In Re: Kearney, Missouri Solar Statement

Dear SolSmart review staff:

Kearney, MO is pleased to acknowledge its commitment to solar-friendly best practices. Kearney has been a long-standing partner with Mid-America Regional Council (MARC) and twenty-five other local governments in the Kansas City metropolitan region as part of the Solar Ready KC and Solar Ready II initiatives funded by the U.S. Department of Energy's SunShot Rooftop Solar Challenge. As part of the Rooftop Solar Challenge, MARC developed a program to recognize local communities for their efforts implementing solar best management practice (BMPs.) Over the course of the last five years, 2012-2016, coordinated efforts have been underway to make the Kansas City region solar ready.

Kearney is further committed to become a SolSmart-designated community. In partnership with the SolSmart team, Kearney staff will work with MARC and our region's peer cities and counties to improve solar market conditions, making it faster, easier, and more affordable for our county residents and businesses to install solar energy systems. These efforts will also increase the efficiency of local processes related to solar development, which may save our county time and money.

The SolSmart designation program builds upon our community's participation in Solar Ready II, which resulted in the identification, codification and implementation of solar BMPs. As part of the Solar Ready designation program, Kearney received the Silver level honor by:

- Addressing solar energy in its zoning ordinance;
- Making solar-ready construction guidelines available on its website;
- Creating a solar landing page; and
- Providing links to MARC's solar mapping website

These efforts demonstrate that Kearney is committed to driving continual improvement in our solar market, and in the process of doing so, all of the related areas identified as community priorities in the Kansas City region. Kearney is willing to measure its progress by tracking key metrics related to solar energy deployment, such as installed solar capacity and the number of installations across sectors.

Inquiries related to Kearney, MO SolSmart participation can be directed to David Pavlich, Community Development Director at dpavlich@kearneymo.us or 816.903.4731.

Sincerely,

David Pavlich
Community Development Director
