TRAFFIC CONTROL PLAN **CHECK LIST**

All traffic control plans shall meet the current applicable provisions of Caltrans Traffic Operations and the Federal Highway Administration's Manual on Uniform Traffic Control Devices. Plans submitted for review and comment, shall contain the following information:

1. ___ Pay all applicable fees.
2. ___ Provide three copies of the proposed Traffic Control Plan.
3. ___ Indicate the proposed date of the work, and the beginning and ending times.
If this plan is for more than one day, indicate the total duration of the proposed work.
4. ___ Indicate a North arrow and all applicable street name or names on the plan.
5. ___ Indicate each of the applicable signs, using the current standard codes (W20-1, G20-2, etc.).
 - a. ___ Road Work Ahead, Road Construction Ahead, End Road Work, End Construction, and / or other applicable signs. The signs shall be properly installed on 4x4 posts and shall remain in place for the duration.
6. ___ Indicate the proposed location and spacing of each of the Advanced Warning signs, and how they relate to the existing posted speed, amount and type of daily traffic, and sight conditions for the roadway. Do not use general tables, or notes, which may cover many different applicable conditions.
7. ___ Indicate the on center spacing of the delineators for each of the taper and construction areas.
8. ___ Indicate the type and locations of barricades to be used.
9. ___ Indicate the location of each flagger. Flaggers should be equipped with two way communication devices. (Note: All Flaggers shall be properly trained in traffic control practices).
10. ___ Indicate the length of the taper to and from the work area.
11. ___ Indicate the length and width of the workspace. (The open through lane shall remain at a minimum of 10 feet in width.)
12. ___ Indicate the proposed date of work. If this plan is for more than one day, indicate the duration of the work, the beginning date and ending date.
 - a. ___ Requests for extensions to the duration period shall be in writing.
13. ___ Indicate the proposed working times for beginning and ending of work for each day.
14. ___ Note: ALL TRENCH COVER PLATES SHALL HAVE A NON-SKID SURFACE.
15. ___ All traffic control signs, devices, and equipment shall be maintained for the duration of the work.
16. ___ All applicable permits, and the Traffic Control Plan shall be available for review on site during all work.
17. ___ Traffic Control Plan shall be subject to review at any time by the County of Yuba.
18. ___ Notify the County of Yuba Public Works Department a minimum of two working days prior to implementation of the accepted Traffic Control Plan. (530-749-5420)

The accepted plans shall be valid only for the specific work, work area, time and duration. The contractor is required to maintain the construction project, in compliance with the County of Yuba Department of Public Works Improvement Standards (available on the County web site), and local, State, and Federal Public Safety Programs. Use of current applicable Construction Best Management and Work Practices shall be required.
