## U.N.T.A.G. Uniting Northglenn Together Against Graffiti

Dear Property Owner or Agent,

The City of Northglenn Neighborhood Services Division is implementing a program called U.N.T.A.G. to assist residents with meeting the obligation to remove graffiti from their private property. Only residential and commercial fences, retaining walls, garages, and sheds that are visible from streets, alleys, parks, and trails are eligible for this program. If your property is eligible, the City will attempt to remove the graffiti at no direct cost to you as the owner. Because your property has been vandalized by graffiti, either currently or in the past, we are contacting you with this program information. The City must have a waiver signed by the property owner or agent on file before any removal efforts will be undertaken. The City makes no guarantee that all graffiti will be removed, nor does it promise to match specific paint colors on your property. The property owner remains responsible for removal of graffiti from surfaces which are not within the parameters of the City's program and/or any graffiti that remains after the City's attempt at removal.

If you would like the City to include your property in this program to have **graffiti removed free of charge** from the surface(s) mentioned above, please complete the "*Authorization to Enter and Remove Graffiti Waiver and Indemnification*" form that on the reverse side of this letter. Then call the graffiti hot-line at 303-252-3849 to have the form picked up and added to our program file. You can also drop off the form at the address listed below\*.

You may choose to authorize the removal of the graffiti which is present at the time you sign this form, or you may authorize the City to remove graffiti from your property any time, now and in the future, until you direct otherwise in writing, or the City changes or eliminates the removal program.

**After completing *Waiver and Indemnification* forms call 303-252-3849, or it can be dropped off at:**
