Dear Sir or Madam:

I am sending this fax as a request for information. I would like to obtain a copy of each of the Ordinances that establish the current 911 surcharge for wireless and wire lines in Walla Walla County. I am specifically looking for the current rate information and the date these rates became effective. I would also like to obtain a copy of the ordinance or resolution that establishes the most recent Local Sales Tax.

The company I represent packages tax and fee information for the telecommunications industry. The information we receive from the Counties and Municipalities ensures that our customers (the telephone companies) are collecting the proper revenues for the different government entities.

Please fax the information toll-free to 1-800-525-8175. If the documentation is too lengthy, you can mail it to:

BillSoft, Inc. 8220 Marshall Drive Lenexa, KS 66214 Attn: Rochelle Howard

Thank you for your time. If you have any questions, please call me toll-free at 1-800-525-8175, extension 325. I appreciate any information you can provide.

Regards,

Rochelle Howard

8220 Marshall Drive · Lenexa, KS 66214 · (913) 859-9674 · Fax: (913) 888-7963 [USA]

Ordinances. 214 224

ORDINANCE NO. 214

AN ORDINANCE IN THE MATTER OF AN ENHANCED 911 EXCISE TAX ON THE USE OF SWITCHED ACCESS LINES

WHEREAS, the voters have approved Referendum Bill 42 providing for an enhanced 911 emergency telephone dialing system to be funded by a tax on switched telephone lines; and

WHEREAS, the funds to establish and operate such a system are to be raised by collections of such a tax; and

WHEREAS, it is necessary for the general health, safety and welfare of the citizens of the County to establish an enhanced 911 telephone system and provide funding; now, therefore,

BE IT ORDAINED that a new Chapter 3.16 and Sections be added to the Walla Walla County Code, Title 3, Revenue and Finance, as follows:

Chapter 3.16 Enhanced 911 Excise Tax

3.16.010 Enhanced 911 Excise Tax

- (a) An enhanced 911 excise tax in the amount of fifty cents (0.50) per month for each telephone switched access line, as defined in RCW 84. 14B.020(3), is hereby imposed on each switched access line in Walla Walla County.
- (b) Taxes imposed under this section shall be collected from the user by the local exchange company providing the switched access line, as defined in RCW.82.14B.020(4) and 80.04.010. The local exchange company shall state the amount of tax separately on the billing statement which is sent to the user.

3.16.020 Use of Proceeds

The proceeds of this tax shall be used for an emergency services communication system enhanced as defined in RCW 82.14B.020(1) to be implemented no later than December 31, 1998.

3.16.030 Special Fund Created - Purposes Enumerated

There is hereby created a special account to be known as the Walla Walla County Enhanced 911 Utility Tax Fund. All taxes levied and collected herein shall be placed in said fund for the purpose of paying all or any part of the cost of all expenses related to the planning, acquisition, installation, addition, improvement, replacement, repair, maintenance, or operation of emergency services communication systems and an enhanced 911 telephone system, including reimbursement to the local exchange companies for actual costs of administration and collection of the tax imposed.

3.16.040 Remittance and Deposit of Taxes

- (a) The local exchange company shall remit all taxes collected within thirty (30) days following the collection month to the Walla Walla County Treasurer.
- (b) The Treasurer shall deposit said taxes received from the local exchange company in the special fund account referenced in section 3.16.030.

3.16.050 Effective Date of Tax - Notice to Local Exchange Companies

The effective date of the tax imposed herein shall be February 1, 1993 and notice of the tax shall be provided by Walla Walla County to all local exchange companies serving the county at least (60) days in advance of the date the first payment is due.

3.16.060 Severability

If any section, subsection, clause, phrase, or word in this ordinance or any provision adopted by reference herein is for any reason held to be invalid or unconstitutional by a court of competent jurisdiction, such invalidity or unconstitutionality shall not affect the validity or constitutionality of the remaining portions of this ordinance or any provisions adopted by reference herein.

NOTICE OF HEARING

NOTICE IS HEREBY GIVEN that the Board of County Commissioners of Walla Walla County, Washington, will hold a public hearing on Monday, December 7, 1992, at the hour of 11:00 A.M., in the Commissioners' Chambers, County Courthouse, 315 West Main Street, Walla Walla, Washington, to hear testimony in favor of and in opposition to adding Chapter 3.16 to the Walla Walla County Code pertaining to an Enhanced 911 Excise Tax.

The new Chapter proposed to be added is as follows:

Whereas, the voters have approved Referendum Bill 42 providing for an enhanced 911 emergency telephone dialing system to be funded by a tax on switched telephone lines; and

Whereas, the funds to establish and operate such a system are to be raised by collections of such a tax; and

Whereas, it is necessary for the general health, safety and welfare of the citizens of the County to establish an enhanced 911 telephone system and provide funding therefore;

BE IT ORDAINED that a new Chapter 3.16 and Sections be added to the Walla Walla County Code, Title 3, Revenue and Finance, as follows:

> Chapter 3.16 Enhanced 911 Excise Tax

3.16.010 Enhanced 911 Excise Tax

(a) An enhanced 911 excise tax in the amount of fifty cents (\$0.50) per month for each telephone switched access line, as defined in RCW 84.14B.020(3), is hereby imposed on switched access line in Walla Walla County.

