## Do-It-Yourself (DIY) Property Owner Affidavit & Permit Policy

**Use this form if you are a property owner doing your own construction work.**

The Michigan Occupational Code gives the property owner an exemption to act as the general contractor if the property owner is building their own residence for their own use. This means that in the case of their own single family residence (not a duplex or apartment building) the property owner may act as the general contractor, even though a licensed builder may be significantly involved. 339.2403 of the Michigan Occupational Code\* states:

*A person may engage in the business of or act in the capacity of a residential builder without having a license if the person is an owner of property with reference to a structure on the property for the owner's use and occupancy, or an owner of rental property, with reference to the maintenance and alteration of that rental property.*

If the property owner acts as the general contractor and obtains the permit, they, as the permit holder, incur the liability and the responsibility that the licensed contractor normally would assume.

It will be the property owner's responsibility to correct any code violations even if the contractor or any other person did the work.

If an event occurs beyond their control and the other party is unable to complete the work, the property owner is legally responsible for completion of the job.

I hereby certify that the work described in the building permit shall be installed in accordance with the local code and shall not be enclosed, covered up, or put into operation until it has been inspected and approved by the inspector. I will cooperate with the Inspector and assume the responsibility to arrange for necessary and timely inspections.

I have read and understood the above.
