Accessing the Subrecipient Portal

The Subrecipient Portal is hosted by Neighborly Software and is accessible available via any internet connected device. The recommended browser is Google Chrome, but will work with any modern web browser (i.e. Internet Explorer v10+, FireFox, Safari).

Registering your Account

When you access the Portal for the first time, you'll need to Register your account by clicking on the Register link. The registration process will create a user name (which is your work email address) and password that will be used for future logins. The email address you choose will also be used for system emails/notifications. For security purposes, the system will validate that you own the registered email address by sending an email with a validation link.

Note: If you do not receive the system email within 2 minutes, check your spam or bulk mail folder. If the email appears in that folder, you should right click on the email to indicate "Not Junk" or "Not Spam" to ensure you receive any other system notifications.

Logging In

Once your account has been registered, you may login (using the same link above) by entering the email address and password used during registration. By checking “Remember Me?”, your web browser will remember your email address for future logins (depending on browser and security settings).

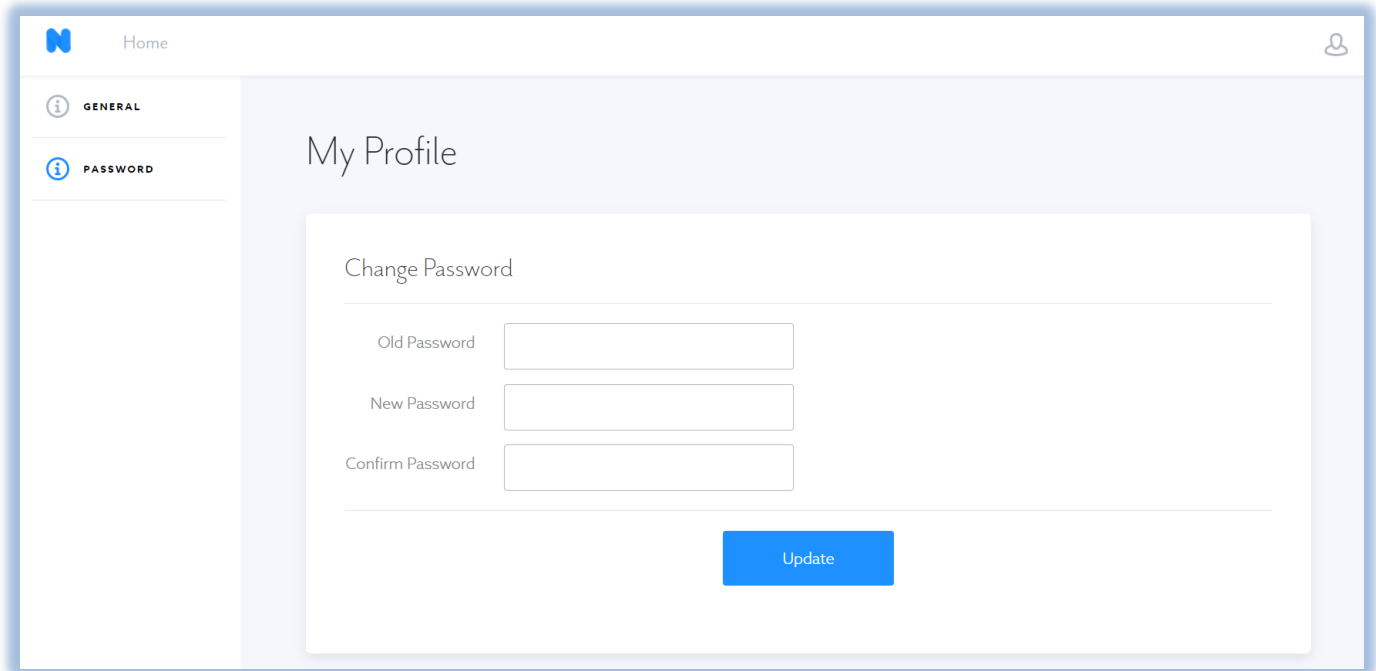

The image shows a screenshot of a web form for logging in. At the top, there are two tabs: "Sign In" (which is underlined) and "Register". Below the tabs, there are two input fields: "Email Address" and "Password". Below the "Password" field, there is a checkbox labeled "Remember Me?". At the bottom of the form, there is a blue button labeled "Sign In" and a link labeled "Forgot your Password?".

Forgot your Password

If you forget your password, click on the link that says “Forgot your Password?” and follow the prompts to create a new password. For security purposes, the system will send an email to the registered email address with a link to reset your password.

Changing your Password

To change your password, log into the Application Portal. Click on the  icon on the top right corner of the screen, and select “My Profile”. Then select the Password option on the left side of the screen. For security purposes, you will be required to enter your Old Password before selecting a New Password.

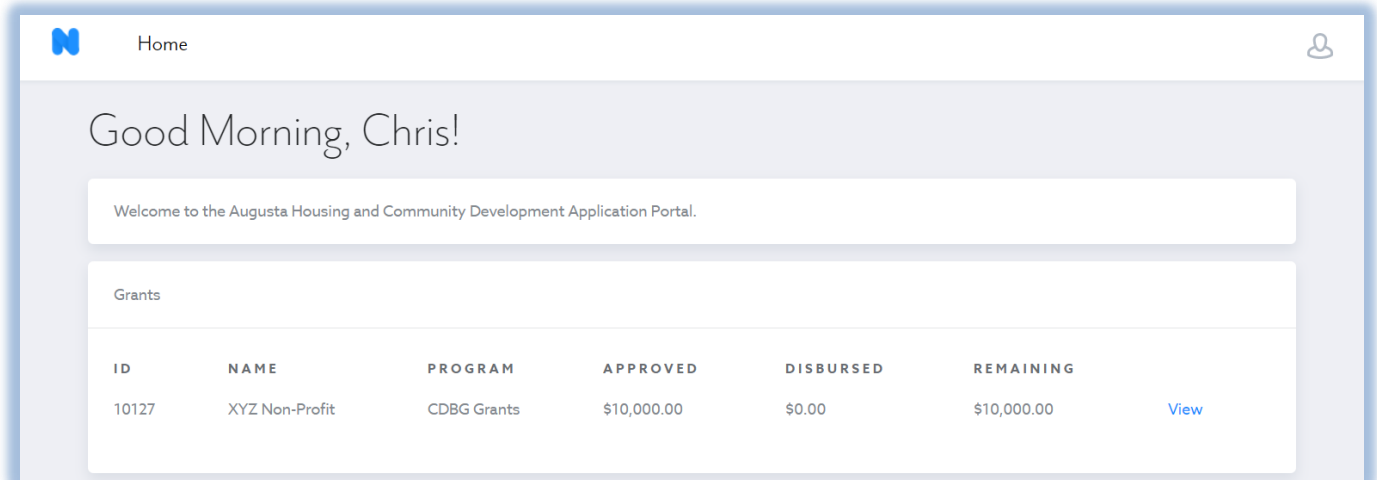

The screenshot shows a web application interface. At the top left, there is a blue 'N' logo and the word 'Home'. At the top right, there is a user profile icon. On the left side, there is a navigation menu with two options: 'GENERAL' and 'PASSWORD', both with information icons. The main content area is titled 'My Profile' and contains a 'Change Password' form. The form has three input fields: 'Old Password', 'New Password', and 'Confirm Password'. Below the form is a blue 'Update' button.
