b. The sponsor's authorized representative must execute the grant, followed by the attorney's certification, no later than **August 25, 2021** in order for the grant to be valid.

c. You may not make any modification to the text, terms, or conditions of the grant offer.

d. The grant offer must be digitally signed by the sponsor's legal signatory authority and then routed via email to the sponsor's attorney. Once the attorney has digitally attested to the grant, an email with the executed grant will be sent to all parties.

An airport sponsor may use these funds for costs related to operations, personnel, cleaning, sanitization, janitorial services, combating the spread of pathogens at the airport, and debt service payments. Please refer to the Airport Rescue Grants Frequently Asked Questions for further information.

With each payment request you are required to upload an invoice summary directly to Delphi. The invoice summary should include enough detail to permit FAA to verify compliance with the American Rescue Plan Act (Public Law 117-2). Additional details or invoices may be requested by FAA during the review of your payment requests.

As part of your final payment request, you are required to include in Delphi:

- A signed SF-425, *Federal Financial Report*

Until the grant is completed and closed, you are responsible for submitting a signed and dated SF-425 annually, due 90 days after the end of each Federal fiscal year in which this grant is open (due December 31 of each year this grant is open).

As a condition of receiving Federal assistance under this award, you must comply with audit requirements as established under 2 CFR part 200. Subpart F requires non-Federal entities that expend $750,000 or more in Federal awards to conduct a single or program specific audit for that year. Note that this includes Federal expenditures made under other Federal-assistance programs. Please take appropriate and necessary action to assure your organization will comply with applicable audit requirements and standards.

Rebecca Wersal is the assigned program manager for this grant and is readily available to assist you and your designated representative with the requirements stated herein. If you should have any questions, please contact Rebecca Wersal at rebecca.wersal@faa.gov. The FAA sincerely values your cooperation in these efforts.

(herein called the "Sponsor") (herein called the "Sponsor") (For Co-Sponsors, list all Co-Sponsor names. The word "Sponsor" in this Grant Agreement also applies to a Co-Sponsor.)

FROM: **The United States of America** (acting through the Federal Aviation Administration, herein called the "FAA")

WHEREAS, the Sponsor has submitted to the FAA an Airport Rescue Grant Application dated June 25, 2021, for a grant of Federal funds at or associated with the Southwest Wyoming Regional Airport, which is included as part of this Airport Rescue Grant Agreement; and

WHEREAS, the Sponsor has accepted the terms of FAA's Airport Rescue Grant offer;

WHEREAS, in consideration of the promises, representations and assurances provided by the Sponsor, the FAA has approved the Airport Rescue Grant Application for the Southwest Wyoming Regional Airport, (herein called the "Grant" or "Airport Rescue Grant") consisting of the following:

This Airport Rescue Grant is provided in accordance with the American Rescue Plan Act ("ARP Act", or "the Act"), Public Law 117-2, as described below, to provide eligible Sponsors with funding for costs related to operations, personnel, cleaning, sanitization, janitorial services, combating the spread of pathogens at the airport, and debt service payments. Airport Rescue Grant amounts to specific airports are derived by legislative formula (See Section 7102 of the Act).

The purpose of this Airport Rescue Grant is to prevent, prepare for, and respond to the coronavirus pandemic. Funds provided under this Airport Rescue Grant Agreement must be used only for purposes directly related to the airport. Such purposes can include the reimbursement of an airport's operational expenses or debt service payments in accordance with the limitations prescribed in the Act. Airport Rescue Grants may be used to reimburse airport operational expenses directly related to the Southwest Wyoming Regional Airport incurred no earlier than January 20, 2020. In any case in which an independent audit is made of the accounts of a sponsor relating to the disposition of the proceeds of a Grant or relating to the Grant in connection with which this Grant was given or used, it shall file a certified copy of such audit with the Comptroller General of the United States not later than six (6) months following the close of the fiscal year for which the audit was made.

