

## 11 Inches of Snow!

Photo Courtesy Stef Brodsky, Colorado Community Media

Northglenn received a month's worth of snow in a day, according to the weather service. About 11 inches fell Feb. 1-2, but it felt like more. Schools and businesses closed, but the city crews were hard at work shoveling, plowing and making streets passable and safe. All in a day's work for Public Works staff.

During the recent storm, city staff:	Plowed <b>2,982 miles</b> of streets	Applied <b>500 gallons</b> of liquid de-icer	Applied <b>86 tons</b> of Ice Slicer	Applied <b>17 tons</b> of sand/salt mix
--------------------------------------	--------------------------------------	--	--------------------------------------	---

### Shoveling at Home?

Please shovel snow onto your lawn so it can benefit from the melt. Don't throw it into the street or gutter, where it contributes to drainage issues as it melts during the day and re-freezes at night. If possible,

please check the gutter for ice dams and break them up to help keep the water flowing. Remember, for everyone's safety, snow must be removed from sidewalks near businesses or residences within 48 hours.

## Firm Hired to Design Justice Center

### ■ New Facility Will House Police Department, Municipal Court

The Northglenn Justice Center, a building for both the Police Department and Municipal Court, is in the design phase.

After an extensive process and search, the city recently contracted with Hoefler Wysocki Architecture LLC (HWA), a company specializing in the design of police stations and other municipal buildings.

While HWA is located in Kansas, they work with cities across the country and will collaborate with several Denver-based companies during the design of

the Justice Center. The design phase is expected to last from nine months to one year.

The location of the Justice Center will be in the area of 112th Avenue and Community Center Drive, near the water towers. This site is city-owned, has the space needed and is a centralized location for police services.

The city is aware there are residential neighborhoods nearby and will address any concerns the residents may have. One of the priorities in the design process for the facility is that construction

and subsequent operations minimally impact the surrounding neighborhood.

A new location for the Police Department is needed because the current location in City Hall has become too small. The aging mechanical systems and the size and configuration of the space simply don't meet the needs of the department or modern police standards.

Watch the Connection for updates on the design and construction of the Justice Center.

## Sounds Good

Crews have begun demolition of the wood sound walls in Northglenn along Interstate 25 between 104th Avenue and 120th Avenue. Construction of the new sound walls is expected to be complete in a few months.

In October 2013, the Colorado Department of Transportation (CDOT) began a safety and mobility project on a six-mile segment of Interstate 25 between US 36 and 120th Avenue. The project will expand the capacity of I-25 by adding one HOV/tolled Express Lane in each direction. Crews expect the express lanes to be intermittently open to the public, with paid tolling anticipated in late spring 2016. From February to April, motorists can access the Express Lanes free-of-charge while CDOT tests the tolling software and equipment. Although it was originally scheduled for completion in October 2015, the project has been extended so additional sound walls can be put into place.

**ADAMS 12 LOOKING AT FACILITY NEEDS:** Adams 12 Five Star Schools established a Long Range Planning Advisory Committee (LRPAC) last fall to advise the district on the development of a long-range facilities plan.

Comprised of community members, parents and district educators, the committee has met monthly since September to develop a deeper understanding of district facility needs. Through these sessions, the committee has determined three areas that drive facility needs in the district: student-population shifts, life-cycle management and education programs.

This spring the committee will provide a recommendation on managing long-term facility needs to the Five Star Schools' superintendent and Board of Education.

The committee will seek community input through an online survey in the spring.

## SCL Health Community Hospital Update

SCL Health is building a hospital in Northglenn, on Grant Street across from the Webster Lake Promenade. The Northglenn facility will be one of four SCL Health Community Hospitals in the metro area, joining Westminster, Aurora and Littleton.

Some have questions about how the Northglenn hospital is different from urgent care and emergency centers that have opened recently.

The SCL Health Community Hospital of Northglenn will be open 24/7 and have an average wait time of less than 15 minutes. The facility will include a laboratory, x-ray, surgical services and eight inpatient care beds if needed. Its eight-bed emergency room will treat most conditions, but if you need more specialized care, you will be stabilized and transported to a specialty hospital.

## Memorial Tree and Bench Program Honors Loved Ones & Events

Through the Northglenn Community Foundation's Memorial Tree and Bench Program, have a tree planted or bench installed to commemorate a special event or as a memorial to loved ones.

The trees cost \$300, which covers the price of the tree, plate, planting and care – with a re-plant guarantee if necessary. An engraved brass plate is located just outside Council Chambers in City Hall.

The benches cost \$650. The engraved plate is located on the top or the front of the bench. The installation location is determined by request and need for a bench in the area.

Proceeds from the program benefit the Northglenn Community Foundation, which directs its funds toward events, projects and programs in the city, including the Utility Assistance Program.

For more information, contact Jenni Murphy at 303-450-8904 or [jmurphy@northglenn.org](mailto:jmurphy@northglenn.org).
