SECTION II. IDENTIFICATION OF PUBLIC FACILITY PROJECT AND COSTS

- 1. Describe the entire public facilities project, including the parts that you are not asking to fund.**
(The term "public facilities" means bridges, roads, domestic and industrial water facilities, sanitary sewer facilities, earth stabilization, storm sewer facilities, railroads, electrical facilities, natural gas facilities, research, testing, training, and incubation facilities in innovation partnership zones designated under RCW 43.330.270, buildings, structures, telecommunications infrastructure, transportation infrastructure, or commercial infrastructure, and port facilities in the state of Washington.)

The proposed public infrastructure improvements for the City of Prescott is to enhance pedestrian safety for children and adults crossing Highway 124 from the Prescott Swimming Pool and Field View Park. The public infrastructure from A Street to east of B Street by remove midblock crossing end stairs; adding crosswalks to B Street; curb, gutter and sidewalk on north side of SR 124; curbing on south side of SR 124; add a paved path to the pool building with curb ramps and a detectable warning surface.

The proposed public infrastructure improvements are estimated to cost approximately \$200,000 dollars

- 2. Summarize efforts taken to date regarding the project in terms of specific steps and studies and dates of action.**

The City of Prescott in partnership with the Port of Walla Walla and WSDOT have develop plans and specifications and a cost estimate for the proposed infrastructure improvements. The City of Prescott City Council has reviewed and approved the project along with Prescott School District and Prescott Joint Parks District.

3. **Does this project qualify as economic development and does it create or retain family wage jobs? (Please review Attachment A - Principle Guidelines for the Economic Development Sales Tax Fund.)**

No.

The City of Prescott is requesting an EDSTF grant and EDSTF loan and understands that the City of Prescott will be restricted in applying for an EDSTF grant for 5 years from the date of award. However, during this 5 year restricted period, if the City of Prescott has a public infrastructure project that can demonstrate the creation of new direct family wage jobs, private sector capital investment, and new taxes, the City of Prescott's application would be considered for funding.

4. **List the number of projected jobs to be retained and/or created by the firm as a result of the public infrastructure project. Jobs must be expressed in Full Time Equivalents (FTEs). Management positions should be indicated as an annual salary. * Retained jobs are defined as jobs that would otherwise be lost in Walla Walla County.**

ATTACHMENT A
Principle Guidelines
Economic Development Sales Tax Fund (EDSTF)

**Some provisions within these principle guidelines are requirements under RCW
82.14.370 - Sales and use tax for public facilities in rural counties.**

1. Public infrastructure projects must be listed in the Walla Walla County Comprehensive Plan (Chapter 11 Economic Development Element – Appendix G). Public infrastructure project listed in the approved County Comprehensive Plan does not guarantee the public infrastructure project will receive funding.
2. At the beginning of each fiscal year, the Port will notify the jurisdictions of the available funding in the EDSTF and will transmit the application form and these principle guidelines.
3. The Port Commission will maintain discipline in using the EDSTF for strategic economic development opportunities. Public infrastructure projects that create, retain and/or expand family wage jobs (defined as \$25,000 per year plus a benefit package), encourage private sector capital investment, and new taxes are the primary goal of the EDSTF.
4. Cap any one jurisdiction from receiving more than a \$200,000 grant and a \$200,000 loan in any one fiscal year. Exceptions will be made for extraordinary job creating opportunities, private sector capital investments, and new taxes. Exceptions will also be made if a jurisdiction has projects that would allow the funding to be distributed countywide. For example, a jurisdiction may have a qualifying project in Burbank and during that same fiscal year they may have a qualifying project in Waitsburg. In order to help disburse the EDSTF countywide, both qualifying applications would be considered.
5. Applications require a 50% local public match (\$200,000 EDSTF request, \$100,000 local public match). Only a 10% local public match will be required for the City of Prescott and City of Waitsburg due to their size and access to local public matching dollars. Local public match is defined as publicly-appropriated local funds. Funds appropriated from state, federal, other funding sources, and in-kind match do not qualify as local public match. Private sector funds directly allocated to the public infrastructure project will be considered as a local public match.

Example: If the public infrastructure total project cost is \$200,000 (design engineering, construction and construction assistance), the applicant is required to secure \$100,000 in local public match and can apply for a \$100,000 in EDSTF. In the case for City of Prescott and City of Waitsburg, if the public infrastructure project cost is \$200,000 (design engineering, construction and construction assistance), the applicant is required to secure \$20,000 in local public match and can apply for a \$180,000 in EDSTF.
6. Each public infrastructure project approved for EDSTF will need to enter into a performance contract and/or inter-local agreement guaranteeing performance.

7. Public infrastructure projects that can substantiate the creation of new direct family wage jobs (defined as \$25,000 per year plus a benefit package), private sector capital investment, and new taxes will have the best chance in securing an EDSTF grant and/or loan.
8. Public infrastructure projects that cannot identify the creation of new direct family wage jobs (defined as \$25,000 per year plus a benefit package), private sector capital investment, and new taxes are encouraged to apply for an EDSTF loan. If the applicant is requesting an EDSTF grant, and an EDSTF grant is awarded, the applicant will be restricted in applying for an EDSTF grant for 5 years from the date of award. However, during this 5 year restricted period, the applicant has a public infrastructure project that can demonstrate the creation of new direct family wage jobs (defined as \$25,000 per year plus a benefit package), private sector capital investment, and new taxes, their application would be considered for funding.
9. Public infrastructure related projects that can substantiate the retention of existing family wage jobs (defined as \$25,000 per year plus a benefit package) are encouraged to apply for EDSTF grant and/or loan. To substantiate job retention, the applicant must fully demonstrate that a specific business would have a reduction in its labor force without the public infrastructure improvement.
10. Projects approved for funding must start drawing down the appropriated funds for the proposed public infrastructure project within 1 year from the date the application is approved. All appropriated funds must be fully expended within 2 years from the date the application is approved. If applicant cannot meet said deadlines, the application must be resubmit their application for consideration. All existing approved public infrastructure projects will have priority funding over the new resubmitted application.

Approved by the Port Commission on the 25th day of September, 2014

Concurrence by the Walla Walla County Commissioners on the 20th day of October, 2014