(b) Taxes imposed under this section shall be collected from the user by the local exchange company providing the switched access line, as defined in RCW 82.14B.020(4) and 80.04.010. The local exchange company shall state the amount of tax separately on the billing statement which is sent to the user.

3.16.020 Use of Proceeds

The proceeds of this tax shall be used for an enhanced 911 telephone system as defined in RCW 82.14B.020(2) to be implemented no later than December 31, 1998.

3.16.030 Special Fund Created - Purpose Enumerated

There is hereby created a special account to be known as the Walla Walla County Enhanced 911 Utility Tax Fund. All taxes levied and collected herein shall be placed in said fund for the purpose of paying all or any part of the cost of all expenses related to the planning, acquisition, installation, addition, improvement, replacement, repair, maintenance, or operation of an enhanced 911 telephone system, including reimbursement to the local exchange companies for actual costs of administration and collection of the tax imposed.

3.16.040 Remittance and Deposit of Taxes

(a) The local exchange company shall remit all taxes collected within thirty (30) days following the collection month to the Walla Walla County Treasurer.

(b) The Treasurer shall deposit said taxes received from the local exchange company in the special fund

account referenced in Section 3.16.030.

3.16.050 Effective Date of Tax - Notice to Local Exchange Companies

The effective date of the tax imposed herein shall be February 1, 1993 and notice of the tax shall be provided by Walla Walla County to all local exchange companies serving the County at least (60) days in advance of the date the first payment is due.

3.16.060 Severability

If any section, subsection, clause, phrase, or word in this ordinance or any provision adopted by reference herein is for any reason held to be invalid or unconstitutional by a court of competent jurisdiction, such invalidity or unconstitutionality shall not affect the validity or constitutionality of the remaining portions of this ordinance or any provisions adopted by reference herein.

Enhanced 911 Tax

In order to satisfy the city's request that excess funds be used for emergency services communications and not just enhanced 911, the following changes can be made in the proposed ordinance, a copy of which has been sent to your printer:

Section 3.16.020 change "enhanced 911 system" to "emergency services communications system"

Section 3.16.060 add "and for emergency services communications systems"

Use of tax revenue for emergency services communications systems is a use permitted by the statute authorizing the county to levy such a tax.

WALLA WALLA COUNTY COMMISSIONERS

Board of County Commissioners Walla Walla County

In Re the Matter of an Enhanced 911 Excise Tax on the Use of Switched Access Lines.

Ordinance No.

Whereas, the voters have approved Referendum Bill 42 providing for an enhanced 911 emergency telephone dialing system to be funded by a tax on switched telephone lines; and

Whereas, the funds to establish and operate such a system are to be raised by collections of such a tax; and

Whereas, it is necessary for the general health, safety

and welfare of the citizens of the County to establish an enhanced 911 telephone system and provide funding therefore; Now, Therefore,

BE IT ORDAINED that a new Chapter 3.16 and sections be added to the Walla Walla County Code, Title 3, Revenue and Finance, as follows:

> Chapter 3.16 Enhanced 911 Excise Tax

3.16.010 Enhanced 911 Excise Tax

- (a) An enhanced 911 excise tax in the amount of fifty cents (\$0.50) per month for each telephone switched access line, as defined in RCW 84.14B.020(3), is hereby imposed on each switched access line in Walla Walla County.
- (b) Taxes imposed under this section shall be collected from the user by the local exchange company providing the switched access line, as defined in RCW 82.14B.020(4) and 80.04.010. The local exchange company shall state the amount of tax separately on the billing statement which is sent to the user.

3.16.020 Use of Proceeds

The proceeds of this tax shall be used for an enhanced 911 telephone system as defined in RCW 82.14B.020(2) to be implemented no later than December 31, 1998.

3.16.030 Special Fund Created - Purposes Enumerated

There is hereby created a special account to be known as the Walla Walla County Enhanced 911 Utility Tax Fund. All taxes levied and collected herein shall be placed in said fund for the purpose of paying all or any part of the cost of of all expenses related to the planning, acquisition, installation, addition, improvement, replacement, repair, maintenance, or operation of an enhanced 911 telephone system, including reimbursement to the local exchange companies for actual costs of administration and collection of the tax imposed.

- 3.16.040 Remittance and Deposit of Taxes
- (a) The local exchange company shall remit all taxes collected within thirty (30) days following the collection month to the Walla Walla County Treasurer.
- (b) The Treasurer shall deposit said taxes received from the local exchange company in the special fund account referenced in section 3.16.030.
- 3.16.050 Effective Date of Tax Notice to Local Exchange Companies

The effective date of the tax imposed herein shall be and notice of the tax shall be provided by Walla Walla County to all local exchange companies serving the county at least (60) in advance of the date the first payment is due.

3.16.060 Severability

If any section, subsection, clause, phrase, or word in this ordinance or any provision adopted by reference herein is for any reason held to be invalid or unconstitutional by a court of competent jurisdiction, such invalidity or unsconstitutionality shall not affect the validity or constitutionality of the remaining portions of this ordinance or any provisions adopted by reference herein.

