the historic farmstead setting, feeling and association to be lost.

It is recommended that the residence at 25520 Thirteen Mile Road be added to the Franklin Village Local Historic District as a contributing resource.

Narrative Architectural Description

Provide a detailed description of the property, including all character defining features and any accessory resources.

Two-story front gabled upright portion Neoclassical style brick church building with 2-story pedimented porch, supported by four Tuscan columns, with wing to the south elevation at the rear of the upright. Pediment has half-circle vent in center and a wide frieze with dentils surrounding all three sides. There is a steeple/bell tower with a cross on top, copper steeple portion, wood bell tower and widow's walk with wood turned railings and a clock in the center of an arched vent. Upright has 6/6 double hung windows, 12/9 arched windows and 2 arched steel casement windows flanking the main entry. Main entrance includes a double-door with an elaborately fluted broken pediment entryway surround. The one-story wing has three bays with a double entry door flanked by a large 12 light window on each side. There is a front gabled 1965 addition (Fellowship Hall) to the south, with a pediment broken by an arched multi-light Palladian window. The addition includes a smaller simulacrum of the main bell tower and 9/9 double hung windows flank the entire south elevation.

History of the Resource

Provide information on previous owners, land use, construction and alteration dates in a narrative format. This is required for all intensive level surveys and designation and recommended for other identification efforts.

The property on which the building stands was originally owned by the 2nd landowner of what would become Franklin Village, Elijah Bullock, who purchased the land in 1824. Bullock was a blacksmith who had come to Michigan from New York with his small family.

The Franklin Community Church was originally organized in Franklin in 1840 as the Methodist Protestant Church, meeting in their original location on German Mill and Franklin Road. The congregation grew too large for the original space and the organization purchased land west of the Village Green to build a new church building in 1954. A groundbreaking ceremony was held on December 3, 1954 and the doors of the new Franklin Community Church (name change) were opened in 1956. As the congregation grew, a new fellowship hall addition to the south of the main church building was completed in May 1965.

Statement of Significance/Recommendation of Eligibility

Provide a detailed explanation of the property's eligibility for the National Register, including an evaluation under at least one of the four criteria, discussion of the seven aspects of integrity, and recommendations about eligibility. This is required for all properties.

This resource is recommended as eligible for inclusion as a contributing resource in the Village of Franklin Local Historic District under Criteria A: Event – a building used by a social organization, and Criteria C: Architecture.

The Franklin Community Church, located at 26425 Wellington Road, is the oldest continuous organization of any kind in Franklin Village and was one of the first established Methodist Churches in the state of Michigan.

The Franklin Community Church building is an excellent example of a Neoclassical church in a rural community, including a variety of distinctive neoclassical features including the 2-story porch on the main façade supported by four Tuscan columns, the elaborate broken pediment on the main entryway as well as the large multi-light windows. The resource possesses integrity in all 7 aspects: it's location and setting on the Village Green mark the building's importance to the community, it is easily accessible by foot to the main Village and can be seen from many areas of downtown Franklin; the design, materials and workmanship typify the neoclassical style of architecture that can be found on other small rural Michigan churches; the structure's association with the Franklin Community Church and the Methodist Church are intact and remain some of the longest running organizational associations in the greater area.

It is recommended that the Franklin Community Church be added to the Franklin Village Local Historic District as a contributing resource.

Narrative Architectural Description

Provide a detailed description of the property, including all character defining features and any accessory resources.

One-and-one-half-story side gabled frame house with varied windows, some double-hung, some casement, with a one-story wing to the east and a one-and-one-half story wing to the west. The façade has three bays with a central entrance covered by a simple portico structure, a large wide bay window to the west of the entrance and a 16-light casement window to the east, the west side of the façade is clad in fieldstone. There is a centrally located fieldstone chimney. The west wing is side gabled, with three bays that each have an 8-light casement window; the west wing is clad in red brick. The east wing is a side gabled seasonal porch with large windows surrounding all elevations as well as an entrance with a small modern porch on the east elevation.

