Terry Morton, CPA, from Nowlen, Holt & Miner, PA, presented the Audited Financial Statements for the year ending September 20, 2021. Next year there will be new standards in place, and easier to read. Mr. Morton highlighted the key facts; the Managers Letter and Internal Controls have no comments. Commission had no questions or comments.

- a) Staff Reports:
- Sheriff's Department: Sgt. Langevin announced the passing of former Police Chief Roger Wille. Town Flags will fly at half staff on the day of his funeral. Sgt. Langevin recapped last month's statistics and provided details on an incident that occurred at the Channel House. A subject was taken into custody after an encounter with deputies. The subject's lease will terminate at the end of July, and the owners will not renew. Sgt. Langevin requested an additional 3 CCTV cameras totaling \$50,000.00; he will keep the Town informed on the progress of the request. Sgt. Langevin answered Commissioner's guestions regarding the incidents and cameras.
- Fire Department: Chief Steedman was absent from the meeting; Town Administrator Wendy Wells updated the Commission on the sale of the old fire engine and the arrival of the new fire engine. She also said that there is an informal group of citizens that are trying to fundraise to fill the gap between what we expected to sell the old fire truck for and what we received. Commissioner Kortenhaus also said there will be a housing ceremony soon; she is working on this with the Chief.
- Public Works: Director Welch reiterated his monthly report and updated current projects. Public Works has been able to do a lot of projects in-house compared to sending it out for repairs or hiring outside companies, resulting in a savings for the Town. Recently they were able to repair the fireproof metal doors at the community center. Mr. Welch received three quotes for the second-floor balcony awnings; they will be moving forward with that project. AT&T is working on finishing the installation of cable; they are still waiting for the cable to be delivered. The water main project is moving along, and there should be equipment in place this coming week. They will start on Lake and work south to Inlet. They are trenching the southbound lane only; they are doing approximately two hundred feet a day. All the businesses have been notified of the work and will all remain open during the project. There was a brief discussion between Commission and the Director regarding the road paving project that will start after the AT&T Project is complete. We will begin to obtain information and quotes.

See Director Welch's full report attached to the agenda packet. Mr. Welch reminded our residents to call him directly with any questions or concerns.

Town Clerk: No Report.

Planning and Zoning Chairman: No Report.

o Town Attorney: No Report

# **COMMISSION REPORTS**

# **Mayor's Updates:**

Mayor Fiers

# **OTHER BUSINESS**

Vote: Mr. Lugi Pace from Waste Management (WM) was present and gave a few key points and a brief recap of the Waste Management Contract Extension. A rate change represents salary adjustments and benefits increases to incentivize employees to work. Due to the rising Inflation across the board from vehicles and equipment shortages, they have asked for a rate increase.
Motion: Commissioner Kortenhaus made a motion to approve the contract extension.

Second: Commissioner Tyler seconded the Motion.

Vote: all in favor.

Consider adding Juneteenth as a Town Holiday. Mayor Fiers said that The Federal Government has recently recognized Juneteenth as a holiday. After a discussion regarding how many paid holidays the Town offers versus how many the State and Federal Government offer. The Federal level recognizes eleven paid holidays, and the State recognizes nine. The Town recognizes eleven and a floating holiday. By Consensus Commission feels the Town should model closest to the State Level. Employees wishing to take the day off may use the floating holiday granted. Mayor Fiers feels we should recognize this day and possibly take away the floating day. He would like staff to reevaluate the holiday schedule and report back at a future workshop.

# **Vote on Proposed Millage Rates FY2023**

In order to comply with Truth in Millage (TRIM) laws, the Commission must set its millage rates for FY2023 and set a date, time, and location for the first public budget hearing. These items will appear on the tax notices sent to all property owners by the Property Appraiser in August. Please note that the millage rate set tonight may be subsequently reduced, but it cannot be increased.

Please vote separately on each of the following items:

1. Operating Millage Rate 6.3500 mills

2. Debt Millage Rate 0.4920 mills

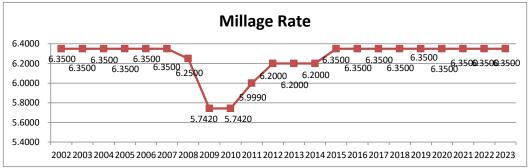

3. The first public budget hearing will be held on September 12, 2022, at 7:00 pm in the Commission Chambers, 247 Edwards Lane, Palm Beach Shores.

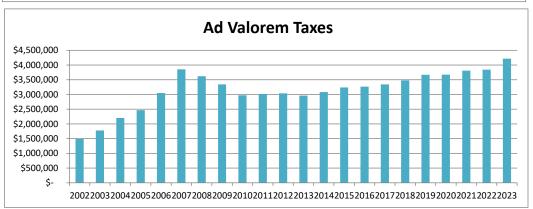

On the next page, please find the historical data on property values, millage rates, and taxes. After that is the millage rate options spreadsheet. Both items were presented and discussed at the budget workshop on July 11<sup>th</sup>.

### **DEBT MILLAGE RATE**

Commission Decision: This is the third year of the debt millage. Decide whether to (1) maintain the same millage rate increasing the taxes or (2) lower the millage rate keeping the taxes flat. If choosing to keep the same millage rate, any additional taxes collected would be restricted for use of debt service.

### **Resilient Florida Grant**

The Town was awarded a \$28,500 grant from the Florida Department of Environmental Protection's Office of Resilience and Coastal Protection to conduct a Vulnerability Assessment. Florida Statute 380.093 created the grant program. The vulnerability assessment will identify or address risks of flooding and sea level rise. These risks can also include storm surge, flash flooding, stormwater runoff, or rainfall events. The assessment will assist the Town in prioritizing and developing implementation strategies and projects designed to reduce, alleviate, or mitigate the effects of flooding. This assessment will also be necessary to obtain any future grant funding for flooding mitigation from the State.

The Town Engineer Rob Rennebaum recommended we work with James Barton of FTC to assist us with the grant application. Mr. Barton worked with the Town on previous flood issues. He provided a proposal of \$29,680 to perform the vulnerability assessment. He also assisted with completion of the grant application. The engineer's fees will be the only cost in this grant project. The Town would need to contribute \$5,000 toward the project. This was included in the application to make our project more appealing in the evaluation process.

# Commission action required:

- 1. Vote to authorize acceptance of the grant and execution of the grant agreements (agreements have not been provided yet by FDEP)
- 2. Vote to authorize acceptance of the proposal from FTC in the amount of \$29,680 to perform the vulnerability assessment and authorization for the Mayor to execute an agreement formalizing those terms.

If the grant is approved by the Commission, a budget amendment authorizing the spending will be requested once the timing is determined.