10. **Minimum Wage Rates.**

    It shall include, in all contracts in excess of $2,000 for work on the airport funded under this Grant Agreement which involve labor, provisions establishing minimum rates of wages, to be predetermined by the Secretary of Labor, in accordance with the Davis-Bacon Act, as amended (40 U.S.C. 276a-276a-5), which contractors shall pay to skilled and unskilled labor, and such minimum rates shall be stated in the invitation for bids and shall be included in proposals or bids for the work.

11. **Veteran's Preference.**

    It shall include in all contracts for work on any airport development project funded under this Grant Agreement which involve labor, such provisions as are necessary to insure that, in the employment of labor (except in executive, administrative, and supervisory positions), preference shall be given to Vietnam-era veterans, Persian Gulf veterans, Afghanistan-Iraq war veterans, disabled veterans, and small business concerns owned and controlled by disabled veterans as defined in Section 47112 of Title 49, United States Code. However, this preference shall apply only where the individuals are available and qualified to perform the work to which the employment relates.

12. **Operation and Maintenance.**

    a. The airport and all facilities which are necessary to serve the aeronautical users of the airport, other than facilities owned or controlled by the United States, shall be operated at all times in a safe and serviceable condition and in accordance with the minimum standards as may be required or prescribed by applicable Federal, State, and local agencies for maintenance and operation. It will not cause or permit any activity or action thereon which would interfere with its use for airport purposes. It will suitably operate and maintain the airport and all facilities thereon or connected therewith, with due regard to climatic and flood conditions. Any proposal to temporarily close the airport for non-aeronautical purposes must first be approved by the Secretary. In furtherance of this assurance, the sponsor will have in effect arrangements for:

1. Operating the airport's aeronautical facilities whenever required;
2. Promptly marking and lighting hazards resulting from airport conditions, including temporary conditions; and
3. Promptly notifying airmen of any condition affecting aeronautical use of the airport. Nothing contained herein shall be construed to require that the airport be operated for aeronautical use during temporary periods when snow, flood, or other climatic conditions interfere with such operation and maintenance. Further, nothing herein shall be construed as requiring the maintenance, repair, restoration, or replacement of any structure or facility which is substantially damaged or destroyed due to an act of God or other condition or circumstance beyond the control of the sponsor.

b. It will suitably operate and maintain noise compatibility program items that it owns or controls upon which Federal funds have been expended.

13. Hazard Removal and Mitigation.

It will take appropriate action to assure that such terminal airspace as is required to protect instrument and visual operations to the airport (including established minimum flight altitudes) will be adequately cleared and protected by removing, lowering, relocating, marking, or lighting or otherwise mitigating existing airport hazards and by preventing the establishment or creation of future airport hazards.

14. Compatible Land Use.

It will take appropriate action, to the extent reasonable, including the adoption of zoning laws, to restrict the use of land adjacent to or in the immediate vicinity of the airport to activities and purposes compatible with normal airport operations, including landing and takeoff of aircraft.

15. Exclusive Rights.

The sponsor shall not grant an exclusive right to use an air navigation facility on which this Grant has been expended. However, providing services at an airport by only one fixed-based operator is not an exclusive right if—

a. it is unreasonably costly, burdensome, or impractical for more than one fixed-based operator to provide the services; and

b. allowing more than one fixed-based operator to provide the services requires a reduction in space leased under an agreement existing on September 3, 1982, between the operator and the airport.

16. Airport Revenues.

a. This Grant shall be available for any purpose for which airport revenues may lawfully be used to prevent, prepare for, and respond to coronavirus. Funds provided under this Airport Rescue Grant Agreement will only be expended for the capital or operating costs of the airport; the local airport system; or other local facilities which are owned or operated by the owner or operator of the airport(s) subject to this agreement and all applicable addendums for costs related to operations, personnel, cleaning, sanitization, janitorial services, combating the spread of pathogens at the airport, and debt service payments as prescribed in the Act.

b. For airport development, 49 U.S.C. § 47133 applies.

