City of Kasson Utility Billing Credit Card Users Announcement

As of April 28th, the City migrated to a new credit/debit card processor for the payment of Utility Bills. Upon clicking the link, customers can pay by credit/debit card as a “one-time payment” each time they pay, or, set up recurring payments for their convenience. You will need to know your **Web ID** which is on your statement.

- If you are signed up through Auto Pay through the City (whereupon the amount was withdrawn from your checking account on the 15th of the month) and you wish to switch to the credit card recurring, please fill out the online form to DISCONTINUE the Direct Pay through the city to eliminate any duplication of payment. (go to www.cityofkasson.com, Residents Tab, Utility Billing Options, **Changes to Existing Auto Pay**. At this form, fill out Name and address and then fill in cancel for every other blank space. Hit “submit”)
- If you are currently on Auto-Pay with the City of Kasson there is no need to set up an account on the credit card portal.
- Utility customers will have other options to review their utility account if you choose to establish an account through the credit card portal.
- All payments will be reflected on your account the next business day.
- Credit cards can now be accepted at City Hall for building permits.

Installing Solar Panels?

In compliance with the adopted rules relating to cogeneration and small power production, the City of Kasson encourages interested co-generators and small power producers to learn how to connect with the city's electric distribution system.

Public power customers can look to their trusted local electric utility for advice on how to interconnect and distribute electricity from small power production or co-generation facilities that use solar, wind, or other fuels. Follow the link to learn more about the process and requirements that make safe, reliable connections possible when sending excess generation into the grid from these qualifying facilities (QFs).

For the City of Kasson for any utility customer to install solar panels

- 1) a building permit is required, and,
- 2) your project must be applied for through your electric service provider (within the City of Kasson, you may be in City of Kasson, Xcel, or Peoples Coop service territory).
- 3) If you are a City of Kasson electric customer, the solar application
https://www.cityofkasson.com/index.asp?SEC=32139C50-8D0F-4918-B34F-45B632EC7C7B&Type=B_BASIC
(www.cityofkasson.com/solar)

If you have any questions, please contact Amy at 634-7071.

Would you like your bill earlier each month?
