**2021 Park Tour Items
Park Inventory and Dates Installed**

Liaison for City Council Meeting on June 27 is Commissioner Hirner

June 2021 Park Tours

Silverwood Park:

- Playground area should be starting in mid-July.
- The turf trail extending north from Silverwood Park be added to an upcoming agenda for the Park Commissioners to discuss its long-term planning of this trail.
- The dead trees by the pond were requested to be removed.

South Shore Community Park:

- There was discussion regarding what amenities can be at this park besides the community gardens. Pickleball was a suggestion along with a picnic shelter. Other suggestions included adult exercise equipment, dog park, or a splash pad.
- Concern about the noise was raised. Staff will check into the requirements for a noise wall.

Manor Park:

- Public Works Director Brown stated that they are planning repairs to the water spigots.
- With the playground being ADA compliant it was suggested that staff research to see what the radius of another park like this is and put something on the website.

2020 Park Inventory & Priority Needs Assessment
