

Subject:

CONDITIONAL USE PERMIT CUP2021-0006 (KST Outdoor RV/Boat Storage)

Dear Yuba County Development Review Committee:

Besides the additional traffic on our street, my **primary** concern is the drainage from rain. The notice indicated that there would be 175 marked spaces, and that sounds like they may be planning to pave the area. If so, that would mean that water has to go somewhere. We currently have an issue with flooding on our street and properties when there are heavy rains. Having already had our home flooded in the 1986 and 1997 floods, I am very, very adamant that the review addresses the drainage issue. Thank you.

Respectfully Submitted,

Arlen Shelton
