North Royalton, OH 44133

RESIDENTIAL LOK BOX PROGRAM

WHAT IS A LOK BOX?

A residential lock box is a small, metal, safe-like box that hangs over the inside door to your home. A key to your house is secured inside and access to the box can ONLY be obtained by a master key created specifically for North Royalton Fire Department. This master key remains secured on the fire department vehicles and is only accessible to North Royalton Fire Department personnel.

WHAT ARE THE BENEFITS OF A LOKBOX?

In the event of an emergency and you are unable to open the door for First Responders, the fire department can use their master key to open the lock box and access your house key. Having a lock box can save valuable minutes during an emergency and save property damage that is caused by using force to gain entry.

HOW DO I OBTAIN ONE?

Call Kathy at North Royalton Fire Department at (440) 237-4315. Cost is a one-time fee of \$40. A fire official will schedule an appointment to come to your house and install the lock box. The lock box remains the property of North Royalton Fire Department and must be returned when you no longer need it.