Enhanced 911 Advisory Committee Meeting Minutes

Meeting Date: October 15, 1992

COMMITTEE MEMBERS PRESENT: Kate Heimbach, Interim Chair; Sherry Appleton, Dan Aycock, Fran Bessermin, Thera Bradshaw, Ken Conte, Dick Dixon, Doug Gehrke, Dennis Hofstad, Joe Hommel, Dan LaRoche, Jeanne Massingham, John Matthews, Noel Mhyre, Phil Moeller, Ross Morris, Bob Oenning, Jim Quackenbush, Greg Taylor

ALTERNATES PRESENT: Sue Holliday alternate for W. Harvey Simpson

1. WELCOME AND INTRODUCTIONS

Kate Heimbach, Interim Chair, called the meeting to order at 9:33 a.m. Ms. Heimbach introduced the newest member of the Advisory Committee, Ken Conte. Mr. Conte is the new Senior Analyst for the House Energy & Utilities Committee, replacing Fred Adair. Mr. Adair retired as the Senior Analyst for the House Energy & Utilities Committee at the end of September. A letter thanking Mr. Adair for his efforts to promote statewide E911 was circulated and signed by all Committee members and staff that were present. Staff mailed this letter of appreciation to Mr. Adair.

2. REVIEW OF MINUTES

The minutes of the August 20, E911 Advisory Committee meeting were reviewed. Jeanne Massingham requested that the sub-heading "Rumor Control" be eliminated from the minutes and replaced with "Information Sharing". It was agreed that this change would be made. Thera Bradshaw moved and Bob Oenning seconded to adopt the August 20, 1992 minutes as amended. Motion passed.

4. E911 TARIFF STUDY

Kate Heimbach introduced Tom Zepp, the economist/consultant hired by DCD, at the direction of the Advisory Committee, to review the E911 tariffs submitted to the Washington Utilities and Transportation Commission (WUTC). Mr. Zepp began reviewing the tariffs late in September and will make his recommendations prior to final consideration by the WUTC. He reported that he has received a good deal of help in his tariff study from the E911 Managers of King, Thurston, Pierce and Clark County among others. He has been reviewing the tariffs and cost studies of each of the telephone companies required to file E911 tariffs by the WUTC. He reported that he has also received a good deal of assistance and cooperation from U.S. West and General Telephone as well as many of the smaller independent telephone companies. Mr. Zepp noted that his study will include looking at the costs that are being estimated that underlie the tariffs and in particular costs for the ALI/DMS data base (often the major cost component in E911 service). In addition to reviewing the tariffs of the larger telephone companies, he is also studying the smaller telephone company costs as a group.

Dan LaRoche stated that his local telephone company sent a letter informing the county that the new tariff will cause their E911 telephone rates to almost triple. Thera Bradshaw reported receiving similar correspondence. She suggested that all such correspondences be forwarded to the E911 Office so the staff can see the overall picture. Fran Bessermin stated that the rural counties are having to dip into their general funds in order to She added that in many rural counties the 50¢ rate will not begin to cover E911 costs. Concerns were raised regarding the apparent increase in costs to some local jurisdictions, and in particular how this will affect less populated rural counties. Joe Hommel reported that in order for UTC to approve a tariff it must be based on fair, reasonable, cost-related rates. The purpose of a tariff is, in an essentially monopolistic market, to make sure that all customers are treated equally and that the price established for a relatively homogeneous product such as E911 is based upon the cost of providing that service. Tom Zepp added that it is the tariff that establishes the price that is going to be paid by the The WUTC will make decisions on the extent to which counties. the tariffs will fully or partially cover the telephone company Discussion followed on the extent to which the tariffs are "unbundling" E911 service. Bob Oenning stated that he feels tariffs will tend to level costs for implementation of E911.

<u>Decision/Recommendation:</u> Kate Heimbach suggested that due to the complexity and confusion regarding tariffs and E911, the morning of the next meeting be set aside to conduct an educational seminar on them. She added that, if necessary, she would invite DCD's Assistant Attorney General to provide

Mr Oenning stated there are two additional issues that are of concern to the Work Group. One is the problem caused when PBXs cross telephone company boundaries and/or county boundaries. This creates problems of record keeping and routing. A second major issue is liability. A PBX owner who wants to provide location records to the telephone company may be very concerned about the liability of putting their records on the telephone company system. Are they liable if the telephone company loses those records? The telephone companies expressed concerns about being responsible for records that they don't maintain. Dan LaRoche suggested that due to the liability issue the PBX Work Group may need legal advise. Ms. Heimbach indicated that DCD's Assistant Attorney General could be made available to provide assistance to the Work Group.

6. CONTINUATION OF DISCUSSION AND POSSIBLE ELECTION OF CHAIR

Doug Gehrke nominated Jim Quackenbush to chair the E911 Advisory Committee. Greg Taylor seconded the nomination. Mr. Quackenbush accepted the nomination. With no other nominations, Ross Morris moved that the nominations be closed, Fran Bessermin seconded. Motion passed. The Committee then voted unanimously to elect Jim Quackenbush as the new chair of the E911 Advisory Committee replacing Interim Chair, Kate Heimbach. He indicated he would formally take over the chairmanship at the November 19 meeting, so Kate Heimbach continued to chair the October meeting.

