RE: Mount Laurel Township
Foxcroft Estates
Block 401.08, Lot 24
60 Foxcroft Way
Gupta License Agreement
Our File No. M-0170-0326-000

Dear Carol:

We have received the submitted License Agreement application and corresponding survey for the referenced property. The parcel is located within Foxcroft Estates. The parcel contains a 2-story single-family residential dwelling with associated improvements. A 25' wide landscape buffer easement traverses the applicant's rear yard property, and a 50' wide landscape buffer easement traverses the applicant's front yard at Hartford Road.

The applicant is proposing to install a fence to enclose the rear yard. The proposed fence location is shown at the rear and side yard property lines, and within the Hartford Road front yard. Since the proposed fence location infringes upon the aforementioned easements, a License Agreement is necessary.

Based on a site inspection as well as our review of the development plans, tax map information and submitted survey, we offer the following comments:

1. Our review of the storm sewer as-built plans show no piping within the easements.
2. The existing trees within the buffer easement should be protected to prevent damage or removal during fence construction.
3. As the proposed fence location may not be concurrent with the applicant's property lines, the applicant is notified that the maintenance responsibilities exist within the property as surveyed and not solely within the rear yard area created by the fence line.

4. The application does not note the height of the proposed fence. It should be noted that the maximum fence height permitted without obtaining a variance is 6'.
5. The fence should be installed to allow stormwater to run under the fence unobstructed.

On this basis and subject to the above conditions, we recommend that a License Agreement be granted for this property. The applicant should however, coordinate with the Township Zoning Officer and governing Homeowner's Association (if applicable) regarding the obtainment of all necessary approvals and/or permits.

Should you have any questions or require additional information, please contact our office.

Very truly yours,

RE: Mount Laurel Township
Foxcroft Estates
Block 401.08, Lot 20
52 Foxcroft Way
Stryjewski License Agreement
Our File No. M-0170-0326-000

Dear Carol:

We have received the submitted License Agreement application and corresponding survey for the referenced property. The parcel is located within Foxcroft Estates. The parcel contains a 2-story single-family residential dwelling with associated improvements. A 25' wide landscape buffer traverses the applicant's rear yard property.

The applicant is proposing to install a 6' high vinyl fence to enclose the rear yard. The proposed fence location is shown at the rear and side yard property lines. Since the proposed fence location infringes upon the aforementioned easements, a License Agreement is necessary.

Based on a site inspection as well as our review of the development plans, tax map information and submitted survey, we offer the following comments:

1. Our review of the storm sewer as-built plans show no piping within the easement.
2. The existing trees within the buffer easement should be protected to prevent damage or removal during fence construction.
3. As the proposed fence location may not be concurrent with the applicant's property lines, the applicant is notified that the maintenance responsibilities exist within the property as surveyed and not solely within the rear yard area created by the fence line.

- Consulting Engineers -

Civil • Structural • Mechanical • Electrical • Environmental • Planners

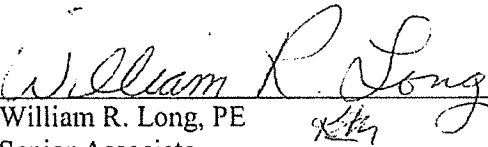

4. The application notes the height of the proposed fence to be six feet (6'). It should be noted that the maximum fence height permitted without obtaining a variance is 6'.
5. The fence should be installed to allow stormwater to run under the fence unobstructed.

On this basis and subject to the above conditions, we recommend that a License Agreement be granted for this property. The applicant should however, coordinate with the Township Zoning Officer and governing Homeowner's Association (if applicable) regarding the obtainment of all necessary approvals and/or permits.

Should you have any questions or require additional information, please contact our office.

Chauhan License Agreement
Our File No. M-0170-0326-000

Dear Carol:

We have received the submitted License Agreement application and corresponding survey for the referenced property. The parcel is located within Cambridge Estates. The parcel contains a 2-story single-family residential dwelling with associated improvements. A shared 15' wide drainage easement (as shown on tax map) with adjoining Lots 2 & 3 is offset approximately 7.5' from the applicant's rear yard property line.

The applicant is proposing to relocate the existing board on board fence from the easement line to the rear property line. A board on board fence exists along the east and west side yard property lines. The proposed fence relocation is shown at the rear yard property line. Since the proposed fence location infringes upon the aforementioned easements, a License Agreement is necessary.

Based on a site inspection as well as our review of the development plans, tax map information and submitted survey, we offer the following comments:

1. Our review of the storm sewer as-built plans show no piping within the easement.
2. The existing trees within the buffer easement should be protected to prevent damage or removal during fence construction.

4. The application does not note the height of the fence to be relocated. It should be noted that the maximum fence height permitted without obtaining a variance is 6'.
5. The fence should be installed to allow stormwater to run under the fence unobstructed.

On this basis and subject to the above conditions, we recommend that a License Agreement be granted for this property. RE: Mount Laurel Township

Jones License Agreement
Our File No. M-0170-0326-000

Dear Carol:

We have received the submitted License Agreement application and corresponding documents for the referenced property. The parcel is located within Stone Gate, Section 3. The parcel contains a 2-story single-family residential dwelling with associated improvements. A 15' wide drainage easement traverses the applicant's rear yard.

The applicant is proposing to install a fiberglass swimming pool and concrete decking in the rear yard of the subject property. Since the proposed pool infringes upon the aforementioned easement, a License Agreement is necessary.

Based on a site inspection as well as our review of the development plans, the as-built plans and tax map information, we offer the following comment:

1. Our review of the storm sewer as-built plans indicates that there is no storm pipe in the easement.
2. The applicant submitted a sketch showing the pool located 15' from the rear yard property line. Only concrete "decking" is proposed within the easement. The concrete around the pool should be installed to allow stormwater to sheet flow within the easement unobstructed.
3. The applicant is notified that the maintenance responsibilities exist within the property as surveyed including the easement area.
4. The existing trees within the easement should be protected to prevent damage or removal during the pool installation.

- Consulting Engineers -

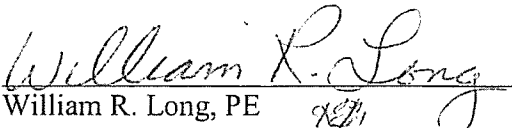

Civil • Structural • Mechanical • Electrical • Environmental • Planners

On this basis and subject to the above conditions, we recommend that a License Agreement be granted for this property. The agreement should also include the existing fence located in the side yard and rear yard within the easement if no agreement currently exists. The applicant should however, coordinate with the Township Zoning Officer and governing Homeowner's Association (if applicable) regarding the obtainment of all necessary approvals and/or permits.
