QUESTIONS RELATIVE TO AREA VARIANCES

Address of subject property: 12670 Patricia Dr. North Royalton, OH 44133

The Board of Zoning Appeals shall review each request for a variance to determine if such request complies with the purpose and intent of this Zoning Code and the Master Plan, and the applicant can demonstrate that the literal enforcement of this Code will result in practical difficulty or, in the case of a use variance, unnecessary hardship.

The following factors shall be considered and weighed by the Board in determining practical difficulty:

(Please provide any relevant responsive information, including sketches, drawings, photographs or other exhibits.)

A. Whether there can be any beneficial use of the property without the variance;

There will still be beneficial use of the property.

B. Whether the variance is substantial or is the minimum necessary to make possible the reasonable use of the land or structure;

This will not impact at all the reasonable use of the land or structure.

C. Whether the essential character of the neighborhood would be substantially altered or whether adjoining properties would suffer substantial detriment as a result of the variance;

Does not Impact neighborhood or Surrounding adjoining Properties. Increase Property Value Actually.

D. Whether the variance would adversely affect the delivery of governmental services (e.g., water, sewer, garbage collection);

No None of this would be impacted.

E. Whether the variance sought is for relief from a zoning provision which was enacted after the creation of an existing condition or circumstance to the property in question;

No not in this line

- F. Whether special conditions and circumstances exist which are peculiar to the land or structure involved and which are not applicable generally to other lands or structures in the same Zoning District; examples of such special conditions or circumstances are: exceptional irregularity, narrowness, shallowness or steepness of the lot or adjacency to nonconforming and inharmonious uses, structures or conditions;

No None of this applies

- G. Whether the property owner's predicament feasibly can be obviated through some method other than a variance;

Alternate plans would mean Reduction of Efficiency by Probably Over 35% making it Not Cost Effective ROI is decreased.

- H. Whether the granting of the variance will create a nonconforming lot pursuant to Section 1270.16 of the Zoning Code;

No

- I. Whether special conditions or circumstances exist as a result of actions of the owner;

No

- J. Whether the spirit and intent behind the zoning requirement would be observed and substantial justice done by granting a variance.

I think so.