There is a one-and-a-half-story 2 bay brick barn/storage shed on the property. There is also a 3-car side gable modern garage on the property.

History of the Resource

Provide information on previous owners, land use, construction and alteration dates in a narrative format. This is required for all intensive level surveys and designation and recommended for other identification efforts.

It is possible that the core of the center of the home is the remains of a Greek Revival cottage built circa 1864-1870 by John Lock, an English immigrant. Remodeled by local builder Art Kreger in 1940.

Title Search: 1856, R. Adams to H. Cox; 1860, H. Cox to J. Lock; 1864, J. Lock to J. Brown; 1878, M. B. Ferguson to Wm. West; 1911, West to W. Mosher; 1913, W. Mosher to C. Adams; 1916, C. Adams to C. Metcalf; 1921, C. Metcalf to J. Austerberry; 1936, J. Austerberry to J. Allen; 1936, J. Allen to R. Braun; 1944, R. Braun to M. Murphy; 1979, M. Murphy to F.J.Orians; 1994, F.J.Orians/M.Orians to Franklin Foundation; 1998, Franklin Foundation to W.L.Lamott/A.Lamott.

Statement of Significance/Recommendation of Eligibility

Provide a detailed explanation of the property's eligibility for the National Register, including an evaluation under at least one of the four criteria, discussion of the seven aspects of integrity, and recommendations about eligibility. This is required for all properties.

This resource is recommended as eligible for inclusion as a contributing resource in the Village of Franklin Local Historic District under Criteria A: Event (Early Settlement)

26475 Scenic is located on Scenic Drive (formerly Scenic Highway), which appears on the 1857 atlas and may have been a result of the Legislative Act of 1832 that mandated the construction of roads on section lines in townships. The land was purchased in 1860 by early settler John Lock, an immigrant from England classified as a Laborer. John Lock built the first home on the property in 1860, which is purported to be the central core of the structure that stands on this property today. The home is also associated with local builder Art Kreger, who remodeled the structure in 1940.

The resource retains integrity under three of the seven aspects, including historic location, setting, and association: The house sits on its original historic location; the property retains the original setting of the structure on a large wooded lot along a main thoroughfare; the structure retains integrity as having been associated with one of Franklin's early settlers, John Lock, and also with one of Franklin's most prolific builders, Art Kreger.

The resource does not retain integrity of design, materials, or workmanship as the original structure has been significantly altered and added to at various times throughout history. The resource also does not retain integrity of feeling, as the original structure has been altered beyond immediate recognition.

It is recommended that the resource located at 26475 Scenic be added to the Franklin Local Historic District as a contributing resource.

Narrative Architectural Description

Provide a detailed description of the property, including all character defining features and any accessory resources.

Two-story cross-gabled frame house with a three-car attached garage at the rear. The front facing gable has been faced in stone, and there is a bay window on the first story. There is a small shed roof entry porch at the intersection of the gables. Windows are divided light, and there are two gabled wall dormers on the façade.

History of the Resource

Provide information on previous owners, land use, construction and alteration dates in a narrative format. This is required for all intensive level surveys and designation and recommended for other identification efforts.

This house is located on what was once a 160-acre farm owned by the Worthing family. The property was subdivided in 1948 to create the Stone Oaks Subdivision. The original house was built by early Franklin settler Jonathan Worthing in 1848, who registered the land purchase with the Village in 1826. Worthing was a trustee for the Franklin Cemetery around the time that the house was built. The house was extensively remodeled in 1939 by then owner Jennings Morse with a complete redesign by architect Lester Waldo, when the side wing, breezeway and garage were added. The main structure of the original home and the hand-hewn interior beams therein were used in the reconstruction process; however, the original form and layout have been lost. Fieldstones were sourced from the surrounding farmland and used as exterior treatment on the façade. Local builder Art Kreger was the contractor on that project. Various generations of the Farynk family have used the home as a residence since 1955.

