Municipal Pool - Project Schedule Options

Final word on the LWCF grant has not been received. Work to be grant-funded cannot get underway until the grant is awarded.

Our pool consultant has also been speaking to pool contractors who have stated that they have too much work to bid the project for this fall-to-winter season.

Seeking feedback on the following options for project construction:

Municipal Pool - Project Schedule Options

Option 1:

2023 Season - pool remains open with existing amenities

2023 October – Construction begins

2024 Memorial Day - Grand opening

Option 2:

Close the pool for all or part of the 2023 season.

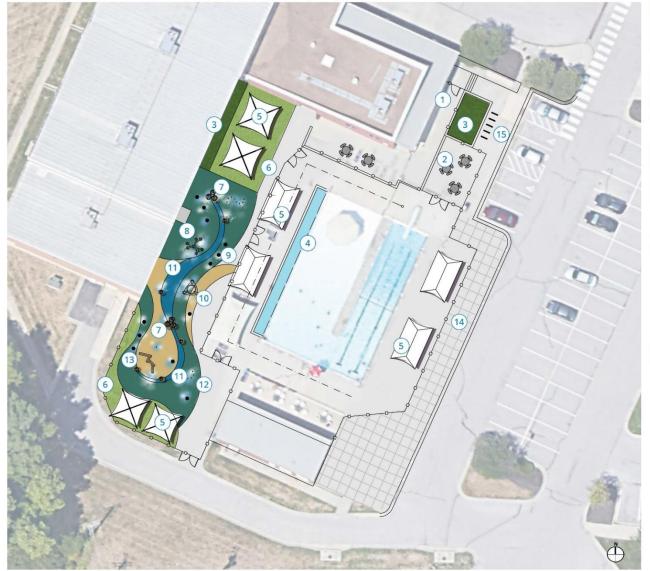

Project construction can start as soon as the grant award is finalized, and contractors are available.

2023 season is likely to be significantly shortened.

RIVERSIDE AQUATICS final concept

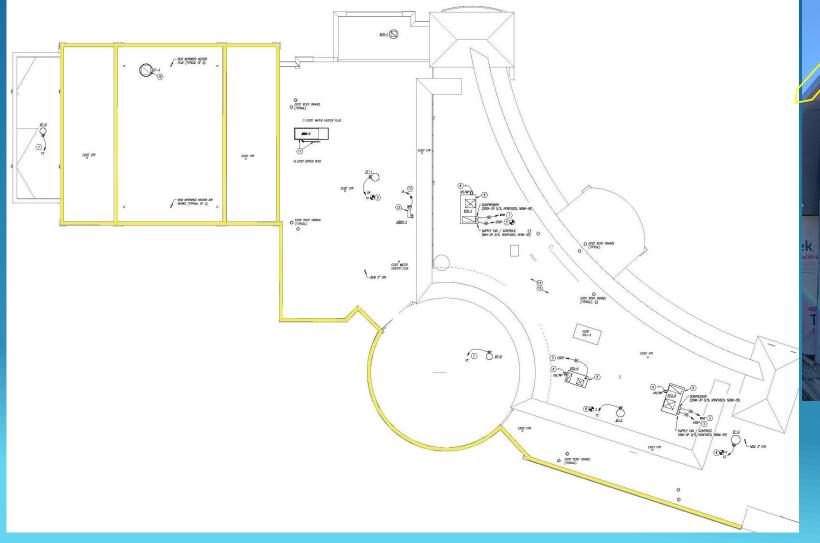

Public Safety Renovation

Potential Change Order – Metal Roof Coping:

Public Safety Renovation

Potential Change Order – Metal Roof Coping:

Typical roof replacement includes replacement of metal coping, allowing for a tighter seal and reduced chance of leaking.

Project designed to re-use existing coping. Roof consultant recommends full replacement for maximum protection against roof issues.

Potential change order cost approximately \$35,650
