Statement of Responsibility

Project Name: _____

I hereby acknowledge by my signature below that I am aware of the penalties that will be imposed upon me if I, or any contractor that is performing work on the site covered under the Storm Water Management & Sediment Control permit for the above listed project fails to:

1. install and maintain all erosion and sediment control practices as set forth in the approved plan
2. perform and document inspections
3. post documents on the site (as required by the storm water general permit SCR 100000)

I also understand that additional erosion and sediment controls may be required by the Sumter County Storm Water Utility, or their employees, if the planned practices fail to achieve the desired level of control, or in the event of unanticipated field conditions.

After receiving notice of the violation, the amount of penalty shall be up to \$1,000.00 per violation. Each day that the violation goes untreated shall be considered a separate violation and subject to the same penalty. I understand that I will be given 1 to 5 working days, depending on the severity of the problem, to correct the identified problem before I am considered in violation and the penalty is assessed.