17. Reports and Inspections.

It will:

a. submit to the Secretary such annual or special financial and operations reports as the Secretary may reasonably request and make such reports available to the public; make available to the public at reasonable times and places a report of the airport budget in a format prescribed by the Secretary;

b. in a format and time prescribed by the Secretary, provide to the Secretary and make available to the public following each of its fiscal years, an annual report listing in detail:

   1. all amounts paid by the airport to any other unit of government and the purposes for which each such payment was made; and

   2. all services and property provided by the airport to other units of government and the amount of compensation received for provision of each such service and property.

18. Land for Federal Facilities.

It will furnish without cost to the Federal Government for use in connection with any air traffic control or air navigation activities, or weather-reporting and communication activities related to air traffic control, any areas of land or water, or estate therein, or rights in buildings of the sponsor as the Secretary considers necessary or desirable for construction, operation, and maintenance at Federal expense of space or facilities for such purposes. Such areas or any portion thereof will be made available as provided herein within four months after receipt of a written request from the Secretary.

19. Airport Layout Plan.

a. Subject to the FAA Reauthorization Act of 2018, Public Law 115-254, Section 163, it will keep up to date at all times an airport layout plan of the airport showing:

   1. boundaries of the airport and all proposed additions thereto, together with the boundaries of all offsite areas owned or controlled by the sponsor for airport purposes and proposed additions thereto;

   2. the location and nature of all existing and proposed airport facilities and structures (such as runways, taxiways, aprons, terminal buildings, hangars and roads), including all proposed extensions and reductions of existing airport facilities;

   3. the location of all existing and proposed non-aviation areas and of all existing improvements thereon; and

   4. all proposed and existing access points used to taxi aircraft across the airport's property boundary. Such airport layout plans and each amendment, revision, or modification thereof, shall be subject to the approval of the Secretary which approval shall be evidenced by the signature of a duly authorized representative of the Secretary on the face of the airport layout plan. The sponsor will not make or permit any changes or alterations in the airport or any of its facilities which are not in conformity with the airport layout plan as approved by the Secretary and which might, in the opinion of the Secretary, adversely affect the safety, utility or efficiency of the airport.

b. Subject to the FAA Reauthorization Act of 2018, Public Law 115-254, Section 163, if a change or alteration in the airport or the facilities is made which the Secretary determines adversely affects the safety, utility, or efficiency of any federally owned, leased, or funded property on or

off the airport and which is not in conformity with the airport layout plan as approved by the Secretary, the owner or operator will, if requested, by the Secretary (1) eliminate such adverse effect in a manner approved by the Secretary; or (2) bear all costs of relocating such property (or replacement thereof) to a site acceptable to the Secretary and all costs of restoring such property (or replacement thereof) to the level of safety, utility, efficiency, and cost of operation existing before the unapproved change in the airport or its facilities except in the case of a relocation or replacement of an existing airport facility due to a change in the Secretary's design standards beyond the control of the airport sponsor.

20. Civil Rights.

It will promptly take any measures necessary to ensure that no person in the United States shall, on the grounds of race, creed, color, national origin, sex, age, or disability be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination in any activity conducted with, or benefiting from, funds received from this Grant.

a. Using the definitions of activity, facility, and program as found and defined in §§ 21.23 (b) and 21.23 (e) of 49 CFR Part 21, the sponsor will facilitate all programs, operate all facilities, or conduct all programs in compliance with all non-discrimination requirements imposed by or pursuant to these assurances.

b. Applicability

1. Programs and Activities. If the sponsor has received a grant (or other Federal assistance) for any of the sponsor's program or activities, these requirements extend to all of the sponsor's programs and activities.

2. Facilities. Where it receives a grant or other Federal financial assistance to construct, expand, renovate, remodel, alter, or acquire a facility, or part of a facility, the assurance extends to the entire facility and facilities operated in connection therewith.

