

## Notice to Interested Vendors: Uniform Wear Test

The City of Johnson City, TN Police Department is interested in inspecting and wear testing patrol trousers and undervest shirts. This uniform would need to look professional, have stretch, comfort, be fade resistant and come in a variety of men's and women's sizes. We are currently wearing external body armor vests and are looking for a uniform to wear with that, which will be our uniform of the day. We would prefer a polyester blend but would be glad to look at other fabrics. All items would need to be a navy blue color and sized for the tester. The department will furnish and affix patches to the sleeves of the shirts. Any samples would need to be sent to us by May 1, 2024. Please contact us with any questions.