Title Search: 1949, J.J. Morse to M.H. Danker; 1955, M.H. Danker to W. Farynk, 2001, W. Farynk Tr to W. Farynk Jr.

T1N, R10E, SEC 7 Stoneoaks, Lot 30

Statement of Significance/Recommendation of Eligibility

Provide a detailed explanation of the property's eligibility for the National Register, including an evaluation under at least one of the four criteria, discussion of the seven aspects of integrity, and recommendations about eligibility. This is required for all properties.

This resource is recommended as eligible for inclusion as a contributing resource in the Village of Franklin Local Historic District under Criteria A: Event (Early Settlement), Criteria B: Person and Criteria C: Architecture.

Several individuals significant to local history are associated with the residence located at 30440 Franklin Road, including original owner/builder, Jonathan Worthing, one of Franklin's earliest settlers and a trustee of the first board of the Franklin Cemetery; as well as Walter Farynk, who was a professor of photography at both the Center for the Creative Studies and Wayne State University, and who had a prolific 35-year career as a commercial photographer with General Motors, producing photography for the original Corvair advertising brochure, among many other campaigns.

The resource retains integrity under all of the seven aspects, including historic location, design, setting, materials, workmanship, feeling and association: The house sits on its original historic location; the design of the structure has been extensively altered from the 1848 original; however, the "modernization" and updated remodeling that occurred in the late 1930s, retains the level of materials and workmanship of the original structure including repurposing of hand-hewn beams and fieldstones sourced from the surrounding farmland; the property retains the original setting of the structure on a large wooded lot along a main thoroughfare; the structure retains intact historic materials such as siding, windows and brickwork; the historic workmanship of the home has remained unchanged and matched when repair became necessary; the retention of the original setting leads to integrity of feeling of a home on the outskirts of the village; the home has remained under association with a variety of significant persons throughout local history.

It is recommended that the residence located at 30440 Franklin Road be added to the Franklin Village Local Historic District as a contributing resource.

Narrative Architectural Description

Provide a detailed description of the property, including all character defining features and any accessory resources.

32020 Franklin Road is a Tudor style house with a concrete foundation, brick walls and a slate roof. It is a two-story house with cross gables, dormer windows, patterned brickwork and a two-story turret. There is a large chimney on the front façade and small balcony on the side elevation. There is a one-story flat-roofed addition on the corner of the south & east elevations. There is also a large contributing three bay brick carriage house/garage with flared slate roof and a contributing two-car brick garage recessed below the house. The structure is located on a 3-acre wooded lot.

History of the Resource

Provide information on previous owners, land use, construction and alteration dates in a narrative format. This is required for all intensive level surveys and designation and recommended for other identification efforts.

The property on which the home at 32020 Franklin Road is built was originally owned by A.A. Rust, township supervisor, treasurer, postmaster, business owner, church leader, and prolific landowner in Franklin. The land is shown in his ownership from 1845 -1908. This home was contracted by owner C.H. Gracey to be designed and built by Architect William E. Kapp of Smith, Hinchman, Grylls. Local legend contends that Gracey traveled to Europe with Mr. Kapp to gather ideas for the design of the home, and upon returning, lost all of his fortune in the stock market crash. Mr. Gracey had just enough left to finish building the home; however, he was never able to live in it. From 1949 to 1966, Detroit Tigers Baseball Pitcher and Hall of Famer, Hal Newhouser, owned the home and lived in it. Chuck Jordan, Vice President of Design for General Motors from 1986-1992, owned the home in the mid-to-late 1970s. Mr. Jordan was the Chief Designer for many of GM's popular luxury vehicles, including the 1959 Cadillac and the Chevrolet Cavalier.

Title search: Before 1939, part of lot 55 (ex. Par) Rayner to Smith; 1939, C.H. Gracey to O.J. Shore; 1949, K.L. Fraser to James S. Holden Co.; 1949, Holden to H. Newhouser; 1966, Newhouser to D. C. Long; 1974, D.C. Long to R. Politi; 1978, C./S.Jordan to J./V.Abbott; 1984, J./V.Abbott to R.J./J. Meldrum.