7. PRESENTATIONS BY STANDARDS & CRITERIA SUBCOMMITTEES

Major Ross Morris presented the report of the E911 Components Subcommittee. The report describes what the Subcommittee considers to be the basic components of an E911 system. Major categories include: network, database, telephone company (telco), customer premise equipment, and operational items. The report identified those items in each category which the Subcommittee considered absolutely essential to E911 service (priority 1) and those which could be included as add-on items but weren't absolutely essential to E911 (priority 2). In terms of funding priorities the Subcommittee recommended a four tiered system as follows:

- A1 No 9-1-1 now and would fund all priority 1 items only
- B1 Presently has Basic 9-1-1 and would fund all priority 1 items only.
- C1 Presently has E9-1-1 and will fund any priority 1 items including replacement of any priority 1 item.
 - 2 All priority 2 items.

A discussion followed regarding when priority one items would be funded and when priority two items would be eligible for funding. Jim Quackenbush questioned the timing of plan submission given limited funding availability and whether this might result in a

stages of implementation will be looking to the state for reimbursement. Confusion regarding issues linked to the collection process, versus expenditures, versus assistance with state funding led to tabling this issue until the next meeting.

<u>Decision/Recommendation:</u> In order to test the proposed funding formula, Kate Heimbach agreed that staff, with input from the Subcommittee, would put together several funding scenarios based on counties in different stages of E911 implementation and local revenue collection. These will be put on charts and used for illustration and discussion purposes at the next meeting.

Thera Bradshaw presented her Subcommittee's work on the local plans issue. She indicated she started with a document published by the Massachusetts Statewide Emergency Telecommunications Board. The comprehensive document includes a planning guide as well as draft standards. She also had reviewed similar documents from Texas and Oregon. Ms. Bradshaw suggested that this very rough draft of the planning guide document be considered as a starting point for our planning guide purposes and modified as necessary to meet the needs of the State of Washington.

<u>Decision/Recommendation</u>: Following a brief discussion of the planning guide document, Ross Morris suggested that the E911 Office do an initial edit. This would involve doing an extensive cleanup of common terms used such as changing telephone companies to vendors, municipalities to counties, and the use of definitions in ESHB 1938 wherever applicable. The Committee agreed that they should also be editing in the interim before the November meeting.

Discussion shifted back to the local funding issue and proposed scenarios. It was suggested that one of the funding scenarios include the concept of regionalization and how the funding formula might be structured in such a way as to encourage counties to take advantage of economies of scale and consider multi-county or regional E911 systems.

It was concluded that the Committee members should provide input to Ross Morris's Components Subcommittee before the November 19 meeting. John Matthews suggested that the various subcommittees use Thera Bradshaw's document as a starting point and fold into it the recommendations of their respective subcommittees. Jeanne Massingham also suggested that a section be added to the document called "Preliminary Planning".

Fran Bessermin raised the issue of the need to begin getting state funds to local 911 programs as soon as possible. She suggested the State Office and Advisory Committee look at the possibility of providing some type of early initial allocations for planning or possibly addressing. Greg Taylor noted that the

seconded by Dick Dixon. Motion passed with Jeanne Massingham, Joe Hommel, Greg Taylor, Doug Gehrke, Phil Moeller, Sue Holliday, and Fran Bessermin abstaining. The E911 Office has prepared and transmitted a written response to the WUTC reflecting the Advisory Committees' recommendation.

In other new business, Greg Taylor recommended that PBX Work Group members be reimbursed for their travel expenses when on Work Group business. This involves six non-Advisory Committee members. Kate Heimbach assured the Committee members that such a reimbursement can be done, and Mr. Taylor's request was approved.

10. OLD BUSINESS

Joe Hommel discussed the required report to the WUTC on the continuation of the 20¢ state excise tax in 1993. The report was prepared by E911 Office staff and submitted to the WUTC on August 31, 1992. Mr. Hommel stated that the report had been reviewed by staff and placed on WUTC's consent agenda for their October 28 meeting. He suggested that representatives from the Committee consider meeting with the WUTC Commissioners to further explain the content and recommendations of the report. Kate Heimbach and Jim Quackenbush agreed to meet with the Commissioners on an individual basis before their October 28 meeting.

The meeting adjourned at 3:30 p.m.

ORDINANCE NO. 214

AN ORDINANCE IN THE MATTER OF AN ENHANCED 911 EXCISE TAX ON THE USE OF SWITCHED ACCESS LINES

WHEREAS, the voters have approved Referendum Bill 42 providing for an enhanced 911 emergency telephone dialing system to be funded by a tax on switched telephone lines; and

WHEREAS, the funds to establish and operate such a system are to be raised by collections of such a tax; and

WHEREAS, it is necessary for the general health, safety and welfare of the citizens of the County to establish an enhanced 911 telephone system and provide funding; now, therefore,

BE IT ORDAINED that a new Chapter 3.16 and Sections be added to the Walla Walla County Code, Title 3, Revenue and Finance, as follows:

Chapter 3.16 Enhanced 911 Excise Tax

3.16.010 Enhanced 911 Excise Tax

- (a) An enhanced 911 excise tax in the amount of fifty cents (0.50) per month for each telephone switched access line, as defined in RCW 84. 14B.020(3), is hereby imposed on each switched access line in Walla Walla County.
- (b) Taxes imposed under this section shall be collected from the user by the local exchange company providing the switched access line, as defined in RCW.82.14B.020(4) and 80.04.010. The local exchange company shall state the amount of tax separately on the billing statement which is sent to the user.

