
VISION INSURANCE

The County offers one vision plan through **EyeMed**. The EyeMed plan is similar to a medical PPO in that participants have a choice between in-network and non-network providers with the most benefits afforded through the in-network providers. Exams and lenses are covered every 12 months with frames covered every 24 months, on a rolling calendar year basis. There is a \$25 co-pay for exam services, the cost of standard lenses is covered (or a \$105 allowance for contact lenses) and there is a \$100 allowance for frames. Participants will see additional out-of-pocket savings by utilizing the EyeMed network. Many retail locations such as Wal-Mart, Sam's Club, LensCrafters, Costco, and Sears Optical are considered in-network providers.

To locate a provider please visit **EyeMed**: <https://www.eyemed.com/en-us>
