

# Morris Frank Park & Wetland Trail Location Map

The Lufkin Wetland Garden was created as a 4.5 acre detention pond for Cedar Creek and to mitigate a hardwood bottomland. Funding from Abitibi enabled the addition of an ADA accessible sidewalk, viewing peninsula, pavilion, elevated walkway and rustic amphitheater, making the facility ideal for use as an outdoor environmental classroom. The public can reserve the pavilion by contacting the Parks Department.

1 inch equals 4,000 feet
