Bidder must complete and return this form for the bid to be considered responsive. A check mark shall be placed in the areas of specification agreement. Variances must be clearly identified in the bidder's equipment column. A check mark indicated compliance. Failure to comply with any part of the bid specifications will not remove that bid from consideration but will indicate a variance on which the City alone will determine the importance to the overall performance of the item and suitability for the intended purpose. **Equipment bid is to be new, unused and of the Manufacturer's latest model. Dell part numbers must be included with the specifications.** Any omission from the specifications shall not relieve the bidder from the responsibility of furnishing computers ready for use. Equipment proposed shall be as specified, no substitution allowed due to standardization of City equipment and certification of Staff members.
