

Plastic bags in your recycling bin? Don't even think about it! Return your plastic bags to a retail location that accepts bags and films for recycling. And just a reminder—no plastic bags in your recycling bin means no bagged recyclables either! To find the nearest retail location to recycle your plastic bags, visit RecycleSpot.org.

Time for an upgrade? Don't forget to recycle the box! Recycling your paper products and cardboard boxes will ensure that there is enough supply to meet the demands of manufacturers that make toilet paper, paper towels, tissues and, of course, new boxes. Cardboard and paper are both recyclable in your curbside bin. For a list of recycling centers that accept them, visit RecycleSpot.org.

Catching up with colleagues this morning. Let us know if you have recycling questions! Send us an [email](mailto:info@recyclespot.org) or give us a call, (816) 474-8326.

Battery-related fires at recycling facilities across the country are spotlighting the need for increased battery safety. Never put batteries or electronics in your recycling bin. Find a drop-off location at RecycleSpot.org.