3.16.020 Use of Proceeds

The proceeds of this tax shall be used for an emergency services communication system enhanced as defined in RCW 82.14B.020(1) to be implemented no later than December 31, 1998.

3.16.030 Special Fund Created - Purposes Enumerated

There is hereby created a special account to be known as the Walla Walla County Enhanced 911 Utility Tax Fund. All taxes levied and collected herein shall be placed in said fund for the purpose of paying all or any part of the cost of all expenses related to the planning, acquisition, installation, addition, improvement, replacement, repair, maintenance, or operation of emergency services communication systems and an enhanced 911 telephone system, including reimbursement to the local exchange companies for actual costs of administration and collection of the tax imposed.

Vol / page 648

3.16.040 Remittance and Deposit of Taxes

- (a) The local exchange company shall remit all taxes collected within thirty (30) days following the collection month to the Walla Walla County Treasurer.
- (b) The Treasurer shall deposit said taxes received from the local exchange company in the special fund account referenced in section 3.16.030.

3.16.050 Effective Date of Tax - Notice to Local Exchange Companies

The effective date of the tax imposed herein shall be February 1, 1993 and notice of the tax shall be provided by Walla Walla County to all local exchange companies serving the county at least (60) days in advance of the date the first payment is due.

3.16.060 Severability

If any section, subsection, clause, phrase, or word in this ordinance or any provision adopted by reference herein is for any reason held to be invalid or unconstitutional by a court of competent jurisdiction, such invalidity or unconstitutionality shall not affect the validity or constitutionality of the remaining portions of this ordinance or any provisions adopted by reference herein.

Dated this 8th day of December , 1992.

Enhanced 911 Advisory Committee Meeting Minutes

Meeting Date: October 15, 1992

COMMITTEE MEMBERS PRESENT: Kate Heimbach, Interim Chair; Sherry Appleton, Dan Aycock, Fran Bessermin, Thera Bradshaw, Ken Conte, Dick Dixon, Doug Gehrke, Dennis Hofstad, Joe Hommel, Dan LaRoche, Jeanne Massingham, John Matthews, Noel Mhyre, Phil Moeller, Ross Morris, Bob Oenning, Jim Quackenbush, Greg Taylor

ALTERNATES PRESENT: Sue Holliday alternate for W. Harvey Simpson

1. WELCOME AND INTRODUCTIONS

Kate Heimbach, Interim Chair, called the meeting to order at 9:33 a.m. Ms. Heimbach introduced the newest member of the Advisory Committee, Ken Conte. Mr. Conte is the new Senior Analyst for the House Energy & Utilities Committee, replacing Fred Adair. Mr. Adair retired as the Senior Analyst for the House Energy & Utilities Committee at the end of September. A letter thanking Mr. Adair for his efforts to promote statewide E911 was circulated and signed by all Committee members and staff that were present. Staff mailed this letter of appreciation to Mr. Adair.

2. REVIEW OF MINUTES

The minutes of the August 20, E911 Advisory Committee meeting were reviewed. Jeanne Massingham requested that the sub-heading "Rumor Control" be eliminated from the minutes and replaced with "Information Sharing". It was agreed that this change would be made. Thera Bradshaw moved and Bob Oenning seconded to adopt the August 20, 1992 minutes as amended. Motion passed.

3. FOLLOW-UP ITEMS FROM PREVIOUS MEETINGS

Pend Oreille County Inquiry:

Kate Heimbach announced that DCD had responded to the earlier request from the Pend Oreille County Board of Commissioners for additional detail on the current budget for the E911 program. A copy of the response was included in the members' packets. The information provided actual expenditures, by line item, through July of 1992 with projections through June 30 of 1993 (the end of the current biennium). Thera Bradshaw requested that a more detailed budget report be provided at the next meeting. Greg Taylor expressed concern about the apparent large percentage of E911 state revenue being expended for program administration. Ken Back explained that the expenditure sheets do not reflect full revenue collections and that administrative costs are only a small percentage of revenues being collected. He said that revenues have been averaging in excess of \$500,000 per month since collection began in January.

Staffing Update:

Interviews for the E911 Coordinator were held on October 21st. Three members of the Advisory Committee; John Matthews, Jim Quackenbush, and Fran Bessermin served on the interview panel with Ms. Heimbach. Out of approximately 50 applicants the top six were interviewed. A job offer will be extended once reference checks are completed. It is anticipated that the E911 Coordinator will be on-board early in December.

The recruitment exam for the two technical positions has been completed, and the job announcement will be mailed to interested parties by the first week in November. Applications are due back to DCD by November 18. Ms. Heimbach thanked Jim Quackenbush for his help in developing the test questions which will be used to screen applicants for these technical positions.

Draft E911 Survey Results:

Ken Back distributed a draft of the final E911 Survey results to the Committee members for review. He stated that an executive summary section will be added explaining the rationale and methodology of the survey along with the findings and conclusions. It was suggested that the completed document be distributed at the State Association of Counties November meeting in Spokane. Noel Mhyre added that he would like to distribute a completed survey document to the members of the Washington Fire Commissioner's Association.