3. Real Property. Where the sponsor receives a grant or other Federal financial assistance in the form of, or for the acquisition of, real property or an interest in real property, the assurance will extend to rights to space on, over, or under such property.

c. Duration

The sponsor agrees that it is obligated to this assurance for the period during which Federal financial assistance is extended to the program, except where the Federal financial assistance is to provide, or is in the form of, personal property, or real property, or interest therein, or structures or improvements thereon, in which case the assurance obligates the sponsor, or any transferee for the longer of the following periods:

1. So long as the airport is used as an airport, or for another purpose involving the provision of similar services or benefits; or

2. So long as the sponsor retains ownership or possession of the property.

d. Required Solicitation Language

It will include the following notification in all solicitations for bids, Requests for Proposals for work, or material under this Grant and in all proposals for agreements, including airport concessions, regardless of funding source:

"The Rock Springs-Sweetwater County Airport Board, County of Sweetwater and City of Rock Springs, Wyoming, in accordance with the provisions of Title VI of the Civil Rights Act of 1964

(78 Stat. 252, 42 U.S.C. §§ 2000d to 2000d-4) and the Regulations, hereby notifies all bidders that it will affirmatively ensure that for any contract entered into pursuant to this advertisement, disadvantaged business enterprises and airport concession disadvantaged business enterprises will be afforded full and fair opportunity to submit bids in response to this invitation and will not be discriminated against on the grounds of race, color, or national origin in consideration for an award."

e. Required Contract Provisions.

1. It will insert the non-discrimination contract clauses requiring compliance with the acts and regulations relative to non-discrimination in Federally-assisted programs of the DOT, and incorporating the acts and regulations into the contracts by reference in every contract or agreement subject to the non-discrimination in Federally-assisted programs of the DOT Acts and regulations.
2. It will include a list of the pertinent non-discrimination authorities in every contract that is subject to the non-discrimination acts and regulations.
3. It will insert non-discrimination contract clauses as a covenant running with the land, in any deed from the United States effecting or recording a transfer of real property, structures, use, or improvements thereon or interest therein to a sponsor.
4. It will insert non-discrimination contract clauses prohibiting discrimination on the basis of race, color, national origin, creed, sex, age, or handicap as a covenant running with the land, in any future deeds, leases, license, permits, or similar instruments entered into by the sponsor with other parties:

   A. For the subsequent transfer of real property acquired or improved under the applicable activity, grant, or program; and

   B. For the construction or use of, or access to, space on, over, or under real property acquired or improved under the applicable activity, grant, or program.

   C. It will provide for such methods of administration for the program as are found by the Secretary to give reasonable guarantee that it, other recipients, sub-recipients, sub-grantees, contractors, subcontractors, consultants, transferees, successors in interest, and other participants of Federal financial assistance under such program will comply with all requirements imposed or pursuant to the acts, the regulations, and this assurance.

   D. It agrees that the United States has a right to seek judicial enforcement with regard to any matter arising under the acts, the regulations, and this assurance.

21. Foreign Market Restrictions.

It will not allow funds provided under this Grant to be used to fund any activity that uses any product or service of a foreign country during the period in which such foreign country is listed by the United States Trade Representative as denying fair and equitable market opportunities for products and suppliers of the United States in procurement and construction.

22. Policies, Standards and Specifications.

It will carry out any project funded under an Airport Rescue Grant in accordance with policies, standards, and specifications approved by the Secretary including, but not limited to, current FAA Advisory Circulars for AIP projects, as of June 25, 2021.

23. Access By Intercity Buses.

The airport owner or operator will permit, to the maximum extent practicable, intercity buses or other modes of transportation to have access to the airport; however, it has no obligation to fund special facilities for intercity buses or for other modes of transportation.

24. Disadvantaged Business Enterprises.

The sponsor shall not discriminate on the basis of race, color, national origin or sex in the award and performance of any DOT-assisted contract covered by 49 CFR Part 26, or in the award and performance of any concession activity contract covered by 49 CFR Part 23. In addition, the sponsor shall not discriminate on the basis of race, color, national origin or sex in the administration of its Disadvantaged Business Enterprise (DBE) and Airport Concessions Disadvantaged Business Enterprise (ACDBE) programs or the requirements of 49 CFR Parts 23 and 26. The sponsor shall take all necessary and reasonable steps under 49 CFR Parts 23 and 26 to ensure nondiscrimination in the award and administration of DOT-assisted contracts, and/or concession contracts. The sponsor's DBE and ACDBE programs, as required by 49 CFR Parts 26 and 23, and as approved by DOT, are incorporated by reference in this agreement. Implementation of these programs is a legal obligation and failure to carry out its terms shall be treated as a violation of this agreement. Upon notification to the sponsor of its failure to carry out its approved program, the Department may impose sanctions as provided for under Parts 26 and 23 and may, in appropriate cases, refer the matter for enforcement under 18 U.S.C. 1001 and/or the Program Fraud Civil Remedies Act of 1936 (31 U.S.C. 3801).