Statement of Significance/Recommendation of Eligibility

Provide a detailed explanation of the property's eligibility for the National Register, including an evaluation under at least one of the four criteria, discussion of the seven aspects of integrity, and recommendations about eligibility. This is required for all properties.

This resource is recommended as eligible for inclusion as a contributing resource in the Village of Franklin Local Historic District under Criteria B: Person and Criteria C: Architecture.

32020 Franklin Road is believed to be designed and constructed by Architect William E. Kapp, of Smith, Hinchman, Grylls, who also designed National Historic Landmark Meadowbrook Hall in Rochester, Michigan. The property is also associated with one of Franklin's earliest settlers, A.A. Rust, who made significant contributions to early Franklin society holding several Village Office positions, including postmaster, as well as being the owner of the A.A. Rust Store on Main Street. Later notable residents associated with the home are Hal Newhouser, Detroit Tigers Pitcher and Hall of Famer, as well as Chuck Jordan, prolific Design Professional with General Motors, both of whom lived in the home during the time of success in their respective careers.

The resource retains integrity under all of the seven aspects, including historic location, design, setting, materials, workmanship, feeling and association. The resource remains on its historic location, the structure is a prime example of a Chateauxesque Tudor Revival style home, designed by a master architect; the home includes many elements of fine workmanship and original materials including patterned brickwork and custom masonry, leaded

glass windows, custom lighting features. The setting of the estate along Franklin Road, the main thoroughfare of the Village on a multi-acre wooded parcel carries significance in expressing the feeling of a home in the woods that has the ease and accessibility of the suburbs; close to amenities while maintaining distance from the noise and pollution of the city. This property stands as a harbinger of the mid-later twentieth century estate development that currently surrounds the Village. The home has been associated with several figures significant to both local and national history.

This structure is currently listed as Contributing in the Village of Franklin National Register Historic District.

It is recommended that the structure located at 32020 Franklin Road be added to the Franklin Village Local Historic District.

Narrative Architectural Description

Provide a detailed description of the property, including all character defining features and any accessory resources.

One-and-one-half story Greek Revival style Upright and Wing frame house. The wing has a shed roof and an engaged porch supported by thin columns. The Upright portion is front gabled, with prominent eave returns. Windows are 6/6 light double hung with shutters. Architectural details include a wide frieze band at the roof line and pilasters at the corners of the upright element.

There is a contributing gabled barn and shed also included in this property.

History of the Resource

Provide information on previous owners, land use, construction and alteration dates in a narrative format. This is required for all intensive level surveys and designation and recommended for other identification efforts.

The property was owned by Hamilton and Lucius Miller from 1848-the mid-1860s; they may have built the home. Charles and Grace Johnston purchased the property in 1901. The Johnston's continued to utilize the property as a small farm that produced potatoes and corn, along with pigs, cows, chickens and a small fruit orchard. The farmland surrounding the house was sold off by the Johnston & Kreger families in the 1920s. The Johnston's daughter, Cora Kreger, and her husband Art, were given the house in 1918. Art Kreger was a builder who constructed many homes in Franklin. The Kregers lived in the house until their death in the 1980s. The Kreger's daughter, Maxine Kreger Nelson, inherited the house after their death and lived there until her death in 2006. The Kreger Farmhouse, barn and shed were donated to the Franklin Village Historic Society by the Bauer family, who were the next to own the home. The structures were moved from their location at 26565 Scenic Drive in Franklin Village to the Village Green on December 18, 2008.

Title Search: 1983, C. Kreger to M.V. Kreger/R.C. Kreger; 2008, M.V. Nelson/R.C. Nelson to C.E. Bauer/A.Z. Bauer; currently owned by the Franklin Historical Society as donated by the Bauer Family in 2008.