4. E911 TARIFF STUDY

Kate Heimbach introduced Tom Zepp, the economist/consultant hired by DCD, at the direction of the Advisory Committee, to review the E911 tariffs submitted to the Washington Utilities and Transportation Commission (WUTC). Mr. Zepp began reviewing the tariffs late in September and will make his recommendations prior to final consideration by the WUTC. He reported that he has received a good deal of help in his tariff study from the E911 Managers of King, Thurston, Pierce and Clark County among others. He has been reviewing the tariffs and cost studies of each of the telephone companies required to file E911 tariffs by the WUTC. He reported that he has also received a good deal of assistance and cooperation from U.S. West and General Telephone as well as many of the smaller independent telephone companies. noted that his study will include looking at the costs that are being estimated that underlie the tariffs and in particular costs for the ALI/DMS data base (often the major cost component in E911 service). In addition to reviewing the tariffs of the larger telephone companies, he is also studying the smaller telephone company costs as a group.

Dan LaRoche stated that his local telephone company sent a letter informing the county that the new tariff will cause their E911 telephone rates to almost triple. Thera Bradshaw reported receiving similar correspondence. She suggested that all such correspondences be forwarded to the E911 Office so the staff can see the overall picture. Fran Bessermin stated that the rural counties are having to dip into their general funds in order to She added that in many rural counties the 50¢ rate start E911. will not begin to cover E911 costs. Concerns were raised regarding the apparent increase in costs to some local jurisdictions, and in particular how this will affect less populated rural counties. Joe Hommel reported that in order for UTC to approve a tariff it must be based on fair, reasonable, cost-related rates. The purpose of a tariff is, in an essentially monopolistic market, to make sure that all customers are treated equally and that the price established for a relatively homogeneous product such as E911 is based upon the Tom Zepp added that it is the cost of providing that service. tariff that establishes the price that is going to be paid by the The WUTC will make decisions on the extent to which counties. the tariffs will fully or partially cover the telephone company Discussion followed on the extent to which the tariffs Bob Oenning stated that he feels are "unbundling" E911 service. tariffs will tend to level costs for implementation of E911.

<u>Decision/Recommendation:</u> Kate Heimbach suggested that due to the complexity and confusion regarding tariffs and E911, the morning of the next meeting be set aside to conduct an educational seminar on them. She added that, if necessary, she would invite DCD's Assistant Attorney General to provide

the legal perspective. Due to scheduling problems, it was decided by the Committee to delay this training until the December 17 meeting. Doug Gehrke, Greg Taylor, and Noel Mhyre agreed to conduct the E911 training, and Joe Hommel will lead the tariff training.

ACTION ITEM: NOVEMBER WUTC DEADLINE

The Committee agreed to direct DCD and Tom Zepp to continue the analysis of the E911 tariffs in preparation for the November 4 decision by the WUTC. As necessary, if the analysis indicates, DCD should be prepared to request suspension of some or all of the tariffs so that additional analysis can be completed prior to the tariffs being approved by WUTC.

5. PBX WORK GROUP UPDATE

Bob Oenning, Chair of the PBX Work Group, gave a brief overview of their activities and plans. One of the tasks that the PBX Work Group asked Kate Heimbach to do was send a letter to the local jurisdictions planning PBX ordinances letting them know about the PBX Work Group and asking them to provide input to the Work Group as well as consider postponing a final decision on a local ordinance until the Work Group has completed its analysis. King County has in fact responded by putting their PBX ordinance plans on hold until the Work Group and Advisory Committee have addressed the issues from a statewide perspective. The Group has begun addressing the scope and definition of the problem and scheduled meetings to receive input from groups which have PBX interests including public safety officials, PBX users, telephone companies, and 911 officials. One of the major issues related to PBX is the level of precision needed is determining the location There may be different of a 911 call coming from behind a PBX. answers depending on the type of building(s) involved. Advisory Committee will be regularly apprised as the Work Group progresses. A draft progress report to the legislature will be presented for consideration at the December 17 Advisory Committee meeting. The report will document Work Group progress and will include recommendations on which issues might have to be Mr. Oenning emphasized to the Committee members that if another Auburn incident occurs, whereby a 911 call from behind a PBX was misrouted and a death resulted, then local ordinances cannot be put on hold. Also, this would result in a real push to have this problem addressed through state legislation in the 1993 session.

Bob Oenning recommended that Joe Blaschka, Jr. of ADCOMM Engineering Company be added to the PBX Work Group. It was felt that his expertise and technical knowledge in PBXs would be extremely helpful to the Work Group. Noel Mhyre moved and Doug Gehrke seconded to add Joe Blaschka, Jr. to the PBX Work Group. Motion passed.

Mr Oenning stated there are two additional issues that are of concern to the Work Group. One is the problem caused when PBXs cross telephone company boundaries and/or county boundaries. This creates problems of record keeping and routing. A second major issue is liability. A PBX owner who wants to provide location records to the telephone company may be very concerned about the liability of putting their records on the telephone company system. Are they liable if the telephone company loses those records? The telephone companies expressed concerns about being responsible for records that they don't maintain. Dan LaRoche suggested that due to the liability issue the PBX Work Group may need legal advise. Ms. Heimbach indicated that DCD's Assistant Attorney General could be made available to provide assistance to the Work Group.

