

# Walla Walla County Technology Team

## Our Mission:

Walla Walla County Technology Services is committed to providing efficient, courteous responsive support to our end users, to utilizing visionary, innovative, yet appropriate, technology, and offering related training to facilitate information sharing between departments and the public.

## Our Vision:

Technology Services is dedicated to the service of the community, the county employees, and each other. By building a creative environment based on teamwork, honesty, integrity and mutual respect, we will be recognized as an exemplary department providing for the technological needs of those we serve.

## We Value:

### Our Community

We honor the history and diversity of our community and strive to maintain the fellowship and quality of life our citizens have come to enjoy.

### Our Team

Working in an atmosphere of integrity, honesty, and respect to promote a creative, knowledgeable, and professional team is of utmost importance to the members of Technology Services, because it enables us to enrich the qualities and abilities of each member while fulfilling our mission and vision.

### Our Users

We value our users as they link our service to the service of the community. We are determined to support them in their endeavor with sensitivity, patience and respect.

### Outstanding Service

Excellent, knowledgeable, professional service is reflected in the success of our customers and community.

### Technology

Technology is paramount to the success of our department in meeting the needs of the users and community that we serve. We use consistent standards and procedures, excellent training and documentation and are determined to provide effective technological solutions to meet the needs of both our users and the community.
