“

They have helped me so much as well as others in the neighborhood. Help with snow removal, take trash containers out and in, Offer to go to the store and take me places, call to check on me, brought food when I was layed up, helped with computer problems and other technical problems, always sharing and don't expect anything in return. They both have a kind and giving spirit and have instilled this in their family members, who have also helped me on many occasions. I have had many neighbors in my lifetime, but these ladies are by far the BEST!
