Genesee County Licensed Sewage Disposal System Contractors

RE: Septic Installation Discontinued Due to Adverse Weather/Ground Conditions

Dear Owner/Operator:

Due to the possibility of wet ground conditions found on many construction sites this time of year, we must **discontinue further septic installations- Saturday, December 23, 2023.**

Installations may be considered on an individual basis; please consult the appropriate area sanitarian for a determination prior to installations (or installations currently in progress) after December 23, 2023.

Our concerns for discontinuing installations after December 23, 2023:

1. Continued construction will result in premature septic failures, due to smearing of soils.
2. We are not able to evaluate conditions effectively.

Thank you for your continued cooperation. Please feel free to contact our office at (810) 257-3603 if you need additional information or clarification.

Sincerely,

Your Genesee County Health Department Staff

Genesee County Health Department
Environmental Health Division
