Advisory Board Meeting

August, 9th @ 12:30 PM

Outdoor Luncheon/BBQ @ 11:30 AM

Committee Meeting @ 10:00 AM

Summer is in full motion. The rain has stopped for a few days, and the gardens are growing tremendously. They say Pennsylvania only has two seasons,
1) Winter 2) Penn Dot Constructions.

Well, just to be accurate, this August is summer, and no offense to our friends at the D.O.T. I particularly like August as it was always birthday month for my mother, sister, aunt, grandmother, and cousins, and later on wonderful co-workers and now, appropriately, my daughter Rose. So get togethers were a regular occurrence including cake, clams, beer, and soda (not always in that order). This year, more than any other is that wonderful feeling of getting "back together". Locally we are now open in three centers and looking for our folks to return. We are still promoting masks * as not everyone is vaccinated and or we don't know everything about the new variant for the virus. It is surreal to discuss this in my newsletter greeting, but it is very important that we take this serious, again, we are near the home stretch and want **EVERYONE WHO CAN, TO GET VACCINATED.** We have new information regarding Medicare covered Vaccinations for in-home consumers. Call your MD. and inquire, or call our office for assistance. We all want to get "back together"

Welcome to Pam DeCostello or newest Senior Center Operator in Eastern Pike and Blooming Grove. She comes to us with a love of people, a smile, and a willingness to work to make the day a success. Say hi.

As you read this we will already have had our first picnic of the year and looking forward to more, including the outing at Coutts Blueberry Farm.

*Our policy is one of encouragement and we are neither denying entry, demanding proof of vaccination, or demanding mask wearing, we are encouraging this and social distancing, hand washing, and use of sanitizer continually.

Meet The Interns

Erin Wingen

Hi, my name is Erin Wingen and I am from a township right outside of Philadelphia called Hatboro-Horsham. I completed my undergraduate degree at Immaculata University, where I earned a BS in Nutrition and Dietetics, and also minored in Exercise Science. I am currently in the MSDI program at Marywood University. In my free time, I enjoy running, cooking and playing basketball. I am excited to learn about Pike County Area Agency on Aging and what they do for the community, and can't wait to meet people at the different centers!

Erin

Mitchell Romanowski

Hey everybody! My name is Mitchell and I'm from Nanticoke Pa. I completed my undergraduate degree at Marywood University and am currently in the MSDI Program. I am very passionate about sports and their relationship with food. Outside of school and Work, I enjoy working out, spending time outdoors, snowboarding, and playing rugby for the local men's club and Marywood. I look forward to learning more and getting to know everyone in the coming weeks!

Mitchell

As part of our internship, we were placed here with Pike County Area Agency on Aging and will be staying until the end of August. In our time here we'll be helping out around the centers, planning nutrition education programs, and learning a whole bunch along the way! Feel free to reach out to us with any questions or suggestions on topics you may like to learn about! We look forward to meeting and spending time with everyone!

**Pike County Conservation District
Presents *On the Road***

The Pike County Conservation District's Communications Coordinator, Devan George is taking an Enviroscape on the road this summer! She will be appearing in locations and festivals all over Pike County to educate on watersheds and non-point source pollution. The Enviroscape is an interactive watershed model, demonstrating the way water moves through a landscape. The model also demonstrates the ways the water movement can bring non-point source pollutants into our county's primary water sources. The information and interactive nature of the Enviroscape make it fun and educational for all ages, so all are welcome! She will be presenting at the **Blooming Grove Center on Thursday, August 12th from 12:00 to 12:30pm**, so come prepared to learn!

If you have Medicare and have a disability or face other challenges in getting to a location away from home for a vaccination, Medicare will pay a doctor or other care provider to give you the COVID-19 vaccine in your home. You may need to give them your Medicare Number for billing, but there's still no cost to you for the vaccine and its administration.

Contact your regular doctor or health care provider and ask if they're able to give you the COVID-19 vaccine in your home. If they can't, they might be able to refer you to someone who can do this. You can also call 1-800-MEDICARE. (1-800-633-4227)

Remember, don't give out your Medicare Number or accept a vaccine from any one who isn't a known or trusted provider, or who contacts you without your invitation.

Medicare also covers COVID-19 tests, COVID-19 antibody tests
and COVID-19 monoclonal antibody treatments.

Clean, Separate, Cook, and Chill:

Clean: Even while handling food outside, it's important to remember food safety begins with proper cleaning. Make sure hands and any surface that food will touch is clean.

Separate: To prevent cross-contamination, never re-use a plate or utensils that previously held raw meat, poultry, or seafood. Otherwise, bacteria can be spread to your ready-to-eat foods.

Cook: Cook to the right internal temperature. Undercooked meats can lead numerous food-borne illnesses. See the link for a guide on internal temperature!

Chill: Keeping foods at the right temperature is critical in preventing growth of foodborne bacteria. Avoid the "Danger Zone". The "Danger Zone" is when food stays between 40-140 degrees for more than 2 hours.

Visit the link for more information on food safety when cooking outdoors! <https://www.fda.gov/food/buy-store-serve-safe-food/handling-food-safely-while-eating-outdoors>
