

Airport Access Procedures & Responsibilities

Airport Access Gate Card

Everyone requesting authorization to access the Yuba County Airport Operations Area (AOA) must meet at least one of the following criteria:

- Hold an airport lease, operating agreement or use permit;
- Be an employee, associate or an authorized airport business or tenant.

Gate Access Responsibilities

Everyone accessing the airport plays a vital role in keeping the airport safe and secure. NEVER loan your card to anyone. The card is issued solely for your use. Please report a lost or stolen card to the Airport Manager's Office immediately by calling (530) 749-7800.

- When entering the airport through any gate (vehicle or pedestrian) it is your responsibility to ensure the gate closes and no one gains access behind you.
- Allowing another driver to enter the airport through a vehicle gate behind you ("piggybacking") is considered a serious violation and may result in the loss of your airport access privileges.
- When exiting, more than one vehicle may exit provided that the last vehicle stops and waits for the gate to close completely.
- If you bring someone onto the airport you are responsible for them and their actions at all times.
- If an airport gate fails to close **it is your responsibility** to immediately report the issue to the Airport Manager (530) 682-1073.
- When operating a vehicle within the AOA the maximum speed limit is 15 miles per hour.
- Drivers shall always yield the right of way to aircraft.
- **Vehicle access to taxiways, runways or restricted areas is not permitted at any time.**
