Stoppels presented the 2009-2010 Proposed Budget beginning with an introduction entitled "Getting Back to the Basics", noting that in light of the current and projected economic challenges the proposed budget gets back to the basics of providing core services in a simple, bare-bones fashion. He continued by advising that the Village will need to take the same proactive approach to planning for the future as it has in the past and that Village Officials are currently looking at new ways to reduce costs, improve efficiencies and build up reserves.

Discussion ensued regarding Revenue Sharing, timing/procedure to implement changes to the proposed budget, Public Hearing, and Fire Department proposed budget.

Hughes outlined the areas still open for discussion, noting that Hubbell Roth and Clark, Village Engineers, (HRC) has advised that Bloomfield Township has budgeted for future expansion of its safety path to the Robertson development and that HRC has indicated the projected costs are still good. And that material choices of asphalt, concrete, or tinted concrete still needs to be determined.

Discussion ensued regarding bonds, benefits of the project, timing, economic challenges, choice of material, aesthetics, Bloomfield Township extension, safety concerns, other municipal initiatives, engineering drawings, publicity, upcoming public meeting, and formulation of ballot language, with Hughes stating that to formulate the ballot language decisions need to be made regarding choice of material, timing of legs, and whether 14 Mile Road is included. Clerk Pulker advised that ballot language needs to be finalized by June. Schiano, with the consensus of Council, suggested that this be returned to Planning Commission for their final recommendation and added that, ultimately, the Villagers will make the final determination.

Staran inquired if any costs will be incurred for land or right-of-way acquisition, if the pathways will be located within Village easements, if the maintenance figures contemplate ongoing repair and slab replacement, and if snow removal has been contemplated. Moenck and Hughes advised that the pathways will be located entirely within municipal and Oakland County easements, projected maintenance is included, and snow removal will not be provided.

Coyer inquired if there will be any issues with the County regarding the installation of pathways in right-of-ways within their jurisdiction such as along 14 Mile Road to which Staran replied that the County is usually supportive, though it will require issuance of a use permit with certain conditions such as indemnification of liability.
