STATEMENT ON LOUISVILLE, KENTUCKY SHOOTING

Mount Laurel, NJ --- The Mayor, Township Council, and Township Administration are appalled, saddened, and disgusted by another mass shooting and display of violence.

“This tragic, familiar sequence of events has happened again, this time in Louisville Kentucky. Four people simply going about their daily lives have had their lives cut short by some horrendous actions of an individual. Eight more people are injured. We need to stop this pattern of tragic loss through better laws and restrictions on guns. Our country will continue to see this awful pattern play out unless things change. My heart breaks for the families that will not get to see their loved ones again,” Deputy Mayor Janjua stated.

We must continue to work together as a country to achieve a future free from fear of random acts of gun violence.