6. CONTINUATION OF DISCUSSION AND POSSIBLE ELECTION OF CHAIR

Doug Gehrke nominated Jim Quackenbush to chair the E911 Advisory Committee. Greg Taylor seconded the nomination. Mr. Quackenbush accepted the nomination. With no other nominations, Ross Morris moved that the nominations be closed, Fran Bessermin seconded. Motion passed. The Committee then voted unanimously to elect Jim Quackenbush as the new chair of the E911 Advisory Committee replacing Interim Chair, Kate Heimbach. He indicated he would formally take over the chairmanship at the November 19 meeting, so Kate Heimbach continued to chair the October meeting.

7. PRESENTATIONS BY STANDARDS & CRITERIA SUBCOMMITTEES

Major Ross Morris presented the report of the E911 Components Subcommittee. The report describes what the Subcommittee considers to be the basic components of an E911 system. Major categories include: network, database, telephone company (telco), customer premise equipment, and operational items. The report identified those items in each category which the Subcommittee considered absolutely essential to E911 service (priority 1) and those which could be included as add-on items but weren't absolutely essential to E911 (priority 2). In terms of funding priorities the Subcommittee recommended a four tiered system as follows:

- A1 No 9-1-1 now and would fund all priority 1 items only
- B1 Presently has Basic 9-1-1 and would fund all priority 1 items only.
- C1 Presently has E9-1-1 and will fund any priority 1 items including replacement of any priority 1 item.
 - 2 All priority 2 items.

A discussion followed regarding when priority one items would be funded and when priority two items would be eligible for funding. Jim Quackenbush questioned the timing of plan submission given limited funding availability and whether this might result in a

shift in items eligible for funding. Greg Taylor asked whether or not if an existing telephone system is incompatible with the 911 system (priority 2), it would be appropriate for the E911 program to fund an upgrade of existing systems. The Subcommittee agreed this was an area they hadn't considered and would need to look into. It was agreed there was additional clarification needed on all these issues.

Ross Morris raised the issue that given limited funding, should an E911 system be completely installed in one county which has no 911 before putting funding into another county that may have at least partial 911 service. All agreed this was a major policy issue the Advisory Committee would have to address.

Dennis Hofstad, Chair of the Local Contribution Subcommittee, gave a brief overview of his Subcommittee's findings. He stated it was his Subcommittee's understanding that the intent of the UTC Study and E911 legislation was that the 20¢ state tax was to be used for capital start-up costs for E911 and the 50¢ local contribution was meant to help fund the overall emergency receiving system; ie basic 911. Based on this premise, the subcommittee developed a proposed funding formula as follows:

All eligible 911 costs minus the number of months since April 93 (target date for all counties to implement local 50¢ ordinance) times the number of access lines times 50¢ would equal the amount eligible for state E911 funding.

A discussion followed, and it was agreed that under the legislation each county by the year 1998 would be required to implement E911 systems initially with the 50¢ local contribution. If the county is unable by such time to implement E911 with the 50¢ local tax or its equivalent, they can receive additional funding from the state's 20¢ excise tax collection. This recognizes that some counties may not need state funding to implement E911 and some counties may need extensive state funding.

Kate Heimbach suggested that a key is the definition of what is truly required in an E911 system above and beyond what can be funded at the county level with the basic 50¢. Greg Taylor suggested the possibility of having a flexible formula based upon when local jurisdictions began collecting the 50¢ local tax. Kate Heimbach suggested the possibility of giving a credit to those jurisdictions which began collecting the 50¢ before April of 1993. She added that in some cases counties which are now collecting their 50¢ local tax yet know it will be insufficient to fund the entire E911 system but have proceeded with the early

stages of implementation will be looking to the state for reimbursement. Confusion regarding issues linked to the collection process, versus expenditures, versus assistance with state funding led to tabling this issue until the next meeting.

<u>Decision/Recommendation:</u> In order to test the proposed funding formula, Kate Heimbach agreed that staff, with input from the Subcommittee, would put together several funding scenarios based on counties in different stages of E911 implementation and local revenue collection. These will be put on charts and used for illustration and discussion purposes at the next meeting.

Thera Bradshaw presented her Subcommittee's work on the local plans issue. She indicated she started with a document published by the Massachusetts Statewide Emergency Telecommunications Board. The comprehensive document includes a planning guide as well as draft standards. She also had reviewed similar documents from Texas and Oregon. Ms. Bradshaw suggested that this very rough draft of the planning guide document be considered as a starting point for our planning guide purposes and modified as necessary to meet the needs of the State of Washington.

<u>Decision/Recommendation:</u> Following a brief discussion of the planning guide document, Ross Morris suggested that the E911 Office do an initial edit. This would involve doing an extensive cleanup of common terms used such as changing telephone companies to vendors, municipalities to counties, and the use of definitions in ESHB 1938 wherever applicable. The Committee agreed that they should also be editing in the interim before the November meeting.

Discussion shifted back to the local funding issue and proposed scenarios. It was suggested that one of the funding scenarios include the concept of regionalization and how the funding formula might be structured in such a way as to encourage counties to take advantage of economies of scale and consider multi-county or regional E911 systems.

It was concluded that the Committee members should provide input to Ross Morris's Components Subcommittee before the November 19 meeting. John Matthews suggested that the various subcommittees use Thera Bradshaw's document as a starting point and fold into it the recommendations of their respective subcommittees. Jeanne Massingham also suggested that a section be added to the document called "Preliminary Planning".

