Motion was made by Council member Poston and received a second by Council member Kambhatia to enter back into open session. Motion carried unanimously.

Action taken from executive session: No Action

PUBLIC COMMENTS:
Mr. Sammy Jones, 263 E Marion Street, commented on his drainage system behind his home. He was told by the previous administrator it would be taken care of, there was a grant to fix, had engineers look at it, it was a city problem and he would like to know when it was going to be fixed. The city didn’t have a problem fixing the $40,000 ditch on Maple Street, what is the difference.

Renee Harrell 447 Pine Street representing 237 E Marion Street, concerned about the litter, she stated if you ride through the city it looks like a trash dump. Can you do anything to make the property owners clean up the area.

Edie Cain, 208 W Broadway Street, commented if you have an issue with someone go to that person, not everyone else and talk about them.

City Administrator Nick Ammons requested from council the approval to purchase a new electromagnetic flow meter to replace the current one at the waste water treatment plant which was installed back in 1960’s. The cost would be approximately $7,900.00. Council member Arthurs made the Motion and council member Posted gave a second to approve the purchase. Motion carried unanimously

City Administrator Nick Ammons presented to council the grant match funds for approval from the ARP funds. The Oak Hill water tank rehabilitation funding will be a Rural Infrastructure Authority (RIA) grant in the amount of $500,000, the engineering cost estimated at $65,000, city match $125,000 (25% of construction) The RIA grant can only be used for construction cost. The applications are due by March 15, 2022 and awards are typically made in June/July. Project should be completed by March 15, 2023.

The pump station #5 rehabilitation and Spring Hill Community water line improvements funding will come from the Community Development block Grant (CDBG) in the amount of $750,000, engineering cost $110,000, city match is $110,000, limitations on funds must be used in Low to moderate income areas. The pre-application is due by March 15th full application is due by April 15, awards are typically made in June/July. The project would be designed and constructed within 18 months.

These funds combined would be approximately $300,000 which we are requesting to spend from ARP funds Motion was made by Council member Arthurs and received a second by Council member Kambhaita to approve use of the ARP funds for said projects. Motion carried unanimously

Council member Poston spoke on litter in the city, that when he was first elected, he and a few others picked up 52 bags of trash off of some streets, we have a real trash problem and we need to help keep the streets clean. We need to encourage people not to litter. Ask every citizen to help keep the town clean there’s no reason for the city to look so trashy.

Motion was made by Council member Arthurs and received a second by Council member Poston for second reading of an ordinance calling for referendum at the next general election to determine whether the South Carolina Department of Revenue may issue temporary permits for the Sunday sale of alcoholic beverages for off-premises consumption in the City of Johnsonville. Motion carried with a 3 to 1 vote. Council member Altman voting no, Council Member Kambhaita recusing himself, conflict of interest.
Administrators Report:

**Water Department**
- 4 new water taps this month
- New hire has made significant progress; seems to being working very well.

**Wastewater**
- Switch Gear update
  - Total job completion is at approx. 60% including buildings and electrical.
  - All power distribution materials have been received and we are awaiting PLC controls and programming completion
  - There have been some changes to remote capabilities and we are working thru those.
  - Completion – Start running with new equipment - 5/06/22
- 1 vacancy currently

**Streets & Sanitation**
- All new hires have made significant progress thus far.
- We have had some delays with the route service; however, we are ensuring that everyone’s trash is being dumped in a timely manner as best we can
  - Delays are largely in part to trying to acclimate the new employees with route running as well as operating the equipment

**Police**
- Officers issued 50 traffic citations for violations

**Other/Administration**
- HR/Personnel Policy Update is ongoing; hopefully in the final prepping stages for possible adoption
- Hampton Street Park Bench Rehab
  - Combined Effort from several guys in public works
  - Painted base poles green to match accent colors
  - New wood boards with fresh stain

**Committee Reports:**

**Golf Course committee:** Council member Arthurs reported the golf course is two weeks ahead of schedule, should be finished by October 1st, or sooner.

**Parks Committee:** Council member Poston reported park benches have been repaired and we have money left in a PARD grant that we will be spending to fix up park in the next few weeks.

**Motion** was made by Council Member Poston and received a second by Council Member Khambhaita to adjourn the meeting. **Motion carried unanimously**

**Adjournment:** 8:34pm

**Approval of Minutes:** Minutes approved by City Council on this 24th day of April, 2022.

Attest:
Marlene Rollins, City Clerk
Johnny Hanna, Mayor