Statement of Significance/Recommendation of Eligibility

Provide a detailed explanation of the property's eligibility for the National Register, including an evaluation under at least one of the four criteria, discussion of the seven aspects of integrity, and recommendations about eligibility. This is required for all properties.

This resource is recommended as eligible for inclusion as a contributing resource in the Village of Franklin Local Historic District under Criteria A:Event (Early Settlement), Criteria B: Person and Criteria C: Architecture.

32325 Franklin Road (historic 26565 Scenic) is recommended as eligible for inclusion under Criteria B, as associated with this home are several of Franklin's more prominent families, including the Johnston's and the Kregers. The Johnston family were farming corn and potatoes, raising livestock and running an orchard on the property in the early20th century. Art Kreger was a prolific local builder during the mid-1900s.

The home located at 32325 Franklin Road (historic 26565 Scenic) is an excellent example of rural American architecture in the Greek revival style. It is a typical mid-19th Century Franklin Village farmhouse, which is a standard early architectural form throughout the village speaking to the agricultural roots of the area. Despite the fact that the home and outbuildings have been relocated from their original location, because the resource itself has been little altered, the form does evoke a sense of the feeling of what the original building was used for: to house a small farming family in a small village during the mid-1800s.

The home and outbuildings were donated to the Franklin Historical Society in 2008 as a preservation method. The structures would have been lost to development had they not been relocated to the Village Green area. They are currently used by the community for small gatherings and events. Though no longer directly threatened by development, it is recommended that the structures be listed as eligible to be included in the Village of Franklin Local Historic District due to their association with prominent Franklin community members, as well as being a

prime example of the early rural architecture of the Village.

The resource retains integrity under four of the seven aspects, including design, materials, workmanship and association: the design of the original structure remains intact, the structure retains intact historic materials such as siding, windows and brickwork; the historic workmanship of the vernacular farmhouse has remained unchanged and matched when repair became necessary; the structure has been and remains to be associated with prominent figures in local history.

The structure does not retain integrity of location, setting, or feeling: the structure has been moved from its original location at 26565 Scenic which has caused the resource to lose all integrity of historic location, setting and feeling.

It is recommended that the residence at 32325 Franklin Road be added to the Franklin Village Local Historic District as a contributing resource.

National Register Eligibility

Is the landscape listed in the National Register?	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>	If yes, provide:	Date Listed:	NRIS #:
If not already listed, complete the information below:					

Eligible Under:	Criterion A <input type="checkbox"/>	Criterion B <input type="checkbox"/>	Criterion C <input type="checkbox"/>	Criterion D <input type="checkbox"/>
Criteria Considerations:	a. <input type="checkbox"/>	b. <input type="checkbox"/>	c. <input type="checkbox"/>	d. <input type="checkbox"/> e. <input type="checkbox"/> f. <input type="checkbox"/> g. <input type="checkbox"/>
Not Eligible <input checked="" type="checkbox"/>				

Form date: 6/25/2019

National Register Eligibility Continued

Area(s) of Significance	n/a		
Period(s) Significance	n/a		
Integrity – Does the landscape possess integrity in all or some of the 7 aspects?			
General Integrity:	Intact <input type="checkbox"/>	Altered <input type="checkbox"/>	Moved <input type="checkbox"/>
Date(s):			
Location <input type="checkbox"/>	Design <input type="checkbox"/>	Materials <input type="checkbox"/>	Workmanship <input type="checkbox"/>
Setting <input type="checkbox"/>	Feeling <input type="checkbox"/>	Association <input type="checkbox"/>	
Condition of District?	Good <input type="checkbox"/>	Fair <input type="checkbox"/>	Poor <input type="checkbox"/>
Threats to Resource?	None at time of survey		
Survey Date	3-18-2021	Recorded By	Amanda D. Davis
For SHPO Use Only	SHPO Concurrence?: Y / N		Date:

Landscape Description

Provide a description of the landscape, including general character of the landscape, specific information regarding the landscape characteristics, and the qualities distinguishing the landscape from its surroundings. This is required for all landscapes.