25. Acquisition Thresholds.

The FAA deems equipment to mean tangible personal property having a useful life greater than one year and a per-unit acquisition cost equal to or greater than $5,000. Procurements by micro-purchase means the acquisition of goods or services for which the aggregate dollar amount does not exceed $10,000, unless authorized in accordance with 2 CFR § 200.320. Procurement by small purchase procedures means those relatively simple and informal procurement methods for securing goods or services that do not exceed the $250,000 threshold for simplified acquisitions.

From: Krisena Marchal, Grants Manager

Date: County Commissioners' Meeting 8/17/21

Subject: Acceptance of the FY 2020 Assistance to Firefighters Grant Award

---

Executive Summary:

Sweetwater County was awarded an Assistance to Firefighters Grant (AFG) in the amount of $493,333.33 from the Department of Homeland Security, Federal Emergency Management Agency. The grant requires a 5% cash grant match and must be completed by August 1, 2023.

The purpose of the funding is to enhance the safety of the public and firefighters with respect to fire and fire-related hazards. The Sweetwater County Fire Department will use the funding to purchase a fully functional pumper engine that will replace a 52-year-old non-compliant converted apparatus that has over 123,000 miles. Additionally, the new pumper will enable the Fire Department to respond to structural fires without using wildland apparatus, and fully implement the "16 Firefighter Life Safety Initiatives."

Re: Letter of Support for Natrium Reactor Project

Dear Rocky Mountain Power Representatives,

First, I would like thank you for your recent visit to Rock Springs last week to discuss the future of an advanced nuclear demonstration project in Sweetwater County, Wyoming and it was a pleasure meeting with you and we look forward to future discussions of the Natrium nuclear facility. The Sweetwater County Board of County Commissioners would like to express our enthusiasm for the project and believe that Sweetwater County would be a great place to establish the facility with the incredible community amenities, facilities, government, non-profit, private businesses and workforce that currently support the ongoing and future operations of your facilities.

Sweetwater County has shown continuous support of the mining extraction industry, which includes nuclear projects as demonstrated with the Uranium in-situ mining operation north of Wamsutter. Sweetwater County also assisted the Uranium facility with industrial revenue bonds to assist in the construction of their facility, which included a Memorandum of Understanding to assist with roadway maintenance costs issues to the site.

In an effort to discuss and show Sweetwater County's overall support of the project, representatives with the Sweetwater County Commission have met with stakeholders, educators, local leaders and legislators and we are including letters of support to demonstrate are overwhelming support of the Natrium reactor project.

Thank for your time and consideration of Sweetwater County as the future location of the Natrium project and we look forward to working with you. Any assistance or questions that you may have please feel free to reach to us.

Memo:

Date: August 10th, 2021
Subject: Sweetwater County Culvert Donation

To: Sweetwater County Commissioners
From: Gene Legerski, P.E.-Sweetwater County Public Works

All,
I have been approached by Randy Dale with the Gateway Trails System to see if we could donate one 18" diameter 20' long culvert. This culvert would help them continue to build the trail system behind Western Wyoming Community College.

The cost of the culvert to Sweetwater County when we purchased it was $369.00.

We have plenty of this size of culvert so donating one to the trails system would not hurt our ability to serve the residents of Sweetwater County.

If you have any questions feel free to call me at 307-872-3921.

Thanks,

Gene Legerski, P.E.

