QUESTIONS RELATIVE TO AREA VARIANCES

Address of subject property: 6181 Padua Dr N.

The Board of Zoning Appeals shall review each request for a variance to determine if such request complies with the purpose and intent of this Zoning Code and the Master Plan, and the applicant can demonstrate that the literal enforcement of this Code will result in practical difficulty or, in the case of a use variance, unnecessary hardship.

The following factors shall be considered and weighed by the Board in determining practical difficulty:

(Please provide any relevant responsive information, including sketches, drawings, photographs or other exhibits.)

A. Whether there can be any beneficial use of the property without the variance;

Allowing the variance adds value to the house and neighbors.

B. Whether the variance is substantial or is the minimum necessary to make possible the reasonable use of the land or structure;

The variance will allow an additional two car spaces.

C. Whether the essential character of the neighborhood would be substantially altered or whether adjoining properties would suffer substantial detriment as a result of the variance;

No ~~adverse~~ adverse character or property values dropping because of garages

D. Whether the variance would adversely affect the delivery of governmental services (e.g., water, sewer, garbage collection);

No none.

E. Whether the variance sought is for relief from a zoning provision which was enacted after the creation of an existing condition or circumstance to the property in question;

No

- F. Whether special conditions and circumstances exist which are peculiar to the land or structure involved and which are not applicable generally to other lands or structures in the same Zoning District; examples of such special conditions or circumstances are: exceptional irregularity, narrowness, shallowness or steepness of the lot or adjacency to nonconforming and inharmonious uses, structures or conditions;

We don't believe This applies.

- G. Whether the property owner's predicament feasibly can be obviated through some method other than a variance;

We would not be able to construct garage with out Variance.

- H. Whether the granting of the variance will create a nonconforming lot pursuant to Section 1270.16 of the Zoning Code;

NO

- I. Whether special conditions or circumstances exist as a result of actions of the owner;

NO

- J. Whether the spirit and intent behind the zoning requirement would be observed and substantial justice done by granting a variance.

YES
