Spring 2023

Residents of Rochester Township,

This notice is to inform you that the road you live on will be reconstructed this spring and summer. This reconstruction includes the following actions:

- Reclaim the roadway and grade
- Replace defective culverts (cross culverts on the roadway and resident's access culverts if in the right-of-way)
- Cut back driveway access if needed for the new roadway height
 - Blacktop drives will be machine milled
 - Concrete drives will be cut
 - Gravel drives will have gravel installed to match new roadway
 - Concrete aprons will be replaced with blacktop aprons
- Remove trees, brush, trash in the right-of-way as needed
- Pave base layer 2 inches
- Shoulder new road

Please note, the rock chips used as part of a chip / seal application will remain on the roadway for two weeks. After that, any residue chips will be swept and reclaimed.

Next year the wear blacktop surface of the road will be installed and shouldered.

Please subscribe to updates on our website for the "News and Announcements" page to receive alerts for the latest notices.

Contact Road Maintenance Supervisor Patrick McGowan with questions Monday – Thursday between 7:00am and 5:00pm at 507-250-6081.
