

PUBLIC PARTICIPATION SURVEY FOR HAZARD MITIGATION PLANNING

We need your help! Please take a few minutes to complete this survey.

Guilford County is currently engaged in a planning process to become less vulnerable to disasters caused by natural, technological, biological, and man-made/intentional hazards, and your participation is important to us!

The county, along with local jurisdictions and other partners, is working to update its multi-jurisdictional *Hazard Mitigation Plan*. This Plan will identify and assess our community's natural and man-made hazard risks and determine how to best mitigate, or minimize and manage, those risks.

This survey is an opportunity for you to share your opinions and participate in the mitigation planning process. The information you provide will help us better understand your hazard concerns and can lead to mitigation activities that should help lessen the impacts of future hazard events.

Please help us by completing this survey by August 31, 2019 and returning it to:

Ryan Wiedenman, Atkins
