Integrated Electronic Security System

Proposal Closing Date:
Thursday August 3, 2018 at
5:00 p.m. PDT

The Yuba County Sheriff Department is requesting bids from Licensed Correctional Security Systems Installation Companies for the replacement of the existing Integrated Electronic Security System (IESS) at the Yuba County Jail located at 215 5th Street Marysville CA 95901. This request for proposal includes two alternate proposals for additional work as described below.

Final selection will be based on *best value* to the County. *Best value* is later described in Section V: Evaluation Criteria.

Please review the document in its entirety to ensure you are familiar with the County's requirements.

I. SCOPE OF WORK

The objective of this project is to replace the existing Yuba County Jail door security system with a new Integrated Electronic Security Control System (IESS) to be installed in the three current control room locations. The current security system is a Von Duprin 2400 Series Door Access System. The points and relays required to retrofit the control system are easily accessible in the plumbing chases and identifiable. The original records of installation with panel graphics are available. If contractors have an alternative method that would meet the County's needs, we ask that a detailed submission of that proposal be included in addition to what is required in this RFP and titled, "Contractor's Alternate".

Scope 1: Provide all materials and labor to replace current existing security control system with new Integrated Electronic Security Control System at all three current control room locations and control all existing components and devices. New IESS will include replacing existing components in Central Control, Control Room A, and Control Room B. Control Room A controls the bottom two jail levels (not operational at this time). Control Room B controls the upper two jail levels. Central Control Room controls most of the perimeter and the inmate entry points. Central Control Room also has a back-up panel that covers both of the other control centers geographic areas in the event of a system failure or facility emergency.

- Control Rooms A and B shall be configured so as to transfer controls to Central Control Room.
- New IESS shall control 139 latched or slider doors and 8 elevator doors (2 doors at each of four levels). There are an additional 11 doors monitored.
- New IESS shall monitor and control approximately 140 intercom stations.
- New IESS shall be capable of recording video from approximately 70 cameras 24/7 and store all video for no less than 13 months.
- New IESS shall operate lighting, elevator, and interlocking door controls that are currently being controlled by the existing system.
- New IESS shall be expandable to meet anticipated future demands.

Scope 2: Proposal to replace existing control station in Control Room A to reestablish its functionality and communication with Central Control.

- Control Room A is currently not operational
- Replace existing controls so as to restore communication and functionality with current system.
- Control Room A shall be configured so as to transfer controls to Central Control Room.

Scope 3: Alternate proposal to provide all materials and labor to “phase in” new IESS as described in Scope 1 above, one control room at a time beginning with Control Room A, then Central Control Room, then Control Room B.

- Provide specific scope and pricing for each individual control station installation.

Other Insurance Provisions

The insurance policies are to contain, or be endorsed to contain, the following provisions:

Additional Insured Status

COUNTY, its officers, officials, employees, and volunteers are to be covered as additional insureds on the auto policy with respect to liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of CONSULTANT; and on the CGL policy with respect to liability arising out of work or operations performed by or on behalf of CONSULTANT including materials, parts, or equipment furnished in connection with such work or operations. Notice of Cancellation

Each insurance policy required above shall state that **coverage shall not be canceled, except with notice to the COUNTY.**

Waiver of Subrogation

of subrogation, but this provision applies regardless of whether or not COUNTY has received a waiver of subrogation endorsement from the insurer.

Verification of Coverage

CONSULTANT shall furnish COUNTY with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause. All certificates and endorsements are to be received and approved by COUNTY before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive CONSULTANT's obligation to provide them.