Natural Features	
Topography	Well groomed grassy open space with tree line at NW boundary
Vegetation	Shortly cropped grass and few native trees
Water	none
Geology	none
Ecology	none
Climate	
Designed/Cultural Features	
Land use patterns	Open green space, community gathering & recreation
Planting patterns	none
Boundary demarcations	Native tree line at NW boundary, difficult to demarcate other boundaries as there are not physical features designating them as such
Spatial organization/layout	Small gazebo to North East edge of property, baseball diamonds – one at Eastern boundary line, one at SW boundary line
Circulation Networks	n/a
Views and vistas	n/a
Water features	n/a
Buildings, structures, and objects*	Gazebo (modern construction- non-contributing), shed (modern construction- non-contributing)
Small-scale elements (markers, statuary, site furnishings)	n/a

Other (including ephemeral qualities – sounds, activities, wildlife, smells, etc.)	
--	--

**list and briefly describe each and attach an Architectural Resource Inventory Form for each major resource*

History of the Cultural Landscape

Provide a general history that includes the people, trends, and time periods that shaped the landscape over time. This could include information on previous owners, land use, construction and alteration dates in a narrative format. This is required for all intensive level surveys and recommended for other identification efforts.

The Franklin Community Association Property is located on land that was never part of a Master Plan or developed since being platted, which resulted in a grand open space on Franklin Road that is known as the Village Green. Local businessman George Wellington Smith preserved most of this land as open space for years, finally selling off large portions to the Village of Franklin, the Franklin Community Association (FCA) and the Franklin Community Church between the years of 1954 and 1973.

Statement of Significance/Recommendation of Eligibility

Provide a detailed explanation of the landscape's eligibility for the National Register, including an evaluation under the four criteria, discussion of the seven aspects of integrity, and recommendations about eligibility. This is required for all cultural landscapes.

The determination is that this landscape is not eligible for inclusion as a contributing resource to the Franklin Village Local Historic District. The recommendation is that the landscape be included in the District as a non-contributing resource.

The Franklin Community Association (FCA) Property does not meet any of the four criteria for eligibility. The FCA property has not been associated with events that have made a significant contribution to the broad patterns of our history. The FCA property has not been associated with the lives of persons significant to the past. The FCA property does not embody the distinctive characteristics of a type, period or method of construction, or that represent the work of a master, or that possess high artistic values, or that represent a significant and distinguishable entity whose components may lack individual distinction. The FCA Property has not, nor is likely to, yield information important in prehistory or history.

In relation to the seven aspects of integrity, the following results have been determined. The FCA Property does retain integrity of historic location only in that it is located on a parcel of land that has not been moved. The FCA Property retains no integrity of design as there was not historically any integrity of design to maintain; this was not, and is not today, a professionally designed landscape. The FCA Property does not retain integrity of setting as the parcel of land was historically used as merely open space and it is currently used for sports/recreation in the form of modern baseball fields. The FCA Property does not retain integrity of materials as there are not identifiable materials that have been used to create this landscape. The FCA Property does not retain integrity of workmanship as it is not, and was not historically, planned or maintained as a professionally designed landscape. The FCA Property does retain integrity of feeling only in that it remains virtually an open space upon sight, as it has historically. The FCA Property does not retain integrity of association with any significant person or group throughout the greater history of the area; all historic associations are purely speculative at this point and unable to be corroborated with documentary evidence.

It is for the above reasons that it is recommended that this the FCA Property be included in the Franklin Local Historic District as a non-contributing resource.

Detailed Site Plan/Map

Provide a full page site plan or map with important features identified.

Site Photographs

Provide photographs to illustrate the significance of the landscape. These photographs should be two to a page with a brief caption beneath.

GIS/Locational Information

Please provide the SHPO with GIS shapefiles when available.
