HISTORY

The origins of South Ogden as a community date back to 1848 when lands previously owned by the Mexican government were acquired by the United States. The resulting settlement became known as "Burch Creek", named in honor of Daniel Burch, Jr., one of the first pioneers to settle in the area. The farming community was known for its open fields, rounded hills, and springs of sparkling, clear water.

Little development took place until after 1890, when change slowly took effect. One by one, lots were subdivided in what is now the northern part of the City. As time passed, "Burch Creek" became known as South Ogden.

In 1936, the town of South Ogden became incorporated, with a population of 800. Five years later, the population had increased to 1,407, and South Ogden was classified as a third class City. Growth of the City continued in the area between 36th and 40th Streets. In 1947, Washington Heights (Lindquist) Memorial Park was established on the east side of Washington Blvd. south of the Ogden Golf and Country Club.

Modern historical development of South Ogden, as a suburban community was spurred by FHA-approved housing in 1949 and its easy access to major employment centers including Hill Air Force Base and Ogden City. Consequently, the City experienced its largest growth spurt in the 50's. From 1950 to 1970, South Ogden grew at a rate two to three times faster than Weber County. Commercial development grew as well with many of the current businesses locating in the City's major business district after 1960.

The southern part of the city developed during the late 90's and early 2000's. Large areas south of Highway 89 were annexed into the city and another large business district was created at the intersection of Harrison Boulevard and Highway 89.

Today the city remains a beautiful place to work and live. The city's future is also looking bright as city leaders focus their attention on redevelopment and putting regulations in place to direct the population growth expected in the next 20 years.

The hearings deal with specific issues for which the Council or Planning Commission is soliciting your input before a decision is made.

PUBLIC WORKS

South Ogden Public Works is located at 5590 S 600 E. Hours are from 7:00 a.m. to 3:30 pm Monday through Friday. The Public Works Department maintains the city streets, sewer, storm drain and water systems. Following is helpful information from the Public Works Department.

DUMPSTER RENTALS

South Ogden City has three types of dumpster rental programs:

The Neighborhood Cleanup Program: This program has a minimal $100 refundable deposit for up to 5 households to share a 30 cubic yard roll-off dumpster for a two day period. Republic Services will deliver the dumpster to the address listed on the application. This is for residential use only and available one time per year per five households.

The Mixed Waste Trailer: The mixed waste trailer is for individual use only and requires an $90 fee and a $100 refundable deposit for a two-day period twice per household per year. The mixed waste trailer can be used for green waste as well as household type garbage.

The Green Waste Trailer: The green waste trailer is for individual use only and requires a $50 fee and a $100 refundable deposit for a two-day period and is limited to two times per household per year. The green waste trailer can be used only for green waste items such as grass clippings, tree branches and leaves.

No toxic, hazardous, flammable materials, or demolition items may be deposited into any of these dumpsters or trailers. If they are, the responsible person signing for the trailer may be charged for the entire disposal fee. All trailers and dumpsters are for residential use only. Application packages may be obtained at the Public Works Dept. or on city's website at www.southogdencity.com. For further questions, call 801-622-2901.

WATER OR SEWER PROBLEMS

If you notice water seeping from the ground or from the bottom of a fire hydrant (or ice around the bottom of it), please contact Public Works and report it as soon as possible. If it is a large leak, please contact dispatch at 801-395-8221 immediately. This may be a main break or hydrant problem. Other than costing us the valuable water resource, it may also be a potential hazard and cause further damage to the area.

Sewer line backups are a very common problem. Most often the sewer backup is in an individual line between the house and the sewer main. This

PUBLIC WORKS (continued)

is called the sewer lateral. Occasionally the backup can be caused by a clog in the sewer main line. Some of the more serious damages might be averted with a quick phone call and a little knowledge. Always call the Public Works Department first if you notice sewage or water coming up in your floor drain or basement toilets. We have people on call 24 hours a day to respond to these types of emergencies. A quick call can verify whether the plug is in your own sewer lateral or perhaps a city main line. If the water backing up in the floor drain is constant, and you are not using any water, it may be a city main. If the water only backs up when you use a washer, dishwasher, or even run water down a sink, it is most likely your own line. Tree roots are usually the main cause of sewer line backups, both private and public. If you have had trouble in the past it is a good idea to routinely have your sewer lateral cleaned by a licensed plumber or sewer maintenance company. South Ogden's phone number is 801-622-2901 Monday-Friday 7:00 am - 3:30 pm or after hours emergencies 801-395-8221. Please keep these phone numbers available if such an emergency arises.