Fran Bessermin raised the issue of the need to begin getting state funds to local 911 programs as soon as possible. She suggested the State Office and Advisory Committee look at the possibility of providing some type of early initial allocations for planning or possibly addressing. Greg Taylor noted that the

Committee still needs to determine the basic state fundable components of E911, develop a simple funding formula, and get some of the funds out the door quickly. Thera Bradshaw cautioned against getting funds out too quickly without an adequate planning process. Dennis Hofstad suggested focusing on reimbursable E911 expenses as a possible way to get funds out quickly. Phil Moeller raised another potential concern. ESHB 1938 the state is essentially mandating that the counties implement E911 by 1998. Initiative 62 says that the state cannot mandate local programs unless they provide the funding to carry out the programs. Some counties have as yet not passed their local 50¢ tax ordinances and might potentially raise Initiative 62 as a reason not to do so. It was agreed that in setting up a funding formula, we need to incorporate incentives to truly reward the counties that have made concerted early efforts toward E911 implementation with local funds. Bob Oenning suggested looking closer at issues of what the money is spent on. Committee needs to look closer at the definitions on what is fundable.

8. <u>COMMUNICATION ISSUES</u>

Kate Heimbach asked whether or not information about the E911 program was getting out to interested parties. Dan Aycock suggested press releases on E911 activities be put out periodically. Jeanne Massingham suggested sending the minutes of the Advisory Committee meetings to the 39 county contacts identified in the E911 County Survey. Ms. Heimbach assured the Committee that these contacts will start receiving the Advisory Committee minutes. It was also suggested that a press release be prepared and distributed once the new E911 Coordinator is hired.

9. <u>NEW BUSINESS</u>

Ken Back explained that the WUTC has asked for the Committees' position on a request from the Toledo Telephone Company for a waiver from the WUTC requirement to submit an E911 tariff. All telephone companies operating in Washington have been required by the WUTC to file E911 tariffs, and most have already done so. their request for the Advisory Committees' opinion in this matter the WUTC noted that one of the original reasons for tariffing 911 service was that local 911 coordinators and elected officials basically encouraged the WUTC to require it in lieu of contracts. Following a discussion of the rationale of the desirability of having E911 tariffs, Greg Taylor made a motion to recommend that the Toledo Telephone Company be required to file the tariff utilizing the services of WITA and the model tariff to make it easier for them to comply. Sherry Appleton amended this motion "The E911 Advisory Committee recommends that Toledo to state: file their tariff according to the WUTC rules." John Matthews further amended the motion to recommend to the WUTC that a waiver not be granted for the Toledo Telephone Company. This motion was

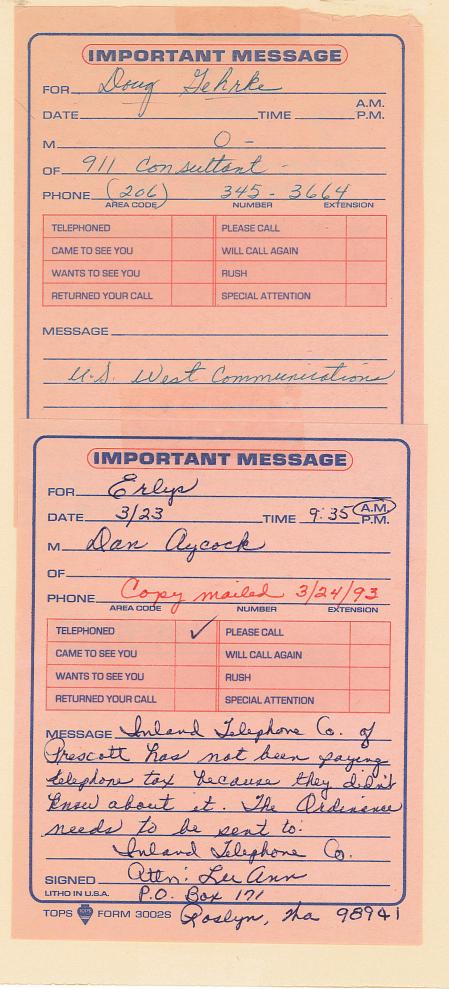

seconded by Dick Dixon. Motion passed with Jeanne Massingham, Joe Hommel, Greg Taylor, Doug Gehrke, Phil Moeller, Sue Holliday, and Fran Bessermin abstaining. The E911 Office has prepared and transmitted a written response to the WUTC reflecting the Advisory Committees' recommendation.

In other new business, Greg Taylor recommended that PBX Work Group members be reimbursed for their travel expenses when on Work Group business. This involves six non-Advisory Committee members. Kate Heimbach assured the Committee members that such a reimbursement can be done, and Mr. Taylor's request was approved.

10. OLD BUSINESS

Joe Hommel discussed the required report to the WUTC on the continuation of the 20¢ state excise tax in 1993. The report was prepared by E911 Office staff and submitted to the WUTC on August 31, 1992. Mr. Hommel stated that the report had been reviewed by staff and placed on WUTC's consent agenda for their October 28 meeting. He suggested that representatives from the Committee consider meeting with the WUTC Commissioners to further explain the content and recommendations of the report. Kate Heimbach and Jim Quackenbush agreed to meet with the Commissioners on an individual basis before their October 28 meeting.

The meeting adjourned at 3:30 p.m.
