ACCOUNTABILITY ACT OF 2017 )**

**RESOLUTION NO. 2022-168**

**WHEREAS**, Senate Bill 1 (SB 1), the Road Repair and Accountability Act of 2017 (Chapter 5, Statutes of 2017) was passed by the Legislature and signed into law by the Governor in April 2017 in order to address the significant multi-modal transportation funding shortfalls statewide; and

**WHEREAS**, SB 1 includes accountability and transparency provisions that will ensure the residents of Yuba County are aware of the projects proposed for funding in our community and which projects have been completed each fiscal year; and

**WHEREAS**, Yuba County must adopt by resolution a list of all projects proposed to receive funding from the Road Maintenance and Rehabilitation Account (RMRA), created by SB 1, which must include a description and the location of each proposed project, a proposed schedule for the project's completion, and the estimated useful life of the improvement; and

**WHEREAS**, Yuba County will receive an estimated 3.16 million in RMRA funding in Fiscal Year 2022-2023 from SB 1; and

**WHEREAS**, SB 848 (Ch. 46, Stats. 2018) allows local agencies to expend other funds on eligible projects and to reimburse the source of those funds when it receives its future RMRA apportionments from the State Controller; and

**WHEREAS**, the \$9 million loan is being repaid over a 10-year period using future RMRA apportionments over the same 10-year period; and

**WHEREAS**, the funding from SB 1 enables Yuba County to continue essential road maintenance and rehabilitation projects, safety improvements, repairing and replacing aging bridges, and increasing access and mobility options for the travelling public that would not have otherwise been possible without SB 1; and

**WHEREAS**, the RMRA funding allows Yuba County to maintain and rehabilitate approximately 7.60 miles of roadways throughout the County this year and hundreds of similar projects into the future; and

**WHEREAS**, the SB 1 project list and overall investment in our local streets and roads infrastructure with a focus on basic maintenance and safety, investing in complete streets infrastructure, and using cutting-edge technology, materials and practices, will have significant positive benefits statewide.