SNOW REMOVAL AND PARKING

It is illegal to park or leave anything on the road from 12 hours before a storm until 24 hours after the storm or until the streets have been plowed. Parking interferes with snow removal. Plows will not return to clear snow from an area where a vehicle has been parked. The city follows a priority list when plowing streets. First priority are those streets that are intensely used, such as collector roads, and roads with excessive grade. Priority two are arterial streets that carry traffic to collector streets. Priority three would include all other residential streets in a typical subdivision. Finally, priority four would include cul-de-sacs and dead end streets.

It is unlawful for anyone to park or leave a vehicle for more than 48 hours on any street, public road, alley, or municipal property. Remember, these laws were enacted to protect your property from damage and others from injury.

DIGGING

We would like to remind you to always call Blue Stakes before you dig. If you do not have a site Blue Staked prior to digging and you hit a utility service (even in your own yard), you will be responsible for the cost of the repairs. Blue Stakes locating does not cost anything. It is a free service to you. The phone number is 1-800-662-4111.

POLICE

The police department is comprised of patrol, investigations, animal services and code enforcement.

MISSION STATEMENT

Our mission is to provide a safe environment with professional service at the highest standards.

CONTACTING THE SOUTH OGDEN POLICE DEPARTMENT

One of the best ways to keep South Ogden a great place to live and work is communication between the Police Department and the community. Too often people are reluctant to call us because they aren't sure if they should. If you find yourself asking the question "Should I call the police?" the answer is probably yes. Your Police Officers are trained professionals who will determine if the circumstances are criminal, or someone needing assistance. There are a variety of ways to contact the South Ogden Police Department. The best way for nonemergency police, medical, or fire events is to call 801-395-8221. All police, medical, and fire in the county use the same dispatch center with that number. Take a moment to enter the number in your phone under "Police." Use the same number for code enforcement and animal services.

CODE ENFORCEMENT

To help keep the city clean and esthetically pleasing there are ordinances regarding weeds, inoperable vehicles and debris on property. If a property is not in compliance an officer will notify the owner to correct the problem. If it is not corrected the city may take action and file a lien against the property for the expense. Property owners may be given a citation and fined. There are state regulations which must be followed during this process. Most owners take prompt action once contacted while others take longer. We appreciate you notifying us of a problem and your patience as we correct it.

POLICE (continued)

ANIMAL SERVICES

SOPD operates a no-kill shelter. The shelter is by the Public Works buildings at 5594 S 600 E to the east of the Library on Adams Avenue. The shelter is not staffed full-time, so assistance can be obtained by calling the police dispatch center at 801-395-8221. We do micro chipping for $20 per animal, and hold adoption events and vaccination clinics on a regular basis. Scheduled events can be found by calling our shelter at 801-622-2949 or by visiting us on the city website or Facebook at https://www.facebook.com/SouthOgdenAnimalServices. We also have opportunities for volunteers and animal foster parents. Please contact us for details!

City ordinance allows up to three cats and/or two dogs on your property. All dogs must be licensed annually, kept on a leash when not on your property, and not be a nuisance by excessive barking or howling.

License renewals are available from January 1 through February 28. A $20.00 late fee will be assessed after March 1 unless you have just moved into the city. If you have just moved to the city or just acquired a dog, you must license your pet within 30 days. Proof of current rabies vaccination is required for all licenses each year.

Dog License Fees:
Altered dog: $10
Non-altered dog: $30
Altered dog (senior citizen/55 years or older): $7
Non-altered dog (senior citizen/55 years or older): $20
Lifetime License for altered, micro chipped dogs is $75, $20 for seniors.