WESTERN STATES AND TRIBAL NATIONS NATURAL GAS INITIATIVE

July 2, 2020

Re:

WESTERN STATES AND TRIBAL NATIONS NATURAL GAS INITIATIVE

Sempra LNG and IEnova's planned expansion of the Energia Costa Azul facility is showing encouraging momentum for development of facilities (Phase One and Phase Two) that can serve Asian markets, even as many LNG projects are being delayed due to factors associated with the COVID-19 pandemic.

Energia Costa Azul LNG recently signed 20-year agreements with units of Total S.A. and Mitsui & Co. for about 2.5 million tonnes per annum (MTPA) or 0.33 billion cubic feet per day (bcfd) of natural gas and is expected to make the Final Investment Decision (FID) for Phase One of its development in the second quarter of 2020.

At your convenience, and at the appropriate juncture in these current challenging times, we would like to bring a delegation of western states stakeholders to meet with you and your staff to discuss areas of collaboration that would mutually benefit both the energy industries and economies of the U.S. western states and tribal nations and Mexico.

Best Regards,

Statement of Need Idea Addresses:

The Proposal will address the following Needs:

1) Establish of San Juan College School of Energy as a "Center of Excellence" for development of Environmental, Social, Governance (ESG) Standards for the Rockies Oil & Natural Gas Upstream Industry;
2) Development of an ESG Fuel Certification Program that will:
   - Position San Juan Natural Gas for LNG Exporters who are seeking to reduce or offset carbon in the LNG value chain;
   - Train and certify workers impacted by coal plant closures with a focus on workers from the Navajo Nation and other tribal communities

Environmental, Social, Governance-Establishing San Juan College as a Center of Excellence for ESG
Shareholders, banks, institutional investors, politicians and voters have all voiced their desire for energy producers and companies to institute processes that drive more robust reporting on operational metrics. These metrics are grouped into categories that include Environment (E), Social (interactions with the communities in which the companies operate) and Governance (overall transparency and good governance principles) or ESG.

Energy demand is soaring in Asia, led by economic growth and fuel switching in China, Japan, South Korea, Taiwan and India. Natural gas from New Mexico can play a key role in meeting those energy needs, providing reliable, cleaner baseload power to displace dirtier fuels and support renewable energy deployment.

- NM ETAC "Green Certification" Program
- Cooperation with Blue & Green Hydrogen Advocates and Producers
- Major Companies Total, Sempra, Mitsui transitioning to H2 and lower carbon players

Greenhouse Gas Study

- Peer reviewed study, "Lifecycle GHG Emissions in Proposed LNG Facilities".
- Average 40% Drop in Lifecycle GHG Emissions
  - China - 40.4%
  - India – 48.5%
  - Japan – 50.7%
  - South Korea – 53.5%
  - Taiwan – 35.7%
- Conclusions
  - There is a need for "bridge" source of energy to achieve GHG reduction goals.
  - Natural gas (LNG) exports from US to Asia can be both economically and environmentally beneficial in terms of global GHG emissions reduction.

WSTN H2 Proposal for Exploration

- Building proposal proposing Natural Gas to Hydrogen pilot project(s) for export into CA and international markets that would encompass five parts:
  - Hydrogen Production: Perfectly situated in the Rockies.
  - Upgrade Natural Gas/Hydrogen Pipeline Infrastructure
  - Modernize and expand electrical transmission infrastructure
  - Deliver to California Markets and Export Facilities Capacity
  - Carbon Capture and Storage

Framework for Regional Co-Op

Western Governor's Association Policy Resolution 2018-04, *Energy in the West*

- Goal 4: Advance efficient environmental review, siting, and permitting processes that facilitate energy development and the improvement and construction of necessary electric grid (transmission and distribution) and pipeline infrastructure, while ensuring environmental and natural resource protection.
  - Objective 5: Encourage regional transmission planning organizations to conduct interconnection-wide planning with the full participation of the states and with consideration of state energy policies.
  - Objective 6: Create functional partnerships among states, federal agencies, tribal governments and local jurisdictions to solve conflicts that hinder energy infrastructure and resource development.
  - Objective 7: Increase cooperation on interstate projects through interstate compacts and other tools.
