In preparing these maps, constraints of scale, data, time and personnel required the generalization and extrapolation of features and boundaries which have not been field checked. The base data sets can include data from other sources including the Department of Revenue, Illinois State Geological Survey, and the Illinois State Water Survey. These maps may not be used to determine any boundary or the location of monuments, railroads, roads, streets with any precision. For more detailed information regarding the data included, please refer to the FGDC metadata included with each digital data layer. The Illinois Department of Transportation and the State of Illinois hereby give notice to all users that these maps and the data included hereon, lack the accuracy required for site-specific uses.
