TRAFFIC CONTROL CONDITIONS OF ACCEPTANCE

The following Condition of Acceptance shall apply to the attached Traffic Control Plan:

1. ___ Acceptance by the County of Yuba is only of the conceptual design and does not relieve the Applicant / Contractor of any responsibility or liability.
2. ___ Pay all applicable fees, obtain and make available on site for review all applicable permits.
3. ___ **Within the County of Yuba there are several areas identified as environmentally sensitive, therefore it is the sole responsibility of the Developer / Builder to identify and obtain all necessary permits to proceed with any and all construction activities.**
4. ___ A copy of the accepted plans and these conditions shall be available for review on site during all work.
5. ___ The accepted Traffic Control Plan shall be subject to review by the County of Yuba at any time and may include additional requirements.
6. ___ Applicant / Contractor is required to maintain the construction project in compliance with the current County of Yuba Department of Public Works Improvement Standards (available on the County web site), as well as local, State, and Federal Public Safety Programs. Use of the current applicable Construction Best Management and Work Practices is required. All traffic control signs, devices, and equipment shall meet all the current applicable standards and shall be maintained for the duration of the work.
7. ___ Road Work / Construction Ahead, End Road / Construction, Detour, and / or other applicable signs shall be properly installed on 4x4 posts and shall remain in place for the duration. Signs shall be covered or removed when not applicable.
8. ___ All flaggers shall be properly trained in traffic control practices and a certification of this training must be provided for review when requested by the County of Yuba.
9. ___ **ALL TRENCH COVER PLATES SHALL HAVE A NON-SKID SURFACE**, and shall be secured from movement by pinning and the placement of asphaltic concrete to provide a minimum of a 4 to 1 taper along all exposed edges.
10. ___ **A Geotechnical Technician shall be present during all phases of the backfill operations**, to observe and test, all materials for complete compliance. All testing must be conducted during initial backfill. Compaction reports shall be provided to the County of Yuba prior to any pavement restoration.
 - a. **Jetting or Ponding is not allowed in any trenches or backfill material on the entire project site.**

Encroachment Permit No.

- 11. ___ All areas of pavement restoration shall be maintained daily, and have a smooth surface condition providing for safe traffic flow at the current posted speed limit.
- 12. ___ **Emergency Response Agencies shall be provided with safe access through the road closed zone at all times (minimum 10' clear).**
- 13. ___ Proper safety measures shall be implemented to provide the public with controlled safe passage for both pedestrian and vehicular traffic.
- 14. ___ Residents within the work zone shall have safe access at all times to their residence.
- 15. ___ The open through lane(s) shall remain at a minimum of 10 feet in width.
- 16. ___ Maximum of 15-minute traffic delay.
- 17. ___ The Applicant / Contractor shall schedule for Public Works Inspection, call **(530) 749-5656 a minimum of two (2) working days prior to the inspection, (excluding weekends and holidays)**, and prior to the implementation of the accepted Traffic Control Plan. (The location dates and times is to be posted on our web site for the public information and must be accurate.)
- 18. ___ Any and all damaged to any existing facilities or equipment shall be repaired or replaced as directed by the County of Yuba or agency having jurisdiction at no expense to the jurisdiction, including but not limited to survey monuments.
- 19. ___ This Traffic Control Plan and its conditions shall only be valid from _____ to _____, for the specific working hours, location, and construction activity, as indicated on the attached signed plans.
